Full Description

The Master of Arts degree in Human Development and Family Science provides students with advanced knowledge in the fields of family sciences and human development and the opportunity to develop multidisciplinary research and community outreach skills.

Coursework enables students to apply to become Certified Family Life Educators. Courses focus on current research and practice in human development and family science with an emphasis on family theories and processes; family life education; the reciprocal influences of family, school, work and community contexts; development across the lifespan; and the strengths and needs of diverse populations.

The program emphasizes both basic and applied research. Student participation in interdisciplinary research and community outreach projects is encouraged. Graduates are prepared for leadership and teaching positions in the social services, junior and community colleges and cooperative extension and/or for pursuing doctoral-level study.
