Program Delivery

- **Delivery:**
 - In person
- **Location:**
 - Kent Campus
 - Stark Campus

Note: International travel to Florence, Italy, is required.

The International Family Science minor is not accepting students at this time.

Admission Requirements

The International Family Science minor is not accepting students at this time.

Admission to a minor is open to students declared in a bachelor's degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.

To declare this minor, students must have attempted a minimum 12 credit hours at Kent State and earned a minimum 2.000 overall Kent State GPA. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

Minimum Total Credit Hours: 18

¹ Courses are offered in Florence, Italy, only. Students may substitute other courses offered in Florence, with approval

Graduation Requirements

Minimum Minor GPA	Minimum Overall GPA
2.500	2.500

- Minimum 6 credit hours in the minor must be upper-division coursework (30000 and 40000 level).
- Minimum 6 credit hours in the minor must be outside of the course requirements for any major or other minor the student is pursuing.
- Minimum 50 percent of the total credit hours for the minor must be taken at Kent State (in residence).

Program Learning Outcomes

Graduates of this program will be able to:

1. Describe the field of family science compared to other social sciences.
2. Discuss the influences on the modern family from historical and cultural contexts.
3. Identify and analyze family policies in the United States and international settings.
4. Design research-informed educational programming for families that is preventative in nature for domestic and international settings.

5. Compare and contrast social service organizations from domestic and international settings.
6. Articulate cultural and socioeconomic differences and the significance of these differences in human development.

Admission GPA for Undergraduate Students

For admissions, the College of Education and Human Services considers a student to have established a Kent State University GPA after the student has successfully completed a minimum of 12 Kent State University credit hours.

New Students and Transfer Students: Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for admission into an academic program, advanced study and the professional phase based on their high school GPA for new students or transfer GPA for transfer students. Once a student has successfully completed a minimum of 12 Kent State University credit hours, only the student's Kent State overall GPA will be considered for admission into a program, advanced study and professional phase. Transfer applicants who have completed fewer than 12 semester credit hours of college-level coursework will be evaluated on both collegiate and high school records.

Current Students: Students who have completed 12 or more credit hours of previous college-level coursework — either at Kent State University or at another accredited institution — need an overall GPA of 2.00 or higher to declare a College of Education and Human Services major, minor or certificate unless a higher minimum GPA is specified by the program.

The following degree programs require a minimum 2.750 overall GPA for current students who have an established GPA to declare a major:

- American Sign Language/English Interpreting
- Early Childhood Education
- Integrated Language Arts
- Integrated Mathematics
- Integrated Science
- Integrated Social Studies
- Middle Childhood Education
- Physical Education, Health and Sport Exploration (only Health and Physical Education concentration or Physical Education Licensure concentration)
- Special Education

Full Description

The International Family Science minor provides students the opportunity to learn about the field of family science as it currently exists in the United States. The knowledge gained from the foundational courses in the minor is then explored in an international setting in Florence, Italy.

In Italy, students have the opportunity to critically assess the differences in how family science is viewed and implemented internationally compared to the United States. During their time in Florence, students will gain deeper cultural competence through experiential learning activities designed to foster critical thinking, mastery of content and self-reflection.
