About This Program
Become a Leader in Nursing Research with Kent State’s Ph.D. Program. The Nursing Ph.D. program provides you with the opportunity to contribute to the field of nursing through research, scholarship and teaching. Read more...

Contact Information
• Student Services: Teresa Adams | tadams27@kent.edu | 330-672-8761
• Connect with an Admissions Counselor: U.S. Student | International Student

Program Delivery
• Delivery: In person
• Location: Kent Campus

Examples of Possible Careers and Salaries*
Nursing instructors and teachers, postsecondary
• 17.6% much faster than the average
• 72,900 number of jobs
• $75,470 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics’ Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements
• Active, unrestricted U.S. registered nurse license (international students need to show proof of legal ability to practice as a registered nurse in country of origin)
• Bachelor’s or master’s degree in nursing or related field, or a Doctor of Nursing Practice degree, from an accredited program
• Minimum overall 3.000 graduate GPA on a 4.000-point scale
• Official transcript(s)
• Résumé or curriculum vitae
• Essay (two pages, single-spaced) addressing the following questions:
  • Why do you want to pursue a Ph.D. in nursing?
  • What are your professional goals?
  • How have you been involved in research, publications and professional presentations?
  • How have you been involved in professional organizations?
  • What are your research interests?
  • Why are you interested in these research areas?
  • How could research—and specifically your research—in these areas advance science?
• Three letters of reference from health care professionals or academic faculty members who can speak to the applicant’s professional and academic abilities (two of the three references from doctorally-prepared individuals are preferred)
• Interview
• English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions) by earning one of the following:
  • Minimum 560 TOEFL PBT score
  • Minimum 83 TOEFL IBT score
  • Minimum 78 MELAB score
  • Minimum 6.5 IELTS score
  • Minimum 55 PTE score
  • Minimum 110 Duolingo English score

1 A bachelor’s degree in a closely related health field may be considered if the applicant has a master’s degree in nursing or a D.N.P. degree from an accredited program. A master’s degree in a closely related field may be considered if the applicant has a bachelor’s degree in nursing from an accredited program.

International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines
• Fall Semester
  • Priority deadline: March 1
• Spring Semester
  • Priority deadline: November 1
• Summer Term
  • Priority deadline: March 1

Applications submitted by these deadlines will receive the strongest consideration for admission.

NURS 70718  ROLES AND EVALUATION  3
NURS 70739  RESEARCH IN HEALTH DISPARITIES  3

Nursing Science Electives, choose from the following:
- NURS 70739
- NURS 70718
- NURS 70716

Minimum Total Credit Hours for Post-Baccalaureate Students  90
Minimum Total Credit Hours for Post-Master's Students  73

1. Each doctoral candidate, upon admission to candidacy, must register for NURS 80199 for a total of 30 credit hours. It is expected that a doctoral candidate will continuously register for Dissertation I, and thereafter NURS 80299, each semester, until all requirements for the degree have been met.
2. Elective courses support the student's research interest and are selected with the approval of the student's academic advisor. Two 3-credit hour doctoral-level courses will supplement the student's program of study in a substantive area of research or specific method of research, including advanced statistical approaches, or assist the student with career goals following graduation.

**Candidacy Examination**
At the conclusion of coursework, students sit for the candidacy examination. The examination provides the basis for evaluation of the student's readiness for completing the dissertation. Students must successfully pass candidacy and a proposal defense before beginning dissertation work.

**Progression Requirements**
- Students who do not earn a minimum B grade in a course must repeat it and cannot take other courses that require that course as a prerequisite until the course is successfully retaken. Students who do not earn a minimum B grade in the second attempt may be dismissed from the Ph.D. degree.

**Graduation Requirements**
- Minimum B grade required in all courses to earn the Ph.D. degree.
- Passage of the candidacy examination
- Submission and successful defense of a dissertation

Students with a D.N.P. degree may receive permission to have coursework waived if supported by the appropriate and recent coursework; however, maximum 12 credit hours may transfer to the Ph.D. The waiver of each course will be determined by the relevant academic department. These students may graduate with less than 72 credit hours but no fewer than 60 total credit hours.

**Roadmap**
This roadmap is a recommended semester-by-semester plan of study for this major. However, courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

### Program Learning Outcomes

Graduates of this program will be able to:

1. Generate new knowledge that contributes to the advancement of health, healthcare and nursing science.
2. Disseminate advances in scientific knowledge.
3. Use collaborative, interdisciplinary and innovative approaches to advance nursing science.
4. Assume leadership roles in healthcare and education as researchers, educators and advanced clinicians.
5. Serve as stewards of the diversity within the body of knowledge for the discipline of nursing.

### Full Description

The Ph.D. degree in Nursing prepares nurse scientists to develop methods to advance health, health care and the nursing profession. Graduates are expected to lead and promote interprofessional innovative scholarly endeavors and to assume leadership roles in the profession.
