

SPORT, EXERCISE AND PERFORMANCE PSYCHOLOGY - B.S.

College of Public Health and Health Sciences
www.kent.edu/phhs

About This Program

The B.S. in Sport, Exercise and Performance Psychology equips athletes, coaches and sport professionals with the mental strategies to enhance focus, motivation and resilience. Unlike traditional sport programs, this major focuses on the psychological aspects of peak performance. You will learn how confidence, anxiety and mindset impact success in sports, exercise and the performing arts. Graduates are prepared for careers in sport psychology, coaching and performance training or can pursue certification and advanced study in the field. Read more...

Accreditation

The B.S. degree in Sport, Exercise and Performance Psychology is accredited by the Council on Education for Public Health (CEPH).

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the

seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Former Students: Former Kent State students who have not attended another institution since Kent State and were not academically dismissed will complete the re-enrollment process through the Financial, Billing and Enrollment Center. Former students who attended another college or university since leaving Kent State must apply for admissions as a transfer or post-undergraduate student.

Transfer Students: Students who attended an educational institution after graduating from high school or earning their GED must apply as transfer students. For more information, visit the admissions website for transfer students.

Admission policies for undergraduate students may be found in the University Catalog's Academic Policies.

Students may be required to meet certain criteria to progress in their program. Any progression requirements will be listed on the program's Coursework tab

Program Learning Outcomes

Graduates of this program will be able to:

1. Explain the role of the individual and the environments in sport and exercise behavior.
2. Demonstrate understanding of the foundation of motivation in sport sciences, learning and personal life.
3. Define and illustrate the concepts, tools and application of mental skills and performance enhancement.
4. Design and evaluate an applied research study from inception to conclusions.
5. Define the standards for competence, domestic and global diversity and ethical principles (i.e., AASP and APA) and their role in sport psychology professional practice.

Full Description

The Bachelor of Science degree in Sport, Exercise and Performance Psychology provide students, athletes and those preparing for careers as coaches and sport practitioners with the knowledge of psychological theory and skills to enhance human behavior in the sport and exercise

settings and performing arts. The major differs from existing sport-related bachelor's degree programs due to its focus on psychological processes related to sport performance, as opposed to existing programs that focus on pedagogical, physiological or the business aspects of sport performance.

The Sport, Exercise and Performance Psychology major explores social-psychological concepts such as motivation, self-confidence, anxiety or burnout, and how these concepts interact with the sport environment to influence athletes (e.g., losing focus under pressure or having self-doubts during a game) and performance. The program prepares students with essential knowledge of psychological aspects of sport performance and ethical practice to work in wide-ranging sport-related fields or further their education in their chosen careers via graduate programs and mental performance certification by the Association of Applied Sport Psychology (AASP).
