

LGBTQ+ PUBLIC HEALTH - GRADUATE CERTIFICATE

College of Public Health
www.kent.edu/publichealth

About This Program

The LGBTQ+ Public Health graduate certificate provides the foundational topics and complex issues that contribute to public health and individual health inequities affecting sexual and gender minorities through community- and systems-level strategies that promote health and healthy behaviors. The certificate can be taken as a stand-alone program or within the Master of Public Health degree

Program Learning Outcomes

Graduates of this program will be able to:

1. Comprehend unique considerations, definitions, nomenclature and common language necessary to engage and competently interact with populations in the delivery of LGBTQ+ health interventions and program development.
2. Examine barriers to healthcare access, commonly observed multilevel health disparities and evidence-based approaches to advancing health among the LGBTQ+ community.
3. Identify gaps in contemporary strategies for improving state, county and city government health and welfare services for LGBTQ+ people.
