Students are required to have completed all professional dispositions plan (PDPs) at the time of application to be eligible for advanced study.

Teacher Candidate Acknowledgments and Legal Questions for Licensure

Candidates are required to electronically sign five statements acknowledging that they have read and understand the following areas: pre-service teacher permit / background check requirements, professional dispositions, licensure application information, legal questions asked on the licensure application, and teacher education handbook information. Statements can be found on the student portal.

Student Teaching

The application for student teaching is completed online through the College of Education, Health and Human Services' student portal. Students will be required to complete the application during specified windows posted on the Vacca Office of Student Services' (VOSS) website. Application windows will typically be accessible during the months of October and November in the fall semester and March and April in the spring semester. Failure to complete the application and submit the prerequisite training documents within the designated time frame may delay the student teaching placement. Depending on the program area, students will apply either 2 or 3 semesters prior to their anticipated student teaching semester. Students should meet with their academic advisor for details on which semester to apply.

Once the application is submitted, VOSS staff (or appropriate regional campus staff) will determine eligibility by reviewing coursework, GPA, disposition assessments, and other program area requirements. Specifically, staff will review the following:

- Coursework – aside from student teaching and inquiry seminar, all coursework in the program of study must be completed with the minimum grade required in each course (i.e., a 'C' or higher in a course where the program requirements prescribe a minimum grade of C).
- GPA – confirmation that the applicant has a 2.75 cumulative GPA or higher and meets the minimum major GPA required for their program as listed in the university catalog.
- Disposition Assessments – no outstanding Professional Disposition Plans (PDPs) are permitted. An applicant with an outstanding PDP must have it cleared before beginning student teaching.
- Program Area Requirements – applicant must have completed all program requirements for their major that are outlined and specified in the university catalog.

Students should meet with their faculty and/or academic advisor in VOSS for any clarifications. Written notification of eligibility will be emailed to each applicant.

Those eligible for student teaching are required to attend a mandatory meeting where additional information about student teaching is provided. Failure to attend this meeting may result in a delay of student teaching. Placement forms, distributed at this meeting, need to be completed by the deadline.

The Clinical Experience Office will make the final decision about the placement site for the Kent Campus. Placement decisions at the Regional Campuses are made by the designated placement officer at each campus. Candidates are not to contact schools or potential mentors directly to make their own arrangements. Placements are generally made within a 50 mile radius of Kent State University. Student teaching is a full-time commitment and candidates are expected to follow the schedule of the cooperating teacher.

Undergraduate Graduation Requirements

- Students declared in a teacher licensure major or minor must earn a minimum C grade in all major/minor and professional coursework.
- Students declared in the Education minor must earn minimum 2.500 content GPA.
- Students may apply a maximum 4 credit hours of Physical Activity, Wellness and Sport (PWS) courses toward their degree.
- Students may apply a maximum of 4 credit hours of variable-titled workshop (xxx93) toward an undergraduate degree. Identical workshop topics that are repeated for credit will not count towards graduation requirements. All workshops are graded S/U (satisfactory/unsatisfactory). Some program areas may be more restrictive. Students are advised to consult their program regarding application of workshop credit toward degree requirements.

To see graduation requirements for a specific program, please select a major from the undergraduate program listing.

Full Description

The Bachelor of Science in Education degree in Life Science/Chemistry prepares students for teacher licensure in life science and chemistry, grades 7-12. Students take a broad range of science-content courses in geology and physics and specialize in biology and chemistry content. Students complete most content coursework during their first three years; methods coursework typically begins during the spring of their third year. During the final year of the program, students complete remaining content courses, science teaching methods courses and a year-long placement in a local school district, which concludes with 13 weeks of student teaching in the spring. Life Science/Chemistry students

are encouraged to meet with their advisor early in their programs as many courses must be sequenced carefully.

Students are required to complete Bureau of Criminal Investigation and Identification (BCII) and Federal Bureau of Investigation (FBI) background checks.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Middle Childhood Education (4-9) Language Arts/Reading and Mathematics Initial Licensure Preparation - Non-Degree

College of Education Health and Human Services
School of Teaching, Learning and Curriculum Studies

Examples of Possible Careers and Salaries*

Education teachers, postsecondary

- 4.8% about as fast as the average
- 77,300 number of jobs
- $65,440 potential earnings

Middle school teachers, except special and career/technical education

- 3.6% about as fast as the average
- 627,100 number of jobs
- $60,810 potential earnings

Secondary school teachers, except special and career/technical education

- 3.8% about as fast as the average
- 1,050,800 number of jobs
- $62,870 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Bachelor's degree from an accredited college or university
- Minimum 2.750 overall GPA on a 4.000-point scale
- Official transcript(s)
- Goal statement
- Two letters of recommendation
- Questions in Anticipation of Licensure form
- Interview (to be conducted prior to full acceptance into the program)

Applicants already licensed as a teacher in Ohio, at any level, **cannot** apply to this program.

Applicants are assessed holistically, considering academic credentials, academic or professional references, nonacademic dimensions and dimensions; and other specific program criteria.

Application Deadlines

- **Fall Semester**
  - Priority deadline: June 15
- **Spring Semester**
  - Priority deadline: October 1
- **Summer Term**
  - Priority deadline: February 15

Applications submitted by this deadline will receive the strongest consideration for admission.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
3.000	3.000

- Additional Coursework: An analysis of additional content-area coursework required at the post-undergraduate level will be completed before entering into the program, and a Plan of Study will be created based on transcript analysis and current licensure requirements by the Ohio Department of Education. A minimum C grade is required in each of these courses. This coursework would be in addition to requirements for the Middle Childhood Education non-degree program.

Licensure Information

Candidates seeking Ohio teaching licensure are required to pass specific requirements in order to apply for licensure from the Ohio Department of Education. A qualifying score on the Ohio Assessments for Educators for the Assessment of Professional Knowledge (APK) and content tests is required for licensure. Students should consult their advisors for specific program requirements and refer to the Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type.

Students who do not apply for license within 12 months of program completion may be subject to additional course requirement, based on Ohio licensure standards in force at the time of application.

Program Learning Outcomes

Completers of this non-degree program will be able to:

1. Describe the Ohio Standards for the Teaching Profession.
2. Describe the Ohio Standards for Professional Development.
3. Describe the Ohio School Operating Standards.
4. Describe the Ohio Value Added Progress Dimension(s).
5. Demonstrate knowledge and skills consistent with the standards of the Association for Middle Level Education (AMLE).
6. Demonstrate knowledge and skills identified in the initial standards of the Council for the Accreditation of Educator Preparation (CAEP).

Residence Requirement Policy for Non-Degree Teacher Education Licensure/ Endorsement Preparation Programs

- Non-degree licensure (initial and additional) and endorsement programs that are a total of 15 credits or above: Students must complete 60% of the coursework at Kent State University, including the course that addresses the CAEP A.1.1 Standard as designated by the program area.
- Non-degree licensure (initial and additional) and endorsement programs that are less than 15 total credits: Students must complete 100% of the coursework at Kent State University.
- Students are permitted 6 years to complete licensure programs and 4 years to complete endorsement programs at Kent State University.
- Coursework transferred from another university cannot be more than 6 years old at the time the licensure/endorsement program is completed.
- Students who do not meet the residence requirements will not be recommended for licensure by Kent State University.

Full Description

This Middle Childhood Education (4-9) Language Arts/Reading and Mathematics Initial Licensure Preparation non-degree program prepares students to obtain the Ohio Middle Childhood 4-9 teacher license in language arts/reading and mathematics. Completion of the prescribed coursework is a prerequisite to being recommended by Kent State University for licensure, and licenses are granted by the Ohio Department of Education.

The program includes intensive pedagogy courses that prepare students to understand the unique social, physical, cognitive and emotional needs of the young adolescent; these courses are taken as a cohort. Student teaching occurs during the final semester of the program.

This program does not culminate in a master's degree. Students interested in a master's degree at Kent State must be fully admitted into and complete requirements for the master's program, in addition to courses that are prescribed here for licensure.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
3.000	3.000

- Additional Coursework: An analysis of additional content-area coursework required at the post-undergraduate level will be completed before entering into the program, and a Plan of Study will be created based on transcript analysis and current licensure requirements by the Ohio Department of Education. A minimum C grade is required in each of these courses. This coursework would be in addition to requirements for the Middle Childhood Education non-degree program.

Licensure Information

Candidates seeking Ohio teaching licensure are required to pass specific requirements in order to apply for licensure from the Ohio Department of Education. A qualifying score on the Ohio Assessments for Educators for the Assessment of Professional Knowledge and content tests is required for licensure. Students should consult their advisors for specific program requirements and refer to the Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type.

Students who do not apply for license within 12 months of program completion may be subject to additional course requirement, based on Ohio licensure standards in force at the time of application.

Program Learning Outcomes

Completers of this non-degree program will be able to:

1. Describe the Ohio Standards for the Teaching Profession.
2. Describe the Ohio Standards for Professional Development.
3. Describe the Ohio School Operating Standards.
4. Describe the Ohio Value Added Progress Dimension(s).
5. Demonstrate knowledge and skills consistent with the standards of the Association for Middle Level Education (AMLE).
6. Demonstrate knowledge and skills identified in the initial standards of the Council for the Accreditation of Educator Preparation (CAEP).

Residence Requirement Policy for Non-Degree Teacher Education Licensure/ Endorsement Preparation Programs

- Non-degree licensure (initial and additional) and endorsement programs that are a total of 15 credits or above: Students must complete 60% of the coursework at Kent State University, including the course that addresses the CAEP A.1.1 Standard as designated by the program area.
- Non-degree licensure (initial and additional) and endorsement programs that are less than 15 total credits: Students must complete 100% of the coursework at Kent State University.
- Students are permitted 6 years to complete licensure programs and 4 years to complete endorsement programs at Kent State University.
- Coursework transferred from another university cannot be more than 6 years old at the time the licensure/endorsement program is completed.
- Students who do not meet the residence requirements will not be recommended for licensure by Kent State University.

Full Description

This Middle Childhood Education (4-9) Mathematics and Social Studies Initial Licensure Preparation non-degree program prepares students to obtain the Ohio Middle Childhood 4-9 teacher license in mathematics and social studies. Completion of the prescribed coursework is a prerequisite to being recommended by Kent State University for licensure, and licenses are granted by the Ohio Department of Education.

The program includes intensive pedagogy courses that prepare students to understand the unique social, physical, cognitive and emotional needs of the young adolescent; these courses are taken as a cohort. Student teaching occurs during the final semester of the program.

This program does not culminate in a master's degree. Students interested in a master's degree at Kent State must be fully admitted into and complete requirements for the master's program, in addition to courses that are prescribed here for licensure.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Examples of Possible Careers and Salaries*

Education teachers, postsecondary

- 4.8% about as fast as the average
- 77,300 number of jobs
- $65,440 potential earnings

Middle school teachers, except special and career/ technical education

- 3.6% about as fast as the average
- 627,100 number of jobs
- $60,810 potential earnings

Secondary school teachers, except special and career/ technical education

- 3.8% about as fast as the average
- 1,050,800 number of jobs
- $62,870 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Bachelor's degree from an accredited college or university
- Official transcript(s)
- Minimum 2.750 overall GPA on a 4.000-point scale
- Goal statement
- Two letters of recommendation
- Questions in Anticipation of Licensure form
- An interview will be conducted prior to full acceptance into the program.

Applicants already licensed as a teacher in Ohio, at any level, **cannot** apply to this program.

Applicants will be assessed holistically, considering academic credentials, academic or professional references, nonacademic dimensions and other specific program criteria.

Application Deadlines

- **Fall Semester**
  - Priority deadline: June 15
- **Spring Semester**
  - Priority deadline: October 1
- **Summer Term**
  - Priority deadline: February 15

Applications submitted by this deadline will receive the strongest consideration for admission.

Accreditation

Council for the Accreditation of Educator Preparation | Association of Middle Level Education

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

Applications to the B.S.E. in Middle Childhood Education are not being accepted starting spring 2024 on the Geauga Campus.

Admission to this major is selective. Admission to the college does not guarantee admission to a major and/or admission to professional coursework for a selective admission program. To be admitted directly into a teacher education program, it is required that new freshmen have a 2.750 high school GPA.

Students who do not meet the GPA requirement at the time of admission for this major will be admitted to the EHHS General non-degree program until which time they have established a Kent State GPA of 2.750. They may then submit a change of program to declare this major.

Current Kent State and Transfer Students: Active Kent State students who wish to change their major must have attempted a minimum 12 credit hours at Kent State and meet all admission criteria listed above to be admitted. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Physical Science Electives, choose from the following: [1]		5
CHEM 10060 & CHEM 10062	GENERAL CHEMISTRY I (KBS) and GENERAL CHEMISTRY I LABORATORY (KBS) (KLAB)	
PHY 13001 & PHY 13021	GENERAL COLLEGE PHYSICS I (KBS) and GENERAL COLLEGE PHYSICS LABORATORY I (KBS) (KLAB)	
Earth Science Electives, choose from the following:		4
ESCI 11040 & ESCI 11041	HOW THE EARTH WORKS (KBS) and HOW THE EARTH WORKS LABORATORY (KBS) (KLAB)	
ESCI 11042 & ESCI 11043	EARTH AND LIFE THROUGH TIME (KBS) and EARTH AND LIFE THROUGH TIME LABORATORY (KBS) (KLAB)	
Science Elective, choose from the following:		3-4
BSCI 20021	BASIC MICROBIOLOGY	
BSCI 30275	LOCAL FLORA (ELR)	
BSCI 30560	INVERTEBRATE ZOOLOGY	
GEOG 31062	FUNDAMENTALS OF METEOROLOGY	
GEOG 41073	CONSERVATION OF NATURAL RESOURCES	
ESCI 21080	ALL ABOUT THE OCEANS (KBS)	
ESCI 41073	GEOLOGY OF OHIO	
PHY 21040	PHYSICS IN ENTERTAINMENT AND THE ARTS (KBS)	
PHY 21430	FRONTIERS IN ASTRONOMY (KBS)	
Additional Requirements (courses do not count in major GPA)		
AFS 23001	BLACK EXPERIENCE I: BEGINNINGS TO 1865 (DIVG) (KHUM)	3
or HIST 11050	WORLD HISTORY: ANCIENT AND MEDIEVAL (DIVG) (KHUM)	
or HIST 12070	EARLY AMERICA: FROM PRE-COLONIZATION TO CIVIL WAR AND RECONSTRUCTION (DIVD) (KHUM)	
BSCI 10120	BIOLOGICAL FOUNDATIONS (ELR) (KBS) (KLAB) (min C grade for either course)	4
or BSCI 10110	BIOLOGICAL DIVERSITY (ELR) (KBS) (KLAB)	
CHEM 10030	CHEMISTRY IN OUR WORLD (KBS) (min C grade)	3
Minimum Total Credit Hours:		**46**

[1] Additional mathematics course(s) may be required depending on mathematics placement. Please see your advisor.

CHEM 10030	CHEMISTRY IN OUR WORLD (KBS)	3
Minimum Total Credit Hours:		**49**

[1] Additional mathematics course(s) may be required depending on mathematics placement. Please see your advisor.

Progression Requirements

Students must meet all professional requirements for admission to advanced study. To be admitted, students must display evidence of the following:

- Adequate communication skills
- Sound content area knowledge (language arts, mathematics, science or social studies)
- Basic understanding of the teaching profession
- Basic understanding of young adolescents
- Dispositions aligned with the conceptual framework of the College of Education, Health and Human Services, including being open-minded, flexible, caring and responsible.

Faculty will select the most qualified applicants based on an interview, letters of recommendation, and GPA[1]. Applicants to the Middle Childhood Education major should have experience working with young adolescence in a supervisory capacity, such as tutoring, camp counseling, volunteer work or related experience. Students should contact the College of Education, Health and Human Services' Vacca Office of Student Services, 304 White Hall, at the Kent campus, or the Geauga Student Services Office at 440-834-4187 at the Geauga campus, or the Office of Student Services, 132 Main Hall, 330-244-3251 at the Stark campus, during the first year of study to inquire about the procedures and criteria associated with advanced study

[1] Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for advanced study and professional phase based on their high school GPA for new freshmen or transfer GPA for transfer students.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	2.750

Licensure Information

Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. See Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type. Taking and passing the licensure tests prior to graduation is encouraged but not required.

Students must apply for State of Ohio Licensure (defined by completion of all licensure program requirements) within 12 months of program completion. After 12 months, applicants must meet state-approved program/licensure requirements that are in effect at the time of application. This means that students who apply after the 12-month deadline may have to take additional coursework if the content, methods courses, program requirements or licensure requirements have changed from the catalog in force.

Roadmaps

Language Arts and Mathematics Concentration

This roadmap is a recommended semester-by-semester plan of study for this program. Students will work with their advisor to develop a sequence based on their academic goals and history. Courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

	Semester One		Credits
	AFS 23001 or HIST 11050 or HIST 12070	BLACK EXPERIENCE I: BEGINNINGS TO 1865 (DIVG) (KHUM) or WORLD HISTORY: ANCIENT AND MEDIEVAL (DIVG) (KHUM) or EARLY AMERICA: FROM PRE-COLONIZATION TO CIVIL WAR AND RECONSTRUCTION (DIVD) (KHUM)	3
	GEOG 17063	WORLD GEOGRAPHY (DIVG) (KSS)	3
!	MATH 14001	BASIC MATHEMATICAL CONCEPTS I (KMCR)	4
	UC 10001	FLASHES 101	1
	Kent Core Requirement		3
	Kent Core Requirement		3
		Credit Hours	**17**
	Semester Two		
	BSCI 10001	HUMAN BIOLOGY (KBS)	3
	COMM 15000	INTRODUCTION TO HUMAN COMMUNICATION (KADL)	3
!	CULT 29535	EDUCATION IN A DEMOCRATIC SOCIETY	3
	MATH 11010	ALGEBRA FOR CALCULUS (KMCR)	3
	MATH 14002	BASIC MATHEMATICAL CONCEPTS II (KMCR)	4
		Credit Hours	**16**
	Semester Three		
	Requirement: minimum 2.750 overall GPA by the end of term		
	ENG 31001 or ENG 31003	FUNDAMENTAL ENGLISH GRAMMAR or LINGUISTICS	3
	MATH 11022	TRIGONOMETRY (KMCR)	3
	MCED 20000	LEARNING AND EXPERIENCE IN MIDDLE CHILDHOOD EDUCATION	3

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies

Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7
Kent Core Additional (KADL)	6
Total Credit Hours:	**36-37**

Program Learning Outcomes

Graduates of the program will be able to:

1. Demonstrate the knowledge, skills and disposition needed to work collaboratively with diverse others.
2. Demonstrate content knowledge in two licensure specialization areas.
3. Demonstrate in-depth instructional and planning skills to effectively meet the needs of all their students.

Admission GPA for Undergraduate Students

For admissions, the College of Education, Health and Human Services considers a student to have established a Kent State University GPA after the student has successfully completed a minimum of 12 Kent State University credit hours. Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for admission into programs, Advanced Study, and the Professional phase based on their high school GPA for new freshmen, or transfer GPA for transfer students. Once a student has successfully completed a minimum of 12 Kent State University credit hours, only the student's Kent State cumulative GPA will be considered for admission into a program, Advanced Study, and Professional Phase.

Students who have completed 12 or more credit hours of previous college-level coursework, either at Kent State University or at another accredited institution, need an overal GPA of 2.00 or higher to declare a College of Education, Health and Human Services majors, minors or certificates unless a higher minimum GPA is specified by the program. See specific programs in this catalog for more information on required minimum GPA to declare. Non-degree EHHS General can be declared without a minimum 2.00 overall GPA.

Transfer applicants who have completed fewer than 12 semester hours of college-level coursework will be evaluated on both collegiate and high school records.

Background Checks for Teacher Licensure Candidates

For field experience, student teaching and any culminating internship in teacher education that requires candidates to be placed within a school or agency ("school/agency") setting, the college requires candidates to complete Bureau of Criminal Investigation and Identification (BCII) and Federal Bureau of Investigation (FBI) background checks and submit the results to authorized personnel at their assigned school/agency before the beginning of the field experience or the first day of the semester in which the student teaching/internship will take place. Authorized school/agency personnel will determine whether a candidate may participate in fieldwork in that setting. The BCII and FBI background checks are good for one year and are mandatory for licensure application. Electronic fingerprinting is available for BCII and FBI in 221 White Hall and should be completed at least two months prior to field experience/student teaching/culminating internship. Regional campus students should contact their Regional Campus coordinator to identify fingerprinting availability at each campus. Candidates are responsible for fees incurred for this requirement. For more information on this policy, contact the Director of Clinical Field Experience in 304 White Hall. Visit the Ohio Department of Education (ODE) website at www.ode.state.oh.us for more information about background check requirements for educators in Ohio. Contact the Office of Professional Conduct at the ODE for specific information about the results of the background check.

Education Licensure Application

Students in the teacher education programs must apply for State of Ohio Licensure within 12 months of program completion (defined by completion of all licensure program requirements) . After 12 months, applicants must meet State approved program/licensure requirements that are in effect at the time of application. This means that students who apply after the 12 month deadline may have to take additional coursework if the content, methods courses, program requirements, or licensure requirements have changed from the catalog in force.

If a student does not apply for their license within 6 years, they are subject to any additional state licensure requirements and are also subject to additional coursework based on changes in areas such as content, age of coursework and changes in program requirements. A minimum of 9 credit hours will be required to apply for licensure after 6 years of program completion.

Professional Dispositions for Teacher Candidates

Professional dispositions are the professional attitudes, values, and beliefs demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues, faculty, and communities. The teacher education faculty believe that the following dispositions support student learning and development. Therefore teacher candidates are expected to demonstrate:

- Communication and Collaboration
- Fairness and Equity

- Ethical Behavior
- Professional Responsibility

These dispositions are assessed at least three times in a candidate's program:

- Education in a Democratic Society course,
- a methods course with a field component, and
- student teaching.

In addition, a disposition assessment may be completed by a faculty member at any time a situation calls for it. A disposition is considered 'acceptable' if a candidate does not have an outstanding Professional Disposition Plan (PDPs) that requires improved performance in specified areas. A candidate may not progress through the teacher education program if they have any PDPs submitted and unresolved at the following three points:

- Applying for advanced study: If a student has an outstanding PDP at the time of application, a student will not be able to apply for advanced study until the PDP is rectified.
- Prior to the student teaching semester: All outstanding PDPs must be completed and cleared prior to the start of student teaching.
- End of student teaching semester: A student with an outstanding PDP during the student teaching semester will not successfully pass student teaching.

Professional Education Warning

Professional Education Warning for students in teacher licensure programs and the Community Health Education major must have a minimum 2.75 GPA to progress in their programs and ultimately graduate. Unless other factors are present, students who do not meet the prescribed conditions are required to transfer out of their declared major. An appeal of this decision is directed to the associate dean of undergraduate student services, College of Education, Health and Human Services, 304 White Hall.

Repeating Field Experience Courses in Teacher Education Programs

Teacher candidates are permitted to repeat a field experience course once (see major requirements for specific courses). If a teacher candidate is unsuccessful in completing OR fails to earn the required grade in a field experience course the first time, the teacher candidate will receive a warning and will be required to work with a faculty advisor in their academic unit to develop a plan for continuation. The required grade is a C or better in a course that awards a letter grade, or Satisfactory (S) in a course that awards an S/U grade. The plan will include all actions necessary to continue in current program, the opportunity to declare a different program, a timeline of when actions should occur, and next steps if actions are not followed. If the teacher candidate does not earn the required grade in the field experience course the second time, a hold will be placed on their account, preventing them from registering for classes until they change their major out of the education program.

Requirements for Admission to Advanced Study

Admission to advanced study is required of all teacher education initial licensure majors and minors prior to enrolling in courses designated as advanced study courses. Upon completion of coursework as determined by program area, students must apply during the term which all prerequisites for advanced study will be completed, and at least one semester prior to beginning any coursework for which "Admission to Advanced Study" is a prerequisite.

Application Dates

Fall Semester:

- Application window: August 1 to September 1
- Term to begin advanced study courses: Spring semester

Spring Semester:

- Application window: January 1 to February 1
- Term to begin advanced study courses: Summer term and/or fall semester

Summer Term:

- Application window: May 1 to June 1
- Term to begin advanced study courses: Fall semester

All students apply for Advanced Study through the College of Education, Health and Human Services Student Portal which can be accessed through the Vacca Office of Student Services web page.

Please note: Admission to advanced study is required for students pursuing an undergraduate major that leads to initial teacher licensure, with the exception of students in the Career Tech Teacher Education certificate who obtain initial licensure through the Alternative Resident Educator Licensure Program (teachers recruited from business and industry).

Requirements for Admission to Advanced Study

To deliver high-quality programs, faculty will select the most qualified applicants for admission based upon evaluation of academic success (overall GPA) at Kent State University, non-academic criteria and other specific program criteria.

Students may be required to reapply if they postpone advanced study coursework or withdraw from their courses for one year or more.

College Writing

- Students are required to attain minimum C grade in each writing course (ENG 11011 and ENG 21011 or equivalent) (Integrated Language Arts majors must attain minimum B grade).

Mathematics

- The following courses must be completed with minimum C grade for the majors Early Childhood Education, Middle Childhood Education and Special Education:
  - MATH 14001 (or equivalent)
  - MATH 14002
- The following courses must be completed with a minimum C grade for Integrated Mathematics majors:
  - MATH 12002
  - MATH 12003
  - In addition, a minimum 2.600 overall GPA in math content coursework is required.

Pre-Advanced Study Coursework

- To be eligible for advanced study, students must earn a minimum C grade in CULT 29535 and minimum C grade in **one** of the following

courses (i.e., both courses must be completed with a minimum C grade for graduation):
  - EPSY 29525 (note: Middle Childhood Education majors must earn a minimum C grade in this course to be eligible for Advanced Study)
  - SPED 23000
- Early Childhood Education majors must earn a minimum C grade in ECED 10120 to be eligible for advanced study.
- Middle Childhood Education majors must earn a minimum C grade in MCED 20000 to be eligible for advanced study.
- Middle Childhood Education majors must complete at least 50 percent of content area coursework from each concentration (minimum C grade) to be eligible for advanced study. Students should meet with their advisor.
- Adolescence/Young Adult Programs: majors must earn a minimum C grade in ADED 20000 to be eligible for Advanced Study.

Grade Point Average

All students must have a minimum 2.750 overall GPA, with additional conditions for the following majors:

- Adolescence/Young Adult Programs: A minimum 2.600 GPA in the chosen adolescence/young adult content area is required for admission to advanced study, student teaching and graduation. A minimum C grade is required in each course within the content area. The following majors are affected: Earth Science, Integrated Language Arts, Integrated Mathematics, Integrated Science, Integrated Social Studies, Life Science, Life Science/Chemistry and Physical Science.
- For minimum GPA criteria for Art Education and Music Education, please see Requirements for Admission to Advanced Study for Art Education and Music Education in the College Policies section for the College of the Arts in the University Catalog.
- Education Minor: Students in a program eligible to declare the Education minor must achieve a minimum 2.500 overall and a content GPA to declare the Education minor, be admitted to advanced study, participate in student teaching and be recommended for licensure.

All GPA requirements must be met at the time of application.

Disposition Assessment/Professional Disposition Plans (PDPs)

Students are required to have completed all professional dispositions plan (PDPs) at the time of application to be eligible for advanced study.

Teacher Candidate Acknowledgments and Legal Questions for Licensure

Candidates are required to electronically sign five statements acknowledging that they have read and understand the following areas: pre-service teacher permit / background check requirements, professional dispositions, licensure application information, legal questions asked on the licensure application, and teacher education handbook information. Statements can be found on the student portal.

Student Teaching

The application for student teaching is completed online through the College of Education, Health and Human Services' student portal. Students will be required to complete the application during specified windows posted on the Vacca Office of Student Services' (VOSS) website. Application windows will typically be accessible during the months of October and November in the fall semester and March and April in the spring semester. Failure to complete the application and submit the prerequisite training documents within the designated time frame may delay the student teaching placement. Depending on the program area, students will apply either 2 or 3 semesters prior to their anticipated student teaching semester. Students should meet with their academic advisor for details on which semester to apply.

Once the application is submitted, VOSS staff (or appropriate regional campus staff) will determine eligibility by reviewing coursework, GPA, disposition assessments, and other program area requirements. Specifically, staff will review the following:

- Coursework – aside from student teaching and inquiry seminar, all coursework in the program of study must be completed with the minimum grade required in each course (i.e., a 'C' or higher in a course where the program requirements prescribe a minimum grade of C).
- GPA – confirmation that the applicant has a 2.75 cumulative GPA or higher and meets the minimum major GPA required for their program as listed in the university catalog.
- Disposition Assessments – no outstanding Professional Disposition Plans (PDPs) are permitted. An applicant with an outstanding PDP must have it cleared before beginning student teaching.
- Program Area Requirements – applicant must have completed all program requirements for their major that are outlined and specified in the university catalog.

Students should meet with their faculty and/or academic advisor in VOSS for any clarifications. Written notification of eligibility will be emailed to each applicant.

Those eligible for student teaching are required to attend a mandatory meeting where additional information about student teaching is provided. Failure to attend this meeting may result in a delay of student teaching. Placement forms, distributed at this meeting, need to be completed by the deadline.

The Clinical Experience Office will make the final decision about the placement site for the Kent Campus. Placement decisions at the Regional Campuses are made by the designated placement officer at each campus. Candidates are not to contact schools or potential mentors directly to make their own arrangements. Placements are generally made within a 50 mile radius of Kent State University. Student teaching is a full-time commitment and candidates are expected to follow the schedule of the cooperating teacher.

Undergraduate Graduation Requirements

- Students declared in a teacher licensure major or minor must earn a minimum C grade in all major/minor and professional coursework.
- Students declared in the Education minor must earn minimum 2.500 content GPA.
- Students may apply a maximum 4 credit hours of Physical Activity, Wellness and Sport (PWS) courses toward their degree.
- Students may apply a maximum of 4 credit hours of variable-titled workshop (xxx93) toward an undergraduate degree. Identical workshop topics that are repeated for credit will not count towards graduation requirements. All workshops are graded S/U (satisfactory/unsatisfactory). Some program areas may be more restrictive. Students are advised to consult their program regarding application of workshop credit toward degree requirements.

To see graduation requirements for a specific program, please select a major from the undergraduate program listing.

Full Description

The Bachelor of Science in Education degree in Middle Childhood Education prepares students for teacher licensure in selected subject areas, plus reading, for grades four to nine. In addition to content coursework and a substantial amount of field experiences, the Middle Childhood Education major includes intensive pedagogy courses that prepare students to understand the unique social, physical, cognitive and emotional needs of the young adolescent; these courses are taken as a cohort. Student teaching occurs during the final semester of the program.

Students choose two concentrations from the following:

- The **Language Arts** concentration includes courses in communication, grammar, literature, reading and writing.
- The **Mathematics** concentration includes courses in algebra, trigonometry, calculus, geometry and statistics.
- The **Science** concentration includes diverse courses in chemistry, biology, geology and physics.
- The **Social Studies** concentration includes diverse courses in economics, history, political science and geography.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Middle Childhood Education-Language Arts and Reading (4-9) Additional Licensure Preparation - Non-Degree

Examples of Possible Careers and Salaries*

Education teachers, postsecondary

- 4.8% about as fast as the average
- 77,300 number of jobs
- $65,440 potential earnings

Middle school teachers, except special and career/technical education

- 3.6% about as fast as the average
- 627,100 number of jobs
- $60,810 potential earnings

Secondary school teachers, except special and career/technical education

- 3.8% about as fast as the average
- 1,050,800 number of jobs
- $62,870 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Bachelor's degree from an accredited college or university
- Minimum 2.750 overall undergraduate GPA on a 4.000-point scale
- Official transcript(s)
- Goal statement
- Two letters of recommendation
- Questions in Anticipation of Licensure Form
- Evidence of valid Resident Educator or Professional State of Ohio teaching license
- Interview (to be conducted prior to full acceptance into the program)

Applicants are assessed holistically, considering academic credentials, academic or professional references, non-academic dimensions and other specific program criteria.

Application Deadlines

- **Fall Semester**
  - Rolling admissions
- **Spring Semester**
  - Rolling admissions

- **Summer Term**
  - Rolling admissions

or HDF 64027	EARLY ADOLESCENCE	
MCED 50005	EFFECTIVE USE OF PHONICS IN READING	3
MCED 50007	TEACHING READING WITH LITERATURE IN MIDDLE CHILDHOOD	3
Minimum Total Credit Hours:		**22**

[1] Requirement to be determined by faculty advisor after review of previous teaching experience. Teacher candidates are only permitted to repeat a field experience course once. Please see Repeating Field Experience Courses in Teacher Education Programs policy for details.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
3.000	3.000

- Additional Coursework: An analysis of additional content-area coursework required at the post-undergraduate level will be completed before entering into the program, and a Plan of Study will be created based on transcript analysis and current licensure requirements by the Ohio Department of Education. A minimum C grade is required in each of these courses. This coursework would be in addition to requirements for the Middle Childhood Education non-degree program.

Licensure Information

Prior to program completion, the candidate must demonstrate proficiencies in the following areas (including but not limited to): data literacy and analysis; use of research and assessment data; leadership and collaboration; utilizing and supporting appropriate technology for the discipline; and application of professional dispositions, laws and policies, codes of ethics and professional standards appropriate to their field of specialization.

Candidates seeking Ohio licensure are required to pass the OAE Content Knowledge Assessment for each teaching field in order to apply for licensure. Students should consult their advisors for specific program requirements and refer to the Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type.

Students who do not apply for license within 12 months of program completion may be subject to additional course requirements, based on Ohio licensure standards in force at the time of application.

Program Learning Outcomes

Completers of this program will be able to:

1. Describe the Ohio Standards for the Teaching Profession.
2. Describe the Ohio Standards for Professional Development.
3. Describe the Ohio School Operating Standards.
4. Describe the Ohio Value Added Progress Dimension(s).
5. Demonstrate knowledge and skills consistent with the standards of the Association for Middle Level Education (AMLE).
6. Demonstrate knowledge and skills identified in Advanced Standard A.1.1. of the Council for the Accreditation of Educator Preparation (CAEP).

Residence Requirement Policy for Non-Degree Teacher Education Licensure/ Endorsement Preparation Programs

- Non-degree licensure (initial and additional) and endorsement programs that are a total of 15 credits or above: Students must complete 60% of the coursework at Kent State University, including the course that addresses the CAEP A.1.1 Standard as designated by the program area.
- Non-degree licensure (initial and additional) and endorsement programs that are less than 15 total credits: Students must complete 100% of the coursework at Kent State University.
- Students are permitted 6 years to complete licensure programs and 4 years to complete endorsement programs at Kent State University.
- Coursework transferred from another university cannot be more than 6 years old at the time the licensure/endorsement program is completed.
- Students who do not meet the residence requirements will not be recommended for licensure by Kent State University.

Full Description

The Middle Childhood Education–Language Arts and Reading Grades (4-9) Additional Licensure Preparation non-degree program provides coursework and field-based experiences for students who plan to apply for additional teacher licensure from the Ohio Department of Education. This non-degree program cannot be used for students seeking initial licensure.

This program does not culminate in a master's degree. Students interested in a master's degree at Kent State must be fully admitted into and complete requirements for the master's program, in addition to courses that are prescribed here for additional licensure.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for

state licensing boards at Kent State's website for professional licensure disclosure.

The Middle Childhood Generalist Social Studies (4-6) Endorsement Preparation non-degree endorsement program prepares educators to teach grades 4-6 in the concentration areas that are listed on the license. Completion of the coursework is a prerequisite to being recommended by Kent State University for endorsement, which is granted by the Ohio Department of Education.

This endorsement can be added to a Middle Childhood license for graduates of Kent State's middle childhood initial licensure education program after 2004.

Examples of Possible Careers and Salaries*

Education teachers, postsecondary

- 4.8% about as fast as the average
- 77,300 number of jobs
- $65,440 potential earnings

Middle school teachers, except special and career/technical education

- 3.6% about as fast as the average
- 627,100 number of jobs
- $60,810 potential earnings

Secondary school teachers, except special and career/technical education

- 3.8% about as fast as the average
- 1,050,800 number of jobs
- $62,870 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

- Bachelor of Science in Education degree Middle Childhood Education earned at Kent State University after 2004 or current students enrolled in the degree program
- Minimum 2.750 overall undergraduate GPA on a 4.000-point scale
- Official transcript(s)
- Evidence of a valid Resident Educator or Professional Middle Childhood State of Ohio teaching license

Program Requirements

Code	Title	Credit Hours
Endorsement Requirements (min C/S grade required in all courses)		
GEOG 17063	WORLD GEOGRAPHY (DIVG) (KSS)	3
GEOG 37010	GEOGRAPHY OF OHIO	3

[1] Teacher candidates are only permitted to repeat a field experience course once. Please see Repeating Field Experience Courses in Teacher Education Programs policy for details.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
3.000	3.000

Licensure Information

Prior to program completion, the candidate must demonstrate proficiencies in the following areas (including but not limited to): data literacy and analysis; use of research and assessment data; leadership and collaboration; utilizing and supporting appropriate technology for the discipline; and application of professional dispositions, laws and policies, codes of ethics and professional standards appropriate to their field of specialization.

Candidates seeking Ohio teaching licensure are required to pass specific requirements in order to apply for licensure from the Ohio Department of Education (ODE). Students should consult the Middle Childhood Education department for specific program requirements and refer to the Ohio Department of Education - Educator Preparation website for more information on assessments specific to licensure type.

Program Learning Outcomes

Completers of this program will be able to:

1. Successfully pass the Ohio Assessment Exam.
2. Demonstrate understanding of the content and pedagogy of required social studies courses.
3. Successfully plan and teach two social studies lessons using the College, Career and Civil Life (C3) framework.
4. Successfully plan and teach a unit plan in social studies.

Repeating Field Experience Courses in Teacher Education Programs

Teacher candidates are permitted to repeat a field experience course once (see major requirements for specific courses). If a teacher candidate is unsuccessful in completing OR fails to earn the required grade in a field experience course the first time, the teacher candidate will receive a warning and will be required to work with a faculty advisor in their academic unit to develop a plan for continuation. The required grade is a C or better in a course that awards a letter grade, or Satisfactory (S) in a course that awards an S/U grade. The plan will include all actions necessary to continue in current program, the opportunity to declare a different program, a timeline of when actions should occur, and next steps if actions are not followed. If the teacher candidate does not earn the required grade in the field experience course the second time, a hold will be placed on their account, preventing them from registering for classes until they change their major out of the education program.

Residence Requirement Policy for Non-Degree Teacher Education Licensure/Endorsement Preparation Programs

- Non-degree licensure (initial and additional) and endorsement programs that are a total of 15 credits or above: Students must complete 60% of the coursework at Kent State University, including the course that addresses the CAEP A.1.1 Standard as designated by the program area.
- Non-degree licensure (initial and additional) and endorsement programs that are less than 15 total credits: Students must complete 100% of the coursework at Kent State University.
- Students are permitted 6 years to complete licensure programs and 4 years to complete endorsement programs at Kent State University.

- Coursework transferred from another university cannot be more than 6 years old at the time the licensure/endorsement program is completed.
- Students who do not meet the residence requirements will not be recommended for licensure by Kent State University.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Online and Blended Learning - Graduate Certificate

College of Education Health and Human Services
School of Teaching, Learning and Curriculum Studies
www.kent.edu/ehhs/tlcs

About This Program

The Online and Blended Learning graduate certificate provides the skills people need to teach effectively online, whether they are teaching an entire course online or integrating web-based activities into a traditionally taught class. Students examine recommendations from research, design their own online modules and develop effective strategies for delivering instruction online.

Graduate Certificate Policy for the College of Education, Health and Human Services

- Students seeking a graduate certificate must maintain a minimum 3.000 grade point average. A graduate certificate student who receives a combination of more than 8 credit hours of B- or lower grades, or more than 4 credit hours of grades lower than C is subject to dismissal. Students who are unable to maintain academic standards of the College are subject to dismissal for academic reasons. Grades of C- or below are not counted toward completion of the certificate.
- Certificates must be completed within six years after the first graduate enrollment.
- No more than 2 credit hours of workshop may be used toward a certificate.
- Before being eligible to be awarded a Certificate, students must be admitted to the Certificate program.
- Students currently in a graduate degree program may also apply to a certificate program. Their degree seeking coursework may be applied to the certificate coursework with advisor approval. The courses must be completed within six years and satisfy certificate course requirements.
- Students who have a previous graduate degree and are not currently seeking another graduate degree may transfer a maximum 6 credit hours with advisor approval. These credits may include hours from another KSU program, or from another accredited institution, if the following conditions are met: (1) courses were at the graduate level; (2) a grade of "A" or "B" was earned; (3) credit will be less than six years old at the time the certificate is conferred at Kent; and (4) student was admitted as a graduate student at the time the course was taken.
- Some program areas may be more restrictive. Students are advised to consult their program.

Physical Education and Sport Performance - B.S.

Accreditation

Council for the Accreditation of Educator Preparation

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

Admission to this major is selective. Admission to the college does not guarantee admission to a major and/or admission to professional coursework for a selective admission program. To be admitted directly into a teacher education program, it is required that new freshmen have a 2.750 high school GPA. Students who do not meet the GPA requirement at the time of admission for this major will be admitted to the EHHS General non-degree program until which time they have established a Kent State GPA of 2.750. They may then submit a change of program to declare this major.

Students seeking admission into the Health and Physical Education concentration or the Physical Education Teacher Licensure concentration of this program must meet all professional requirements for admission to advanced study and have a minimum overall 2.750 GPA in all previous undergraduate coursework. Students should contact the Vacca Office of Student Services, 304 White Hall, during the first year of study to inquire into the procedures associated with admission to advanced study. Students transferring from another university should meet with an academic advisor in the College of Education, Health and Human Services at least one semester prior to transferring.

Current Kent State and Transfer Students: Active Kent State students who wish to change their major must have attempted a minimum 12 credit hours at Kent State and meet all admission criteria listed above to be admitted. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

PESP 15015	DEVELOPMENT AND ANALYSIS OF NET GAMES (min C grade)	3
PESP 15016	DEVELOPMENT AND ANALYSIS OF TARGET AND FIELD GAMES (min C grade)	3
PESP 15020	FUNDAMENTAL MOVEMENT, GYMNASTICS AND DANCE (min C grade)	3
PESP 25025	TEACHING IN PHYSICAL EDUCATION (min C grade) [1]	3
PESP 25026	OVERVIEW OF OUTDOOR PURSUITS AND ADVENTURE EDUCATION (min C grade)	3
PESP 45037	ADAPTED PHYSICAL EDUCATION (min C grade) [1]	3
PESP 45051	ELEMENTARY SCHOOL PHYSICAL EDUCATION METHODS (min C grade) [1]	3
PESP 45053	ELEMENTARY SCHOOL PHYSICAL EDUCATION CONTENT (min C grade) [1]	3
PESP 45058	SECONDARY SCHOOL PHYSICAL EDUCATION METHODS (min C grade) [1]	3
PESP 45059	SECONDARY SCHOOL PHYSICAL EDUCATION CONTENT (min C grade) [1]	3
PESP 49525	INQUIRY INTO PROFESSIONAL PRACTICE IN PHYSICAL EDUCATION (min C grade)	3
PESP 49592	STUDENT TEACHING IN PHYSICAL EDUCATION (ELR) [1]	12
SPAD 35065	HISTORY AND PHILOSOPHY OF SPORT AND PHYSICAL ACTIVITY (WIC) (min C grade)	3
Physical Activity, Wellness and Sport (PWS) Electives, choose from the following (min C grade):		1
PWS 10020	DEVELOPMENT AND CONDITIONING	
PWS 10036	FITNESS WALKING	
PWS 10306	JOGGING	
PWS 10403	BEGINNING BALLROOM DANCE	
PWS 10413	LATIN SOCIAL DANCE	
PWS 11426	VARSITY SPORT TRAINING AND CONDITIONING	
PWS 11604	BEGINNING KARATE	
PWS 11633	JU JITSU	
PWS 11634	SELF-DEFENSE	
PWS 11663	BEGINNING YOGA	
PWS 11664	PILATES	
PWS 11665	ZUMBA	
PWS 11666	BEGINNING SPINNING	
PWS 11667	BOOT CAMP I	
PWS 11673	INTERMEDIATE YOGA	
PWS 11674	INTERMEDIATE PILATES	
PWS 11675	ZUMBA TONING	
PWS 12324	WEIGHT TRAINING	
PWS 12325	WOMEN'S WEIGHT TRAINING	
PWS 13003	DANCE EXERCISE	
PWS 13010	JUDO-JUJITSU	
PWS 13016	CYCLING	
PWS 13040	CARDIO KICKBOXING	
Additional Requirements (courses do not count in major GPA)		
CI 47330	READING AND WRITING IN ADOLESCENCE/ ADULTHOOD (min C grade)	3
CULT 29535	EDUCATION IN A DEMOCRATIC SOCIETY (min C grade)	3
EPSY 29525	EDUCATIONAL PSYCHOLOGY (min C grade)	3
SPED 23000	INTRODUCTION TO EXCEPTIONALITIES (DIVD) (min C grade)	3
Kent Core Basic Sciences (must include one laboratory)		3
Kent Core Additional		6
Minimum Total Credit Hours:		**76**

1 Teacher candidates are only permitted to repeat a field experience course once. Please see Repeating Field Experience Courses in Teacher Education Programs policy for details.

Progression Requirements

Students in the Health and Physical Education and Physical Education Licensure concentrations must meet all professional requirements for admission to advanced study.

To manage enrollment and deliver high-quality programs, the faculty will select the most qualified applicants for admission based upon evaluation of academic success (overall GPA[1]) at Kent State University; non-academic criteria and other specific program criteria.

Please be aware that reapplication may be necessary if postponing advanced study coursework or if withdrawn for one year or more.

1 Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for advanced study and professional phase based on their high school GPA for new freshmen or transfer GPA for transfer students.

Graduation Requirements

Health and Physical Education Concentration

Minimum Major GPA	Minimum Overall GPA
2.750	2.750

Physical Activity and Sport Performance Concentration

Minimum Major GPA	Minimum Overall GPA
2.250	2.000

Physical Education Licensure Concentration

Minimum Major GPA	Minimum Overall GPA
2.750	2.750

- Students in the Health and Physical Education concentration and the Physical Education Licensure concentration are required to provide evidence of certification in First Aid, CPR and a minimum equivalence to level 5 competency in Red Cross swimming.

Licensure information

Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. See Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type. Taking and passing the licensure tests prior to graduation is encouraged but not required.

Students must apply for State of Ohio Licensure (defined by completion of all licensure program requirements) within 12 months of program completion. After 12 months, applicants must meet State approved program/licensure requirements that are in effect at the time of application. This means that students who apply after the 12 month deadline may have to take additional coursework if the content, methods courses, program requirements, or licensure requirements have changed from the catalog in force.

Roadmaps

Health and Physical Education Concentration

This roadmap is a recommended semester-by-semester plan of study for this major. However, courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

	Semester One		Credits
!	HED 11570	PERSONAL HEALTH	3
!	PESP 15010	INTRODUCTION TO PHYSICAL EDUCATION, FITNESS AND SPORT	3
!	PESP 15020	FUNDAMENTAL MOVEMENT, GYMNASTICS AND DANCE	3
	UC 10001	FLASHES 101	1

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	

Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7
Kent Core Additional (KADL)	6
Total Credit Hours:	**36-37**

Program Learning Outcomes

Graduates of the Health and Physical Education and Physical Education Licensure concentrations will be able to:

1. Demonstrate an understanding of content and scientific and theoretical foundations for the delivery of an effective PK-12 PE and/or Health program.
2. Plan and implement developmentally appropriate and meaningful PE and/or health learning experiences aligned with local, state and/or national standards and grade-level outcomes.
3. Use effective resources, accommodations, and technology that support the diverse needs of all students in planning and teaching.
4. Use effective communication, feedback, and instructional and managerial skills to enhance student learning.
5. Select and implement appropriate assessments and reflection to monitor students' progress and guide decision making related to instruction and learning.
6. Demonstrate dispositions essential to becoming effective professionals.

Graduates of the Physical Activity and Sport Performance concentration will be able to:

1. Demonstrate understanding and value of human diversity.
2. Apply their broad spectrum of knowledge of human movement in their capstone experience by being able to:
   a. Describe and apply biophysical (anatomical, physiological and biomechanical) and social-psychological concepts to skillful movement, physical activity and fitness, depending upon their area of focus.
   b. Identify individual and group motives and opportunities and barriers to involvement in different types of human movement.
   c. Understand the historical significance of past events and how these events have shaped the present development of sport and physical education.

Admission GPA for Undergraduate Students

For admissions, the College of Education, Health and Human Services considers a student to have established a Kent State University GPA after the student has successfully completed a minimum of 12 Kent State University credit hours. Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for admission into programs, Advanced Study, and the Professional phase based on their high school GPA for new freshmen, or transfer GPA for transfer students. Once a student has successfully completed a minimum of 12 Kent State University credit hours, only the student's Kent State cumulative GPA will be considered for admission into a program, Advanced Study, and Professional Phase.

Students who have completed 12 or more credit hours of previous college-level coursework, either at Kent State University or at another accredited institution, need an overal GPA of 2.00 or higher to declare a College of Education, Health and Human Services majors, minors or certificates unless a higher minimum GPA is specified by the program. See specific programs in this catalog for more information on required minimum GPA to declare. Non-degree EHHS General can be declared without a minimum 2.00 overall GPA.

Transfer applicants who have completed fewer than 12 semester hours of college-level coursework will be evaluated on both collegiate and high school records.

Background Checks for Teacher Licensure Candidates

For field experience, student teaching and any culminating internship in teacher education that requires candidates to be placed within a school or agency ("school/agency") setting, the college requires candidates to complete Bureau of Criminal Investigation and Identification (BCII) and Federal Bureau of Investigation (FBI) background checks and submit the results to authorized personnel at their assigned school/agency before the beginning of the field experience or the first day of the semester in which the student teaching/internship will take place. Authorized school/agency personnel will determine whether a candidate may participate in fieldwork in that setting. The BCII and FBI background checks are good for one year and are mandatory for licensure application. Electronic fingerprinting is available for BCII and FBI in 221 White Hall and should be completed at least two months prior to field experience/student teaching/culminating internship. Regional campus students should contact their Regional Campus coordinator to identify fingerprinting availability at each campus. Candidates are responsible for fees incurred for this requirement. For more information on this policy, contact the Director of Clinical Field Experience in 304 White Hall. Visit the Ohio Department of Education (ODE) website at www.ode.state.oh.us for more information about background check requirements for educators in Ohio. Contact the Office of Professional Conduct at the ODE for specific information about the results of the background check.

Education Licensure Application

Students in the teacher education programs must apply for State of Ohio Licensure within 12 months of program completion (defined by completion of all licensure program requirements) . After 12 months, applicants must meet State approved program/licensure requirements that are in effect at the time of application. This means that students who apply after the 12 month deadline may have to take additional coursework if the content, methods courses, program requirements, or licensure requirements have changed from the catalog in force.

If a student does not apply for their license within 6 years, they are subject to any additional state licensure requirements and are also subject to additional coursework based on changes in areas such as content, age of coursework and changes in program requirements. A minimum of 9 credit hours will be required to apply for licensure after 6 years of program completion.

Professional Dispositions for Teacher Candidates

Professional dispositions are the professional attitudes, values, and beliefs demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues, faculty, and communities. The teacher education faculty believe that the following dispositions support student learning and development. Therefore teacher candidates are expected to demonstrate:

- Communication and Collaboration
- Fairness and Equity
- Ethical Behavior
- Professional Responsibility

These dispositions are assessed at least three times in a candidate's program:

- Education in a Democratic Society course,
- a methods course with a field component, and
- student teaching.

In addition, a disposition assessment may be completed by a faculty member at any time a situation calls for it. A disposition is considered 'acceptable' if a candidate does not have an outstanding Professional Disposition Plan (PDPs) that requires improved performance in specified areas. A candidate may not progress through the teacher education program if they have any PDPs submitted and unresolved at the following three points:

- Applying for advanced study: If a student has an outstanding PDP at the time of application, a student will not be able to apply for advanced study until the PDP is rectified.
- Prior to the student teaching semester: All outstanding PDPs must be completed and cleared prior to the start of student teaching.
- End of student teaching semester: A student with an outstanding PDP during the student teaching semester will not successfully pass student teaching.

Professional Education Warning

Professional Education Warning for students in teacher licensure programs and the Community Health Education major must have a minimum 2.75 GPA to progress in their programs and ultimately graduate. Unless other factors are present, students who do not meet the prescribed conditions are required to transfer out of their declared major. An appeal of this decision is directed to the associate dean of undergraduate student services, College of Education, Health and Human Services, 304 White Hall.

Repeating Field Experience Courses in Teacher Education Programs

Teacher candidates are permitted to repeat a field experience course once (see major requirements for specific courses). If a teacher candidate is unsuccessful in completing OR fails to earn the required grade in a field experience course the first time, the teacher candidate will receive a warning and will be required to work with a faculty advisor in their academic unit to develop a plan for continuation. The required grade is a C or better in a course that awards a letter grade, or Satisfactory (S) in a course that awards an S/U grade. The plan will include all actions necessary to continue in current program, the opportunity to declare a different program, a timeline of when actions should occur, and next steps if actions are not followed. If the teacher candidate does not earn the required grade in the field experience course the second time, a hold will be placed on their account, preventing them from registering for classes until they change their major out of the education program.

Requirements for Admission to Advanced Study

Admission to advanced study is required of all teacher education initial licensure majors and minors prior to enrolling in courses designated as advanced study courses. Upon completion of coursework as determined by program area, students must apply during the term which all prerequisites for advanced study will be completed, and at least one semester prior to beginning any coursework for which "Admission to Advanced Study" is a prerequisite.

Application Dates

Fall Semester:

- Application window: August 1 to September 1
- Term to begin advanced study courses: Spring semester

Spring Semester:

- Application window: January 1 to February 1
- Term to begin advanced study courses: Summer term and/or fall semester

Summer Term:

- Application window: May 1 to June 1
- Term to begin advanced study courses: Fall semester

All students apply for Advanced Study through the College of Education, Health and Human Services Student Portal which can be accessed through the Vacca Office of Student Services web page.

Please note: Admission to advanced study is required for students pursuing an undergraduate major that leads to initial teacher licensure, with the exception of students in the Career Tech Teacher Education certificate who obtain initial licensure through the Alternative Resident Educator Licensure Program (teachers recruited from business and industry).

Requirements for Admission to Advanced Study

To deliver high-quality programs, faculty will select the most qualified applicants for admission based upon evaluation of academic success (overall GPA) at Kent State University, non-academic criteria and other specific program criteria.

Students may be required to reapply if they postpone advanced study coursework or withdraw from their courses for one year or more.

College Writing

- Students are required to attain minimum C grade in each writing course (ENG 11011 and ENG 21011 or equivalent) (Integrated Language Arts majors must attain minimum B grade).

Mathematics

- The following courses must be completed with minimum C grade for the majors Early Childhood Education, Middle Childhood Education and Special Education:

- MATH 14001 (or equivalent)
- MATH 14002

- The following courses must be completed with a minimum C grade for Integrated Mathematics majors:
  - MATH 12002
  - MATH 12003
  - In addition, a minimum 2.600 overall GPA in math content coursework is required.

Pre-Advanced Study Coursework

- To be eligible for advanced study, students must earn a minimum C grade in CULT 29535 and minimum C grade in **one** of the following courses (i.e., both courses must be completed with a minimum C grade for graduation):
  - EPSY 29525 (note: Middle Childhood Education majors must earn a minimum C grade in this course to be eligible for Advanced Study)
  - SPED 23000
- Early Childhood Education majors must earn a minimum C grade in ECED 10120 to be eligible for advanced study.
- Middle Childhood Education majors must earn a minimum C grade in MCED 20000 to be eligible for advanced study.
- Middle Childhood Education majors must complete at least 50 percent of content area coursework from each concentration (minimum C grade) to be eligible for advanced study. Students should meet with their advisor.
- Adolescence/Young Adult Programs: majors must earn a minimum C grade in ADED 20000 to be eligible for Advanced Study.

Grade Point Average

All students must have a minimum 2.750 overall GPA, with additional conditions for the following majors:

- Adolescence/Young Adult Programs: A minimum 2.600 GPA in the chosen adolescence/young adult content area is required for admission to advanced study, student teaching and graduation. A minimum C grade is required in each course within the content area. The following majors are affected: Earth Science, Integrated Language Arts, Integrated Mathematics, Integrated Science, Integrated Social Studies, Life Science, Life Science/Chemistry and Physical Science.
- For minimum GPA criteria for Art Education and Music Education, please see Requirements for Admission to Advanced Study for Art Education and Music Education in the College Policies section for the College of the Arts in the University Catalog.
- Education Minor: Students in a program eligible to declare the Education minor must achieve a minimum 2.500 overall and a content GPA to declare the Education minor, be admitted to advanced study, participate in student teaching and be recommended for licensure.

All GPA requirements must be met at the time of application.

Disposition Assessment/Professional Disposition Plans (PDPs)

Students are required to have completed all professional dispositions plan (PDPs) at the time of application to be eligible for advanced study.

Teacher Candidate Acknowledgments and Legal Questions for Licensure

Candidates are required to electronically sign five statements acknowledging that they have read and understand the following areas: pre-service teacher permit / background check requirements, professional dispositions, licensure application information, legal questions asked on the licensure application, and teacher education handbook information. Statements can be found on the student portal.

Student Teaching

The application for student teaching is completed online through the College of Education, Health and Human Services' student portal. Students will be required to complete the application during specified windows posted on the Vacca Office of Student Services' (VOSS) website. Application windows will typically be accessible during the months of October and November in the fall semester and March and April in the spring semester. Failure to complete the application and submit the prerequisite training documents within the designated time frame may delay the student teaching placement. Depending on the program area, students will apply either 2 or 3 semesters prior to their anticipated student teaching semester. Students should meet with their academic advisor for details on which semester to apply.

Once the application is submitted, VOSS staff (or appropriate regional campus staff) will determine eligibility by reviewing coursework, GPA, disposition assessments, and other program area requirements. Specifically, staff will review the following:

- Coursework – aside from student teaching and inquiry seminar, all coursework in the program of study must be completed with the minimum grade required in each course (i.e., a 'C' or higher in a course where the program requirements prescribe a minimum grade of C).
- GPA – confirmation that the applicant has a 2.75 cumulative GPA or higher and meets the minimum major GPA required for their program as listed in the university catalog.
- Disposition Assessments – no outstanding Professional Disposition Plans (PDPs) are permitted. An applicant with an outstanding PDP must have it cleared before beginning student teaching.
- Program Area Requirements – applicant must have completed all program requirements for their major that are outlined and specified in the university catalog.

Students should meet with their faculty and/or academic advisor in VOSS for any clarifications. Written notification of eligibility will be emailed to each applicant.

Those eligible for student teaching are required to attend a mandatory meeting where additional information about student teaching is provided. Failure to attend this meeting may result in a delay of student teaching. Placement forms, distributed at this meeting, need to be completed by the deadline.

The Clinical Experience Office will make the final decision about the placement site for the Kent Campus. Placement decisions at the Regional Campuses are made by the designated placement officer at each campus. Candidates are not to contact schools or potential mentors directly to make their own arrangements. Placements are generally made within a 50 mile radius of Kent State University. Student teaching is a full-time commitment and candidates are expected to follow the schedule of the cooperating teacher.

Undergraduate Graduation Requirements

- Students declared in a teacher licensure major or minor must earn a minimum C grade in all major/minor and professional coursework.

- Students declared in the Education minor must earn minimum 2.500 content GPA.
- Students may apply a maximum 4 credit hours of Physical Activity, Wellness and Sport (PWS) courses toward their degree.
- Students may apply a maximum of 4 credit hours of variable-titled workshop (xxx93) toward an undergraduate degree. Identical workshop topics that are repeated for credit will not count towards graduation requirements. All workshops are graded S/U (satisfactory/unsatisfactory). Some program areas may be more restrictive. Students are advised to consult their program regarding application of workshop credit toward degree requirements.

To see graduation requirements for a specific program, please select a major from the undergraduate program listing.

Full Description

The Bachelor of Science degree in Physical Education and Sport Performance prepares teachers who exemplify best practices in the PK-12 setting and professionals who promote high quality physical activity opportunities for individuals across the lifespan. The program places a strong emphasis on field experience, internships and professional development experiences.

The Physical Education and Sport Performance major comprises the following concentrations:

- The **Health and Physical Education** concentration is a five-year program that provides the curriculum necessary for students seeking Ohio teacher licensure in both health education and physical education. The program includes multiple field experiences in a variety of school districts, followed by a full semester of student teaching. Students teach in both subjects and are eligible to sit for the multi-age teacher licensing examinations. Students in combined bachelor's/master's degree programs may apply graduate courses toward the B.S.E. degree.
- The **Physical Activity and Sport Performance** concentration is grounded in the understanding that the study of physical activity and sport is important in themselves and as biological and social concepts. The concentration provides students with the opportunity to design their educational experience by developing an individualized program of study. Students in this concentration are required to declare a minor, either in a related field or outside the field.
- The **Physical Education Teacher Licensure** concentration prepares students to seek Ohio teacher licensure in physical education. The program includes multiple field experiences in a variety of school districts, followed by a full semester of student teaching. Graduates are eligible to sit for the multi-age teacher licensing examinations.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Examples of Possible Careers*

Agricultural sciences teachers, postsecondary

- 2.1% slower than the average
- 11,400 number of jobs
- $90,340 potential earnings

Atmospheric, earth, marine, and space sciences teachers, postsecondary

- 1.9% slower than the average
- 13,100 number of jobs
- $94,520 potential earnings

Biological science teachers, postsecondary

- 9.3% much faster than the average
- 64,700 number of jobs
- $85,600 potential earnings

Chemistry teachers, postsecondary

- 4.3% about as fast as the average
- 26,400 number of jobs
- $80,400 potential earnings

Education teachers, postsecondary

- 4.8% about as fast as the average
- 77,300 number of jobs
- $65,440 potential earnings

Environmental science teachers, postsecondary

- 3.7% about as fast as the average
- 7,600 number of jobs
- $84,740 potential earnings

Forestry and conservation science teachers, postsecondary

- 2.2% slower than the average
- 2,100 number of jobs
- $87,400 potential earnings

Middle school teachers, except special and career/technical education

- 3.6% about as fast as the average
- 627,100 number of jobs
- $60,810 potential earnings

Physics teachers, postsecondary

- 4.4% about as fast as the average
- 17,100 number of jobs
- $90,400 potential earnings

Secondary school teachers, except special and career/technical education

- 3.8% about as fast as the average
- 1,050,800 number of jobs
- $62,870 potential earnings

Accreditation

Council for the Accreditation of Educator Preparation

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

Admission to this major is selective. Admission to the college does not guarantee admission to a major and/or admission to professional coursework for a selective admission program. To be admitted directly into a teacher education program, it is required that new freshmen have a 2.750 high school GPA. Students who do not meet the GPA requirement at the time of admission for this major will be admitted to the EHHS General non-degree program until which time they have established a Kent State GPA of 2.750. They may then submit a change of program to declare this major.

Current Kent State and Transfer Students: Active Kent State students who wish to change their major must have attempted a minimum 12 credit hours at Kent State and meet all admission criteria listed above to be admitted. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Program Requirements

Major Requirements

Code	Title	Credit Hours
Major Requirements (courses count in major GPA; min C grade required in all courses)		
CHEM 10060	GENERAL CHEMISTRY I (KBS)	4
CHEM 10061	GENERAL CHEMISTRY II (KBS)	4
CHEM 10062	GENERAL CHEMISTRY I LABORATORY (KBS) (KLAB)	1
CHEM 10063	GENERAL CHEMISTRY II LABORATORY (KBS) (KLAB)	1
CHEM 20481	BASIC ORGANIC CHEMISTRY I	4
CHEM 30105	ANALYTICAL CHEMISTRY I	3
CHEM 30284	INTRODUCTORY BIOLOGICAL CHEMISTRY	4
CHEM 30301	INORGANIC CHEMISTRY I	3
PHY 21430	FRONTIERS IN ASTRONOMY (KBS)	3
PHY 23101	GENERAL UNIVERSITY PHYSICS I (KBS) (KLAB)	5
PHY 23102	GENERAL UNIVERSITY PHYSICS II (KBS) (KLAB)	5
PHY 30020	INTERMEDIATE PHYSICS LABORATORY (WIC)	2
PHY 36001	INTRODUCTORY MODERN PHYSICS	3
PHY 32511	ELECTRONICS	3-4
or PHY 36002	APPLICATIONS OF MODERN PHYSICS	
Additional Requirements (courses do not count in major GPA)		
ADED 20000	TOPICS IN SOCIAL JUSTICE IN TEACHING AND LEARNING (min C grade) [1]	3
ADED 32142	PRINCIPLES OF TEACHING ADOLESCENTS (WIC) (min C grade) [1]	3
ADED 32277	TEACHING SCIENCE IN SECONDARY SCHOOLS (min C grade) [1]	3
ADED 42277	TOPICS IN SECONDARY SCHOOL SCIENCE TEACHING (min C grade)	3
ADED 42292	FIELD WORK PRACTICUM (ELR) (min C grade) [1]	3
ADED 42392	SECONDARY STUDENT TEACHING (ELR) [1]	9
ADED 49525	INQUIRY INTO PROFESSIONAL PRACTICE (min C grade)	3
CI 47330	READING AND WRITING IN ADOLESCENCE/ADULTHOOD (min C grade)	3
CULT 29535	EDUCATION IN A DEMOCRATIC SOCIETY (min C grade)	3
EPSY 29525	EDUCATIONAL PSYCHOLOGY (min C grade)	3
MATH 11010	ALGEBRA FOR CALCULUS (KMCR)	3
MATH 11022	TRIGONOMETRY (KMCR)	3
MATH 12002	ANALYTIC GEOMETRY AND CALCULUS I (KMCR)	5
MATH 12003	ANALYTIC GEOMETRY AND CALCULUS II (min C grade)	5
SPED 23000	INTRODUCTION TO EXCEPTIONALITIES (DIVD) (min C grade)	3
UC 10001	FLASHES 101	1
Kent Core Composition (min C grade)		6
Kent Core Humanities and Fine Arts (minimum one course from each)		9
Kent Core Social Sciences (must be from two disciplines)		6
Minimum Total Credit Hours:		**122**

[1] Teacher candidates are only permitted to repeat a field experience course once. Refer to the Repeating Field Experience Courses in Teacher Education Programs policy for details.

Progression Requirements

Students seeking admission to this program must meet all professional requirements for admission to advanced study. To be admitted to the program, students must display evidence of the following:

- Adequate communication skills
- Sound content area knowledge (language arts, mathematics, science or social studies)
- Basic understanding of the teaching profession
- Basic understanding of adolescents
- Dispositions aligned with the conceptual framework of the College of Education, Health and Human Services, including being open-minded, flexible, caring and responsible

Faculty will select the most qualified applicants based on an interview, letters of recommendation, GPA[1] and performance in English coursework.

Applicants must have experience working with young adults in a supervisory capacity, such as tutoring, camp counseling, volunteer work or related experience. Students should contact the College of Education, Health, and Human Services' Vacca Office of Student Services, 304 White Hall, during their first year of study to inquire about the procedures and criteria associated with admission to advanced study.

[1] Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for advanced study and professional phase based on their high school GPA for new freshmen or transfer GPA for transfer students.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
2.600	2.750

Dual Majors/Dual Degrees

Students seeking to declare an additional teacher education major in the B.S.E. degree (double major) or in a different degree (dual degree) may have the double major/dual degree approved as long as the following requirements are met:

1. Approval is received from the academic unit administrating each major. A program of study for those interested in pursuing a double major must be approved in writing by faculty from each major area prior to admission to advanced study.
2. All required content courses are completed for each major.
3. All required methods courses are completed for each major.
4. Separate practicum and inquiry courses are completed for each major as listed below:
   a. ADED 42292 (or the equivalent required by the major outside the college)
   b. ADED 49525 (or the equivalent required by the major outside the college)
5. Students who have two majors from among the following only need to take ADED 42392, consisting of a 16-week classroom experience involving both subject areas: Life Sciences, Earth Science, Physical Sciences, Integrated Science, Integrated Mathematics, Life Science/Chemistry, Integrated Social Studies and/or Integrated Language Arts.
6. Students who have a second major not included in the list above (#5) will have their student teaching requirements determined by faculty from both program areas at the time the program of study is developed, with a minimum 16 weeks spent in the classroom.

Licensure information

Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. See Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type. Taking and passing the licensure tests prior to graduation is encouraged but not required.

Students must apply for State of Ohio Licensure (defined by completion of all licensure program requirements) within 12 months of program completion. After 12 months, applicants must meet State approved program/licensure requirements that are in effect at the time of application. This means that students who apply after the 12 month deadline may have to take additional coursework if the content, methods courses, program requirements, or licensure requirements have changed from the catalog in force.

Roadmap

This roadmap is a recommended semester-by-semester plan of study for this program. Students will work with their advisor to develop a sequence based on their academic goals and history. Courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

	Semester One		Credits
	CHEM 10060	GENERAL CHEMISTRY I (KBS)	4
	CHEM 10062	GENERAL CHEMISTRY I LABORATORY (KBS) (KLAB)	1
	MATH 11010	ALGEBRA FOR CALCULUS (KMCR)	3
	UC 10001	FLASHES 101	1
	Kent Core Requirement		3
	Kent Core Requirement		3
	Kent Core Requirement		3
		Credit Hours	**18**
	Semester Two		
	CHEM 10061	GENERAL CHEMISTRY II (KBS)	4
	CHEM 10063	GENERAL CHEMISTRY II LABORATORY (KBS) (KLAB)	1

	MATH 11022	TRIGONOMETRY (KMCR)	3
	Kent Core Requirement		3
	Kent Core Requirement		3
		Credit Hours	**17**
	Semester Three		
	Requirement: minimum overall 2.750 GPA by end of term and minimum C grade and 2.600 major GPA		
	CHEM 20481	BASIC ORGANIC CHEMISTRY I	4
	EPSY 29525	EDUCATIONAL PSYCHOLOGY	3
!	MATH 12002	ANALYTIC GEOMETRY AND CALCULUS I (KMCR)	5
!	PHY 23101	GENERAL UNIVERSITY PHYSICS I (KBS) (KLAB)	5
		Credit Hours	**17**
	Semester Four		
	Requirement: minimum 2.750 overall GPA and minimum 2.600 major GPA		
	ADED 20000	TOPICS IN SOCIAL JUSTICE IN TEACHING AND LEARNING	3
	MATH 12003	ANALYTIC GEOMETRY AND CALCULUS II	5
!	PHY 23102	GENERAL UNIVERSITY PHYSICS II (KBS) (KLAB)	5
	Kent Core Requirement		3
		Credit Hours	**16**
	Semester Five		
	Requirement: minimum 2.750 overall GPA and minimum 2.600 major GPA		
!	ADED 32142	PRINCIPLES OF TEACHING ADOLESCENTS (WIC)	3
	CHEM 30105	ANALYTICAL CHEMISTRY I	3
	CI 47330	READING AND WRITING IN ADOLESCENCE/ ADULTHOOD	3
	SPED 23000	INTRODUCTION TO EXCEPTIONALITIES (DIVD)	3
	Kent Core Requirement		3
		Credit Hours	**15**
	Semester Six		
	Requirement: minimum 2.750 overall GPA and minimum 2.600 major GPA		
	ADED 32277	TEACHING SCIENCE IN SECONDARY SCHOOLS	3
	CHEM 30284	INTRODUCTORY BIOLOGICAL CHEMISTRY	4
	CHEM 30301	INORGANIC CHEMISTRY I	3
	PHY 30020	INTERMEDIATE PHYSICS LABORATORY (WIC)	2
	PHY 36001	INTRODUCTORY MODERN PHYSICS	3
		Credit Hours	**15**
	Semester Seven		
	Requirements: minimum 2.750 overall GPA and minimum 2.600 major GPA		
!	ADED 42277	TOPICS IN SECONDARY SCHOOL SCIENCE TEACHING	3
!	ADED 42292	FIELD WORK PRACTICUM (ELR)	3
	PHY 32511 or PHY 36002	ELECTRONICS or APPLICATIONS OF MODERN PHYSICS	3-4
	PHY 21430	FRONTIERS IN ASTRONOMY (KBS)	3
		Credit Hours	**12**
	Semester Eight		
	Requirement: minimum 2.750 overall GPA and minimum 2.600 major GPA		
!	ADED 42392	SECONDARY STUDENT TEACHING (ELR)	9
!	ADED 49525	INQUIRY INTO PROFESSIONAL PRACTICE	3
		Credit Hours	**12**
		Minimum Total Credit Hours:	**122**

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7

Kent Core Additional (KADL)	6
Total Credit Hours:	**36-37**

Program Learning Outcomes

Graduates of this program will be able to:

1. Plan multiple lessons using a variety of inquiry approaches that demonstrate their knowledge and understanding of how to engage all students in learning science.
2. Plan a learning environment and learning experiences for all students that demonstrate chemical safety, safety procedures and the ethical treatment of living organisms within their licensure area.
3. Plan fair and equitable assessment strategies to analyze student learning and to evaluate if the science learning goals are met.

Admission GPA for Undergraduate Students

For admissions, the College of Education, Health and Human Services considers a student to have established a Kent State University GPA after the student has successfully completed a minimum of 12 Kent State University credit hours. Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for admission into programs, Advanced Study, and the Professional phase based on their high school GPA for new freshmen, or transfer GPA for transfer students. Once a student has successfully completed a minimum of 12 Kent State University credit hours, only the student's Kent State cumulative GPA will be considered for admission into a program, Advanced Study, and Professional Phase.

Students who have completed 12 or more credit hours of previous college-level coursework, either at Kent State University or at another accredited institution, need an overal GPA of 2.00 or higher to declare a College of Education, Health and Human Services majors, minors or certificates unless a higher minimum GPA is specified by the program. See specific programs in this catalog for more information on required minimum GPA to declare. Non-degree EHHS General can be declared without a minimum 2.00 overall GPA.

Transfer applicants who have completed fewer than 12 semester hours of college-level coursework will be evaluated on both collegiate and high school records.

Background Checks for Teacher Licensure Candidates

For field experience, student teaching and any culminating internship in teacher education that requires candidates to be placed within a school or agency ("school/agency") setting, the college requires candidates to complete Bureau of Criminal Investigation and Identification (BCII) and Federal Bureau of Investigation (FBI) background checks and submit the results to authorized personnel at their assigned school/agency before the beginning of the field experience or the first day of the semester in which the student teaching/internship will take place. Authorized school/agency personnel will determine whether a candidate may participate in fieldwork in that setting. The BCII and FBI background checks are good for one year and are mandatory for licensure application. Electronic fingerprinting is available for BCII and FBI in 221 White Hall and should be completed at least two months prior to field experience/student teaching/culminating internship. Regional campus students should contact their Regional Campus coordinator to identify fingerprinting availability at each campus. Candidates are responsible for fees incurred for this requirement. For more information on this policy, contact the Director of Clinical Field Experience in 304 White Hall. Visit the Ohio Department of Education (ODE) website at www.ode.state.oh.us for more information about background check requirements for educators in Ohio. Contact the Office of Professional Conduct at the ODE for specific information about the results of the background check.

Education Licensure Application

Students in the teacher education programs must apply for State of Ohio Licensure within 12 months of program completion (defined by completion of all licensure program requirements) . After 12 months, applicants must meet State approved program/licensure requirements that are in effect at the time of application. This means that students who apply after the 12 month deadline may have to take additional coursework if the content, methods courses, program requirements, or licensure requirements have changed from the catalog in force.

If a student does not apply for their license within 6 years, they are subject to any additional state licensure requirements and are also subject to additional coursework based on changes in areas such as content, age of coursework and changes in program requirements. A minimum of 9 credit hours will be required to apply for licensure after 6 years of program completion.

Professional Dispositions for Teacher Candidates

Professional dispositions are the professional attitudes, values, and beliefs demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues, faculty, and communities. The teacher education faculty believe that the following dispositions support student learning and development. Therefore teacher candidates are expected to demonstrate:

- Communication and Collaboration
- Fairness and Equity
- Ethical Behavior
- Professional Responsibility

These dispositions are assessed at least three times in a candidate's program:

- Education in a Democratic Society course,
- a methods course with a field component, and
- student teaching.

In addition, a disposition assessment may be completed by a faculty member at any time a situation calls for it. A disposition is considered 'acceptable' if a candidate does not have an outstanding Professional Disposition Plan (PDPs) that requires improved performance in specified areas. A candidate may not progress through the teacher education program if they have any PDPs submitted and unresolved at the following three points:

- Applying for advanced study: If a student has an outstanding PDP at the time of application, a student will not be able to apply for advanced study until the PDP is rectified.
- Prior to the student teaching semester: All outstanding PDPs must be completed and cleared prior to the start of student teaching.

- End of student teaching semester: A student with an outstanding PDP during the student teaching semester will not successfully pass student teaching.

Professional Education Warning

Professional Education Warning for students in teacher licensure programs and the Community Health Education major must have a minimum 2.75 GPA to progress in their programs and ultimately graduate. Unless other factors are present, students who do not meet the prescribed conditions are required to transfer out of their declared major. An appeal of this decision is directed to the associate dean of undergraduate student services, College of Education, Health and Human Services, 304 White Hall.

Repeating Field Experience Courses in Teacher Education Programs

Teacher candidates are permitted to repeat a field experience course once (see major requirements for specific courses). If a teacher candidate is unsuccessful in completing OR fails to earn the required grade in a field experience course the first time, the teacher candidate will receive a warning and will be required to work with a faculty advisor in their academic unit to develop a plan for continuation. The required grade is a C or better in a course that awards a letter grade, or Satisfactory (S) in a course that awards an S/U grade. The plan will include all actions necessary to continue in current program, the opportunity to declare a different program, a timeline of when actions should occur, and next steps if actions are not followed. If the teacher candidate does not earn the required grade in the field experience course the second time, a hold will be placed on their account, preventing them from registering for classes until they change their major out of the education program.

Requirements for Admission to Advanced Study

Admission to advanced study is required of all teacher education initial licensure majors and minors prior to enrolling in courses designated as advanced study courses. Upon completion of coursework as determined by program area, students must apply during the term which all prerequisites for advanced study will be completed, and at least one semester prior to beginning any coursework for which "Admission to Advanced Study" is a prerequisite.

Application Dates

Fall Semester:

- Application window: August 1 to September 1
- Term to begin advanced study courses: Spring semester

Spring Semester:

- Application window: January 1 to February 1
- Term to begin advanced study courses: Summer term and/or fall semester

Summer Term:

- Application window: May 1 to June 1
- Term to begin advanced study courses: Fall semester

All students apply for Advanced Study through the College of Education, Health and Human Services Student Portal which can be accessed through the Vacca Office of Student Services web page.

Please note: Admission to advanced study is required for students pursuing an undergraduate major that leads to initial teacher licensure, with the exception of students in the Career Tech Teacher Education certificate who obtain initial licensure through the Alternative Resident Educator Licensure Program (teachers recruited from business and industry).

Requirements for Admission to Advanced Study

To deliver high-quality programs, faculty will select the most qualified applicants for admission based upon evaluation of academic success (overall GPA) at Kent State University, non-academic criteria and other specific program criteria.

Students may be required to reapply if they postpone advanced study coursework or withdraw from their courses for one year or more.

College Writing

- Students are required to attain minimum C grade in each writing course (ENG 11011 and ENG 21011 or equivalent) (Integrated Language Arts majors must attain minimum B grade).

Mathematics

- The following courses must be completed with minimum C grade for the majors Early Childhood Education, Middle Childhood Education and Special Education:
  - MATH 14001 (or equivalent)
  - MATH 14002
- The following courses must be completed with a minimum C grade for Integrated Mathematics majors:
  - MATH 12002
  - MATH 12003
  - In addition, a minimum 2.600 overall GPA in math content coursework is required.

Pre-Advanced Study Coursework

- To be eligible for advanced study, students must earn a minimum C grade in CULT 29535 and minimum C grade in **one** of the following courses (i.e., both courses must be completed with a minimum C grade for graduation):
  - EPSY 29525 (note: Middle Childhood Education majors must earn a minimum C grade in this course to be eligible for Advanced Study)
  - SPED 23000
- Early Childhood Education majors must earn a minimum C grade in ECED 10120 to be eligible for advanced study.
- Middle Childhood Education majors must earn a minimum C grade in MCED 20000 to be eligible for advanced study.
- Middle Childhood Education majors must complete at least 50 percent of content area coursework from each concentration (minimum C grade) to be eligible for advanced study. Students should meet with their advisor.
- Adolescence/Young Adult Programs: majors must earn a minimum C grade in ADED 20000 to be eligible for Advanced Study.

Grade Point Average

All students must have a minimum 2.750 overall GPA, with additional conditions for the following majors:

- Adolescence/Young Adult Programs: A minimum 2.600 GPA in the chosen adolescence/young adult content area is required for admission to advanced study, student teaching and graduation. A minimum C grade is required in each course within the content area. The following majors are affected: Earth Science, Integrated Language Arts, Integrated Mathematics, Integrated Science, Integrated Social Studies, Life Science, Life Science/Chemistry and Physical Science.
- For minimum GPA criteria for Art Education and Music Education, please see Requirements for Admission to Advanced Study for Art Education and Music Education in the College Policies section for the College of the Arts in the University Catalog.
- Education Minor: Students in a program eligible to declare the Education minor must achieve a minimum 2.500 overall and a content GPA to declare the Education minor, be admitted to advanced study, participate in student teaching and be recommended for licensure.

All GPA requirements must be met at the time of application.

Disposition Assessment/Professional Disposition Plans (PDPs)

Students are required to have completed all professional dispositions plan (PDPs) at the time of application to be eligible for advanced study.

Teacher Candidate Acknowledgments and Legal Questions for Licensure

Candidates are required to electronically sign five statements acknowledging that they have read and understand the following areas: pre-service teacher permit / background check requirements, professional dispositions, licensure application information, legal questions asked on the licensure application, and teacher education handbook information. Statements can be found on the student portal.

Student Teaching

The application for student teaching is completed online through the College of Education, Health and Human Services' student portal. Students will be required to complete the application during specified windows posted on the Vacca Office of Student Services' (VOSS) website. Application windows will typically be accessible during the months of October and November in the fall semester and March and April in the spring semester. Failure to complete the application and submit the prerequisite training documents within the designated time frame may delay the student teaching placement. Depending on the program area, students will apply either 2 or 3 semesters prior to their anticipated student teaching semester. Students should meet with their academic advisor for details on which semester to apply.

Once the application is submitted, VOSS staff (or appropriate regional campus staff) will determine eligibility by reviewing coursework, GPA, disposition assessments, and other program area requirements. Specifically, staff will review the following:

- Coursework – aside from student teaching and inquiry seminar, all coursework in the program of study must be completed with the minimum grade required in each course (i.e., a 'C' or higher in a course where the program requirements prescribe a minimum grade of C).
- GPA – confirmation that the applicant has a 2.75 cumulative GPA or higher and meets the minimum major GPA required for their program as listed in the university catalog.
- Disposition Assessments – no outstanding Professional Disposition Plans (PDPs) are permitted. An applicant with an outstanding PDP must have it cleared before beginning student teaching.
- Program Area Requirements – applicant must have completed all program requirements for their major that are outlined and specified in the university catalog.

Students should meet with their faculty and/or academic advisor in VOSS for any clarifications. Written notification of eligibility will be emailed to each applicant.

Those eligible for student teaching are required to attend a mandatory meeting where additional information about student teaching is provided. Failure to attend this meeting may result in a delay of student teaching. Placement forms, distributed at this meeting, need to be completed by the deadline.

The Clinical Experience Office will make the final decision about the placement site for the Kent Campus. Placement decisions at the Regional Campuses are made by the designated placement officer at each campus. Candidates are not to contact schools or potential mentors directly to make their own arrangements. Placements are generally made within a 50 mile radius of Kent State University. Student teaching is a full-time commitment and candidates are expected to follow the schedule of the cooperating teacher.

Undergraduate Graduation Requirements

- Students declared in a teacher licensure major or minor must earn a minimum C grade in all major/minor and professional coursework.
- Students declared in the Education minor must earn minimum 2.500 content GPA.
- Students may apply a maximum 4 credit hours of Physical Activity, Wellness and Sport (PWS) courses toward their degree.
- Students may apply a maximum of 4 credit hours of variable-titled workshop (xxx93) toward an undergraduate degree. Identical workshop topics that are repeated for credit will not count towards graduation requirements. All workshops are graded S/U (satisfactory/unsatisfactory). Some program areas may be more restrictive. Students are advised to consult their program regarding application of workshop credit toward degree requirements.

To see graduation requirements for a specific program, please select a major from the undergraduate program listing.

Full Description

The Bachelor of Science in Education degree in Physical Science prepares students for teacher licensure in physics and chemistry, grades 7 to 12. Students take a broad range of science-content courses in biology and geology and specialize in physics and chemistry content.

Students in the Physical Science major complete most of their content coursework during their first three years, and then begin their methods coursework during the spring of their third year. During the final year of the program, students complete remaining content courses, science teaching methods courses and a year-long placement in a local school district, which concludes with 13 weeks of student teaching in the spring. Students are encouraged to meet with their faculty advisor early in their program because many courses must be sequenced carefully.

Students are required to complete Bureau of Criminal Investigation and Identification (BCII) and Federal Bureau of Investigation (FBI) background checks.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Reading Endorsement Preparation - Non-Degree

College of Education Health and Human Services
School of Teaching, Learning and Curriculum Studies
www.kent.edu/ehhs/tlcs

About This Program

The Reading Endorsement Preparation non-degree program prepares students to obtain the Ohio K-12 Reading endorsement. Completion of the coursework is a prerequisite to being recommended by Kent State University for this endorsement; and endorsements are granted by the Ohio Department of Education.

This program does not culminate in a master's degree. Students interested in a master's degree at Kent State must be fully admitted into and complete the requirements for the master's program, in addition to courses that are prescribed here for licensure.

Examples of Possible Careers and Salaries*

Education teachers, postsecondary

- 4.8% about as fast as the average
- 77,300 number of jobs
- $65,440 potential earnings

English language and literature teachers, postsecondary

- 2.1% slower than the average
- 81,300 number of jobs
- $69,000 potential earnings

Middle school teachers, except special and career/technical education

- 3.6% about as fast as the average
- 627,100 number of jobs
- $60,810 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Bachelor's degree from an accredited college or university
- Minimum 2.750 GPA on a 4.000-point scale
- Official transcript(s)
- Questions in Anticipation of Licensure Form
- 9-12 credit hours in reading coursework, depending on licensure
- Evidence of valid Resident Educator or Professional State of Ohio teaching license

Program Requirements

Endorsement Requirements

Code	Title	Credit Hours
Endorsement Requirements [1]		
CI 67310	THEORY AND PRACTICE IN THE TEACHING OF READING	3
CI 67319	DIAGNOSIS AND REMEDIATION IN READING	3
CI 67330	READING IN CONTENT AREAS	3
CI 67396	INDIVIDUAL INVESTIGATION IN READING AND LANGUAGE ARTS	1
CI 67692	CLINICAL PRACTICUM IN CORRECTIVE READING	3
Minimum Total Credit Hours:		**13**

[1] Students declared in a doctoral degree should enroll in the doctoral level version of these courses, if offered.

Graduation Requirements

- Candidates seeking Ohio teaching endorsement are required to pass specific requirements in order to apply for endorsement from the Ohio Department of Education. Students should consult the Literacy Education program for specific program requirements and refer to

the Ohio Department of Education - Educator Preparation website for more information on assessments specific to endorsement.

- Students who do not apply for endorsement within 12 months of program completion may be subject to additional course requirement, based on standards in force at the time of application.

Licensure Information

Prior to program completion, the candidate must demonstrate proficiencies in the following areas (including but not limited to): data literacy and analysis; use of research and assessment data; leadership and collaboration; utilizing and supporting appropriate technology for the discipline; and application of professional dispositions, laws and policies, codes of ethics and professional standards appropriate to their field of specialization.

Program Learning Outcomes

Completers of this program will be able to:

1. Articulate the foundations of reading development and instruction.
2. Plan effective lessons for students using appropriate methods, texts, strategies and goals.
3. Assess and evaluate students' literacy achievement.

Residence Requirement Policy for Non-Degree Teacher Education Licensure/ Endorsement Preparation Programs

- Non-degree licensure (initial and additional) and endorsement programs that are a total of 15 credits or above: Students must complete 60% of the coursework at Kent State University, including the course that addresses the CAEP A.1.1 Standard as designated by the program area.
- Non-degree licensure (initial and additional) and endorsement programs that are less than 15 total credits: Students must complete 100% of the coursework at Kent State University.
- Students are permitted 6 years to complete licensure programs and 4 years to complete endorsement programs at Kent State University.
- Coursework transferred from another university cannot be more than 6 years old at the time the licensure/endorsement program is completed.
- Students who do not meet the residence requirements will not be recommended for licensure by Kent State University.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Reading Specialization - M.Ed.

College of Education Health and Human Services
School of Teaching, Learning and Curriculum Studies
www.kent.edu/ehhs/tlcs

About This Program

The Master of Education degree in Reading Specialization develops practical and professional knowledge that is essential for educators concerned with the improvement of literacy at all instructional levels. Students study the nature of the reading and writing processes; the interrelationships between language, literature and literacy; literacy learning and teaching; the nature and needs of students who find reading and writing difficult; reading and writing as vehicles for learning and enjoyment; and the role of research in literacy instruction.

[1] Courses must be taken in sequence and are required for reading endorsement. MCED 50005 may also be required for reading endorsement if the student has not taken a phonics course.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.
- Grades below C are not counted toward completion of requirements for the degree.

Licensure information

Candidates seeking Ohio licensure are required to pass specific assessments in order to apply for licensure. Students should consult their advisors for specific program requirements and refer to the Ohio Department of Education-Educator Preparation website for more information on assessments specific to licensure type.

Program Learning Outcomes

Graduates of this program will be able to:

1. Demonstrate outstanding or satisfactory knowledge of the foundations of reading and writing processes and instruction.
2. Use a wide range of instructional practices, approaches, methods and curriculum materials to support reading and writing instruction.
3. Use of a variety of assessment tools and practices to plan and evaluate effective reading instruction.
4. Create and engage their students in literacy practices that develop awareness, understanding, respect and valuing of differences in society.
5. Create a literate environment that fosters reading and writing by integrating foundational knowledge, use of instructional practices, approaches and methods, curriculum materials and the appropriate use of assessments.
6. View professional development as a career long effort and responsibility.

Secondary Education - M.A.T.

College of Education Health and Human Services
School of Teaching, Learning and Curriculum Studies
www.kent.edu/ehhs/tlcs

About This Program

The Master of Arts in Teaching in Secondary Education program is designed for individuals who are passionate about teaching and inspiring the next generation of students. With a focus on hands-on experiences, you'll gain the skills needed to develop engaging lesson plans, manage classroom dynamics and facilitate student learning. Read more...

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.
- Grades below C are not counted toward completion of requirements for the degree.

Additional Coursework: An analysis of additional content-area coursework required at the post-undergraduate level will be completed before entering into the program, and a plan of study will be created based on transcript analysis and current licensure requirements by the Ohio Department of Education and Workforce. A minimum C grade is required in each of these courses. This coursework would be in addition to requirements for the M.A.T. degree in Secondary Education.

Program Learning Outcomes

Graduates of this program will be able to:

1. Implement current learning theories in the classroom.
2. Demonstrate continued professional development.
3. Understand the scope and sequence of curriculum in their content area for grades seven to 12.
4. Use reflection on teaching as a tool for improving teaching and student learning.
5. Incorporate the appropriate use of technology in classroom lessons to increase student learning.
6. Demonstrate how schools work and how support staff, parents and the community can be utilized to foster and improve their future students' success.
7. Recognize the importance of planning that incorporate national and state standards for their content area.
8. Develop and refine skills in planning, assessment and classroom management that maximize learning for all students.

Full Description

The Master of Arts in Teaching degree in Secondary Education serves individuals who have never held a teaching certificate or license.

There are two options of study:

1. 11-month option, which requires full-time study beginning the summer of the year admitted and continuing throughout the academic year
2. two-year option, which allows for part-time enrollment

The Secondary Education major comprises the following concentrations:

- Art
- Chemistry/Physics
- Dance
- Earth Science
- English/Language Arts
- French
- German
- Health
- Integrated Science
- Latin
- Life Science
- Life Science-Chemistry
- Mathematics
- Music
- Physical Education
- Social Studies
- Spanish

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Sport, Exercise and Performance Psychology - B.S.

College of Education Health and Human Services
School of Teaching, Learning and Curriculum Studies
www.kent.edu/ehhs/tlcs

About This Program

The B.S. in Sport, Exercise and Performance Psychology equips athletes, coaches and sport professionals with the mental strategies to enhance focus, motivation and resilience. Unlike traditional sport programs, this major focuses on the psychological aspects of peak performance. You will learn how confidence, anxiety and mindset impact success in sports, exercise and the performing arts. Graduates are prepared for careers in sport psychology, coaching and performance training or can pursue certification and advanced study in the field. Read more...

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Former Students: Former Kent State students who have not attended another institution since Kent State and were not academically dismissed will complete the re-enrollment process through the Financial, Billing and Enrollment Center. Former students who attended another college or university since leaving Kent State must apply for admissions as a transfer or post-undergraduate student.

Transfer Students: Students who attended an educational institution after graduating from high school or earning their GED must apply as transfer students. For more information, visit the admissions website for transfer students.

Admission policies for undergraduate students may be found in the University Catalog's Academic Policies.

Students may be required to meet certain criteria to progress in their program. Any progression requirements will be listed on the program's Coursework tab

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7
Kent Core Additional (KADL)	6
Total Credit Hours:	**36-37**

Program Learning Outcomes

Graduates of this program will be able to:

1. Explain the role of the individual and the environments in sport and exercise behavior.
2. Demonstrate understanding of the foundation of motivation in sport sciences, learning and personal life.
3. Define and illustrate the concepts, tools and application of mental skills and performance enhancement.
4. Design and evaluate an applied research study from inception to conclusions.
5. Define the standards for competence, domestic and global diversity and ethical principles (i.e., AASP and APA) and its role in sport psychology professional practice.

Admission GPA for Undergraduate Students

For admissions, the College of Education, Health and Human Services considers a student to have established a Kent State University GPA after the student has successfully completed a minimum of 12 Kent State University credit hours. Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for admission into programs, Advanced Study, and the Professional phase based on their high school GPA for new freshmen, or transfer GPA for transfer students. Once a student has successfully completed a minimum of 12 Kent State University credit hours, only the student's Kent State cumulative GPA will be considered for admission into a program, Advanced Study, and Professional Phase.

Students who have completed 12 or more credit hours of previous college-level coursework, either at Kent State University or at another accredited institution, need an overal GPA of 2.00 or higher to declare a College of Education, Health and Human Services majors, minors or certificates unless a higher minimum GPA is specified by the program. See specific programs in this catalog for more information on required minimum GPA to declare. Non-degree EHHS General can be declared without a minimum 2.00 overall GPA.

Transfer applicants who have completed fewer than 12 semester hours of college-level coursework will be evaluated on both collegiate and high school records.

Undergraduate Graduation Requirements

- Students declared in a teacher licensure major or minor must earn a minimum C grade in all major/minor and professional coursework.
- Students declared in the Education minor must earn minimum 2.500 content GPA.
- Students may apply a maximum 4 credit hours of Physical Activity, Wellness and Sport (PWS) courses toward their degree.
- Students may apply a maximum of 4 credit hours of variable-titled workshop (xxx93) toward an undergraduate degree. Identical workshop topics that are repeated for credit will not count towards graduation requirements. All workshops are graded S/U (satisfactory/unsatisfactory). Some program areas may be more restrictive. Students are advised to consult their program regarding application of workshop credit toward degree requirements.

To see graduation requirements for a specific program, please select a major from the undergraduate program listing.

Full Description

The Bachelor of Science degree in Sport, Exercise and Performance Psychology provide students, athletes and those preparing for careers as coaches and sport practitioners with the knowledge of psychological theory and skills to enhance human behavior in the sport and exercise settings and the performing arts. The major differs from existing sport-related bachelor's degree programs due to its focus on psychological processes related to sport performance, as opposed to existing programs that focus on pedagogical, physiological or the business aspects of sport performance.

The Sport, Exercise and Performance Psychology major explores social-psychological concepts such as motivation, self-confidence, anxiety or burnout, and how these concepts interact with the sport environment to influence athletes (e.g., losing focus under pressure or having self-doubts during a game) and performance. The program prepares students with essential knowledge of psychological aspects of sport performance and ethical practice to work in wide-ranging sport-related fields or to further their education in their chosen careers via graduate programs and mental performance certification by the Association of Applied Sport Psychology.

Sport, Exercise and Performance Psychology - Minor

College of Education Health and Human Services
School of Teaching, Learning and Curriculum Studies
www.kent.edu/ehhs/tlcs

About This Program

The Sport, Exercise and Performance Psychology minor provides students, athletes and those preparing for careers in coaching, performing arts, sport practitioners and sport administrators with the knowledge of psychological theory and skills development to enhance human behavior in sport and exercise settings and artistic performance. The minor explores social-psychological concepts such as motivation, self-confidence, concentration, anxiety or burnout, and how these concepts can influence a sport environment (e.g., losing focus under pressure or self-doubt during a game), and the performing and creative artistic domain (e.g., lifestyle stresses, self-esteem or confidence.) Students are prepared to work in a wide-range of sport-related fields or to further their education in their chosen careers by continuing to a graduate program and certification.

Minimum Minor GPA	Minimum Overall GPA
2.000	2.000

- Minimum 6 credit hours in the minor must be upper-division coursework (30000 and 40000 level).
- Minimum 6 credit hours in the minor must be outside of the course requirements for any major or other minor the student is pursuing.
- Minimum 50 percent of the total credit hours for the minor must be taken at Kent State (in residence).

Program Learning Outcomes

Graduates of this program will be able to:

1. Gain knowledge and skills on the influences of the psychological aspects of exercise, injury and physical activity on performance.
2. Achieve a greater understanding of performance and achievement within the context of sport at a variety of levels, with diverse populations and in many different sports.
3. Consider a holistic perspective of sport, which includes athlete-centered coaching, cultural competence, development of character and life lessons through youth sport.
4. Demonstrate cultural competence, effective leadership and ethical decision-making skills.

Admission GPA for Undergraduate Students

For admissions, the College of Education, Health and Human Services considers a student to have established a Kent State University GPA after the student has successfully completed a minimum of 12 Kent State University credit hours. Undergraduate students who have not completed a minimum of 12 Kent State University credit hours will be evaluated for admission into programs, Advanced Study, and the Professional phase based on their high school GPA for new freshmen, or transfer GPA for transfer students. Admission Requirements

Admission to a minor is open to students declared in a bachelor's degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.

To declare this minor, students must have attempted a minimum 12 credit hours at Kent State and earned a minimum 2.000 overall Kent State GPA. Students who have not attempted 12 credit hours at Kent State will be evaluated for admission based on their high school GPA for new students or transfer GPA for transfer students. Transfer students who have not attempted 12 credit hours of college-level coursework at Kent State and/or other institutions will be evaluated based on both their high school GPA and college GPA.

Full Description

The Teaching and Learning with Technology minor will provide students with the tools to acquire the knowledge and concrete skills to deploy educational technology theories and strategies in multiple fields while working at educational institutions, communication-related companies, public health entities and other industries.

This certificate is for both students in an education or non-education major. Education students will strengthen their know-how in learning innovations while being exposed to interdisciplinary stimuli and references and expanding their professional and academic horizon. Non-education students will access the most recent best practices in educational technology, applying them in their own field of reference and beyond.

- 327,900 number of jobs
- $62,700 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Former Students: Former Kent State students who have not attended another institution since Kent State and were not academically dismissed will complete the re-enrollment process through the Financial, Billing and Enrollment Center. Former students who attended another college or university since leaving Kent State must apply for admissions as a transfer or post-undergraduate student.

Transfer Students: Students who attended an educational institution after graduating from high school or earning their GED must apply as transfer students. For more information, visit the admissions website for transfer students.

Admission policies for undergraduate students may be found in the University Catalog's Academic Policies.

Students may be required to meet certain criteria to progress in their program. Any progression requirements will be listed on the program's Coursework tab

Admission Requirements

- Master's degree in nursing or a doctorate in nursing practice from an accredited nursing program
- Minimum 3.000 graduate GPA on a 4.000-point scale
- Official transcript(s) of all previous graduate coursework[1]
- Active, unrestricted registered nurse license in the state in which practicum hours will be completed
- Curriculum vitae
- Goal statement (no more than 250 words) describing reasons for seeking the certificate in the identified specialty and professional goals *(starting with spring 2026 admission term, goal statement is no longer required)*
- Admission essay *is required starting with spring 2026 admission term* responding to the following questions (two pages, double spaced, 500 words):
  - How do you plan to contribute to the nursing profession and healthcare community after earning your M.S.N. degree?
  - How has your experience, professional development and service within the profession contributed to your readiness for graduate education?
  - What experience do you have working as a nurse caring for the underserved, high-risk, or vulnerable populations?
- Syllabi of all courses to considered for transfer in the gap analysis
- Three professional letters of reference from healthcare professionals, either a supervisor and/or an advanced practice nurse who can speak to the applicant's professional capabilities
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet **specific exceptions to waive**) by earning one of the following:[2]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

[1] For applicants who have not practiced as an advanced practice registered nurse within the two-year period preceding application to the certificate, completion of graduate-level courses in advanced pathophysiology, advanced pharmacology and advanced health assessment must not be greater than five years old at the time of the student's first semester of course registration in the certificate.

[2] International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 1
- **Spring Semester**
  - Priority deadline: October 1
- **Summer Term**
  - Priority deadline: March 1

All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by these deadlines will receive the strongest consideration for admission.

Graduation Requirements

Minimum Certificate GPA	Minimum Overall GPA
3.000	3.000

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet standards for advanced practice certification or other advanced professional distinction.
2. Demonstrate competencies based on professional standards to assume advanced roles in nursing and for leadership and career advancement, including doctoral study.
3. Communicate, integrate and apply advanced nursing knowledge and skills to provide equitable, evidence-based and inclusive nursing care, and to promote quality outcomes in nursing and health care.

Program Policies

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.
5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica

in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Time Limit for Graduate Nursing Courses

Certain courses are critical to be completed within a timely manner for patient safety as well as student success in the program. This policy ensures that clinical skills and critical knowledge learned in specific courses taken three or more years ago are refreshed before moving to more advanced levels of practice.

Students who have stopped out of the clinical sequence of courses for a period of time must repeat the following practicum and corequisite lecture courses if they are three of more years old:

- NURS 60110 and NURS 61192
- NURS 60120 and NURS 61292
- NURS 60125 and NURS 61892
- NURS 60126 and NURS 61392
- NURS 60126 and NURS 61892
- NURS 60129 and NURS 61092
- NURS 60151 and NURS 61592
- NURS 60160 and NURS 61692
- NURS 60170 and NURS 61792
- NURS 60210 and NURS 62192
- NURS 60220 and NURS 62292
- NURS 60230 and NURS 62392
- NURS 60251 and NURS 63592
- NURS 60270 and NURS 62792
- NURS 60310 and NURS 63192
- NURS 60320 and NURS 63692
- NURS 60325 and NURS 63292
- NURS 60330 and NURS 63392
- NURS 60353 and NURS 64592
- NURS 60370 and NURS 63792
- NURS 60372 and NURS 63992
- NURS 60470 and NURS 64792
- NURS 62592
- NURS 66100 and NURS 66192
- NURS 66200 and NURS 66292
- NURS 66300 and NURS 66392
- NURS 66400 and NURS 66492

Certifying agencies and state licensing requirements for advanced practice registered nurses have time limits for critical courses. Courses completed outside of this time frame may need to be repeated prior to seeking national certification. Students are advised to check with certifying agencies and state licensing agencies upon admission to determine if the age of their prior courses will meet requirements.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Adult Gerontology Clinical Nurse Specialist - Graduate Certificate

College of Nursing

Admission Requirements

- Master's degree in nursing or a doctorate in nursing practice from an accredited nursing program
- Minimum 3.000 graduate GPA on a 4.000-point scale
- Official transcript(s) of all previous graduate coursework[1]
- Active, unrestricted registered nurse license in the state in which practicum hours will be completed
- Curriculum vitae
- Goal statement (no more than 250 words) describing reasons for seeking the certificate in the identified specialty and professional goals *(starting with spring 2026 admission term, goal statement is no longer required)*
- Admission essay *is required starting with spring 2026 admission term* responding to the following questions (two pages, double spaced, 500 words):
  - How do you plan to contribute to the nursing profession and healthcare community after earning your M.S.N. degree?

- How has your experience, professional development and service within the profession contributed to your readiness for graduate education?
- What experience do you have working as a nurse caring for the underserved, high-risk or vulnerable populations?

- Syllabi of all courses to considered for transfer in the gap analysis
- Three professional letters of reference from healthcare professionals, either a supervisor and/or an advanced practice nurse who can speak to the applicant's professional capabilities
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet **specific exceptions to waive**) by earning one of the following:[2]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

[1] For applicants who have not practiced as an advanced practice registered nurse within the two-year period preceding application to the certificate, completion of graduate-level courses in advanced pathophysiology, advanced pharmacology and advanced health assessment must not be greater than five years old at the time of the student's first semester of course registration in the certificate.

[2] International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 1
- **Spring Semester**
  - Priority deadline: October 1
- **Summer Term**
  - Priority deadline: March 1

All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by these deadlines will receive the strongest consideration for admission.

Program Requirements

[1] This course may be waived or transferred if it was previously completed with a grade of B or better. Please refer to the Transfer of Graduate Credit Policy for more information.

Graduation Requirements

Minimum Certificate GPA	Minimum Overall GPA
3.000	3.000

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet standards for advanced practice certification or other advanced professional distinction.
2. Demonstrate competencies based on professional standards to assume advanced roles in nursing and for leadership and career advancement, including doctoral study.
3. Communicate, integrate and apply advanced nursing knowledge and skills to provide equitable, evidence-based and inclusive nursing care and to promote quality outcomes in nursing and health care.

Program Policies

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.

5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Time Limit for Graduate Nursing Courses

Certain courses are critical to be completed within a timely manner for patient safety as well as student success in the program. This policy ensures that clinical skills and critical knowledge learned in specific courses taken three or more years ago are refreshed before moving to more advanced levels of practice.

Students who have stopped out of the clinical sequence of courses for a period of time must repeat the following practicum and corequisite lecture courses if they are three of more years old:

- NURS 60110 and NURS 61192
- NURS 60120 and NURS 61292
- NURS 60125 and NURS 61892
- NURS 60126 and NURS 61392
- NURS 60126 and NURS 61892
- NURS 60129 and NURS 61092
- NURS 60151 and NURS 61592
- NURS 60160 and NURS 61692
- NURS 60170 and NURS 61792
- NURS 60210 and NURS 62192
- NURS 60220 and NURS 62292
- NURS 60230 and NURS 62392
- NURS 60251 and NURS 63592
- NURS 60270 and NURS 62792
- NURS 60310 and NURS 63192
- NURS 60320 and NURS 63692
- NURS 60325 and NURS 63292
- NURS 60330 and NURS 63392
- NURS 60353 and NURS 64592
- NURS 60370 and NURS 63792
- NURS 60372 and NURS 63992
- NURS 60470 and NURS 64792
- NURS 62592
- NURS 66100 and NURS 66192
- NURS 66200 and NURS 66292
- NURS 66300 and NURS 66392
- NURS 66400 and NURS 66492

Certifying agencies and state licensing requirements for advanced practice registered nurses have time limits for critical courses. Courses completed outside of this time frame may need to be repeated prior to seeking national certification. Students are advised to check with certifying agencies and state licensing agencies upon admission to determine if the age of their prior courses will meet requirements.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Adult Gerontology Primary Care Nurse Practitioner - Graduate Certificate

College of Nursing
www.kent.edu/nursing

About This Program

The Adult Gerontology Primary Care Nurse Practitioner graduate certificate provides nurses who already have a graduate nursing degree the additional specialized knowledge for the adult gerontology primary care nurse practitioner role. The certificate meets the educational requirements for the national certification examination.

NURS 67300	POPULATION HEALTH AND SEXUAL ASSAULT	3
NURS 67392	SEXUAL ASSAULT NURSE EXAMINER III PRACTICUM	1
	Credit Hours	**4**
	Minimum Total Credit Hours:	**12**

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet standards for advanced professional distinction.
2. Assume an advanced role in nursing and for leadership and career advancement.
3. Communicate, integrate and apply advanced nursing knowledge and skills to provide evidence-based, culturally sensitive nursing care and promote quality outcomes in nursing and healthcare.

Program Policies

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.
5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Time Limit for Graduate Nursing Courses

Certain courses are critical to be completed within a timely manner for patient safety as well as student success in the program. This policy ensures that clinical skills and critical knowledge learned in specific courses taken three or more years ago are refreshed before moving to more advanced levels of practice.

Students who have stopped out of the clinical sequence of courses for a period of time must repeat the following practicum and corequisite lecture courses if they are three of more years old:

- NURS 60110 and NURS 61192
- NURS 60120 and NURS 61292
- NURS 60125 and NURS 61892
- NURS 60126 and NURS 61392
- NURS 60126 and NURS 61892
- NURS 60129 and NURS 61092
- NURS 60151 and NURS 61592
- NURS 60160 and NURS 61692
- NURS 60170 and NURS 61792
- NURS 60210 and NURS 62192
- NURS 60220 and NURS 62292
- NURS 60230 and NURS 62392
- NURS 60251 and NURS 63592
- NURS 60270 and NURS 62792
- NURS 60310 and NURS 63192
- NURS 60320 and NURS 63692
- NURS 60325 and NURS 63292
- NURS 60330 and NURS 63392
- NURS 60353 and NURS 64592
- NURS 60370 and NURS 63792
- NURS 60372 and NURS 63992
- NURS 60470 and NURS 64792
- NURS 62592
- NURS 66100 and NURS 66192
- NURS 66200 and NURS 66292
- NURS 66300 and NURS 66392
- NURS 66400 and NURS 66492

Certifying agencies and state licensing requirements for advanced practice registered nurses have time limits for critical courses. Courses completed outside of this time frame may need to be repeated prior

to seeking national certification. Students are advised to check with certifying agencies and state licensing agencies upon admission to determine if the age of their prior courses will meet requirements.

Full Description

The Adult/Adolescent Sexual Assault Nurse Examiner graduate certificate provides registered nurses the specialized training necessary to be certified as a sexual assault nurse examiner (SANE) for adult and adolescent patients. A SANE provides comprehensive care to victims of sexual assault or abuse. In addition, they conduct a forensic examination and may provide expert testimony if a case goes to trial.

Nurses receive their SANE certification through the International Association of Forensic Nurses, Commission on Forensic Nursing Certification. To be certified, nurses with a minimum of two years of full-time experience must have completed a minimum of 40 hours of sexual assault education; worked under the supervision of an expert (e.g., SANE-certified nurse); performed enough sexual assault exams to demonstrate clinical competency; and successfully passed a certification test.

The certificate's didactic courses will be offered on-ground and online at the Kent Campus, and the practicum experiences will be conducted at the Sexual Assault Evidence Collection and Care Facility of Cleveland Clinic Akron General.

Family Nurse Practitioner - Graduate Certificate

College of Nursing
www.kent.edu/nursing

About This Program

The Family Nurse Practitioner graduate certificate provides nurses who already have a graduate nursing degree to acquire the additional specialized knowledge and clinical experience for the family nurse practitioner role. The certificate meets the educational requirements for the national certification examination.

- Active, unrestricted registered nurse license in the state in which practicum hours will be completed
- Curriculum vitae
- Goal statement (no more than 250 words) describing reasons for seeking the certificate in the identified specialty and professional goals *(starting with spring 2026 admission term, goal statement is no longer required)*
- Admission essay *is required starting with spring 2026 admission term* responding to the following questions (two pages, double spaced, 500 words):
  - How do you plan to contribute to the nursing profession and healthcare community after earning your M.S.N. degree?
  - How has your experience, professional development and service within the profession contributed to your readiness for graduate education?
  - What experience do you have working as a nurse caring for the underserved, high-risk or vulnerable populations?
- Syllabi of all courses to considered for transfer in the gap analysis
- Three professional letters of reference from healthcare professionals, either a supervisor and/or an advanced practice nurse who can speak to the applicant's professional capabilities
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet **specific exceptions to waive**) by earning one of the following:[2]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

[1] For applicants who have not practiced as an advanced practice registered nurse within the two-year period preceding application to the certificate, completion of graduate-level courses in advanced pathophysiology, advanced pharmacology and advanced health assessment must not be greater than five years old at the time of the student's first semester of course registration in the certificate.

[2] International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 1
- **Spring Semester**
  - Priority deadline: October 1
- **Summer Term**
  - Priority deadline: March 1

All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by these deadlines will receive the strongest consideration for admission.

Program Requirements

Certificate Requirements

Code	Title	Credit Hours
Certificate Requirements		
NURS 60015	ADVANCED HEALTH ASSESSMENT [1]	3
NURS 60045	PATHOPHYSIOLOGY FOR THE ADVANCED PRACTICE REGISTERED NURSE [1]	3
NURS 60120	ADULT GERONTOLOGY PRIMARY CARE I	3
NURS 60125	FAMILY AND ADULT GERONTOLOGY NURSE PRACTITIONER ROLE	1
NURS 60160	PRIMARY CARE PEDIATRICS	3
NURS 60220	PRIMARY CARE II: CHRONICALLY ILL ADULTS	3
NURS 60325	PRIMARY CARE: FAMILY HEALTH AND CHRONIC ILLNESS	4
NURS 60441	PHARMACOLOGY FOR THE ADVANCED PRACTICE REGISTERED NURSE [1]	3
NURS 60506	CLINICAL DIAGNOSTICS FOR ADVANCED PRACTICE NURSES	3
NURS 61292	ADULT GERONTOLOGY PRIMARY CARE I PRACTICUM	2
NURS 61692	PRIMARY CARE PEDIATRICS PRACTICUM	1-2
NURS 61892	FAMILY AND ADULT GERONTOLOGY NURSE PRACTITIONER ROLE PRACTICUM	1
NURS 62292	PRIMARY CARE II PRACTICUM: CHRONICALLY ILL ADULTS	2
NURS 63292	PRIMARY CARE: FAMILY HEALTH AND CHRONIC ILLNESS PRACTICUM	2
Minimum Total Credit Hours:		**34**

[1] This course may be waived or transferred if it was previously completed with a grade of B or better. Please refer to the Transfer of Graduate Credit Policy for more information.

Graduation Requirements

Minimum Certificate GPA	Minimum Overall GPA
3.000	3.000

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet standards for advanced practice certification or other advanced professional distinction.
2. Demonstrate competencies based on professional standards to assume advanced roles in nursing and for leadership and career advancement, including doctoral study.
3. Communicate, integrate and apply advanced nursing knowledge and skills to provide equitable, evidence-based and inclusive nursing care, and to promote quality outcomes in nursing and health care.

Program Policies

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.
5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Time Limit for Graduate Nursing Courses

Certain courses are critical to be completed within a timely manner for patient safety as well as student success in the program. This policy ensures that clinical skills and critical knowledge learned in specific courses taken three or more years ago are refreshed before moving to more advanced levels of practice.

Students who have stopped out of the clinical sequence of courses for a period of time must repeat the following practicum and corequisite lecture courses if they are three of more years old:

- NURS 60110 and NURS 61192
- NURS 60120 and NURS 61292
- NURS 60125 and NURS 61892
- NURS 60126 and NURS 61392
- NURS 60126 and NURS 61892
- NURS 60129 and NURS 61092
- NURS 60151 and NURS 61592
- NURS 60160 and NURS 61692
- NURS 60170 and NURS 61792
- NURS 60210 and NURS 62192
- NURS 60220 and NURS 62292
- NURS 60230 and NURS 62392
- NURS 60251 and NURS 63592
- NURS 60270 and NURS 62792
- NURS 60310 and NURS 63192
- NURS 60320 and NURS 63692
- NURS 60325 and NURS 63292
- NURS 60330 and NURS 63392
- NURS 60353 and NURS 64592
- NURS 60370 and NURS 63792
- NURS 60372 and NURS 63992
- NURS 60470 and NURS 64792
- NURS 62592
- NURS 66100 and NURS 66192
- NURS 66200 and NURS 66292
- NURS 66300 and NURS 66392
- NURS 66400 and NURS 66492

Certifying agencies and state licensing requirements for advanced practice registered nurses have time limits for critical courses. Courses completed outside of this time frame may need to be repeated prior to seeking national certification. Students are advised to check with certifying agencies and state licensing agencies upon admission to determine if the age of their prior courses will meet requirements.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Nurse Educator - Graduate Certificate

College of Nursing

www.kent.edu/nursing

About This Program

The Nurse Educator graduate certificate provides nurses who already have a graduate nursing degree the additional specialized knowledge and experience for the nurse educator role. The certificate meets the educational requirements for national certification examination.

  - In person
- **Location:**
  - Geauga Campus (Nursing major only)
  - Kent Campus (Nursing major and Accelerated Second Degree and LPN and Allied Health concentrations)
  - Salem Campus (Nursing major only)
  - Stark Campus (Nursing major only)
  - Trumbull Campus (Nursing major only)

Examples of Possible Careers and Salaries*

Registered nurses

- 7.2% faster than the average
- 3,096,700 number of jobs
- $75,330 potential earnings

Teaching assistants, postsecondary

- 3.4% about as fast as the average
- 169,600 number of jobs
- $36,250 potential earnings

Medical and health services managers

- 31.5% much faster than the average
- 422,300 number of jobs
- $104,280 potential earnings

Accreditation

The B.S.N. degree in Nursing at Kent State University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

New Students

Traditional Admission

Admission to the Nursing major is selective; the process is competitive, and acceptance is never guaranteed. Prospective applicants must have:

- Completed high school-level mathematics, biology and chemistry.
- Achieved one of the following:
  - Minimum 2.700 overall high school GPA (on a 4.000-point scale); and a minimum 22 ACT composite or a minimum 1100 SAT score; or
  - Minimum 3.000 overall high school GPA (on a 4.000-point scale).

Early Admission

Early admission students are granted admission to the professional nursing sequence as new students provided they meet the early admission criteria and maintain the progression requirements. Students must signify they want to be considered for early admission and agree to declare Kent State as their college of choice. The early admission program has a limited number of seats, with an emphasis on students who can enhance the College of Nursing's mission to improve healthy living in a diverse, changing society.

Transfer Students

Traditional Admission

Admission to the Nursing major requires a minimum 2.750 overall GPA and completion of 12 college credit hours from an institutional-accredited college or university.

Transfer students who have successfully completed a minimum 12 credit hours at Kent State University will be evaluated on their Kent State overall GPA only, *along with the prerequisite criteria for admission into the Professional Nursing Sequence.*

Direct Admission

Admission to the Professional Nursing Sequence requires meeting prerequisite criteria. Students who have failed out of another nursing program are not eligible for admission to Kent State's B.S.N. degree.

Transfer students from another accredited B.S.N. degree who have completed at least one laboratory or clinical course must have achieved the following for admission to Kent State's B.S.N. degree:

- Minimum 3.200 overall GPA in all college-level coursework
- Minimum 2.750 GPA for the required (or equivalent) science courses in Kent State's B.S.N. degree: BSCI 21010 and BSCI 21020 and BSCI 20021 (or BSCI 30171) and CHEM 10050 (or CHEM 10055 or CHEM 10060)
- Minimum C grade in the following prerequisite courses:
  - Anatomy and Physiology (BSCI 21010 and BSCI 21020)
  - Microbiology (BSCI 20021 or BSCI 30171)
  - Genetics (BSCI 30050 or BSCI 30156)
  - Chemistry (CHEM 10050, CHEM 10055 or CHEM 10060)
  - Mathematics (MATH 10040 or MATH 10041)
- Good academic standing at current college or university

Students who want to be considered for direct admission to Kent State's B.S.N. program must complete the Direct Admission Request.

Admission to the Accelerated Second Degree Concentration

Admission to the Accelerated Second Degree concentration requires a completed bachelor's degree with a minimum 2.750 overall GPA. Students who have failed out of a nursing program are not eligible to apply to the Accelerated Second Degree concentration. Accelerated students must have all college-level core and nursing prerequisite courses complete:

- Anatomy and Physiology (BSCI 21010 and BSCI 21020)
- Microbiology (BSCI 20021 or BSCI 30171)
- Chemistry (CHEM 10050, CHEM 10055 or CHEM 10060)
- Human Growth and Development (NURS 20950)
- Minimum 2.750 overall GPA and minimum 2.750 science GPA
- Minimum C grade in all science and mathematics courses

Admission to the LPN and Allied Health Concentration

Admission to the LPN and Allied Health concentration is selective; the process is competitive, and acceptance is never guaranteed. Prospective applicants must have:

- Completed high school-level mathematics, biology and chemistry.
- Achieved one of the following:
  - Minimum 2.700 overall high school GPA (on a 4.000-point scale); and a minimum 22 ACT composite or a minimum 1100 SAT score; or
  - Minimum 3.000 overall high school GPA (on a 4.000-point scale).

International Students

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Program Requirements

Major Requirements

Code	Title	Credit Hours
Major Requirements (courses count in major GPA)		
BSCI 20021	BASIC MICROBIOLOGY (min C grade in either course)	3-4

or BSCI 30171	GENERAL MICROBIOLOGY	
BSCI 30050	HUMAN GENETICS (min C grade in either course)	3
or BSCI 30156	ELEMENTS OF GENETICS	
NURS 20025	PHARMACOLOGY AND ALTERATIONS IN PHYSIOLOGICAL FUNCTIONING I (min C grade)	3
NURS 20950	HUMAN GROWTH AND DEVELOPMENT FOR HEALTH PROFESSIONALS (min C grade)	3
NURS 30010	PARENT AND NEWBORN NURSING (min C grade)	4
NURS 30020	HEALTH CARE OF CHILDREN (min C grade)	4
NURS 30025	PHARMACOLOGY AND ALTERATIONS IN PHYSIOLOGICAL FUNCTIONING II (min C grade)	3
NURS 30035	NURSING OF ADULTS ACROSS THE LIFESPAN (min C grade)	9
NURS 30050	BASIC NURSING INFORMATICS (min C grade)	2
NURS 30071	HEALTH CARE POLICY FOR THE B.S.N. NURSE (min C grade) [1]	2-3
or NURS 40089	INTERNATIONAL HEALTH CARE POLICIES (DIVG) (ELR) (WIC)	
NURS 40010	NURSING OF THE CRITICALLY ILL (min C grade)	4
NURS 40020	COMMUNITY HEALTH NURSING (DIVG) (min C grade)	4
NURS 40030	PSYCHIATRIC MENTAL HEALTH NURSING (min C grade)	4
NURS 40036	SENIOR COMPETENCY LABORATORY (min C grade)	2
NURS 40045	INTEGRATION OF LEADERSHIP AND MANAGEMENT IN NURSING (ELR) (min C grade)	6
NUTR 23511	SCIENCE OF HUMAN NUTRITION (KBS)	3
Additional Requirements (courses do not count in major GPA)		
BSCI 21010	ANATOMY AND PHYSIOLOGY I (KBS) (KLAB) (min C grade) [2]	4
BSCI 21020	ANATOMY AND PHYSIOLOGY II (min C grade) [2]	4
CHEM 10050	FUNDAMENTALS OF CHEMISTRY (KBS) (min C grade in one course)	3-4
or CHEM 10055	MOLECULES OF LIFE (KBS)	
or CHEM 10060	GENERAL CHEMISTRY I (KBS)

or SOC 22778	SOCIAL PROBLEMS (DIVG) (KSS)	
UC 10001	FLASHES 101	1
Kent Core Composition		6
Kent Core Humanities and Fine Arts (minimum one course from each)		9
Kent Core Additional		3
Additional Requirements or Concentration		
Choose from the following:		25-27
Additional Requirements for Students Not Declaring a Concentration		
Accelerated Second Degree Concentration		
LPN and Allied Health Concentration		
Minimum Total Credit Hours:		**120-122**

[1] NURS 40089 is only offered in another country for students who travel abroad. A minimum C grade must be earned to fulfill the writing-intensive requirement.

[2] Students who have successfully completed ATTR 25057 (or EXSC 25057) and ATTR 25058 (or EXSC 25058) with a minimum C grade may use those courses in place of BSCI 21010 and BSCI 21020.

Additional Requirements for Students Not Declaring a Concentration

Code	Title	Credit Hours
Major Requirements (courses count in major GPA) (min C grade required in all courses)		
MATH 10040	INTRODUCTORY STATISTICS PLUS (KMCR)	4-5
or MATH 10041	INTRODUCTORY STATISTICS (KMCR)	
NURS 10060	INTRODUCTION TO PROFESSIONAL NURSING PRACTICE	3
NURS 20005	CLINICAL CALCULATIONS IN NURSING I	1
NURS 20015	CLINICAL CALCULATIONS IN NURSING II	2
NURS 20020	FOUNDATIONS OF ASSESSMENT AND COMMUNICATION IN NURSING	3
NURS 20030	FOUNDATIONS OF NURSING INTERVENTIONS	5
NURS 40005	PROFESSIONAL NURSING DEVELOPMENT	3
NURS 40874	EVIDENCE-BASED PRACTICE FOR NURSES (WIC) [1]	3
NURS 45060	NCLEX REVIEW PREPARATION	3
Minimum Total Credit Hours:		**27**

[1] A minimum C grade must be earned to fulfill the writing-intensive requirement.

Accelerated Second Degree Concentration Requirements

Code	Title	Credit Hours
Concentration Requirements (courses count in major GPA) (min C grade required in all courses)		
NURS 20035	ACCELERATED CLINICAL CALCULATIONS	2
NURS 20040	FUNDAMENTALS OF NURSING	8
NURS 40026	PROFESSIONAL AND EVIDENCE-BASED PRACTICE FOR THE ACCELERATED B.S.N. (WIC) [1]	3
NURS 45060	NCLEX REVIEW PREPARATION	2-3
or NURS 45075	NCLEX SUCCESS	
Statistics Elective, choose from the following (min C grade):		3-5
BA 24056	BUSINESS ANALYTICS I	
EXSC 35068	STATISTICS FOR THE EXERCISE SCIENTIST	
MATH 10040	INTRODUCTORY STATISTICS PLUS (KMCR)	
MATH 10041	INTRODUCTORY STATISTICS (KMCR)	
MATH 12022	PROBABILITY AND STATISTICS FOR LIFE SCIENCES	
MATH 30011	BASIC PROBABILITY AND STATISTICS	
NURS 31010	APPLICATIONS FOR STATISTICAL FINDINGS FOR EVIDENCE BASED PRACTICE	
PH 30002	INTRODUCTORY BIOSTATISTICS	
PSYC 21621	QUANTITATIVE METHODS IN PSYCHOLOGY I	
Additional Requirements (courses do not count in major GPA)		
General Electives (total credit hours depends on earning 120 credit hours, including 39 upper-division credit hours)		7
Minimum Total Credit Hours:		**25**

[1] A minimum C grade must be earned to fulfill the writing-intensive requirement.

LPN and Allied Health Concentration Requirements

Code	Title	Credit Hours
Concentration Requirements (courses count in major GPA) (min C grade required in all courses)		
MATH 10040	INTRODUCTORY STATISTICS PLUS (KMCR)	4-5
or MATH 10041	INTRODUCTORY STATISTICS (KMCR)	
NURS 10060	INTRODUCTION TO PROFESSIONAL NURSING PRACTICE	3
NURS 20035	ACCELERATED CLINICAL CALCULATIONS	2
NURS 20040	FUNDAMENTALS OF NURSING	8
NURS 40005	PROFESSIONAL NURSING DEVELOPMENT	3
NURS 40874	EVIDENCE-BASED PRACTICE FOR NURSES (WIC) [1]	3
NURS 45060	NCLEX REVIEW PREPARATION	3
Minimum Total Credit Hours:		**26**

[1] A minimum C grade must be earned to fulfill the writing-intensive requirement.

Progression Requirements

- All students in the B.S.N. degree must have a minimum 2.000 overall GPA each semester to continue in the program; failure to achieve this GPA each semester will result in not permitted to continue in the program.
- All students in the B.S.N. degree must have earned a minimum C grade in each science course required in the B.S.N. curriculum. All required biology and chemistry courses must be successfully completed with a minimum C grade to graduate with the B.S.N. degree.
- Students in the traditional (no concentration) program and Accelerated Second Degree concentration must have a minimum C grade in each of the sophomore nursing courses to progress to the junior nursing sequence.
- Students in the traditional (no concentration) program must have a minimum C grade in each of the junior nursing courses (NURS 30010, NURS 30020 and NURS 30035) to progress to the senior nursing sequence.
- All students in the B.S.N. degree must have a minimum C grade in each of the senior nursing courses (NURS 40010, NURS 40020, NURS 40030 and NURS 40045) to progress and graduate.
- Students in the traditional (no concentration) program and LPN and Allied Health concentration must have a minimum C grade in each of the senior nursing courses (NURS 40005 and NURS 40874) to progress and graduate.
- Students in the Accelerated Second Degree concentration and LPN and Allied Health concentration may take junior- and senior-level courses concurrently as specified by their curriculum.
- Students in the traditional (no concentration) program may take a maximum of two clinical courses each semester.
- Students in the Accelerated Second Degree concentration and LPN and Allied Health concentration are permitted to take three clinical courses each term, as specified by their curriculum.
- Students in the Accelerated Second Degree concentration and LPN and Allied Health concentration who do not earn a minimum C grade in any nursing courses will no longer be permitted to take three clinical courses in a semester.

Professional Nursing Sequence

Students are eligible to apply to the Professional Nursing Sequence during the semester in which they anticipate completing or have completed 30 credit hours. Admission to the Professional Nursing Sequence is based on overall GPA and science GPA. Students who completed required prerequisite science courses while in the College Credit Plus (CCP) program may elect to repeat prerequisite science courses to be used in the calculation of the science GPA.

Students must meet all the following requirements to be eligible for admission to the Professional Nursing Sequence:

- Minimum 2.750 overall GPA
- Minimum 2.750 GPA in the required sciences:
  - BSCI 20021 or BSCI 30171
  - BSCI 21010
  - BSCI 21020
  - CHEM 10050 or CHEM 10055 or CHEM 10060
- Minimum C grade in each of the prerequisite courses:
  - BSCI 20021 or BSCI 30171
  - BSCI 21010
  - BSCI 21020
  - CHEM 10050 or CHEM 10055 or CHEM 10060
  - MATH 10040 or MATH 10041
- Candidates who meet the admission criteria for the Professional Nursing Sequence will be selected using a holistic admission process including the individual's personal experiences, attributes and metrics.

Professional Nursing Sequence for LPN and Allied Health Concentration

Students in the LPN and Allied Health concentration will need to complete all core and prerequisite coursework to be admitted to the Professional Nursing Sequence. Admission is competitive and is never guaranteed.

Admission checklist for the Professional Nursing Sequence for students in the LPN and Allied Health concentration:

- Students are eligible to make application during the semester in which they anticipate completing, or have completed the core courses, along with:
  - BSCI 20021 or BSCI 30171
  - BSCI 21010
  - BSCI 21020
  - BSCI 30050 or BSCI 30156
  - CHEM 10050, CHEM 10055 or CHEM 10060
  - MATH 10040 or MATH 10041 or NURS 31010 or PH 30002 or PSYC 21621
  - NURS 10060
  - NURS 20950
  - NUTR 23511
  - PSYC 11762

- SOC 12050 or SOC 22778
- UC 10001

- Minimum 2.750 overall GPA and minimum 2.750 science GPA
- Minimum C grade in all science and mathematics courses
- Unrestricted practice license (priority admission is given to students with two or more years of practice in their field)

The collage dean may review the student's educational files to determine if adequate progression has been made.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
2.000	2.000

- Minimum C grade is required in all specified NURS, BSCI, CHEM and Kent Core MATH courses.
- Students must earn a combined minimum 2.750 GPA in BSCI 21010 **and** BSCI 21020 **and** BSCI 20021 (or BSCI 30171) **and** CHEM 10050 (or CHEM 10055 or CHEM 10060).

Roadmaps

Nursing Major (No Concentration)

This roadmap is a recommended semester-by-semester plan of study for this program. Students will work with their advisor to develop a sequence based on their academic goals and history. Courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

	Semester One		**Credits**
!	BSCI 21010	ANATOMY AND PHYSIOLOGY I (KBS) (KLAB)	4
	CHEM 10050 or CHEM 10055 or CHEM 10060	FUNDAMENTALS OF CHEMISTRY (KBS) or MOLECULES OF LIFE (KBS) or GENERAL CHEMISTRY I (KBS)	3-4
	MATH 10040 or MATH 10041	INTRODUCTORY STATISTICS PLUS (KMCR) or INTRODUCTORY STATISTICS (KMCR)	4-5
	NURS 10060	INTRODUCTION TO PROFESSIONAL NURSING PRACTICE	3
	UC 10001	FLASHES 101	1
		Credit Hours	**15**
	Semester Two		
	BSCI 20021 or BSCI 30171	BASIC MICROBIOLOGY or GENERAL MICROBIOLOGY	3-4
	BSCI 21020	ANATOMY AND PHYSIOLOGY II	4
	PSYC 11762	GENERAL PSYCHOLOGY (DIVD) (KSS)	3
	Kent Core Requirement		3
	Kent Core Requirement		3
		Credit Hours	**16**
	Semester Three		
	Requirement: Students must be admitted to the Professional Nursing Sequence to progress.		
	BSCI 30050 or BSCI 30156	HUMAN GENETICS or ELEMENTS OF GENETICS	3
	NURS 20005	CLINICAL CALCULATIONS IN NURSING I	1
!	NURS 20020	FOUNDATIONS OF ASSESSMENT AND COMMUNICATION IN NURSING	3
	NURS 20950	HUMAN GROWTH AND DEVELOPMENT FOR HEALTH PROFESSIONALS	3
	SOC 12050 or SOC 22778	INTRODUCTION TO SOCIOLOGY (DIVD) (KSS) or SOCIAL PROBLEMS (DIVG) (KSS)	3
	Kent Core Requirement		3
		Credit Hours	**16**
	Semester Four		
	NURS 20015	CLINICAL CALCULATIONS IN NURSING II	2
	NURS 20025	PHARMACOLOGY AND ALTERATIONS IN PHYSIOLOGICAL FUNCTIONING I	3
!	NURS 20030	FOUNDATIONS OF NURSING INTERVENTIONS	5
	NUTR 23511	SCIENCE OF HUMAN NUTRITION (KBS)	3
		Credit Hours	**13**
	Semester Five		
	Requirement: minimum overall 2.000 GPA		
	NURS 30025	PHARMACOLOGY AND ALTERATIONS IN PHYSIOLOGICAL FUNCTIONING II	3
!	NURS 30035	NURSING OF ADULTS ACROSS THE LIFESPAN	9
	NURS 30071 or NURS 40089	HEALTH CARE POLICY FOR THE B.S.N. NURSE or INTERNATIONAL HEALTH CARE POLICIES (DIVG) (ELR) (WIC)	2-3
		Credit Hours	**14**
	Semester Six		
!	NURS 30010	PARENT AND NEWBORN NURSING	4
!	NURS 30020	HEALTH CARE OF CHILDREN	4
!	NURS 30050	BASIC NURSING INFORMATICS	2
	NURS 40874	EVIDENCE-BASED PRACTICE FOR NURSES (WIC)	3
	Kent Core Requirement		3
		Credit Hours	**16**
	Semester Seven		
	Requirement: minimum overall 2.000 GPA		
	NURS 40005	PROFESSIONAL NURSING DEVELOPMENT	3
!	NURS 40020	COMMUNITY HEALTH NURSING (DIVG)	4
!	NURS 40030	PSYCHIATRIC MENTAL HEALTH NURSING	4
	NURS 40036	SENIOR COMPETENCY LABORATORY	2
	Kent Core Requirement		3
		Credit Hours	**16**
	Semester Eight		
!	NURS 40010	NURSING OF THE CRITICALLY ILL	4
!	NURS 40045	INTEGRATION OF LEADERSHIP AND MANAGEMENT IN NURSING (ELR)	6
!	NURS 45060	NCLEX REVIEW PREPARATION	3
	Kent Core Requirement		3
		Credit Hours	**16**
		Minimum Total Credit Hours:	**122**

Accelerated Second Degree Concentration

This roadmap is a recommended semester-by-semester plan of study for this program. Students will work with their advisor to develop a sequence based on their academic goals and history. Courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

Semester Prerequisite		Credits
BSCI 20021 or BSCI 30171	BASIC MICROBIOLOGY or GENERAL MICROBIOLOGY	3-4
BSCI 21010	ANATOMY AND PHYSIOLOGY I (KBS) (KLAB)	4
BSCI 21020	ANATOMY AND PHYSIOLOGY II	4
BSCI 30050 or BSCI 30156	HUMAN GENETICS or ELEMENTS OF GENETICS	3
CHEM 10050 or CHEM 10055 or CHEM 10060	FUNDAMENTALS OF CHEMISTRY (KBS) or MOLECULES OF LIFE (KBS) or GENERAL CHEMISTRY I (KBS)	3-4
NURS 20950	HUMAN GROWTH AND DEVELOPMENT FOR HEALTH PROFESSIONALS	3
NUTR 23511	SCIENCE OF HUMAN NUTRITION (KBS)	3
PSYC 11762	GENERAL PSYCHOLOGY (DIVD) (KSS)	3
SOC 12050 or SOC 22778	INTRODUCTION TO SOCIOLOGY (DIVD) (KSS) or SOCIAL PROBLEMS (DIVG) (KSS)	3
Statistics Elective		3-5
Kent Core Composition		6
Kent Core Humanities or Fine Arts		3
Kent Core Humanities		3
Kent Core Fine Arts		3
Kent Core Additional		3
General Electives		7
	Credit Hours	**57**
Semester One		
Requirement: combined minimum 2.750 GPA in BSCI 21010; and BSCI 21020; and BSCI 20021 or BSCI 30171; and CHEM 10050 or CHEM 10055 or CHEM 10060.		
NURS 20025	PHARMACOLOGY AND ALTERATIONS IN PHYSIOLOGICAL FUNCTIONING I	3
NURS 20035	ACCELERATED CLINICAL CALCULATIONS	2
NURS 20040	FUNDAMENTALS OF NURSING	8
NURS 30050	BASIC NURSING INFORMATICS	2
UC 10001	FLASHES 101	1
	Credit Hours	**16**
Semester Two		
NURS 30025	PHARMACOLOGY AND ALTERATIONS IN PHYSIOLOGICAL FUNCTIONING II	3
NURS 30035	NURSING OF ADULTS ACROSS THE LIFESPAN	9
NURS 30071 or NURS 40089	HEALTH CARE POLICY FOR THE B.S.N. NURSE or INTERNATIONAL HEALTH CARE POLICIES (DIVG) (ELR) (WIC)	2-3
NURS 40026	PROFESSIONAL AND EVIDENCE-BASED PRACTICE FOR THE ACCELERATED B.S.N. (WIC)	3
	Credit Hours	**17**
First Summer Term		
NURS 30010	PARENT AND NEWBORN NURSING	4
NURS 30020	HEALTH CARE OF CHILDREN	4
NURS 40020	COMMUNITY HEALTH NURSING (DIVG)	4
NURS 40036	SENIOR COMPETENCY LABORATORY	2
	Credit Hours	**14**
Semester Three		
NURS 40010	NURSING OF THE CRITICALLY ILL	4
NURS 40030	PSYCHIATRIC MENTAL HEALTH NURSING	4
NURS 40045	INTEGRATION OF LEADERSHIP AND MANAGEMENT IN NURSING (ELR)	6

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7
Kent Core Additional (KADL)	6
Total Credit Hours:	**36-37**

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet educational eligibility requirements to take the registered nurse licensing examination (National Certification and Licensure Exam).
2. Acquire competencies based on professional standards to assume the role of the professional nurse and for career advancement, including graduate studies.
3. Provide equitable evidence-based care to diverse populations as a member of a diverse, interprofessional team.

Program Policies

Assigning Out-of-Sequence Students to Clinical Nursing Courses

1. Students are responsible for contacting Student Services, Room 216, Henderson Hall to make arrangements for repeating a nursing course.
2. Readmission to the B.S.N. sequence for any reason is on a “space available” basis. Students already progressing in sequence have priority in placement over those requesting re-enrollment. Accelerated B.S.N. students have priority in summer scheduling.
3. Students are enrolled in courses using the following guidelines in order:
   a. Are in good standing but lost a semester with verified illness or military service.
   b. Have failed and successfully repeated a clinical course.
   c. Have withdrawn from one course.
   d. Have withdrawn from a course more than once.
   e. Cumulative grade point average at the time of registration.

Changing Campuses

1. Traditional and Accelerated B.S.N. students are admitted by campus and are required to complete the B.S.N. program at their admitted campus of origin.
2. Students wishing to change campuses during their program must comply with the following guidelines in order:
   a. Once campus rosters have been set based on the procedure for assigning students, students who are in-sequence and approved to switch campuses by the Associate Dean of Academics may be placed.
   b. Students who are out of sequence may switch campuses in order to repeat courses based on the order established for assigning out-of-sequence students. No approval by the Associate Dean of Academics is needed in this instance. Students will be directed

to return to their campus of origin, once they have successfully repeated their course at another campus.

c. Students should complete the Changing Campus Request Form to initiate a change.

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.
5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Course Withdrawal Policy

Students in the B.S.N. degree who withdraw from two NURS courses or from the same NURS course twice (i.e., W administrative mark on the student's transcript) will have that course or courses count as one failure in their program.

The following courses are excluded from the policy:

- NURS 10060
- NURS 20950
- NURS 31010

Not Permitted to Continue Policy within the College of Nursing

1. Undergraduate students who fail two NURS courses or one NURS course twice will not be permitted to continue in the professional nursing sequence.
   a. Exempt from the policy are the following courses: NURS 10060, NURS 20950 and approved topics under NURS 31095 or NURS 41095.
2. Students who have been reinstated into the B.S.N. degree and then fail one NURS course after reinstatement will not be permitted to continue in the major.
3. Students must have a minimum 2.000 overall GPA each semester to continue in the B.S.N. degree. Failure to achieve this GPA each semester will result in the student not being permitted to continue in the B.S.N. degree.
4. The College of Nursing retains the right to not permit a student to continue in the B.S.N. degree if deemed to violate:
   a. Any policy within the College of Nursing student handbooks or of affiliating facilities.
   b. Professional behavior and role development standards as outlined in College of Nursing, university or affiliating agency policies or handbooks.
5. Students who have been reinstated into the professional nursing sequence must earn a minimum C grade in all NURS courses. Failure to do so will result in those students being not permitted to continue in the professional nursing sequence.

Repeat of Nursing Courses

1. A student who does not attain a GPA of 2.000 (grade of C) in a nursing clinical course cannot proceed to the next academic level. A student who does not earn a 2.000 (grade of C) in a nursing course must repeat this course based on seat availability.
2. A student can repeat a single nursing course only one time. A student who earns below a 2.000 (grade of C) in a second (or is repeating a failure) nursing course will be not be permitted to continue in the program within the College of Nursing.
3. This policy excludes NURS 10060, NURS 20950 and NURS 31010.

4. Accelerated B.S.N. students who fail a course will no longer continue in the Accelerated concentration , but can continue in the Traditional B.S.N. program

Science GPA Calculation Policy

The first-year science GPA is calculated using the highest grade earned for each of the prerequisite science courses in the B.S.N. degree.

Uniform for Clinical Experience

1. The uniform consists of a white tunic top and blue pants embroidered with the Kent State University College of Nursing logo. Any student expecting a modification of the uniform should speak first with the Kent State University Associate Dean of Undergraduate Programs.
2. Students are required to purchase two sets of the official embroidered uniform, an embroidered white scrub jacket, and the required College of Nursing name tag, which must be worn at all times during each clinical experience (per Ohio Board of Nursing). Uniforms may only be purchased from the uniform company authorized to sell official Kent State University College of Nursing uniforms.
3. Female students who need a maternity uniform should contact the official Kent State University College of Nursing uniform company to purchase a maternity uniform embroidered with the Kent State University College of Nursing logo, similar to the typical tunic and pants.
4. Students requiring a uniform dress to meet religious guidelines should contact the official Kent State University College of Nursing uniform company to purchase a uniform embroidered with the Kent State University College of Nursing logo dress similar in style to the tunic top.
5. In selected areas such as obstetrics, community health, and psychiatric/mental health, scrubs or street clothes are worn. Specific apparel requirements for these areas are provided by the affiliating clinical agencies, the course syllabus and/or the faculty.
6. It is required that baccalaureate nursing students dress in a professional manner at all times in the clinical area. In order to maintain a professional appearance, a limited number of accessories may be worn with the uniform:
   a. A watch with a second hand, a single pair of plain gold or silver posts worn in the lower ear lobe of pierced ears and a wedding band are acceptable in most settings.
   b. A chain that does not show when worn may also be acceptable, depending on the clinical agency.
   c. Not permitted in the clinical area are visible piercings with jewelry in places other than the lower ear lobes (e.g. upper ear, nose, tongue, eyebrows, etc.). All open piercing must remain empty. Spacers are not permitted while attending clinical experiences.
7. While at the clinical agency, tattoos must be covered with a long sleeve top, white or neutral undershirt, socks or dressing/band aid.
8. If nail polish is worn, only a clear or light, neutral shade is permitted. Nails should be trimmed to avoid extending beyond the end of the fingers. Per OSHA rules, artificial nails may not be worn in any clinical facility.
9. Hair should be neat and worn above the collar in a style becoming to the person. If hair is longer than collar length, it must be pulled back to avoid contact with patients while performing procedures. Hair of unnatural color is unacceptable. Established beards are to be neatly trimmed. Males without beards are to be clean shaven.
10. Prior to the first clinical experience, students are required to provide documentation to the Assistant Dean of the Undergraduate program if they must adhere to specific religious dress and head covering restrictions
11. Shoes should be clean and in good repair. With the official Kent State University College of Nursing uniform, students may wear white nursing shoes; white, closed front clogs with backs; or white, leather athletic shoes, without large or colorful logos.
12. At all times during clinical experiences, students must adhere to the uniform code of Kent State University College of Nursing. Clinical agency policies may be more restrictive and require further or additional accommodations by students.

Full Description

The Bachelor of Science in Nursing degree in Nursing prepares practitioners for professional nursing, helps them understand their role in society and prepares them for graduate study. The program emphasizes professional knowledge, skills and compassionate nursing practices. Students begin with courses that demonstrate the core foundations of the nursing profession and its historical roots. The capstone preceptorship exposes students to research and professional-practice concepts that will ensure their abilities to be nurse leaders and healthcare advocates.

Throughout the curriculum, students study life-span and cultural diversity issues while applying evidence-based practice to their profession.

The Nursing major includes the following optional concentrations:

- The **Accelerated Second Degree** concentration is for students who hold a bachelor's degree and wish to pursue the B.S.N. degree in an accelerated manner.
- The **LPN and Allied Health** concentration is a bridge program designed to meet the unique demands of licensed practical nurses, paramedics, respiratory therapists, physical therapy assistants, occupational therapy assistants, field/combat medics and emergency medical technicians.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Examples of Possible Careers and Salaries*

Medical and health services managers

- 31.5% much faster than the average
- 422,300 number of jobs
- $104,280 potential earnings

Nurse practitioners

- 52.4% much faster than the average
- 211,300 number of jobs
- $111,680 potential earnings

Nursing instructors and teachers, postsecondary

- 17.6% much faster than the average
- 72,900 number of jobs
- $75,470 potential earnings

Accreditation

The D.N.P. degree in Nursing at Kent State University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Previous degree:
  - Executive Nurse concentration – master's degree in nursing or a related field
  - Nurse Administration and Executive Leadership concentration – bachelor's or master's pre-licensure degree in nursing
  - Practice Leadership concentration – bachelor's[1] or master's degree in nursing
- Minimum overall 3.000 GPA on a 4.000-point scale
- Official transcript(s)
- Completion of an undergraduate- or graduate-level statistics course with a minimum C grade
- Active, unrestricted registered nurse license in the state in which the student's practica will be completed
- Résumé or curriculum vitae that demonstrates professional experience in nursing
- Essay (300 words) describing professional goals and reasons for seeking the professional practice doctorate
- Three letters of reference from healthcare professionals or academic faculty who can speak to the applicant's professional and academic abilities
- Pre-admission interview
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[2]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

Students selected for admission to the nursing program must meet the College of Nursing's Clinical Compliance Policy. Priority admission to the Nurse Executive concentration will be given to candidates who hold American Nurses Credentialing Center (ANCC) certification or American Organization for Nursing Leadership (AONL) Nurse Executive certification or who have experience in nursing management or administration.

[1] Post-baccalaureate students admitted to the Practice Leadership concentration also will be admitted to the M.S.N. degree in one of the advanced practice registered nurses concentrations. This dual admit will allow students to complete M.S.N. coursework and enroll in some D.N.P. coursework after successfully completing their first two full-time semesters of graduate study. Students must first complete M.S.N. coursework, earn the M.S.N. degree and obtain APRN national certification before they can continue with D.N.P. coursework and earn the D.N.P. degree.

[2] International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 1
- **Spring Semester**
  - Priority deadline: October 1

All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by these deadlines will receive the strongest consideration for admission.

[1] NURS 70089 is only offered in another country for students who travel abroad.

Practice Leadership Concentration Requirements

Code	Title	Credit Hours
Concentration Requirements (min B grade in all courses)		
NURS 70089	INTERNATIONAL HEALTH CARE POLICIES [1]	3
or NURS 70685	HEALTHCARE FINANCE AND ECONOMIC POLICY	
NURS 70650	ORGANIZATIONAL SYSTEMS	3
Minimum Total Credit Hours:		**6**

[1] NURS 70089 is only offered in another country for students who travel abroad.

Progression Requirements

Student who do not earn a minimum B grade in a course must repeat it and cannot take other courses that require that course as a prerequisite until the course is successfully repeated. Students who do not earn a minimum B grade in the second attempt may be dismissed from the D.N.P. degree.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Minimum B grade in all courses.
- Completion of minimum 500 practicum hours for post-master's students. Post-baccalaureate students are required to complete additional hours based upon their selected concentration.
- Submission and defense of a scholarly project to a committee that includes, at minimum, the student's academic advisor and two other doctoral-prepared members. The project must result in a manuscript suitable for publication.

Roadmaps

Executive Nurse Concentration

This roadmap is a recommended semester-by-semester plan of study for this program. Students will work with their advisor to develop a sequence based on their academic goals and history. Courses designated as

critical (!) must be completed in the semester listed to ensure a timely graduation.

Program Learning Outcomes

Graduates of this program will be able to:

1. Develop and implement systems-focused care and innovative strategies to promote positive, sustainable health and fiscal outcomes across the healthcare continuum.
2. Provide population-focused, advanced nursing care to diverse populations within a variety of settings based on evidence, ethics, theory and professional standards.
3. Provide leadership and interprofessional collaboration to plan, implement and evaluate programs of care delivery to improve outcomes for individuals, populations and aggregates.
4. Synthesize and translate evidence for implementation and dissemination for equitable, evidence-based and inclusive healthcare outcomes.

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a

licensed health care provider then uploaded to the third party vendor's portal.

5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Full Description

The Doctor of Nursing Practice degree in Nursing is the terminal degree for nurses who want to advance their knowledge of nursing practice, gain leadership and technology skills and become clinical scholars. Students develop leadership skills to affect health outcomes for individuals and populations by translating scientific evidence into clinical interventions, managing healthcare systems and collaborating with other health care providers.

The Nursing major comprises the following concentrations:

- The **Executive Nurse** concentration prepares nurse leaders for the role of nurse executive at the highest level of healthcare administration.
- The **Nurse Administration and Executive Leadership** concentration prepares B.S.N. nurses for entry-, mid- and executive-level leadership roles.
- The **Practice Leadership** concentration prepares advanced practice and clinical experts to lead interprofessional teams focused on evidence-based practice, quality improvement and translational research.

Admission Requirements

Applications to the Pediatric Primary Care Nurse Practitioner concentration are not being accepted at this time.

- Bachelor's and/or graduate degree from an accredited registered nursing program[1]
- Minimum 3.000 undergraduate/graduate GPA on a 4.000-point scale *(starting with spring 2026 admission term, minimum 2.750 GPA is required)*
- Completion of an undergraduate statistics course with a minimum C grade *(starting with spring 2026 admission term, requirement is eliminated)*
- Active, unrestricted registered nurse license in the state in which clinical coursework will be completed
- Curriculum vitae (including activities such as national nursing certifications, professional organizations, clinical ladder, PI/QI projects, research, publications and military experience if applicable)
- Essay (two pages double spaced, 500 words) describing professional preparation and rationale for seeking the master's degree in the identified specialty along with professional goals and any experience as a nurse caring for the under-served, high risk or vulnerable populations *(starting with spring 2026 admission term, the essay is eliminated)*
- Admission essay *is required starting with spring 2026 admission term* responding to the following questions (two pages, double spaced, 500 words):
  - How do you plan to contribute to the nursing profession and healthcare community after earning your M.S.N. degree?
  - How has your experience, professional development and service within the profession contributed to your readiness for graduate education?
  - What experience do you have working as a nurse caring for the underserved, high-risk or vulnerable populations?
- Three professional letters of reference from healthcare professionals, either a supervisor and/or an advanced practice nurse who can speak to the applicant's professional capabilities
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[2]
  - Minimum 83 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 55 PTE score
  - Minimum 110 DET score

Admission to the M.S.N. degree is competitive and never guaranteed. Priority will be given to candidates with:

- Strong academic record
- Strong references
- Demonstrated experience in the area of interest
- National certification in a specialty as a nurse
- Membership in a professional nursing organization or military
- Documented community service
- Participation in an agency's Clinical Ladder, PI/QI Projects, research, publication or similar programs/projects
- Experience as a nurse caring for underserved, high risk or vulnerable populations

An additional interview video may be required. Students selected for admission to the nursing program must meet the College of Nursing's Clinical Compliance Policy.

1 Applicants with an RN license and a bachelor's degree in a non-nursing field, or with a bachelor's degree in nursing from an institution outside the U.S. will be considered based on faculty review of a portfolio submitted with the application.

2 International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 1
- **Spring Semester**
  - Priority deadline: October 1
- **Summer Term**
  - Priority deadline: March 1

Applications submitted by these deadlines will receive the strongest consideration for admission.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Minimum 300-600 clinical hours, depending on concentration
- Maximum six years of study. Under selected circumstances and upon the consent of the advisor, petitions for extensions of an additional one year to completion may be submitted to the concentration director.
- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.
- Grades below C are not counted toward completion of requirements for the degree.

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet standards for advanced practice certification or other advanced professional distinction.
2. Demonstrate competencies based on professional standards to assume advanced roles in nursing, and for leadership and career advancement, including doctoral study.
3. Communicate, integrate and apply advanced nursing knowledge and skills to provide equitable, evidence-based, inclusive nursing care and promote quality outcomes in nursing and health care.

Program Policies

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.
5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Time Limit for Graduate Nursing Courses

Certain courses are critical to be completed within a timely manner for patient safety as well as student success in the program. This policy ensures that clinical skills and critical knowledge learned in specific courses taken three or more years ago are refreshed before moving to more advanced levels of practice.

Students who have stopped out of the clinical sequence of courses for a period of time must repeat the following practicum and corequisite lecture courses if they are three of more years old:

- NURS 60110 and NURS 61192
- NURS 60120 and NURS 61292
- NURS 60125 and NURS 61892
- NURS 60126 and NURS 61392
- NURS 60126 and NURS 61892
- NURS 60129 and NURS 61092
- NURS 60151 and NURS 61592
- NURS 60160 and NURS 61692
- NURS 60170 and NURS 61792
- NURS 60210 and NURS 62192
- NURS 60220 and NURS 62292
- NURS 60230 and NURS 62392
- NURS 60251 and NURS 63592
- NURS 60270 and NURS 62792
- NURS 60310 and NURS 63192
- NURS 60320 and NURS 63692
- NURS 60325 and NURS 63292
- NURS 60330 and NURS 63392
- NURS 60353 and NURS 64592
- NURS 60370 and NURS 63792
- NURS 60372 and NURS 63992
- NURS 60470 and NURS 64792
- NURS 62592
- NURS 66100 and NURS 66192
- NURS 66200 and NURS 66292
- NURS 66300 and NURS 66392
- NURS 66400 and NURS 66492

Certifying agencies and state licensing requirements for advanced practice registered nurses have time limits for critical courses. Courses completed outside of this time frame may need to be repeated prior to seeking national certification. Students are advised to check with certifying agencies and state licensing agencies upon admission to determine if the age of their prior courses will meet requirements.

Dual Degree with Master of Business Administration

Student have the opportunity to complete a dual degree program with the M.B.A. degree in Business Administration and the M.S.N degree in Nursing. A separate application must be submitted for each program. Students can view admission requirements for each program on their respective catalog page.

The M.B.A./M.S.N. dual degree is for experienced nurses whose career goals include assuming middle or executive management positions in health services agencies or in health-related companies, or who are interested in starting their own businesses. It combines the strengths of advanced nursing preparation with the practical management knowledge needed to develop significant leadership capabilities.

[1] MGMT 68051 is required for students who have not worked a minimum of two years, full-time, since obtaining their bachelor's degree. **Students waived the course may graduate with 57 credit hours.**

Full Description

The Master of Science in Nursing degree meets the educational eligibility requirements for national certification in the respective area of study. The degree program can be completed in four to five semesters (two full academic years) for full-time students. Part-time students typically take three to four years to complete the program. Completion of a thesis is optional.

The Nursing major comprises the following concentrations:

- The **Adult Gerontology Acute Care Nurse Practitioner** concentration allows students to attain advanced practice nursing competencies in providing evidence-based care to adults and older adults with complex acute and chronic illnesses. Clinical experiences occur in a variety of acute care settings, including general medical care, emergency care, critical care and specialty practice. Through clinical practicums, students provide direct patient care in collaboration with a team of health professionals to diagnose and treat patients across the continuum of health care services.
- The **Adult Gerontology Clinical Nurse Specialist** concentration fosters acquisition of the needed competencies to care for patients spanning the entire adult to older-adult spectrum. Class and clinical experiences focus on providing advanced nursing care across the health continuum, from wellness to acute care. Students develop competencies across the three spheres of impact: patient/direct care, nurses/nursing practice and organizations/systems.
- The **Adult Gerontology Primary Care Nurse Practitioner** concentration allows students to develop advanced practice nursing competencies in health promotion, risk detection, illness prevention and management of acute and chronic illnesses in adults and older adults. Clinical experiences involve direct care in collaboration with other health professionals to maximize the effectiveness of community and health care system services. Clinical practicums include primary care offices, such as internal medicine and family practice clinics, managed care offices, emergency departments, free clinics and long-term care and occupational health settings.
- The **Family Nurse Practitioner** concentration allows students to acquire advanced practice nursing competencies to provide continuity of health care to persons across the life span, as well as to maximize the effectiveness of community and health care system services through collaboration with other health professionals. Clinical experiences are offered in a variety of ambulatory care settings and specialty clinics in primary care offices, including family practice, internal medicine, managed care offices, emergency departments, long-term care facilities and academic and occupational health settings.
- The **Nurse Educator** concentration allows students to develop in-depth knowledge and expertise in selected areas of nursing practice and the role of the nurse educator. Emphasis of the nurse educator role focuses on best practices in curriculum development, instruction and evaluation that prepare students for teaching within a variety of learning environments in academic and staff professional development settings. Students engage in individualized practicum experiences where they apply content learned throughout the graduate curriculum in both their area of nursing practice and the nurse educator role.
- The **Nursing Administration and Health Systems Leadership** concentration integrates management, leadership and nursing knowledge for students to develop skills and competencies in administration, systems leadership and advanced nursing.
- The **Pediatric Primary Care Nurse Practitioner** concentration focuses on health promotion, illness prevention, risk identification and acute and chronic care of infants, children and adolescents in the primary care setting. Practicum experiences take place in outpatient primary care and specialty settings; the experiences offer the opportunity for students to provide individualized and culturally competent advanced practice nursing care to children within the context of their families.
- The **Psychiatric Mental Health Nurse Practitioner** concentration builds on core advanced practice nursing knowledge. The program focuses on knowledge and skill development in mental health assessment and diagnostic reasoning, prescribing and medication management and advanced therapeutic modalities such as individual, group and family psychotherapy.
- The **Women's Health Nurse Practitioner** concentration prepares students to provide the highest level of primary nursing care for women involving health promotion and disease prevention. Students gain competency in advanced nursing management of common acute and chronic conditions. Students practice in direct care and in collaboration with other health care professionals. Practicum experiences foster development of clinical judgment and primary care skills through faculty mentorship and clinical preceptors in a variety of ambulatory care settings and specialty clinics.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

The Nurse Educator and Nursing Administration and Health Systems Leadership concentrations have an optional licensure that is not required in any state.

Nursing - Ph.D.

College of Nursing
www.kent.edu/nursing

About This Program

The Ph.D. degree in Nursing prepares nurse scientists to develop methods to advance health, health care and the nursing profession. Graduates are expected to lead and promote interprofessional innovative scholarly endeavors and to assume leadership roles in the profession.

  - Kent Campus

Examples of Possible Careers and Salaries*

Nursing instructors and teachers, postsecondary

- 17.6% much faster than the average
- 72,900 number of jobs
- $75,470 potential earnings

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Active, unrestricted U.S. registered nurse license (international students need to show proof of legal ability to practice as a registered nurse in country of origin)
- Bachelor's or master's degree in nursing or related field, or a Doctor of Nursing Practice degree, from an accredited program[1]
- Minimum overall 3.000 graduate GPA on a 4.000-point scale
- Official transcript(s)
- Résumé or curriculum vitae
- Essay (two pages, single-spaced), see guidelines below
- Three letters of reference from health care professionals or academic faculty members who can speak to the applicant's professional and academic abilities (two of the three references from doctoral-prepared individuals are preferred)
- Interview
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[2]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

[1] A bachelor's degree in a closely related health field may be considered if the applicant has a master's degree in nursing or a D.N.P. degree from an accredited program. A master's degree in a closely related field may be considered if the applicant has a bachelor's degree in nursing from an accredited program.

[2] International applicants who do not meet the above test scores may be considered for conditional admission.

Guidelines for the Essay

- Applicants should begin their essay with "why" they are pursuing the Ph.D. degree in Nursing and "how" this degree will help them achieve their research and professional goals.
  - Introduce the population or phenomenon of interest that will be investigated.
- In the body of the essay, applicants should explain why they are interested in this population and/or phenomenon and how their work will impact or advance science in that area.
  - Consider including scientific gaps and significance in that area of research.
  - Elucidate the effect the research will have on the health outcomes of the proposed population or those affected by the phenomenon of interest.
  - Indicate how the work may reflect diversity, equity and inclusion in the area of research.
- In the closing paragraph, applicants should provide one to two key aspects of their research and propose ways to disseminate their scientific discovery.

Application Deadlines

- **Fall Semester**
  - Application deadline: November 15 (international student) and March 1 (domestic student)

All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by these deadlines will receive the strongest consideration for admission.

Culminating Requirement		
NURS 80199	DISSERTATION I [3]	30
Minimum Total Credit Hours for Post-Baccalaureate Students		**90**
Minimum Total Credit Hours for Post-Master's Students		**73**

1 Post-baccalaureate students must complete 5 credit hours of NURS 70798 for the degree. Post-master's students must complete 3 credit hours of NURS 70798 for the degree.

2 Post-baccalaureate students must complete 12 credit hours of electives, and post-master's students must complete 6 credit hours of electives for the degree. Elective courses support the student's research interest and are selected with the approval of the student's academic advisor. The courses will supplement the student's program of study in a substantive area of research or specific method of research, including advanced statistical approaches, or assist the student with career goals following graduation.

3 Each doctoral candidate, upon admission to candidacy, must register for NURS 80199 for a total of 30 credit hours. It is expected that a doctoral candidate will continuously register for Dissertation I, and thereafter NURS 80299, each semester, until all requirements for the degree have been met.

Oral Candidacy Examination

At the conclusion of coursework, students sit for the candidacy examination. The examination provides the basis for evaluation of the student's readiness for completing the dissertation. Students must successfully pass candidacy and a proposal defense before beginning dissertation work.

Progression Requirements

- Students who do not earn a minimum B grade in a course must repeat it and cannot take other courses that require that course as a prerequisite until the course is successfully retaken. Students who do not earn a minimum B grade on the second attempt may be dismissed from the Ph.D. degree.
- The courses will be delivered mostly synchronously online. The face-to-face requirement for this hybrid program is met through attending Doctoral Days.
- Each year, Ph.D. students are required to come to campus for Doctoral Days. The purpose of Doctoral Days is to provide scholarly socialization and scientific role development. The American Association of Colleges of Nursing (AACN) pathways to excellence in doctoral education include three curricular domains. These domains are addressed throughout the curriculum and in the Doctoral Days.
  - **Domain 1: Scientific Development** is the ability to articulate nursing science's history, philosophy, knowledge construction and the influence on the discipline and research.
  - **Domain 2: Health Equity** is knowledge and skill development to lead research and improve practice through ethical, culturally humble and human-centered research.
  - **Domain 3: Stewards of the Discipline** are professional ethics for conducting original research, proficiency in scientific communication and identifying implications for policy, practice, future research and the discipline.

Doctoral Days occur at the beginning of the fall semester in Years 1 and 2 (first three days of the semester). In Year 3, Doctoral Days occur at the end of the spring semester to coincide with May graduation, on the day before and the day of commencement.

Activities at Doctoral Days in Years 1 and 2 include:

- Orientation to each class taken that year
- Human subjects research content
- Opportunities to engage with faculty and fellow students in the College of Nursing and presentations on trends in nursing science
- Library resources, milestone expectations and time with student's advisor
- Special topics speakers

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Minimum B grade required in all courses to earn the Ph.D. degree.
- Passage of the candidacy examination
- Submission and successful defense of a dissertation

Students with a D.N.P. degree may receive permission to have coursework waived if supported by the appropriate and recent coursework; however, maximum 12 credit hours may transfer to the Ph.D.. The waiver of each specific course will be determined by the relevant academic department. These students may graduate with fewer than 73 credit hours but no fewer than 60 total credit hours.

Roadmaps

Post-Baccalaureate Track

This roadmap is a recommended semester-by-semester plan of study for this program. Students will work with their advisor to develop a sequence based on their academic goals and history. Courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

NURS 80199	DISSERTATION I	15
	Credit Hours	**15**
	Minimum Total Credit Hours:	**73**

Program Learning Outcomes

Graduates of this program will be able to:

1. Generate new knowledge that contributes to the advancement of health, healthcare and nursing science.
2. Disseminate advances in scientific knowledge.
3. Use collaborative, interdisciplinary and innovative approaches to advance nursing science.
4. Assume leadership roles in healthcare and education as researchers, educators and advanced clinicians.
5. Serve as stewards of the diversity within the body of knowledge for the discipline of nursing.

Nursing Administration and Health Systems Leadership - Graduate Certificate

College of Nursing
www.kent.edu/nursing

About This Program

The Nursing Administration and Health Systems Leadership graduate certificate provides nurses who already have a graduate nursing degree the additional specialized knowledge for the nursing administration and health systems leadership.

Contact Information

- **Teresa Adams** | tadams27@kent.edu | 330-672-8761
- Connect with an Admissions Counselor: U.S. Student | International Student

Program Delivery

- **Delivery:**
  - Fully online

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Master's degree in nursing or a doctorate in nursing practice from an accredited nursing program
- Minimum 3.000 graduate GPA on a 4.000-point scale
- Official transcript(s) of all previous graduate coursework[1]
- Active, unrestricted registered nurse license in the state in which practicum hours will be completed
- Curriculum vitae
- Goal statement (no more than 250 words) describing reasons for seeking the certificate in the identified specialty and professional goals *(starting with spring 2026 admission term, goal statement is no longer required)*
- Admission essay is required starting with spring 2026 admission term responding to the following questions (two pages, double spaced, 500 words):
  - How do you plan to contribute to the nursing profession and healthcare community after earning your M.S.N. degree?
  - How has your experience, professional development and service within the profession contributed to your readiness for graduate education?
  - What experience do you have working as a nurse caring for the underserved, high-risk or vulnerable populations?
- Syllabi of all courses to considered for transfer in the gap analysis
- Three professional letters of reference from healthcare professionals, either a supervisor and/or an advanced practice nurse who can speak to the applicant's professional capabilities
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet **specific exceptions to waive**) by earning one of the following:[2]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

[1] For applicants who have not practiced as an advanced practice registered nurse within the two-year period preceding application to the certificate, completion of graduate-level courses in advanced pathophysiology, advanced pharmacology and advanced health assessment must not be greater than five years old at the time of the student's first semester of course registration in the certificate.

[2] International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 1
- **Spring Semester**
  - Priority deadline: October 1
- **Summer Term**
  - Priority deadline: March 1

All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by these deadlines will receive the strongest consideration for admission.

Program Requirements

Certificate Requirements

Code	Title	Credit Hours
Certificate Requirements		
NURS 60014	LEADERSHIP IN NURSING AND HEALTH CARE MANAGEMENT	3
NURS 60016	ADVANCED ASSESSMENT, PATHOPHYSIOLOGY AND PHARMACOLOGY FOR THE NURSE LEADER	3
NURS 60020	LEGAL AND REGULATORY MANAGEMENT FOR NURSE ADMINISTRATORS	3
NURS 60024	HEALTH CARE ORGANIZATION, STRUCTURE AND BEHAVIOR	3
NURS 60315	BUDGETARY AND FISCAL MANAGEMENT FOR NURSES	3

NURS 64392	NURSING ADMINISTRATION AND HEALTH SYSTEMS LEADERSHIP II PRACTICUM	2
Minimum Total Credit Hours:		**24**

Graduation Requirements

Minimum Certificate GPA	Minimum Overall GPA
3.000	3.000

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet standards for advanced practice certification or other advanced professional distinction.
2. Demonstrate competencies based on professional standards to assume advanced roles in nursing and for leadership and career advancement, including doctoral study.
3. Communicate, integrate and apply advanced nursing knowledge and skills to provide equitable, evidence-based and inclusive nursing care, and to promote quality outcomes in nursing and health care.

Program Policies
Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.
5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Time Limit for Graduate Nursing Courses

Certain courses are critical to be completed within a timely manner for patient safety as well as student success in the program. This policy ensures that clinical skills and critical knowledge learned in specific courses taken three or more years ago are refreshed before moving to more advanced levels of practice.

Students who have stopped out of the clinical sequence of courses for a period of time must repeat the following practicum and corequisite lecture courses if they are three of more years old:

- NURS 60110 and NURS 61192
- NURS 60120 and NURS 61292
- NURS 60125 and NURS 61892
- NURS 60126 and NURS 61392
- NURS 60126 and NURS 61892
- NURS 60129 and NURS 61092
- NURS 60151 and NURS 61592
- NURS 60160 and NURS 61692
- NURS 60170 and NURS 61792
- NURS 60210 and NURS 62192
- NURS 60220 and NURS 62292
- NURS 60230 and NURS 62392
- NURS 60251 and NURS 63592
- NURS 60270 and NURS 62792
- NURS 60310 and NURS 63192
- NURS 60320 and NURS 63692
- NURS 60325 and NURS 63292
- NURS 60330 and NURS 63392

- NURS 60353 and NURS 64592
- NURS 60370 and NURS 63792
- NURS 60372 and NURS 63992
- NURS 60470 and NURS 64792
- NURS 62592
- NURS 66100 and NURS 66192
- NURS 66200 and NURS 66292
- NURS 66300 and NURS 66392
- NURS 66400 and NURS 66492

Certifying agencies and state licensing requirements for advanced practice registered nurses have time limits for critical courses. Courses completed outside of this time frame may need to be repeated prior to seeking national certification. Students are advised to check with certifying agencies and state licensing agencies upon admission to determine if the age of their prior courses will meet requirements.

Examples of Possible Careers and Salaries*

Registered nurses

- 7.2% faster than the average
- 3,096,700 number of jobs
- $75,330 potential earnings

Teaching assistants, postsecondary

- 3.4% about as fast as the average
- 169,600 number of jobs
- $36,250 potential earnings

Additional Careers

- Entry-level management

Accreditation

The B.S.N. degree Nursing for Registered Nurses at Kent State University is accredited by the Commission on Collegiate Nursing Education, 655 K Street, NW, Suite 750, Washington, DC 20001, 202-887-6791.

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

Admission to the Nursing for Registered Nurses major is selective. Criteria for admission includes the following:

- Evidence of admission in good standing from a state-approved associate degree or diploma nursing program
- Minimum 2.000 overall GPA on a 4.000-point scale

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Program Requirements

Major Requirements

Code	Title	Credit Hours
Prerequisite Requirements (min C graded required in all courses)		
BSCI 20021	BASIC MICROBIOLOGY	3-4
or BSCI 30171	GENERAL MICROBIOLOGY	
BSCI 21010	ANATOMY AND PHYSIOLOGY I (KBS) (KLAB) [1]	4

Kent Core Composition		6
Kent Core Mathematics and Critical Reasoning (min C grade)		3
Kent Core Humanities and Fine Arts (minimum one course from each)		9
Kent Core Additional		3
Associate Degree Courses and General Electives (total credit hours depends on earning 120 credit hours, including 39 upper-division credit hours)		39
Minimum Total Credit Hours:		**120**

1 Students who have successfully completed ATTR 25057 (or EXSC 25057) and ATTR 25058 (or EXSC 25058) or BSCI 11010 and BSCI 11020 with a minimum C grade may use those courses in place of BSCI 21010 and BSCI 21020.

2 Students admitted to the B.S.N./M.S.N. combined degree program may substitute NURS 60010 for NURS 40075.

3 Students admitted to the B.S.N./M.S.N. combined degree program may substitute NURS 60403 for NURS 40873.

4 Students admitted to the B.S.N./M.S.N. combined degree program may substitute NURS 60014 for NURS 42000.

5 Students admitted to the B.S.N./M.S.N. combined degree program may substitute NURS 60025 for NURS 46000.

6 A minimum C grade must be earned to fulfill the writing-intensive requirement.

7 Students admitted to the B.S.N./M.S.N. combined degree program may substitute NURS 60016, NURS 60020 or NURS 60101 for the Nursing Upper-Division Elective.

Progression Requirements

To be eligible to register for nursing (NURS) courses, students must have successfully completed:

- Active, unrestricted registered nurse (RN) license in the state in which practica will be completed
- Completion of required science courses or their direct equivalents with an overall 2.0 GPA
  - Anatomy and Physiology: BSCI 21010 and BSCI 21020
- Chemistry: CHEM 10050 or CHEM 10055 or CHEM 10060
- Microbiology: BSCI 20021
- All Kent Core requirements
- Kent Core Mathematics and Critical Reasoning course with minimum C grade
- BSCI 30050 or BSCI 30156 (or equivalent) with minimum C grade
- The following courses (or their equivalents): NUTR 23511; PSYC 11762; SOC 12050; and MATH 10041 (or NURS 31010 or PH 30002 or PSYC 21621)

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
2.000	2.000

Roadmap

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7
Kent Core Additional (KADL)	6
Total Credit Hours:	**36-37**

Program Learning Outcomes

Graduates of this program will be able to:

1. Acquire competencies based on professional standards to assume the role of the professional nurse and for career advancement, including graduate studies.
2. Apply the nursing process in providing evidence-based, culturally sensitive care to promote health and adaptation of individuals, families, groups and communities.

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a

licensed health care provider then uploaded to the third party vendor's portal.

5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Full Description

The Bachelor of Science in Nursing degree in Nursing for Registered Nurses is for registered nurses (RN) with a diploma or associate degree who are seeking an accredited bachelor's degree in nursing. The completer program is offered fully online for part- and full-time students. Expert faculty and administrators work closely with students to equip them to meet the future challenges of professional nursing and influence the future of health care.

Students may apply early to the following master's degree programs and double count 9 credit hours of graduate courses toward both degree programs. See the Combined Bachelor's/Master's Degree Program Policy for more information.

- M.S.N. degree in Nursing
- M.S. degree in Health Informatics

Pediatric Primary Care Nurse Practitioner - Graduate Certificate

College of Nursing
www.kent.edu/nursing

About This Program

The Pediatric Primary Care Nurse Practitioner graduate certificate provides nurses who already have a graduate nursing degree the additional specialized knowledge for the pediatric primary care nurse practitioner role. The certificate meets the educational requirements for application to the national certification examination.

Program Delivery

- **Delivery:**
  - In person
- **Location:**
  - Kent Campus

Applications to the Pediatric Primary Care Nurse Practitioner graduate certificate are not being accepted at this time.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

Applications to the Pediatric Primary Care Nurse Practitioner graduate certificate are not being accepted at this time.

- Master's degree in nursing or a doctorate in nursing practice from an accredited nursing program
- Minimum 3.000 graduate GPA on a 4.000-point scale
- Official transcript(s) of all previous graduate coursework[1]
- Active, unrestricted registered nurse license in the state in which practicum hours will be completed
- Résumé or curriculum vitae
- Goal statement (no more than 250 words) describing reasons for seeking the certificate in the identified specialty and professional goals
- Syllabi of all courses to considered for transfer in the gap analysis
- Three letters of reference from health care professionals or faculty members
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[2]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

[1] Transcript(s) must indicate completion of graduate-level courses in advanced pathophysiology, advanced pharmacology and advanced health assessment, with a minimum B grade earned in each course. Applicants who do not meet the grade requirement for advanced pathophysiology, advanced pharmacology and advanced health assessment may be considered for a conditional admission.

For applicants who have not practiced as an advanced practice registered nurse within the two-year period preceding application to the certificate, completion of graduate-level courses in advanced pathophysiology, advanced pharmacology and advanced health assessment must not be greater than five years old at the time of the student's first semester of course registration in the certificate.

[2] International applicants who do not meet the above test scores may be considered for conditional admission.

Graduation Requirements

Minimum Certificate GPA	Minimum Overall GPA
3.000	3.000

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet standards for advanced practice certification or other advanced professional distinction.
2. Demonstrate competencies based on professional standards to assume advanced roles in nursing and for leadership and career advancement, including doctoral study.
3. Communicate, integrate and apply advanced nursing knowledge and skills to provide equitable, evidence-based, inclusive nursing care and promote quality outcomes in nursing and health care.

Program Policies

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.
5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Time Limit for Graduate Nursing Courses

Certain courses are critical to be completed within a timely manner for patient safety as well as student success in the program. This policy

ensures that clinical skills and critical knowledge learned in specific courses taken three or more years ago are refreshed before moving to more advanced levels of practice.

Students who have stopped out of the clinical sequence of courses for a period of time must repeat the following practicum and corequisite lecture courses if they are three of more years old:

- NURS 60110 and NURS 61192
- NURS 60120 and NURS 61292
- NURS 60125 and NURS 61892
- NURS 60126 and NURS 61392
- NURS 60126 and NURS 61892
- NURS 60129 and NURS 61092
- NURS 60151 and NURS 61592
- NURS 60160 and NURS 61692
- NURS 60170 and NURS 61792
- NURS 60210 and NURS 62192
- NURS 60220 and NURS 62292
- NURS 60230 and NURS 62392
- NURS 60251 and NURS 63592
- NURS 60270 and NURS 62792
- NURS 60310 and NURS 63192
- NURS 60320 and NURS 63692
- NURS 60325 and NURS 63292
- NURS 60330 and NURS 63392
- NURS 60353 and NURS 64592
- NURS 60370 and NURS 63792
- NURS 60372 and NURS 63992
- NURS 60470 and NURS 64792
- NURS 62592
- NURS 66100 and NURS 66192
- NURS 66200 and NURS 66292
- NURS 66300 and NURS 66392
- NURS 66400 and NURS 66492

Certifying agencies and state licensing requirements for advanced practice registered nurses have time limits for critical courses. Courses completed outside of this time frame may need to be repeated prior to seeking national certification. Students are advised to check with certifying agencies and state licensing agencies upon admission to determine if the age of their prior courses will meet requirements.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Psychiatric Mental Health Nurse Practitioner - Graduate Certificate

College of Nursing
www.kent.edu/nursing

About This Program

The Psychiatric Mental Health Nurse Practitioner graduate certificate prepares nurses who have a graduate nursing degree the additional specialized knowledge for the psychiatric mental health nurse practitioner role. The certificate meets the educational requirements for the national certification examination.

Program Delivery

- **Delivery:**
  - Fully online

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Master's degree in nursing or a doctorate in nursing practice from an accredited nursing program
- Minimum 3.000 graduate GPA on a 4.000-point scale
- Official transcript(s) of all previous graduate coursework[1]
- Active, unrestricted registered nurse license in the state in which practicum hours will be completed
- Curriculum vitae
- Goal statement (no more than 250 words) describing reasons for seeking the certificate in the identified specialty and professional goals *(starting with spring 2026 admission term, goal statement is no longer required)*
- Admission essay *is required starting with spring 2026 admission term* responding to the following questions (two pages, double spaced, 500 words):
  - How do you plan to contribute to the nursing profession and healthcare community after earning your M.S.N. degree?
  - How has your experience, professional development and service within the profession contributed to your readiness for graduate education?
  - What experience do you have working as a nurse caring for the underserved, high-risk or vulnerable populations?
- Syllabi of all courses to considered for transfer in the gap analysis
- Three professional letters of reference from healthcare professionals, either a supervisor and/or an advanced practice nurse who can speak to the applicant's professional capabilities
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet **specific exceptions to waive**) by earning one of the following:[2]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score

- Minimum 58 PTE score
- Minimum 110 DET score

[1] For applicants who have not practiced as an advanced practice registered nurse within the two-year period preceding application to the certificate, completion of graduate-level courses in advanced pathophysiology, advanced pharmacology and advanced health assessment must not be greater than five years old at the time of the student's first semester of course registration in the certificate.

[2] International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 1
- **Spring Semester**
  - Priority deadline: October 1
- **Summer Term**
  - Priority deadline: March 1

All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by these deadlines will receive the strongest consideration for admission.

		Credit Hours	**4**
		Minimum Total Credit Hours:	**30**

Program Learning Outcomes

Graduates of this program will be able to:

1. Meet standards for advanced practice certification or other advanced professional distinction.
2. Demonstrate competencies based on professional standards to assume advanced roles in nursing and/or for leadership and career advancement, including doctoral study.
3. Communicate, integrate and apply advanced nursing knowledge and skills to provide equitable, evidence-based and inclusive nursing care and promote quality outcomes in nursing and health care.

Program Policies

Clinical Compliance Policy

This policy applies to all students enrolled in B.S.N., M.S.N., D.N.P. degree programs and postmaster's certificates. Students must provide documentation of the following items to a third-party vendor that is approved to track and maintain student health and other compliance documents. Students are responsible for all costs incurred in meeting the requirements for clinical compliance and for establishing and maintaining their third party account profile. Students in the B.S.N., M.S.N. and D.N.P. degree programs and College of Nursing post-master's certificates must be fully compliant with this policy prior to registering for their first practicum course.

Requirements

1. **Current American Heart Association Basic Life Support for Healthcare Provider certification in cardiopulmonary resuscitation (CPR) or American Red Cross CPR/AED.** Ph.D. students must have CPR certification within the first semester of enrollment.
2. **Background Check:** Students are required to submit federal and state criminal background checks and incur the related costs. International students must meet university policy for admission.
3. **Healthcare Insurance:** Students must provide proof of health insurance. Students can submit either (a) a copy of an insurance card with the student's name on the card or (b) a copy of the health insurance statement coverage that indicates that the student is covered.
4. **Immunizations/Immune Status Testing:** Evidence of the required immunizations/tests must be provided on the Immunization and Physical Compliance Form available from the Office of Student Services. The form must be completed, dated and signed by a licensed health care provider then uploaded to the third party vendor's portal.
5. **Physical examination**: A physical examination is required within one year prior to admission to a clinical site. For students admitted into the B.S.N., M.S.N. and D.N.P. degrees or post-master's certificates, the provider conducting the physical must indicate that the student can perform activities in the nursing student's clinical and practicum courses, or can do so with reasonable accommodations, and is free of all communicable diseases. Students should request accommodations from the Office Student Accessibility Services. Failure to obtain the physical examination or the provider assurance may prevent the university from placing the student in a clinical setting.

Students who have allergic reactions, medical waivers, refuse vaccinations or other physiological conditions that preclude them from receiving vaccinations are required to contact the Office of Student Services upon admission to their academic program. Such conditions may prevent students from completing clinical/practical coursework at some partner agencies which may result in a delay of graduation.

Registered Nurse (RN) Licensure

Students enrolled in the B.S.N. (Nursing for Registered Nurses major), M.S.N., and D.N.P. degrees or post-master's certificates must have an active, unrestricted RN license in either (1) the state of Ohio for students taking on-campus courses or who will be completing practica in Ohio or (2) the state of residence and practice for applicants residing and completing practicum outside Ohio. They must obtain proof of the appropriate licensure within the first semester of their program or before starting their practicum hours, whichever comes first.

Students in the Ph.D. degree must have an active unrestricted Ohio RN license—or for international students, proof of legal ability to practice as a RN in country of origin. They must show proof of license at the time of admission into the Ph.D. degree.

Time Limit for Graduate Nursing Courses

Certain courses are critical to be completed within a timely manner for patient safety as well as student success in the program. This policy ensures that clinical skills and critical knowledge learned in specific courses taken three or more years ago are refreshed before moving to more advanced levels of practice.

Students who have stopped out of the clinical sequence of courses for a period of time must repeat the following practicum and corequisite lecture courses if they are three of more years old:

- NURS 60110 and NURS 61192
- NURS 60120 and NURS 61292
- NURS 60125 and NURS 61892
- NURS 60126 and NURS 61392
- NURS 60126 and NURS 61892
- NURS 60129 and NURS 61092
- NURS 60151 and NURS 61592
- NURS 60160 and NURS 61692
- NURS 60170 and NURS 61792
- NURS 60210 and NURS 62192
- NURS 60220 and NURS 62292
- NURS 60230 and NURS 62392
- NURS 60251 and NURS 63592
- NURS 60270 and NURS 62792
- NURS 60310 and NURS 63192
- NURS 60320 and NURS 63692
- NURS 60325 and NURS 63292
- NURS 60330 and NURS 63392
- NURS 60353 and NURS 64592
- NURS 60370 and NURS 63792
- NURS 60372 and NURS 63992
- NURS 60470 and NURS 64792

- NURS 62592
- NURS 66100 and NURS 66192
- NURS 66200 and NURS 66292
- NURS 66300 and NURS 66392
- NURS 66400 and NURS 66492

Certifying agencies and state licensing requirements for advanced practice registered nurses have time limits for critical courses. Courses completed outside of this time frame may need to be repeated prior to seeking national certification. Students are advised to check with certifying agencies and state licensing agencies upon admission to determine if the age of their prior courses will meet requirements.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Podiatric Medicine - D.P.M.

College of Podiatric Medicine
www.kent.edu/cpm

About This Program

Our Doctor of Podiatric Medicine program equips you with the knowledge and skills needed to diagnose, treat and prevent foot and ankle disorders. With a comprehensive curriculum, state-of-the-art facilities and experienced faculty, you'll be prepared to make a difference in patients' lives. Read more...

- Municipal Health Departments
- Pharmaceutical Industry Lecturer and Thought Leader
- Podiatric Surgeon in an Orthopedic Surgery Practice
- Preferred Provider Organizations (PPOs)
- Private or Group Medical Practice
- Public Health Service

Accreditation

The D.P.M. degree in Podiatric Medicine is accredited by the Council on Podiatric Medical Education (CPME) of the American Podiatric Medical Association (APMA).

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

Kent State's College of Podiatric Medicine participates in the American Association of Colleges of Podiatric Medicine Application Service (AACPMAS). Candidates to Kent State's D.P.M. degree apply and submit materials to AACPMAS.

- Minimum 90 semester credit hours (or minimum 135 quarter hours) of undergraduate coursework, including the following prerequisites:
  - 6 semester credit hours (or 9 quarter credit hours) of English
  - 8 semester credit hours (or 12 quarter credit hours) **each** of biology, physics, organic chemistry and general/inorganic chemistry[1]
- Official transcript(s)
- Medical College Admission Test (MCAT)[2] or Dental Admission Test (DAT) scores
- Two letters of recommendation:
  - one letter from a faculty member, advisor or composite letter from a pre-medical advisory committee
  - one a letter from a doctor of podiatric medicine or other medical professional
- Interview
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[3]
  - Minimum 94 TOEFL iBT score
  - Minimum 7.0 IELTS score
  - Minimum 65 PTE score
  - Minimum 120 DET score

Nearly all of entering D.P.M. students will have earned a bachelor's or advanced degree prior to matriculation; however, students may be granted admission with the required undergraduate coursework (90 semester credit hours or 135 quarter credit hours) and prerequisites completed.

See the policy on Technical Standards and Essential Requirements for Student Education in the College of Podiatric Medicine.

[1] All science coursework must include labs, when applicable. In addition, the following classes are recommended: biochemistry, histology, anatomy and physiology, neurobiology and microbiology.

[2] Scores must be within three years of the application date. Candidates may apply to the D.P.M. degree before taking the MCAT; however, the college will not be able to take final admissions action until official MCAT scores are received by the application service (AACPMAS). Candidates should plan on taking the MCAT no later than May of the year they plan to matriculate.

[3] International applicants who do not meet the above test scores will not be considered for admission.

Application Deadline

- **Fall Semester**
  - Final deadline: June 30
    Applications will not be accepted after this deadline.

CLI 80522	SENIOR MEDICINE ROTATION II	
Minimum Total Credit Hours:		**175**

[1] Students take 1 credit hour of CLI 80200 in either fall or spring semester.

[2] Students take 18 credit hours of third-year clinical in either fall or spring semester and follow a class rotation.

[3] Students are separated into groups with a different rotation each month. Students are permitted to take one clerkship month off as an elective month. CLI 80486 and CLI 80487 are elective clerkship rotations available to students who wish to gain further clinical experience on top of the required six clerkship rotations. Please note, once a student registers for these electives, the required minimum total credit hours for the student will increase by 4 credit hours for each elective. PMD 80495 may be available for students to take as an elective on top of the program requirements.

[4] For the fourth-year clinical, students take courses not taken during their third-year summer term.

Program Notes

- Students placed in Pathway I (due to one failure on the American Podiatric Medical Licensing Examination, APMLE Part I) are required to take PCS 80001, increasing the minimum total credit hours by 1 credit hour. Students not taking APMLE Part I on the first attempt are also required to take this course.
- Students placed in Pathway II (due to two failures on the American Podiatric Medical Licensing Examination, APMLE Part I) are required to take PCS 80002, increasing the minimum total credit hours by 5 credit hours. Students not taking APMLE Part I on the second attempt are also required to take this course.
- GMD 80205 is an elective open to all second-year students. Please note, once students register for this course, the required minimum number of credit hours increases by one credit hour.

Progression Requirements

Students whose first semester of coursework in the D.P.M. degree is fall 2016 or later are required to meet the following minimum overall GPA during the first and second year:

- 2.500 overall GPA at the end of first year, fall semester
- 2.500 overall GPA at the end of first year, spring semester
- 2.500 overall GPA at the end of first year, summer term
- 2.500 overall GPA at the end of second year, fall semester
- 2.400 overall GPA at the end of second year, spring semester

Students falling below the minimum overall GPA following their first year (fall, spring and summer) or their second year (fall semester) are required to participate in mandatory academic counseling. Students below the minimum 2.400 overall GPA at the end of their second year (spring semester) will be academically dismissed with the right to appeal for reinstatement, provided that the student has not previously been dismissed (academic or otherwise) from the College of Podiatric Medicine.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	2.400

A candidate for the degree of Doctor of Podiatric Medicine must have:

- Maintained satisfactory academic performance with no grade below a C or S (satisfactory)
- Demonstrated clinical competence through completion of the performance objectives
- Been verified as being in good disciplinary standing
- Satisfactorily completed all academic requirements, including all courses, clinical rotations and externship/clerkship program requirements, and the required Observed Structured Clinical Examination (OSCE)
- Fulfilled all responsibilities and financial obligations to the college and university
- Demonstrated moral and mental competency to practice podiatric medicine
- Taken and passed the American Podiatric Medical Licensing Examination (APMLE) Part I, and have taken (APMLE) Part II and released the score reports to the college

Attendance at the graduation ceremony is required for the degree. To be eligible for graduation in May, candidates must have met all of the above requirements by the conclusion of their fourth-year summer term.

All students must successfully complete the graduation requirements within six academic years of their initial matriculation. Exceptions for students with extenuating circumstances must have the approval of the Council on Podiatric Medical Education (CPME).

There is no contract stated or implied, between the college and the students that a degree will be conferred at any stated time, or at all.

Roadmap

This roadmap is a recommended semester-by-semester plan of study for this major.

Program Learning Outcomes

Graduates of this program will be able to:

1. Demonstrate the ability to recall and apply current and emerging knowledge of human structure, function, development, pathology, pathophysiology and psychosocial development to patient care.
2. Provide effective patient-centered care that is compassionate and appropriate for prevention and treatment of medical conditions, which promotes overall health with special emphasis on the lower extremity.
3. Demonstrate interpersonal and communication skills that result in the effective exchange of information and collaboration with patients, their families and health professionals.
4. Demonstrate professionalism in medicine.
5. Apply scientific methods and utilize clinical and translational research to further the understanding of contemporary podiatric medicine and its application to patient care.
6. Demonstrate an awareness of and responsiveness to the larger context and system of health care, as well as the ability to call on other resources to provide optimal and cost-effective health care.
7. Demonstrate an understanding of common societal problems (e.g., issues of addiction or abuse) and their impact on patients.

Policies

Academic Dismissals

The following will lead to academic dismissal:

1. Two or more failures (in any combination of courses or rotations) in one academic level during the same academic year. Academic level is defined as 801xx, 802xx, 803xx and 804xx/805xx courses and rotations. Also, additional or multiple failures (in any combination of courses or rotations) while on academic probation or with outstanding failures on the student's record, regardless of the academic year or academic level, will result in academic dismissal.

a. Students in their first year will be academically dismissed for multiple 801xx failures (courses or rotation) within the same academic year.
b. Students in their second year will be dismissed for multiple 802xx failures (courses or rotations) within the same academic year.
c. Students in their third year will be academically dismissed for 803xx failures (courses or rotations) within the same academic year, or for multiple outstanding 803xx failures (courses or rotations) across multiple academic years.
d. Students in their fourth year will be academically dismissed for multiple outstanding 804xx failures (courses or rotations) across multiple academic years.

2. A failure in a course or clinical rotation (including remedial) during a semester in which the student is on academic probation and/or with a failure still outstanding on their academic record.
3. An overall GPA below 2.400 at the end of the spring semester of the student's second year.
4. Three failures on APMLE Part I.
5. Failure on the Objective Structured Clinical Examination (OCSE) in combination with one or more failures in any other 803xx rotation or course.
6. Failure on the Objective Structured Clinical Examination (OCSE) combined with a failure on the Objective Structured Clinical Examination (OSCE) remediation.
7. Failure on the second attempt on the Objective Structured Clinical Examination (OCSE) for students who were dismissed for failing the first attempt along with any additional 803xx failure (course or rotation) and were reinstated to repeat all 803xx rotations and any outstanding failures on their record.
8. Failure on the third attempt on the Objective Structured Clinical Examination (OCSE) for students who were dismissed for failing the first attempt and the remedial attempt and were reinstated and required to repeat all 803xx rotations.
9. Failure in a remedial course or rotation.

Outstanding failures are defined as courses or rotations that have not been successfully remediated or repeated with a grade of C or better (or a grade of S for S/U courses or rotations).

Students without a previous dismissal on their record are eligible to apply for reinstatement.

The following students are not eligible for readmission or reinstatement:

1. Students with two dismissals, academic or non-academic, on their record.
2. Students who have taken and failed APMLE Part I three or more times without passing.

Students seeking reinstatement who will not be able to complete the program in six academic years must receive an exception from the Council on Podiatric Medical Education in order to be considered for readmission or reinstatement.

Academic Probation

Students readmitted or reinstated with failures on their transcript are placed on academic probation until all failures are successfully repeated or remediated with a minimum C or S grade. In addition, students with any outstanding failures on their record will be placed on academic probation. The academic probation status will be noted on the student's record, including the official transcript. Any failure while on probation will result in academic dismissal.

Reinstatement

Students seeking reinstatement to the college must contact the Office of Academic Operations and Institutional Research. Any student who has been dismissed two times from the college, academically or for non-academic reasons, is ineligible for reinstatement consideration at any time.

Students meeting one of the following are not eligible for reinstatement consideration until **one year** from the date of dismissal:

1. Students who have been officially dismissed from the college for academic reasons who have not been offered reinstatement by the Academic Readmission / Reinstatement Committee.
2. Students who have been dismissed for any reason other than academics.

Students who have been previously academically dismissed and are seeking reinstatement to the program will have their request considered by the Academic Readmission / Reinstatement Committee. The decision of the committee for these students is final.

Students applying for reinstatement who have been previously dismissed for reasons other than academics will have their request considered by the college dean. The decision of the dean for these students is final.

Students readmitted or reinstated with failures on their transcript are:

1. Placed on academic probation with a notation being made on their transcript.
2. On academic probation until any failures have been resolved with a minimum C or S grade.
3. Subject to academic dismissal if any course or rotation is failed while on academic probation.

Academic Readmission and Reinstatement Committee

The Academic Readmission / Reinstatement Committee meets with eligible students who are reapplying to the program.

Students required to appear before the committee include those who have been academically dismissed and students who had previously withdrawn from the program with failing grades (U, F, WF, SF, or NF) on their transcript.

In all matters, the committee reviews the student's application for readmission / reinstatement and ultimately renders a decision concerning the student's ability to successfully complete the podiatric medicine program.

Membership of the Academic Readmission Committee is as follows:

Voting members

- College of Podiatric Medicine faculty (with four faculty members present for each readmission hearing)
- Academic associate dean of academic affairs (or designee)

Non-voting members

- Director of academic operations and institutional research (or designee)
- Director of educational resources (or designee)

Hearing Procedure

- Request
  - A written request from the student is submitted to the Office of Academic Operations and Institutional Research and shall include a statement of facts summarizing the basis for the appearance. Such requests must be submitted by the deadline specified.
- Preparation for Hearing
  - A written notice of the date, time and place of the hearing will be given to the committee members and the student requesting the hearing.
  - At the scheduled meeting, all committee members will be presented with a copy of any written statements prepared by the student and access to the student's academic file.
- Hearing
  - The student must be present at the requested hearing and may make an oral and/or written presentation to the committee.
  - Attorney or legal counsel for any parties involved may be present in the room during a hearing, but may not participate directly in the hearing. The legal counsel may only advise his/her client. The office of academic services and institutional research must be notified at the time of the request for an appeal if the student intends on having legal counsel present at the hearing.
  - Letters in support of the student must be submitted in advance of the hearing.
  - The student (and legal counsel) is excused from the room prior to deliberation.
  - The committee shall deliberate and formulate a decision in the absence of the involved parties. Votes shall be by anonymous ballot. There are two decision options:
    - Offer the student readmission to the program or
    - Deny the student readmission to the program.
  - The committee's decision is final.
  - Students who are denied readmission or reinstatement are not eligible to appear before the committee again until:
    - One year from the date of the most recent reinstatement hearing for students who were academically dismissed.
    - A minimum of five months from the date of the most recent readmission hearing for students who withdrew with failing grades (WF, F, NF, SF, or U).

(Students who are denied readmission or reinstatement may request that the above time periods for a reinstatement/readmission hearing be waived due to extreme circumstances or to present new information not previously available to the committee. Students wishing to be considered for an early hearing must submit the request in writing along with all relevant supporting documentation to the Office of Academic Operations and Institutional Research. *These requests will be reviewed by the Academic Readmission and Reinstatement Committee who will then make a decision to approve or deny the granting of an early hearing. This process will include only a committee review of the submitted written documentation. The student will not make an appearance and will not be permitted to present information, verbally or in writing, outside of what is officially submitted for review. Should an early hearing be granted, the process will follow the Hearing Procedure as detailed above. A granting of an early appearance is not a guarantee of being readmitted or reinstated by the committee. Should the committee vote to deny that an early hearing be granted, the original eligibility timelines listed above remain in effect. The decision of the committee to grant or deny an early appearance is final.)*

Privacy of Records and Hearing

- The committee will act in compliance with the Family Educational Rights and Privacy Act of 1974 (FERPA) regarding the information of a student's record.
- All proceedings of a hearing are confidential. No member of the committee shall disclose any of the subject matter or discuss these matters with anyone except members of the committee.

Academic Performance and Student Organizations

The College of Podiatric Medicine offers a number of student organizations, fraternities and sports clubs to serve the student population. Student organizations, fraternities and clubs are subject to college policies. The Office of Student Affairs has the right to review and revoke the privilege to continue as a recognized chapter of any organization or fraternity. A full listing of organizations is available on the College of Podiatric Medicine website.

Each organization, fraternity or club has elected positions in which members of the College of Podiatric Medicine student body may hold office. In order for students to participate and hold office in any position — including, but not limited to, president, vice president, secretary, treasurer, director of clinical affairs, race coordinator, delegate — they must be in good academic standing. Specifically, students must have a minimum 2.500 overall GPA with no academic failures to run and/or hold an elected position within any organization, fraternity or club. In addition, students must pass boards on their first attempt.

Academic records will be checked fall and spring semesters and after boards results are posted. Students who fall below the academic minimums or fail to pass boards on their first attempt will be removed from their position within a particular club, organization or fraternity so that they may focus on academic and/or boards performance.

In addition, students who receive two or more professionalism deficiencies will be removed from any position within a particular club, organization or fraternity.

The college's Office of Student Affairs will send a formal notification to those students who fail to meet the minimum requirements to hold office.

American Podiatric Medical Licensing Examination (APMLE)

All podiatric residency programs require passage of APMLE Part I and Part II — written examination and the Clinical Skills Patient Encounter (CSPE) examination (if available) — prior to the beginning of the residency.

Eligible students are required to take the APMLE Part I and both portions of Part II — written examination and the Clinical Skills Patient Encounter (CSPE) examination (if available) — the first time the examinations are offered, and every subsequent time as necessary.

Students who do not take APMLE Part I the first time offered automatically will be placed into Pathway I. Students who fail APMLE Part I on the first attempt and do not take the examination the second time offered automatically will be placed into Pathway II. Students missing a required administration of APMLE Part I still will be given the

opportunity to take the examinations three times before being subject to dismissal from the program. Students who do not take the examination the first time that it is offered, and every subsequent time as necessary, will be subject to a professionalism deficiency evaluation.

Students who do not take both portions of Part II — written examination and the Clinical Skills Patient Encounter (CSPE) examination — the first time the examinations are offered, and every subsequent time as necessary, will be subject to a professionalism deficiency evaluation.

Students who do not pass APMLE Part I will not be eligible to take Part II. Those students will be under the college's Board Part I Failure Policy (see below).

College of Podiatric Medicine Board Part 1 Failure Policy

Students who fail APMLE Part I on their first attempt will be placed into Pathway I and will continue with third-year classes. For August and September, students will be removed from clinic and enrolled in PCS 80001 to prepare for the required retake in October. Pathway I students will continue in their non-rotation courses.

Pathway I students will return to clinic beginning with their October clinical rotation. Students will only be excused from clinic the day of the October APMLE Part I reexamination. Students will be required to attend all other days for the October rotation, including the first day of the rotation.

1. **Pathway I – Passage:** Students who pass the October APMLE Part I retake examination will continue in classes through March and clinic through April. In May and June, these students will complete the CLI 803xx clinical rotations that were missed in August and September. Beginning with the July rotation, these students will begin CLI 804xx clinical rotations. These students will lose one optional clerkship elective month and will be required to complete a CLI 804xx rotation in April of their fourth-year summer semester. Please note, this schedule is contingent on a student not having to remediate a third-year course or rotation. Students who are required to remediate a third-year course or rotation will follow the schedule detailed in the remediation policy. Pathway I students making up a clinical rotation for reasons other than failure will be required to complete the rotation in July before beginning 804xx clinical rotations in August.
2. **Pathway II – Failure of Second Attempt:** Students who fail the October APMLE Part I retake exam will continue in all classes and clinic rotations as originally scheduled. Beginning in April, along with their scheduled clinic rotations and other academic requirements, students also will be enrolled in PCS 80002 to prepare for the required APMLE Part I July retake examination. In July, Pathway II students will sit for the APMLE-1 retake examination. Students who fail the July retake examination will be dismissed from the college and will be ineligible for reinstatement consideration at any time. Students who pass APMLE Part I on the third attempt will continue with their regularly scheduled courses and rotations.

All students, currently or previously enrolled, are subject to the policy on the maximum three attempts for APMLE Part I.

Non-enrolled students who have taken APMLE Part I three times without passing are not eligible for consideration of readmission or reinstatement regardless of whether or not the examination was passed on subsequent attempts.

Non-enrolled students are not eligible for sponsorship by the College of Podiatric Medicine to sit for the APMLE Part I examination regardless of previous number of attempts.

Attendance

Classroom and Laboratory Attendance

Attendance is expected of all students; and the course coordinator may require, at their discretion, compulsory attendance in a course. This includes any or all laboratory sessions, lectures or demonstrations. When the instructor does not state attendance as a compulsory requirement, students remain responsible for all material covered in that course, including all examinations, quizzes and projects. A student's eligibility to complete make-up work is at the discretion of the course instructor.

Mandatory in-person attendance is required at all scheduled examinations and assessments.

Clinic Attendance

Attendance is mandatory at all scheduled college-approved internal/external clinical rotations and clerkship programs. Absences must be excused by the rotation coordinator or clerkship director.

Clinical make-up days may not be completed during regularly scheduled course lectures, labs or assessments.

Students missing clinic without prior approval must contact the Academic Support staff by email at cpmas@kent.edu, with the rotation coordinator copied, no later than 8:00 a.m. on the day of absence.

- Students are required to complete one make-up day for each excused clinic day missed.
- Students are required to complete three make-up days for each unexcused clinic day missed.

Students requesting that an absence be excused are required to submit relevant documentation at the time of the request (advance requests) or prior to their return to clinic (absences due to emergencies (including family emergencies) or illness). A doctor's note is required for illness-related absences. If documentation is not provided, the absence will be considered unexcused.

Days missed to illness, or for any other reason, without supporting documentation will be considered unexcused. The decision to approve or deny a request for an excused absence is at the discretion of the rotation's coordinator or clerkship director.

Students requesting an excused absence ahead of time should contact the rotation coordinator or clerkship director at least two weeks before the clinical absence. Students are responsible for contacting the rotation coordinator for any unplanned absences and for making days up one day in advance.

Make-up days will be assigned to students with the following deadlines in mind:

- Make-up days for CLI 803xx-level rotations must be completed no later than the end of April of the third-year summer term or before the start of CLI 804xx rotations. The date and time of the make-up days will be assigned. Students are not permitted to progress to any 804xx-level rotations or courses with an incomplete mark, failing

grade or outstanding make-up days for any 803xx-level rotations or courses.
- The dates and locations for CLI 804xx make-up days will be assigned.

Personal Days

Third-year students will be allowed the opportunity to have two personal days off per academic rotation year (not per rotation month) during their third-year KSUCPM clinical rotations. These personal days may be used for residency visitations or significant personal events with proof of attendance. Please note, personal days may only be taken during CLI 803xx rotations.

Two personal days may not be used in succession for third-year rotations.

A personal day is one calendar day. Splitting into half days is not permitted.

Personal days may not be used during:

- Third-year Simulated Patient I (80380)
- Third-year Surgical Skills and Simulated Patients II (80316)
- Third-year Foot and Ankle Surgery I and II (80312, 80313)
- Third-year Wound Care
- Primary Care VA
- Month of December
- First and/or last day of rotation
- Day before or day of an exam
- Day before and after holiday weekends
- Day before Board/Retake Board Exams
- Mandatory Clinical Orientation Day
- Examination days

Two-week advanced clinical absence request must be submitted to rotation coordinator and cpmas@kent.edu.

Students are NOT granted personal days for any situation that gives an unfair advantage or luxury to one student in comparison to other students in any of the third-year rotations.

Personal day(s) may be used for sick day(s) with a doctor's note. (Additional sick days will be treated under current attendance policy) (Students will be responsible for the materials missed with any absence)

The rotation coordinator may limit the number of student requests if multiple requests are submitted for the same day.

APMLE Part II and Centralized Residency Interview Program (CRIP)

The APMLE Part II examination and CRIP (and additional residency interviews) affect clinical attendance requirements in the following ways:

- All students are required to report to their January clinical location on the first day.
- Students are given time off only on the day of APMLE Part II and are required to report to clinic the day before and the day after the exam.
- For CRIP and residency interviews outside of CRIP, students are required to provide to their clinical site travel documentation and interview schedule in advance of the days missed. Only days in which a student has interviews scheduled or is traveling will be excused.

All of the above applies to clerkships, senior medicine rotations and program core rotations at the college's clinics or at external locations.

Clinical Attendance for Rotations at External Facilities

External rotations follow the schedule of the facility, not the college. This includes closures due for any reason, including closures for inclement weather, holidays and class breaks.

When rotating at an external facility as part of any rotation, if the external clinical site remains open even though the college is closed (holidays, inclement weather, etc.), students are required to report to clinic as scheduled.

External rotations are those that are held at outside facilities in which students rotate for a variety of third- and fourth-year clinical rotations. These rotations include, but are not limited to, third-year and fourth-year Department of Veteran Affairs rotations, clerkships, senior medicine, foot and ankle surgery and wound care. Students may also be scheduled at external sites during any other rotation at the Cleveland Foot and Ankle Clinic.

Clinical schedules at external facilities may include evenings, weekends, holidays and other days when the university or Independence location is closed. If the university or Independence location is closed for any reason, you must report to the external experience as their schedule dictates.

Clinical Attendance for Pathway I Students: APMLE Pathway I students will only be excused from clinic the day of the October APMLE Part I reexamination. Students will be required to attend all other days for the October rotation, including the first day.

Clinical Attendance for Pathway II Students: APMLE Pathway II students only will be excused from clinic the day of the July APMLE Part I reexamination. Students will be required to attend all other days for the July rotation at the discretion of the rotation coordinator.

Academic Presence Verification

In compliance with federal regulations, all course and rotation coordinators are required to verify student academic presence for every student in the university-determined reporting system. The method of how academic presence (i.e., participation in the course) is verified is at the sole discretion of each coordinator and may differ from course to course or rotation to rotation. The meeting of academic presence requirements as determined by the coordinator is mandatory for all students.

Students who do not meet academic presence verification requirements:

- will receive a professionalism deficiency;
- will receive an NF (Never Attended–Fail) or SF (Stopped Attending–Fail) mark for each course in which the requirement was not met; and
- may lose their federal financial aid for that particular term.

Background Checks and Drug Testing

Mandatory Background Checks

Incoming students are required to complete a background check prior to matriculation (dates and deadline to be assigned).

Current students are required to complete FBI and Ohio Bureau of Criminal Investigation (BCI) background checks at the following schedule:

- February of the second-year spring semester (date to be assigned)
- February of the third-year spring semester (date to be assigned)

Background check reports will be made available electronically to the College of Podiatric Medicine.

Students and applicants have the right to review the information reported by the designated company for accuracy and completeness and to request that the designated company verify that the background information provided is correct. Prior to making a final determination that will adversely affect the applicant or student, the college will provide the applicant or student the opportunity to address any issues or discrepancies found in the report.

If an FBI or BCI background check comes back with a discrepancy or the statement, "may not meet employment conditions," the student is required to provide the Office of Academic Operations and Institutional Research with a detailed summary report. Discrepancies in background check reports are subject to review by the college dean and could result in a student's dismissal or rescission of admission offer from the College of Podiatric Medicine.

Please note, some clinical programs may require specific background checks and/or additional documentation.

Drug Testing

Incoming students are required to complete a drug test prior to matriculation (dates and deadline to be determined by the Office of Academic Operations and Institutional Research).

Current students are required to complete a drug test prior to the beginning of the third-year fall semester (dates and deadline to be assigned).

Drug test results are subject to review by the College of Podiatric Medicine. Positive drug screens will be cause for review by the dean on a case-by-case basis and could result in a student's dismissal or rescission of admission offer from the College of Podiatric Medicine.

Please note, additional drug tests may be required in the event of a positive result, a negative dilute or if required by a program for the completion of a clinical rotation.

Cheating and Academic Dishonesty

Students found responsible for cheating or academic dishonesty in any form on any examination, quiz, assignment or on anything related to the College of Podiatric Medicine curriculum will automatically be given a failing grade (0.000, F grade) for that specific academic item. This will also result in disciplinary actions to be taken, including possible dismissal from the program.

Clerkship and Senior Medicine Rotations

Information on clerkship and senior medicine rotations, including the selection process, can be obtained by contacting the college's Office of Academic Operations and Institutional Research.

Clerkships

Clerkships are mandatory rotations that students schedule through AACPM's Doctor of Podiatric Medicine Clerkship website in the months that are allotted. There are seven months scheduled that are strictly for clerkship rotations. Of these seven months, students are required to complete six months of clerkship rotations. If eligible, students may choose to take one of the seven months allotted for a clerkship as an elective month. If students decide to take this elective by not filling the month with a clerkship, they will have no clinical responsibility for the month, though they may visit programs or complete clinical make-up days if they wish. *Note: Clerkship rotations or an elective month off cannot be scheduled during any month in which a core rotation is scheduled.*

Senior Medicine

The date of the selection of senior medicine rotations will be determined by the Office of Academic Operations and Institutional Research. A list of available rotation spots will be sent to each group along with a deadline for student selections. If an agreement on senior medicine selections within a student group cannot be reached by the group members, the final determination will be made by random selection by a representative of the Office of Academic Operations and Institutional Research.

Senior medicine rotations may include out-of-state locations and facilities not within the immediate area of the college. The Office of Academic Operations and Institutional Research and the college administration will determine which locations will be considered mandatory (i.e., all spots available at those locations will be required to be filled by students in each group). An approved list of senior medicine options will be distributed to each of the groups with a deadline for the finalization of selections.

The number of spots for each senior medicine rotation is limited within each group. The number of available spots at each location is determined by numerous factors, including facility preference and availability and the number of students in that particular group.

Students wishing to complete their senior medicine rotation at a location not on the college's approved list will be given the opportunity to submit a request with the names of the facility and doctors and a narrative rationale as to how this experience will meet the requirements of the rotation and benefit the student academically. After review, the Office of Academic Operations and Institutional Research and the college administration will either approve or deny the request. This decision is final. The deadline for submitting a request to complete the senior rotation medicine at a location not on the approved list will be determined by the Office of Academic Operations and Institutional Research. No request will be considered after this deadline.

Completion of Clerkship and Senior Medicine Rotations

Once a student selects a clerkship or a senior medicine rotation, the student is required to attend that specific rotation for the month chosen. Schedule changes, including dropping rotations or switching months, are not permitted. Students who do not attend a scheduled rotation will be required to make up the rotation in April of the student's fourth year (location and specifics of make-up rotations will be assigned). Students will also receive a professionalism deficiency evaluation. This applies to all senior medicine and clerkship rotations, including private practice office rotations.

In rare cases, schedule changes or rotation exceptions may be permitted provided that the student can demonstrate extreme and unforeseen circumstances that will prevent the completion of a particular rotation. Students who wish to be considered for this type of schedule change must submit the request in writing along with supporting documentation to the Office of Academic Operations and Institutional Research before reaching out to other locations and facilities. If the request is denied, the student will be required to attend the rotation as scheduled.

Feedback and Surveys

At the conclusion of each clerkship and senior medicine rotation, students will receive a link via e-mail to a rotation feedback survey. The completion of the rotation feedback survey for each rotation by the deadline given is mandatory. Students who miss the deadline will be subject to a professionalism deficiency evaluation.

Patient Logs

Students are required to submit in Typhon a patient log for every patient encounter experienced (observed, assisted or performed) during each clerkship and senior medicine rotation. Patient logs for each rotation must be completed and entered into Typhon by 8:00 a.m. on the Monday following the conclusion of the rotation. Failure to meet this deadline will result in a professionalism deficiency evaluation and possible failure on the rotation. For further information on what types of encounters are required to be logged during a particular clinical rotation, students should contact the coordinator for that specific rotation.

Cleveland Foot and Ankle Clinic (CFAC) Shadowing

Students should contact the Office of Academic Operations and Institutional Research for assistance regarding shadowing opportunities in the Cleveland Foot and Ankle Clinic (CFAC).

All students are required to shadow in one or both of the CFAC during their first and second year in the program. A schedule will be distributed to all students at the beginning of the academic year or will be listed in the syllabus of a course requiring the shadowing experience. These shadowing experiences are considered mandatory. If this requirement is not met and all scheduled sessions not attended, the student will be subject to academic and disciplinary actions.

In addition to the required CFAC shadowing, students in all years are encouraged to visit clinical programs when they can find the free time in their schedules to do so.

If visiting a program outside of an assigned (registered for college credit) clinical rotation that will consist of hands-on experiences rather than just observational, students must notify the Office of Academic Operations and Institutional Research prior to the hands-on experience taking place, or immediately following.

Clinical Affiliation Agreements

For external clinical rotations completed during the third and fourth year, the college has executed affiliation agreements with facilities where students rotate. Students are subject to the requirements listed in these agreements for any approved rotation. Student visitations are observation only and not for college credit, and therefore, not considered approved rotations.

A list of all facilities with which the college has a current affiliation agreement is available by contacting the Office of Academic Operations and Institutional Research. Affiliation agreement status is subject to change at any time.

Students may review, in person only, the affiliation agreement for any facility in which they will be completing an external clinical rotation. To do so, please contact the Office of Academic Operations and Institutional Research.

College and Clinical Incident Reporting

A college and clinical incident report needs to be completed when any of the following occurs:

- A student or faculty member is involved in an accident, is injured or becomes ill at a clinical site.
- A hospital incident report is completed that involves a student or faculty member.
- A student or faculty member is involved in an accident, is injured or becomes ill at any College of Podiatric Medicine academic laboratory.

The college and clinical incident report must be completed by the student and/or faculty member involved in an accident or injury occurring at a clinical site on the day the incident occurs. The student and/or faculty member involved will follow the policy and protocols at the site in which the incident occurred and pay any expenses incurred from the incident. Kent State University and the College of Podiatric Medicine are not responsible for payment or reimbursement.

The college and clinical incident report must be sent within 24 hours of the incident to the Public Safety Manager. All completed college and clinical incident reports will be sent to and stored in the Office of the Assistant Dean of Clinical Education and Research, the Office of Compliance and Risk Management and the online reporting system.

Clinical Rotations

For all clinical rotations, students are randomly assigned to a group. This assignment determines the specific clinical schedule for each student, including the monthly order in which students complete each rotation. Requesting a specific group or schedule or switching groups once assigned is not permitted.

The policy and procedures for clinical education are in place to assure quality care and education. Students must conform to these policies and procedures to ensure that educational outcomes are met and quality patient care is delivered.

No student may proceed to any fourth-year rotation without having first completing all prior courses and clinical rotations. A student may not continue onto fourth-year courses or rotations with a failure or grade or incomplete in any third-year course or clinical rotation.

Students are only permitted to be registered for one clinical rotation per month. Students are not permitted to complete a remedial course or rotation during the same month as a scheduled course or clinical rotation.

Clinical Remediation and Make-up Months

All fourth-year remedial rotations will take place at an assigned location starting in April in the fourth-year summer semester without exception. The dates of the rotation will be based on the AACPM national clerkship calendar.

Make-up rotations for non-academic reasons (e.g., leave of absence) will take place in April at an assigned location during the fourth-year summer semester. The dates of the rotation will be based on the AACPM national clerkship calendar.

The location of a remedial or make-up rotation will be assigned to the student by the Office of Academic Operations and Institutional Research

Clinic Rotation Groups and Schedule

Students will be randomly assigned into groups twice – once for third-year clinical rotations and once for fourth-year clinical rotations. Switching of groups and/or rotation months is not permitted.

Patient Logs

Students are required to submit in Typhon a patient log for every patient encounter experienced (observed, assisted or performed) for every clinical rotation (external and core rotations). Patient logs for each rotation must be completed and entered into Typhon by 8:00 a.m. on the Monday following the conclusion of the rotation. Failure to meet this deadline will result in a professionalism deficiency and possibly failure on the rotation.

For further information on what types of encounters are required to be logged during a particular clinical rotation, students should contact the rotation's coordinator or the Office of Academic Operations and Institutional Research

Course Exemptions

To be considered for a course exemption, students must file a request by contacting the Office of Enrollment Management and Student Affairs. The request will be considered by the college's senior associate dean and the appropriate division head. Requests for a course exemption are handled on a case-by-case basis, and the college's decision is final. Student requests for course exemptions will only be considered prior to matriculation.

Eligibility for Doctor of Podiatric Medicine Degree

All candidates for the Doctor of Podiatric Medicine degree must have achieved the following:

1. Maintained satisfactory academic performance with no grade below a C, no Unsatisfactory (U) grade and no Incomplete (IN) marks;
2. Demonstrated clinical competence through completion of the performance objectives;
3. Been verified as being in good disciplinary standing;
4. Satisfactorily completed all academic requirements, including clinical rotations and externship/clerkship program requirements, with a minimum C grade or Satisfactory (S) grade on all courses and rotations;
5. Satisfactorily passed the Objective Structured Clinical Examination (OSCE);
6. Fulfilled all responsibilities and financial obligations to the college and to the university; and
7. Taken and passed the American Podiatric Medical Licensing Examination (APMLE), Part I, taken both sections of Part II (written examination and the Clinical Skills Encounter – CSPE examination) and released the score reports to the college.

To be eligible for graduation in May, candidates must have met all of the above requirements by the end of the fourth-year summer semester. Attendance at the graduation ceremony is required.

All students must successfully complete the graduation requirements in no more than six academic years. Exceptions for students with extenuating circumstances must have the approval of the Council on Podiatric Medical Education.

Essential Requirements for Student Education

Kent State University College of Podiatric Medicine is committed to the admission and advancement of all qualified students. College policy prohibits discrimination against anyone solely based on race, sexual orientation, gender, Veteran status, color, national origin, religion, age, handicap or disability.

The faculty and administration have adopted the following technical standards and essential requirements that must be met by all students for progression and graduation. These technical standards expected of students seeking the degree of Doctor of Podiatric Medicine reflect the college's highest commitment to the safety of its students and patients, and recognize the essential functions of the profession of podiatric medicine.

The following standards and requirements describe the academic abilities and non-academic qualifications that are essential to the program of instruction, are directly related to the licensing requirements, and are directly related to those physical abilities, mental abilities, skills, attitudes and behaviors that students must demonstrate or perform at each stage of their education to ultimately ensure patient safety.

Technical Standards and Essential Requirements for Student Education at Kent State University College of Podiatric Medicine

Visual Observation and Integration

Candidates and students must be able to observe demonstrations, video materials, slides through a microscope and computer screens. They must acquire information from written documents, radiographs, photographs, charts and diagrams. They must be able to observe a patient accurately close at hand and at a distance to assess asymmetry, range of motion and tissue/texture changes.

Communication

Candidates and students must be able to communicate effectively in oral and written formats, and in settings where time span is limited. This includes communication in classroom, clinical and laboratory settings. Candidates must be able to accurately elicit information in a timely and efficient manner. Candidates must be able to describe a patient's condition to the patient and to others in the diagnosis and treatment process.

Other Sensory Capacities

Students must independently be able to take an oral history, do stethoscopy and communicate while wearing a surgical mask. Students must also have sufficient somatosensory capacity to palpate pulses, use a tuning fork and assess skin temperature.

Motor Functions

Candidates and students must have sufficient motor function to undertake classes, laboratories and demonstrations, to provide general patient care as well as emergency treatment to patients. This includes cadaver dissection, microscopy, aseptic technique and safe handling of microbiological specimens. Also included is the motor capacity for chart and prescription writing, palpation, percussion, auscultation and other diagnostic maneuvers. All of these tasks must be done in a timely and efficient manner within prescribed time limitations relative to the context of a practicing physician. Examples of common daily treatments include, but are not limited to, palliative care of foot and ankle problems, injections, orthotic impressions, taking and processing of pedal radiographs, and performance of soft tissue and osseous tissue surgical procedures. Examples of emergency treatments include CPR,

administration of intravenous medications, the opening of obstructed airways, and hemostasis techniques.

Intellectual, Conceptual, Quantitative and Integrative Abilities
Candidates must have sufficient cognitive abilities and effective learning techniques to assimilate the detailed and complex information presented in the medical student curriculum. Candidates must engage in critical thinking and problem solving. They must be able to learn through a variety of modalities including, but not limited to, classroom and lab instruction and exams; small group, team and collaborative activities; individual study; preparation and presentation of reports and use of computer technology. Candidates must be able to consistently, quickly and accurately measure, calculate, interpret, reason, memorize, analyze, synthesize and transmit information across modalities. Candidates must be able to demonstrate these skills and procedures under pressure and in a timely fashion across a range of conditions and time frames. They must be able to recognize and draw conclusions about three-dimensional spatial relationships and logical sequential relationships among events. These skills and abilities are fully defined by the faculty and explained in course syllabi.

Behavioral and Social Attributes
Candidates must demonstrate the maturity and emotional stability required for full use of their intellectual abilities. They must accept responsibility for learning, exercising good judgement and promptly completing all responsibilities attendant to the diagnosis and care of patients. They must understand the legal and ethical aspects of the practice of medicine and function within both the law and ethical standards of the medical profession. Candidates must be able to work effectively, respectfully and professionally as part of the healthcare team and to interact with patients, their families and health care personnel in a courteous, professional and respectful manner. They must be able to tolerate physically taxing workloads and long work hours, to function effectively under stress and to display flexibility and adaptability to changing environments.

Candidates must be able to work effectively, respectfully and professionally with faculty, staff and student colleagues. They must be capable of regular, reliable and punctual attendance at classes and in regard to their clinical responsibilities. Candidates must be able to contribute to collaborative, constructive learning environments; accept constructive feedback from others; and take personal responsibility for making appropriate positive changes.

Involvement in Invasive and Exposure-prone Procedures
Candidates and students must be qualified to be personally and actively involved in invasive and exposure-prone procedures without being a danger to patients, other health care professionals or fellow students, faculty and staff. They must demonstrate adherence to the universal precautions as defined by the Center for Disease Control. As part of the technical standards and essential requirements to matriculate at the college, the following statement shall apply: If the student is HIV seropositive, the student may be restricted by the State Medical Board of Ohio from performing procedures required for graduation. If the student is HBV and/or HCV positive and does not demonstrate noninfectivity, the student may be restricted by the State Medical Board of Ohio from performing procedures required for graduation. Any questions regarding these requirements should be directed to the senior associate dean.

Examination Policy

1. No books, papers, notes, calculators, cell phones, watches, tablets and similar electronic devices, pens, pencils, markers, food, drink, backpacks or any other personal items are permitted in the room during an examination. Hats and outerwear (coats) are not permitted. Clothing or accessories that interfere with the proctor's full view of the student's eyes are not permitted. Any clothing layers that are removed before or after the examination begins must be given to the proctors to be placed in the front of the room until the completion of the examination.
2. The use of cell phones or any other forms of electronic communication during any examination is strictly forbidden. No electronic communication devices are permitted in the room.
3. Students are expected to be waiting outside of the classroom 15 minutes prior to the start of the examination, but cannot enter the room until the academic support staff or proctors give permission.
4. Students arriving late to the examination, not to exceed 30 minutes, must receive permission from the course coordinator (or designee) to start the examination late. No student, even those approved to begin late, will be given extra time to complete an examination.
5. Students will not be permitted to leave the classroom less than 30 minutes following the start of an examination.
6. Students arriving 30 minutes or more after the scheduled start of an examination will automatically receive a score of 0.00 points for the exam, unless they can demonstrate that they have a valid reason to receive an excused absence from the course coordinator.
7. Students arriving late for a laboratory exam must receive permission from the course coordinator (or designee) to take the examination. No student, even those approved to begin the laboratory examination late, will be given extra time to answer questions.
8. For students not on an approved leave of absence, only the course coordinator can grant an excused absence for an examination (didactic, lab, clinical). Supporting documentation must be submitted when requesting an excused absence.
9. Students who miss an examination receive 0.00 points. Students are responsible for contacting the course coordinator within 24 hours of the administration of the examination to request an excused absence. The course coordinator's decision is final.
10. Failure of a student to secure an excused absence or to make up all approved eligible assessments, assignments, and examinations by the assigned deadlines will result in 0.00 points.
11. Students are responsible for checking the accuracy of all posted scores within seven calendar days of posting or receipt. No challenge will be considered or adjustments made after that period.
12. Students found responsible for cheating or academic dishonesty in any form on any examination, quiz, assignment, or on anything related to the College of Podiatric Medicine curriculum will automatically be given a failing grade (0.000 points, F grade) for that specific academic item. This will also result in disciplinary actions to be taken, including possible dismissal from the program.

Make-Up Examinations

Approved make-ups must be completed within 10 school days of the student's return.

For make-up examinations, students will be contacted prior to their return by the Office of Academic Support with their makeup schedule. If the student is for any reason not contacted by the Office of Academic Support prior to or immediately upon their return, the student is required

to contact in writing each of their instructors by the end of the second day (no later than 3:00 p.m.) of their return.

For assignments or assessments other than make-up examinations, students must contact in writing the appropriate course coordinators within two school days (no later than 3:00 p.m. on the second day) of their return to school to determine their eligibility for a makeup. If a make-up is granted for an assignment or assessment, the faculty member will determine the date of the make-up, not to exceed ten days from the student's return. In some cases, the Office of Academic Support, at the discretion of the faculty, may include non-examination assessments or assignment make-ups with the schedule sent prior to the student's return.

For all make-up examinations, assessments, quizzes, etc., if the student has any questions or concerns once they receive their make-up schedule, they must contact their course coordinator as soon as possible but not after the make-up takes place or after the scheduled date for the make-up.

Students should be prepared to complete make-up examinations, assessments, and assignments as early as the first day of their return. Multiple make-ups may also be scheduled on the same day.

If the instructor determines that there is insufficient time to complete the make-up assignments and examinations due to conflicts with other scheduled examinations, the make-up assignments and examinations must be taken within two school days of the conclusion of the regularly scheduled examination period.

Failure to adhere to the aforementioned timelines will result in the loss of students' eligibility to complete missed assignments and examinations, resulting in 0.00 points for all missed assignments and examinations.

Make-ups take precedence over all other academic responsibilities. Prearranged travel is not a sufficient reason for missing a scheduled make-up.

This policy covers all examinations and any other assessments in any form (e.g., quizzes, lab activities, case studies, projects). Timing, in regard to the 30-minute rule, will be adjusted accordingly for non-examination assessments.

HIPAA Training

All students are required to complete HIPAA training. The method of delivery for the training as well as the dates and deadlines for completing training will be assigned by the Office of academic Operations and Institutional Research. Failure to complete HIPAA training by the assigned deadline will result in a professionalism deficiency evaluation and a delay in the student's entry into clinical rotations.

Immunizations

In order to ensure that all students are protected against preventable communicable illness, the following requirements must be met prior to matriculation or within 60 days of classes starting. In addition, students must maintain compliance while enrolled in the College of Podiatric Medicine. Students who fail to maintain compliance may be removed from the classroom and/or clinical settings (including clerkships) until the student can provide proof of compliance.

Students are required to receive all required immunizations (see list below) and will not be allowed on clinical rotations, including clerkships, if all immunization requirements are not met. Students who are allergic to a vaccine ingredient, or who may have a medical condition that prevents the administration of a vaccine, must provide supporting documentation.

All incoming students must provide documentation of the immunizations listed below prior to orientation or within 60 days of matriculation

Required Immunizations for Podiatric Medicine Students

First Year

- Tetanus, Diphtheria, Pertussis (Tdap)
  - One Tdap vaccine within the past 10 years. Td will not be accepted.
  - Must be current all four years.
- Measles, Mumps, Rubella (MMR)
  - One dose if born before January 1, 1957; two doses if born on or after January 1, 1957. Minimum four weeks apart between Dose 1 and Dose 2.
  - Positive Rubella titer required **OR**
  - Positive Rubeola IgG Titer, and Positive Mumps IgG Titer
- Hepatitis B
  - Three doses required. Dose 1 to Dose 2: minimum four weeks apart; Dose 2 to Dose 3: minimum eight weeks apart (and at least 16 weeks after first dose) **AND**
  - Hep B sAB Titer - Positive
  - The Hepatitis B series can take up to six months to complete. Students are advised to begin this series upon admission to the program.
- Varicella
  - Two doses required. Minimum four weeks apart between Dose 1 to Dose 2 **OR**
  - Positive Varicella Zoster IgG Titer
- Influenza (Vaccination required annually)
- Tuberculosis screening (PPD)
  - Two TB skin tests (PPD) performed in the 12 months prior to starting classes, with the second PPD performed less than three months prior to the start. These must be done in the United States **OR**
  - A blood test, Interferon Gamma Release Assay (Quantiferon-TB Gold In-Tube or T-Spot), performed less than three months prior to starting class.
    - An IGRA is required for this with past BCG vaccine who have tested positive with a PPD, unless they have a positive IGRA in the past.
    - A chest x-ray is required for the positive TB testing (PPD or IGRA).
    - Provide copies of reports for chest x-rays, blood tests, TB treatment statement, and PPD results.

Continuing students are responsible for obtaining the following immunizations so they remain compliant with Podiaric Medicine requirements:

Second Year:

- Influenza
- Tuberculosis screening

Third Year:

- Influenza
- Tuberculosis screening

Fourth Year:

- Influenza
- Tuberculosis screening

Below is a list of strongly recommended immunizations for first-year Podiatric Medicine students:

- Meningococcal;
- Hepatitis A
- Human papillomavirus (HPV2, HPV4)
- Polio

Some clerkships/externships may require additional immunizations. Please check with the Office of Academic Operations and Institutional Research to determine if there are any additional immunization requirements.

Immunization requirements are subject to change.

Incomplete Mark

Refer to the policy in the University Catalog for information on the process and deadline for the Incomplete mark for a graduate course.

Lecture Capture

It is a violation of copyright law to copy, download or print any portion of any recorded lectures.

Leave of Absence Procedure

For the university policy on Leave of Absence for Graduate Studies, please refer to the Academic Policies section of this Catalog.

A leave of absence is an excused absence (one-day to a maximum of 30 calendar days) from the scheduled course and/or clinical responsibilities. In rare instances of severe illness and prolonged hospitalization, students may be approved for a one-time extension of leave for an additional 30 calendar days per academic year. A student who is granted a leave of absence due to medical reasons may be required to submit appropriate documentation from a medical professional before their return from a leave of absence is approved.

Below are the procedures for requesting an official leave of absence.

1. Student files the leave of absence form and supporting documentation with the Office of Academic Operations and Institutional Research.
2. Once the leave of absence is approved, the Office of Academic Operations and Institutional Research will notify all appropriate faculty and staff members of the leave and the intended return date.
3. Upon returning from the approved leave of absence, the student will submit a completed return from a leave of absence form along with any required supporting documentation to the Office of Academic Operations and Institutional Research. Once the return is approved, all appropriate faculty and staff members will be notified.

Any requests for a leave of absence longer than 60 consecutive days will be viewed as a “withdrawal” from the college.

It is important to note that even though a currently enrolled student is on a leave of absence, the granting of the leave does not constitute a waiver of the student’s responsibility for tuition, fees, or academic and graduation requirements.

Upon returning from a leave of absence, a student is required to make up any eligible missed assignments or examinations within 10 school days of the student’s return.

For make-up examinations, students will be contacted prior to their return by the Office of Academic Support with their make-up schedule. If students are, for any reason, not contacted by the Office of Academic Support prior to their return from a leave of absence, they are required to contact in writing each of their course coordinators by the end of the second day (no later than 3:00 p.m.) of their return.

For assignments or assessments other than make-up examinations, students must contact in writing the appropriate course coordinators within two school days (no later than 3:00 p.m. on the second day) of their return to school to determine their eligibility for a make-up. If a make-up is granted for an assignment or assessment, the faculty member will determine the date of the makeup, not to exceed ten days from the student's return. In some cases, the Office of Academic Support, at the discretion of the faculty, may include non-examination assessments or assignment make-ups with the schedule sent prior to or immediately upon the student's return.

For all make-up examinations, assessments, quizzes, etc., if students have any questions or concerns once they receive their make-up schedule, they must contact their course coordinator as soon as possible, but not after the make-up is completed or after the scheduled date for the make-up.

Students should be prepared to complete make-up examinations, assessments, and assignments as early as the first day of their return. Multiple make-ups may also be scheduled on the same day.

Make-ups take precedence over all other academic responsibilities. Prearranged travel is not a sufficient reason for missing a scheduled make-up.

If the course coordinator determines that there is insufficient time to complete the make-up assignments and examinations due to conflicts with other scheduled examinations, the make-up assignments and examinations must be taken within two school days of the conclusion of the regularly scheduled examination period at a time and date determined by the instructor. It is fully up to the course coordinator’s discretion as to whether or not the two-day extension is warranted.

Failure to adhere to the aforementioned timelines will result in the loss of students' eligibility to complete missed assignments and examinations, resulting in 0.00 points for all missed assignments and examinations.

Objective Structured Clinical Examination (OSCE)

Students in April of their third year summer term are required to take and pass an Objective Structured Clinical Examination (OSCE) that covers multiple areas and topics, including podiatric medicine, podiatric surgery and biomechanics. The OSCE also includes simulated patients, medicine and oral case studies.

Students must have an overall pass rate of 70 percent on all sections combined in order to pass the OSCE. Students who fail the OSCE on the first attempt with an outstanding failure (course or rotation) on their academic record are academically dismissed. Students who fail the OSCE in April without additional outstanding failures on their academic record (course or rotation) are dropped from their May clinical rotation to remediate the failure through scheduled meetings with content experts

for the subject area(s) they failed. These students will take the OSCE examination a second time at the end of May. Students passing will progress to 804xx / 805xx rotations. Students who fail the OSCE on the second attempt are academically dismissed from the program.

Students in Pathway I take the OSCE two months later than other students once all 803xx courses and rotations are successfully completed with a minimum C or S grade. Students making up 803xx rotations for reasons other than or in addition to Pathway I take the OSCE once all 803xx courses and rotations are successfully completed with a minimum C or S grade. Please note, this does not apply to students remediating a failed 803xx course or rotation. (See below for more information on remediation.) All other policies stated above regarding OSCE remediation taking place the month immediately following a failure on the OSCE and dismissals due to multiple failures apply to these students.

Students required to remediate an 803xx course or rotation are not eligible to do so until they have taken and passed with a minimum C or S grade all other 803xx courses and rotations and have taken and passed the OSCE.

Students dismissed for failing the OSCE twice (first attempt and remedial attempt taken the month immediately following the original failure) or for failing the OSCE once with additional outstanding 803xx (course or rotation) failures on their record have the right to apply for reinstatement, provided the student has not been previously dismissed, academic or otherwise.

Students reinstated after failing the OSCE once along with any other 803xx failure(s) (course or rotation) are required to successfully repeat (S grade) all 803xx rotations before taking the OSCE a second time. This second attempt takes place once all 803xx rotations and any outstanding course failures are successfully repeated (minimum C or S grade). Students reinstated after failing the OSCE and any other 803xx rotation or course who then fail the OSCE on their second attempt (original attempt and attempt after being reinstated) are dismissed from the college without eligibility for reinstatement.

Students reinstated after failing the OSCE twice (first attempt and remedial attempt) are required to repeat and pass (S grade) all 803xx rotations before taking the OSCE a third and final time. Students reinstated after failing the OSCE and the OSCE remediation who then fail the OSCE on the third attempt are dismissed from the college without eligibility for reinstatement.

Professionalism Deficiency Evaluation

Introduction

Professional behavior is always expected of students on campus, in clinic, during college events and while on outside rotations. If a student's behavior is deemed unprofessional — either by a member of the college staff, a faculty member, guest lecturer, independent contractor, patient or external rotation supervisory personnel — the student will be subject to a professionalism deficiency evaluation and potential professionalism standard sanctions, up to and including dismissal from the program. Some behaviors or actions that occur in relation to a course, rotation or in a classroom/lab setting may be subject not only to academic consequences outlined in the syllabus, but also to professionalism standard sanctions.

Process

The individual initiating the professionalism deficiency must complete a Professionalism Deficiency Evaluation form and submit it to the Office of Academic Operations and Institutional Research. When possible, the student will be apprised of the professionalism deficiency concern. The student will receive a copy of the professionalism deficiency evaluation form from the Office of Academic Operations and Institutional Research within 24 hours (one business day) of submission of the form. Within 72 hours of receiving the form, the student may provide a written statement or arrange for an in-person statement to the committee. The Professionalism Deficiency form and any previous professional behavior conduct files the student may have will be sent to the Professionalism Standards Review Committee.

The Professionalism Standards Review Committee will convene within three business days of receiving all required information. The committee will:

1. Review the complaint and any supporting documentation including a written or in-person statement by the student.
2. Conduct an investigation, which may include personal interviews and analysis of video or audio recordings and electronic/computer data, etc.
3. Determine appropriate consequences, as indicated below under Committee Determinations.

The committee's determination will be sent to the Office of Academic Operations and Institutional Research. The office will then notify the student via the student's Kent State email and copy the college dean.

Committee Determinations

1. The magnitude of the professional deficiency warrants **dismissal** from the program (even for certain first-time professional deficiencies), with one of the following options:
   a. The student will not be considered for readmission to the College of Podiatric Medicine.
   b. The student will be permitted to reapply and will be considered for re-admission to the College of Podiatric Medicine for the following academic year (if eligible).
   c. The committee may require additional conditions to be met to establish eligibility.
2. The magnitude of the professional deficiency warrants one or more of the following **severe** sanctions:
   a. Failure of an assessment (e.g., examination, quiz, practical)
   b. Failure of a course or rotation.
   c. Preclusion from participation in certain clinical rotations.
   d. A letter of reprimand from the college dean related to the professional deficiency, which becomes part of the student's permanent file and will be included with all externship and residency applications.
3. The magnitude of the professional deficiency warrants one or more of the following **lower-level** sanctions:
   a. The student is issued a warning notice of the deficiency, which does not become part of the student's permanent record but remains in the student's professionalism file in the Office of Academic Operations and Institutional Research.
   b. The student must meet with one or more members of the college administration regarding the professional deficiency.

c. The student must attend and participate in a professional behavior remediation course or complete a professional behavior remediation project.
d. The student must make-up one or more days of a clinical rotation.
e. The student is dismissed or receives a severe sanction(s) listed above due to chronic/multiple lower-level professional deficiencies.

Expectations for Professional Behavior

The following is a list of general expectations for all students regarding professional behavior.

1. The student adheres to institutional, clinical and hospital policies and regulations.
2. The student demonstrates reliability and responsibility.
   a. Examples that do not demonstrate this expectation include, but are not limited to, missing assigned deadlines or not attending mandatory classes, college meetings or events; arriving late to clinic lab or rotation; not having white coat for clinic; wearing a soiled or stained white coat; wearing wrong color scrubs; not having the instruments; and poor grooming and hygiene.
3. The student demonstrates maturity.
   a. Examples that do not demonstrate this expectation include, but are not limited to, using inappropriate loud or foul language; making gestures that could be construed as inappropriate; damaging or disrespecting others' property; theft; and not adhering to published policies.
4. The student demonstrates the ability to accept criticism and to take appropriate steps to correct shortcomings.
   a. Examples that do not demonstrate this expectation include, but are not limited to, arguing or harassing a faculty member about a grade or examination; and asking a faculty member to change a grade despite not having earned the grade through the student's merit.
5. The student communicates professionally and appropriately, either verbally, online or in writing.
   a. Examples that do not demonstrate this expectation include, but are not limited to, sending inappropriate emails that contain lewd or lascivious content; and using social media in a way that compromises the student's professional identity.
6. The student demonstrates honesty and integrity.
7. The student demonstrates respect for members of the college community.
   a. An example that does not demonstrate this expectation includes, but is not limited to, harassing another individual either verbally, physically or through electronic means.
8. The student demonstrates respect for patients and individuals involved in all clinical settings, either on campus or at external locations.
9. The student demonstrate appearance, etiquette and grooming appropriate for the setting that demonstrates professionalism.

Registration for the College Podiatric Medicine

All students must complete a registration each year. Students who fail to complete registration requirements by the assigned deadline are subject to a professionalism deficiency evaluation. Students will not be promoted to the following grade level / academic year until registration requirements are fulfilled. Once the academic year concludes, students who have not submitted the required registration paperwork for the subsequent academic year will be withdrawn from the program.

Remediation and Mandatory Academic Counseling

Students may remediate an F (fail) or U (unsatisfactory) grade by receiving a satisfactory grade after remediation of the course or clinical rotation. Both the initial grade (F or U) and the satisfactory grade (no higher than the C grade) received after remediation are noted on the transcript. However, the original F or U grade is not calculated into the GPA provided that the student receives a passing grade (C or S) for the remedial course or rotation. Students who fail a remedial course or rotation will have both the original and remedial grades calculated into their GPA.

Students who do not attend a scheduled CLI 803xx or 804xx rotation and have not been approved for a rotation exception schedule change will receive an NF (Never Attended–Fail) mark and will be required to remediate the failure. These students also will be placed on academic probation until the NF mark is remediated by receiving a passing grade (S or C). An NF mark in a clinical rotation follows the same GPA and transcript policy as detailed in the previous paragraph. Students with an NF mark along with any other outstanding failures on their record will be academically dismissed.

Any student with one course or rotation failure will be placed on academic probation until the requirement is successfully (C or S grade) remediated. Failure in a remedial course or rotation will result in academic dismissal, as will any failure in an additional course or rotation prior to the successful (C or S grade) completion of remediation.

Remediation of the failed course or rotation will take place during the four-week period detailed below. Please note, the four-week remediation period may continue into the next academic year.

- Students in their first year will begin remediation immediately following the summer term.
- Students in their second year will begin remediation immediately following the spring semester.
- With the exception of Pathway I and II students, remediation for students in their third year will take place in May of the third-year summer term. Non-Pathway I and II students making up an entire third-year clinical rotation for non-academic reasons will remediate a failure in June after the successful completion of all 803xx coursework and clinical rotations. If making up multiple third-year clinical rotations, students will remediate the month after all 803xx courses and rotations are successfully completed.
- Remediation for APMLE Pathway I and II students will take place in July once students have successfully completed all 803xx level clinical rotations and coursework. Pathway I students making up an additional 3xx level clinical rotation (for non-academic reasons) will remediate in August once they have successfully completed all 803xx clinical rotations and coursework. Please note, students in their third year (including Pathway I students) who need to make up or remediate a combined total of four or more clinical rotations or courses will be delayed in starting fourth-year clerkships and rotations to the extent that they will not graduate on time at the end of the fourth-year summer term and may have their entry into residency delayed.
- Remediation for the Objective Structured Clinical Examination (OSCE) will take place the month immediately following the student's first

attempt and failure. For full details regarding the OSCE schedule and eligibility for remediation, please see the Objective Structured Clinical Examination (OSCE) policy.
- Remediation for students in their fourth year will take place in April of the fourth-year summer term.

In addition to standard tuition, students are subject to an additional fee for remediation.

Students are not permitted to begin remediation until all other courses and clinical rotations from that academic level have been successfully completed. Academic level is defined as 801xx, 802xx, 803xx and 804xx.

Students are advised that remediation takes precedence over all other educational responsibilities. Remediation is conducted in a manner determined by the course coordinator. This includes the specifics of the delivery of the remedial course or rotation and the format of all assessments and examinations. Prearranged travel is not a qualified excuse to be absent from any scheduled meeting or examination.

Students are required to meet the following GPA requirements during the first and second year (effective for students whose first semester of coursework in the Podiatric Medicine program is fall 2016 or later):

- First Year:
  - Minimum 2.500 GPA at the end of the first-year fall semester;
  - Minimum 2.500 overall GPA at the end of the first-year spring semester; and
  - Minimum 2.500 GPA at the end of the first-year summer term.
- Second Year:
  - Minimum 2.500 overall GPA at the end of the second-year fall semester; and
  - Minimum 2.400 overall GPA at the end of the second-year spring semester.

Students falling below the minimum GPA following the first-year fall semester, first-year spring semester, first-year summer term or second-year fall semester will be required to participate in mandatory academic counseling.

Students with below a 2.400 GPA at the conclusion of the second-year spring semester will be academically dismissed from the program.

Student Conduct

A finding of responsibility for violating college or university policy will lead to a review by the dean of the college and may result in summary dismissal from the program. The decision of the dean is final.

Student Malpractice Insurance Coverage

Podiatric Medicine students are covered by the college's malpractice insurance policy for all official clinical rotations (i.e., registered for college credit).

Students are encouraged to visit clinical programs when they can find the free time in their schedules to do so. If visiting a program outside of an official clinical rotation that will consist of hands-on experiences rather than just observational, students must notify the Office of Academic Operations and Institutional Research prior to the hands-on experience taking place, or immediately following.

Technical Standards and Essential Requirements for Student Education in the College of Podiatric Medicine

The College of Podiatric Medicine is committed to the admission and advancement of all qualified students. College policy prohibits discrimination against anyone solely based on race, sexual orientation, gender, veteran status, color, national origin, religion, age, handicap or disability.

The faculty and administration have adopted the following technical standards and essential requirements that must be met by all students for progression and graduation. These technical standards expected of students seeking the degree of doctor of Podiatric Medicine reflect the college's highest commitment to the safety of its students and patients, and recognize the essential functions of the profession of podiatric medicine.

The following standards and requirements describe the academic abilities and non-academic qualifications that are essential to the program of instruction; are directly related to the licensing requirements; and are directly related to those physical abilities, mental abilities, skills, attitudes and behaviors that students must demonstrate or perform at each stage of their education to ultimately ensure patient safety.

- **Visual observation and integration:** Candidates and students must have sufficient vision to observe demonstrations, video materials, and slides through a microscope and computer screens. They must acquire information from written documents, radiographs, photographs, charts and diagrams. They must be able to observe a patient accurately close at hand and at a distance to assess asymmetry, range of motion and tissue/texture changes.
- **Communication:** Candidates and students must be able to communicate effectively in oral and written formats, and in settings where time span is limited. This includes communication in clinical and laboratory settings. Candidates must be able to accurately elicit information in a timely and efficient manner. Candidates must be able to describe a patient's condition to the patient and to others in the diagnosis and treatment process.
- **Other sensory capacities:** Students must independently be able to take an oral history, do stethoscopy and communicate while wearing a surgical mask. Students must also have sufficient somatosensory capacity to palpate pulses, use a tuning fork and assess skin temperature.
- **Motor functions:** Candidates and students must have sufficient motor function reasonably required to undertake classes, laboratories and demonstrations, to provide general patient care as well as emergency treatment to patients. This includes cadaver dissection, microscopy, aseptic technique and safe handling of microbiological specimens. Also included is the motor capacity for chart and prescription writing, palpation, percussion, auscultation and other diagnostic maneuvers. All of these tasks must be done in a timely and efficient manner within prescribed time limitations relative to the context of a practicing physician. Examples of common daily treatments include, but are not limited to, palliative care of foot and ankle problems, injections, orthotic impressions, taking and processing of pedal radiographs, and performance of soft tissue and osseous tissue surgical procedures. Examples of emergency treatments include CPR, administration of intravenous medications, the opening of obstructed airways and hemostasis techniques.

- **Intellectual, conceptual, quantitative and integrative abilities:** Candidates must have sufficient cognitive abilities and effective learning techniques to assimilate the detailed and complex information presented in the medical student curriculum. Candidates must engage in critical thinking and problem solving. They must be able to learn through a variety of modalities including, but not limited to, classroom and lab instruction and exams; small group, team and collaborative activities; individual study; preparation and presentation of reports; and use of computer technology. Candidates must be able to consistently, quickly and accurately measure, calculate, interpret, reason, memorize, analyze, synthesize and transmit information across modalities. Candidates must be able to demonstrate these skills and procedures under pressure and in a timely fashion across a range of conditions and time frames. They must be able to recognize and draw conclusions under pressure and in a timely fashion across a range of conditions and time frames. They must be able to recognize and draw conclusions about three-dimensional spatial relationships and logical sequential relationships among events. These skills and abilities are fully defined by the faculty and explained in course syllabi.
- **Behavioral and social attributes:** Candidates must demonstrate the maturity and emotional stability required for full use of their intellectual abilities. They must accept responsibility for learning, exercising good judgement and promptly completing all responsibilities attendant to the diagnosis and care of patients. They must understand the legal and ethical aspects of the practice of medicine and function within both the law and ethical standards of the medical profession. Candidates must be able to work effectively, respectfully and professionally as part of the healthcare team and to interact with patients, their families, and health care personnel in a courteous, professional and respectful matter. They must be able to tolerate physically taxing workloads and long work hours, to function effectively under stress and to display flexibility and adaptability to changing environments.
- **Involvement in invasive and exposure-prone procedures:** Candidates and students must be qualified to be personally and actively involved in invasive and exposure-prone procedures without being a danger to patients, other health care professionals or fellow students. They must demonstrate adherence to the universal precautions as defined by the Center for Disease Control. As part of the technical standards and essential requirements to matriculate at the college, the following statement shall apply: If the student is HIV seropositive, the student may be restricted by the State Medical Board of Ohio from performing procedures required for graduation. If the student is HBV and or HCV positive and does not demonstrate non-infectivity, the student may be restricted by the State Medical Board of Ohio from performing procedures required for graduation. Any questions regarding these requirements should be directed to the senior associate dean.

Test Review Procedure

Students may review an examination by appointment only with the course coordinator, and only for a period extending two weeks following the conclusion of the exam cycle. Students wishing to receive an extension to the two-week period must contact the course coordinator prior to the deadline in order for their request to be considered. The course coordinator will determine the manner in which all reviews take place.

Transfer and Advanced Standing Admissions

Advanced Standing is credit(s) granted by a college to a student for studies completed elsewhere (i.e., another podiatry college or accredited medical school). Students will only be considered for Transfer and Advanced Standing prior to matriculation.

Candidates interested in transfer/advanced standing admission must meet the criteria for initial admission as outlined in the academic requirements section and follow the procedures outlined below:

- Submit a statement to the Office of Enrollment Management / Admissions requesting transfer/advanced standing consideration.
- Provide an official transcript of academic performance in all undergraduate, graduate and professional programs of study, domestic and international. If there was international institutional enrollment, reports from a recognized foreign credentialing agency must be jointly submitted for full consideration.
- Provide a letter of status from the academic dean or dean of student affairs at the College of Podiatric Medicine or other accredited medical school currently being attended. Official transcripts must indicate minimum 3.500 GPA from previous podiatric college for transfer consideration.

Full Description

The Doctor of Podiatric Medicine degree prepares students for the podiatric medicine field. The podiatric physician is a health professional who is involved with examination, prevention, diagnosis and treatment of foot disorders by physical, medical and surgical means. A podiatric medicine doctor is trained to detect the signs of systemic disease which may appear first in the lower extremity, such as diabetes or circulatory disorders. When such diagnoses are made, the podiatric physician consults with the patient's family doctor concerning the systemic disease.

A career in podiatric medicine can include the areas of primary care, surgery, orthopedics, sports medicine, geriatrics and pediatrics.

Podiatric Medicine students have the opportunity to combine the D.P.M. degree with either the Master of Business Administration or Master of Public Health degree and double count courses toward both degrees.

Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.

Biostatistics - M.P.H.

College of Public Health

  - In person
- **Location:**
  - Kent Campus

Examples of Possible Careers and Salaries*

Statisticians

- 34.6% much faster than the average
- 42,700 number of jobs
- $92,270 potential earnings

Accreditation

The M.P.H. degree in Biostatistics is accredited by the Council on Education for Public Health (CEPH).

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Bachelor's degree from an accredited college or university
- Minimum 3.000 undergraduate GPA on a 4.000-point scale
- Official transcript(s)
- Goal statement
- Résumé
- Two letters of recommendation
- English Language Proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[1]
  - Minimum 79 TOEFL iBT score
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

[1] International applicants who do not meet the above test scores will not be considered for admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 15 (international student)
    All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by this deadline will receive the strongest consideration for admission.
  - Rolling admissions (domestic student)
- **Spring Semester**
  - Priority deadline: August 15 (international student)
    All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by this deadline will receive the strongest consideration for admission.
  - Rolling admissions (domestic student)
- **Summer Term**
  - Rolling admissions (domestic student)

Program Requirements

Major Requirements

Code	Title	Credit Hours
Major Requirements		
BST 62019	BIOSTATISTICS IN PUBLIC HEALTH	3
BST 63012	SURVIVAL ANALYSIS IN PUBLIC HEALTH	3
BST 63013	EXPERIMENTAL DESIGNS IN PUBLIC HEALTH RESEARCH	3
BST 63014	APPLIED REGRESSION ANALYSIS OF PUBLIC HEALTH DATA	3
EHS 62018	ENVIRONMENTAL HEALTH CONCEPTS IN PUBLIC HEALTH	3
EPI 62017	FUNDAMENTALS OF PUBLIC HEALTH EPIDEMIOLOGY	3
EPI 63016	PRINCIPLES OF EPIDEMIOLOGIC RESEARCH	3
EPI 63034	LONGITUDINAL DATA ANALYSIS	3
HPM 62016	PUBLIC HEALTH ADMINISTRATION	3
HPM 63020	COMMUNITY HEALTH NEEDS ASSESSMENT	3
SBS 64634	SOCIAL DETERMINANTS OF HEALTH BEHAVIORS	3
Major Electives, choose from the following: [1]		9
BST 60010	USING R IN PUBLIC HEALTH	
BST 60011	USING SAS IN PUBLIC HEALTH	
BST 60012	USING EXCEL IN PUBLIC HEALTH	
BST 62020	DATA MANAGEMENT AND LOGIC USING SAS® SOFTWARE

EPI 63019	EXPERIMENTAL DESIGNS FOR CLINICAL RESEARCH	

EPI 63020	ADVANCED EPIDEMIOLOGY AND CLINICAL RESEARCH METHODS	
Any Graduate course (50000 or 60000 level) with advisor approval		
Culminating Requirement		
BST 60192	APPLIED PRACTICE EXPERIENCE IN BIOSTATISTICS [2]	3
PH 61199	INTEGRATIVE LEARNING EXPERIENCE	1
Minimum Total Credit Hours:		**46**

[1] Students must consult with their advisor prior to registering for an online elective course.

[2] It is expected that students enrolled in BST 60192 who do not complete the course in one term will continuously register for BST 60292 each semester, until all requirements have been met. Credit hours for BST 60292 do not apply to the minimum 46 credit hours for the degree.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Applied practice experience placement at an approved public health agency under the guidance of a qualified preceptor (150 or 300 contact hours).
- Final portfolio/report and a presentation integrating theory and practice.
- Participation in at least one approved interprofessional education event (IPE); IPE requires students to participate at a specific time/date to be determined in consultation with the student's advisor.
- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.
- Grades below C are not counted toward completion of requirements for the degree.

Program Learning Outcomes

Graduates of this program will be able to:

Evidence-based Approaches to Public Health

1. Apply epidemiological methods to the breadth of settings and situations in public health practice.
2. Select quantitative and qualitative data collection methods appropriate for a given public health context.
3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.
4. Interpret results of data analysis for public health research, policy or practice.

Public Health and Health Care Systems

1. Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings.
2. Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels.

Planning and Management to Promote Health

1. Assess population needs, assets and capacities that affect communities' health.
2. Apply awareness of cultural values and practices to the design or implementation of public health policies or programs.
3. Design a population-based policy, program, project or intervention.
4. Explain basic principles and tools of budget and resource management. Select methods to evaluate public health programs.

Policy in Public Health

1. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence.
2. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.
3. Advocate for political, social or economic policies and programs that will improve health in diverse populations.
4. Evaluate policies for their impact on public health and health equity.

Leadership

1. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
2. Apply negotiation and mediation skills to address organizational or community challenges.

Communication

1. Select communication strategies for different audiences and sectors.
2. Communicate audience-appropriate public health content, both in writing and through oral presentation.
3. Describe the importance of cultural competence in communicating public health content.

Interprofessional Practice

1. Perform effectively on interprofessional teams.

Systems Thinking

1. Apply systems thinking tools to a public health issue.

Full Description

The Master of Public Health degree in Biostatistics prepares students in the quantitative science of health data collection, storage, retrieval, analysis and interpretation. Graduates are equipped to use statistical methods to design and analyze health-related surveys and experiments for improving health. The college's faculty research interests include applying biostatistical analysis to understand critical health problems.

Graduates in biostatistics are in demand at hospitals, pharmaceutical companies, state and local health departments, federal health agencies and biotechnology companies to analyze the effectiveness of new drugs and interventions, identify risk factors for disease and develop effective prevention strategies.

Clinical Epidemiology - M.S.

College of Public Health
www.kent.edu/publichealth

About This Program

The Master of Science degree in Clinical Epidemiology is a STEM-designated advanced degree that prepares students in the epidemiological and biostatistical methods related to clinical trials and clinical research. Students learn advanced methods of observational and experimental study designs and are able to understand disease prevention, development, prognosis and treatment. In addition, students master and are able to apply good clinical practices, clinical trial design and management, statistical analysis, study monitoring, pharmaceutical research and regulations related to clinical research.

Admission Requirements

- Bachelor's degree from an accredited college or university
- Minimum 3.000 undergraduate GPA on a 4.000-point scale
- Official transcript(s)
- Goal statement
- Résumé
- Three letters of recommendation *(starting with the spring 2026 admission term, two letters of recommendation are required)*
- English Language Proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[1]
  - Minimum 79 TOEFL iBT
  - Minimum 6.5 IELTS score
  - Minimum 58 PTE score
  - Minimum 110 DET score

Applicants to the program who have limited clinical or science backgrounds may be advised to take additional coursework to prepare them for the field. Determinations will be made by the admissions committee when the student is admitted conditionally to the program.

[1] International applicants who do not meet the above test scores may be considered for conditional admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: March 15 (international student)
    All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by this deadline will receive the strongest consideration for admission.
  - Rolling admissions (domestic student)
- **Spring Semester**
  - Priority deadline: August 15 (international student)
    All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by this deadline will receive the strongest consideration for admission.
  - Rolling admissions (domestic student)

Program Requirements

EPI 50017	PHARMACOEPIDEMIOLOGY	
EPI 50018	REGULATORY AFFAIRS IN CLINICAL RESEARCH	
EPI 50196	INDIVIDUAL INVESTIGATION IN EPIDEMIOLOGY	
EPI 63014	EPIDEMIOLOGY OF CHRONIC DISEASES	
EPI 63015	EPIDEMIOLOGY OF INFECTIOUS DISEASES	
Culminating Requirement		
Choose from the following: [1]		3-6
EPI 63192	RESEARCH PRACTICUM IN CLINICAL EPIDEMIOLOGY	
EPI 63199	THESIS I	
Minimum Total Credit Hours:		**36**

[1] All students will be required to present their thesis or research-based practicum to the College of Public Health at a presentation day, either in person or using videoconferencing technology. Students choosing a 3-credit hour research practicum will take 9 credit hours of electives. Students choosing a 6-credit hour thesis will take 6 credit hours of electives.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Some students may be required to take science-based courses in addition to the requirements for the degree and, therefore, will graduate with more than the listed credit hours.
- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.
- Grades below C are not counted toward completion of requirements for the degree.

Program Learning Outcomes

Graduates of this program will be able to:

1. Conduct patient-oriented research to understand and modify health outcomes.
2. Design and carry out epidemiologic studies.
3. Analyze clinical data and understand the sources, strengths and limitations of patient data.
4. Design and perform clinical trials.
5. Interact with human subjects and describe prognosis, therapies and outcomes.

Clinical Research - Graduate Certificate

College of Public Health
www.kent.edu/publichealth

About This Program

The Clinical Research certificate is ideal for individuals with clinical experience or background who want to learn more about carrying out clinical research studies. With a 9.3% increase in job postings for clinical research positions in the last three years, and 14,607 nationwide job openings for clinical research coordinators, now is the time to gain the knowledge and skills needed to excel in this exciting field. Program Learning Outcomes

Graduates of this program will be able to:

1. Conduct patient-oriented research to understand and modify health outcomes.
2. Carry out clinical studies and clinical trials.
3. Describe clinical data and understand the sources, strengths and limitations of patient data.
4. Determine the methods and procedures to carrying out clinical studies.
5. Interact with human subjects and describe prognosis, therapies and outcomes.
6. Describe management of clinical studies.
7. Describe regulatory affairs related to clinical trials.
8. Discuss Health Insurance and Portability and Accountability Act (HIPAA).
9. Identify good clinical practices.

Full Description

The Clinical Research graduate certificate is a flexible program that is designed for students with different goals and needs for advancing their understanding of clinical research methods. Students in the program choose from courses in research methods, biostatistics or health policy and have the option to complete a research practicum. This certificate is appropriate for a wide range of individuals, including clinicians who need advanced training in research methods and those who are seeking credentials to move into clinical research positions.

Students may apply the courses in the certificate toward a graduate degree in the College of Public Health.

Community Health Worker Supervision - Undergraduate Certificate

College of Public Health
www.kent.edu/publichealth

About This Program

The Community Health Worker Supervision undergraduate certificate equips you with essential skills in leadership, management, communication and cultural competency. Designed for professionals responsible for managing and supporting community health workers, this certificate helps you create supportive environments that improve community health outcomes. Read more...

Program Delivery

- **Delivery:**
  - Fully online

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Former Students: Former Kent State students who have not attended another institution since Kent State and were not academically dismissed will complete the re-enrollment process through the Financial, Billing

and Enrollment Center. Former students who attended another college or university since leaving Kent State must apply for admissions as a transfer or post-undergraduate student.

Transfer Students: Students who attended an educational institution after graduating from high school or earning their GED must apply as transfer students. For more information, visit the admissions website for transfer students.

Admission policies for undergraduate students may be found in the University Catalog's Academic Policies.

Students may be required to meet certain criteria to progress in their program. Any progression requirements will be listed on the program's Coursework tab

Applicants with a state community health worker certificate or licensure must submit a copy to an academic advisor in the College of Public Health. The state certificate or licensure must be valid through the student's graduation term.

Program Requirements

Certificate Requirements

Code	Title	Credit Hours
Certificate Requirements		
PH 20000	PUBLIC HEALTH PROFESSIONAL PRACTICE I	1
PH 20392	COMMUNITY HEALTH WORKER CERTIFICATION II-INTERNSHIP (ELR) [1]	3
PH 23000	COMMUNITY HEALTH WORKER CERTIFICATION I [1]	3
PH 44010	PUBLIC HEALTH PLANNING AND FINANCE	3
PH 44015	PUBLIC HEALTH MANAGEMENT	3
PH 44025	PRINCIPLES OF PUBLIC HEALTH LEADERSHIP	3
Minimum Total Credit Hours:		**16**

[1] Students who have an existing community health worker licensure may request to receive college credit toward this requirement.

Graduation Requirements

Minimum Certificate GPA	Minimum Overall GPA
2.000	2.000

- Students must declare themselves as a certificate candidate prior to completing half the courses.
- Students must complete a minimum 10 credit hours at Kent State University.

Program Learning Outcomes

Graduates of this program will be able to:

1. Enhance Communication and Leadership Skills: Utilize strong communication, coaching and leadership techniques to foster professional growth and engagement of community health workers.
2. Promote Cultural Competency and Ethical Standards: Ensure culturally responsive supervision practices that align with ethical guidelines and community health principles.
3. Strengthen Team Collaboration and Integration: Facilitate integration of community health workers into healthcare and public health teams to enhance service delivery and health outcomes.
4. Address Challenges and Conflict Resolution: Identify common workplace challenges and apply conflict resolution strategies to maintain a positive work environment.
5. Enhance Job Retention and Satisfaction: Develop policies and practices that support the well-being of community health workers, including reducing burnout and increasing job satisfaction.

Full Description

The Community Health Worker Supervision undergraduate certificate is designed for professionals responsible for managing and supporting community health workers within various healthcare and public health settings. The certificate provides essential skills in leadership, planning, finance, program management and workforce development to ensure that community health worker supervisors are effectively trained, supported and integrated into healthcare teams.

Students gain expertise with best practices for supervision, including communication strategies, cultural competency, conflict resolution and professional development.

This certificate is ideal for those currently certified as a community health worker or healthcare administrators, public health professionals and program managers who oversee community health workers. Graduates of this certificate are equipped to foster supportive and effective environments that maximize the impact of community health workers with improving community health outcomes.

Environmental Health Sciences for Natural Science Majors - Minor

College of Public Health
www.kent.edu/publichealth

About This Program

Our Environmental Health Sciences for Natural Science Majors minor equips you with the knowledge and skills needed to understand and mitigate the impact of environmental factors on human health. With experienced faculty, cutting-edge research opportunities and a focus on hands-on learning, this program prepares you for a career in this critical field. Enroll now and make a difference in the health of our planet and its inhabitants. Read more...

PH 30007	PREVENTION AND CONTROL OF DISEASES	3
Minor Electives, choose from the following:		9
PH 30012	COMMUNICABLE DISEASES	
PH 40102	SOLID AND HAZARDOUS WASTE MANAGEMENT	
PH 40103	FOOD PROTECTION (ELR)	
PH 40105	WATER AND WASTEWATER MANAGEMENT (ELR)	
PH 42100	CLIMATE CHANGE AND POPULATION HEALTH	
PH 43013	BUILT ENVIRONMENT AND PUBLIC HEALTH	
Minimum Total Credit Hours:		**21**

Graduation Requirements

Minimum Minor GPA	Minimum Overall GPA
2.000	2.000

- Minimum 6 credit hours in the minor must be upper-division coursework (30000 and 40000 level).
- Minimum 6 credit hours in the minor must be outside of the course requirements for any major or other minor the student is pursuing.
- Minimum 50 percent of the total credit hours for the minor must be taken at Kent State (in residence).

Program Learning Outcomes

Graduates of this program will be able to:

1. Address the basic concepts, methods and tools of public health data collection, use and analysis and why evidence-based approaches are an essential part of public health practice.
2. Address the socioeconomic, behavioral, biological, environmental and other factors that impact human health and contribute to health disparities.

Full Description

The Environmental Health Sciences for Natural Science Majors minor is intended for students who have a strong interest or curricular focus in a natural science major. This includes students in a variety of majors including, but not limited to, biology, chemistry, geography, geology, physics, plant biology and zoology. The minor provides students with foundational concepts in environmental health as it relates to the broad field of public health.

Students who complete the required coursework and have 30 credit hours of coursework in specific public health areas, biology, chemistry, physics, geology, math or statistics can pursue a career path in State of Ohio agencies to become a registered environmental health specialist (REHS), as well as becoming well equipped to enter the workforce in a variety of career paths.

Environmental Health Sciences for Non-Natural Science Majors - Minor

College of Public Health
www.kent.edu/publichealth

About This Program

The Environmental Health Sciences for Non-Natural Science Majors minor is intended for students who have a strong interest or curricular focus in a natural science major. The minor provides students with foundational concepts in environmental health as it relates to the broad field of public health.

Students who complete the required coursework and have 30 credit hours of coursework in specific public health areas, biology, chemistry, physics, geology, math or statistics can pursue a Sanitarian in Training (SIT) career path in State of Ohio agencies to become a registered environmental health sanitarian (REHS), and are well equipped to enter the workforce in a variety of career paths.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Practicum placement at an approved public health agency under the guidance of a qualified preceptor (150 or 300 contact hours).
- Final portfolio/report and a presentation integrating theory and practice.
- Participation in at least one approved interprofessional education event (IPE); IPE requires students to participate at a specific time/date to be determined in consultation with the student's advisor.
- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.
- Grades below C are not counted toward completion of requirements for the degree.

Program Learning Outcomes

Graduates of this program will be able to:

Evidence-based Approaches to Public Health

1. Apply epidemiological methods to the breadth of settings and situations in public health practice.
2. Select quantitative and qualitative data collection methods appropriate for a given public health context.
3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.
4. Interpret results of data analysis for public health research, policy or practice.

Public Health and Health Care Systems

1. Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings.
2. Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels.

Planning and Management to Promote Health

1. Assess population needs, assets and capacities that affect communities' health.
2. Apply awareness of cultural values and practices to the design or implementation of public health policies or programs.
3. Design a population-based policy, program, project or intervention.
4. Explain basic principles and tools of budget and resource management. Select methods to evaluate public health programs.

Policy in Public Health

1. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence.
2. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.
3. Advocate for political, social or economic policies and programs that will improve health in diverse populations.
4. Evaluate policies for their impact on public health and health equity.

Leadership

1. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
2. Apply negotiation and mediation skills to address organizational or community challenges.

Communication

1. Select communication strategies for different audiences and sectors.
2. Communicate audience-appropriate public health content, both in writing and through oral presentation.
3. Describe the importance of cultural competence in communicating public health content.

Interprofessional Practice

1. Perform effectively on interprofessional teams.

Systems Thinking

1. Apply systems thinking tools to a public health issue.

Full Description

The Master of Public Health degree in Epidemiology prepares students to analyze the distribution and determinants of disease, disabilities and death in populations. Graduates are able to apply quantitative and qualitative methods to investigate disease outbreaks, determine causal relationships between environmental and biological factors and conduct studies to project health trends in populations. Students benefit from public health faculty research agendas in immigrant and refugee health, chronic disease, cancer and infectious disease epidemiology.

Career opportunities for graduates include research positions in universities, medical schools and pharmaceutical companies; disease prevention specialists in hospitals; and surveillance managers in state and local health departments.

Health Policy and Management - M.P.H.

College of Public Health
www.kent.edu/publichealth

About This Program

Transform your career with a Master of Public Health in Health Policy and Management. This program equips you with the skills to tackle public health challenges, drive policy solutions and manage health services. Graduates are prepared for roles at hospitals, health departments, policy analysis and more. Start making a difference in public health today. Read more...

HPM 62016	PUBLIC HEALTH ADMINISTRATION	3
HPM 63003	HEALTH CARE SYSTEMS	3
HPM 63004	PUBLIC HEALTH POLICY, LAW AND ETHICS	3
HPM 63005	FINANCIAL MANAGEMENT FOR PUBLIC HEALTH ORGANIZATIONS	3
HPM 63006	COST BENEFIT ANALYSIS IN PUBLIC HEALTH PROGRAMS	3
HPM 63007	PUBLIC HEALTH PROGRAMS: PLANNING, IMPLEMENTATION AND EVALUATION	3
HPM 63020	COMMUNITY HEALTH NEEDS ASSESSMENT	3
PH 61199	INTEGRATIVE LEARNING EXPERIENCE	1
SBS 64634	SOCIAL DETERMINANTS OF HEALTH BEHAVIORS	3
Major Electives, choose from the following:		6-9
Any Biostatistics (BST) Graduate course (50000 or 60000 level)		
Any Environmental Health Sciences (EHS) Graduate course (50000 or 60000 level)		
Any Epidemiology (EPI) Graduate course (50000 or 60000 level)		
Any Health Policy and Management (HPM) Graduate course (50000 or 60000 level)		
Any Social and Behavioral Sciences (SBS) Graduate course (50000 or 60000 level)		
Culminating Requirement		
HPM 60392	APPLIED PRACTICE EXPERIENCE IN HEALTH POLICY AND MANAGEMENT [1]	3-6
Minimum Total Credit Hours:		**46**

[1] It is expected that students enrolled in HPM 60392 who do not complete the course in one term will continuously register for HPM 60492 each semester, until all requirements have been met. Credit hours for HPM 60492 do not apply toward the minimum 46 credit hours for the degree.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Practicum placement at an approved public health agency under the guidance of a qualified preceptor (150 or 300 contact hours)
- Final portfolio/report and a seminar presentation integrating theory and practice
- Participation in at least one approved interprofessional education event; event requires students to participate at a specific time/date to be determined in consultation with the student's advisor

- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.

- Grades below C are not counted toward completion of requirements for the degree.

Program Learning Outcomes

Graduates of this program will be able to:

Evidence-Based Approaches to Public Health

1. Apply epidemiological methods to the breadth of settings and situations in public health practice.
2. Select quantitative and qualitative data collection methods appropriate for a given public health context.
3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.
4. Interpret results of data analysis for public health research, policy or practice.

Public Health and Health Care Systems

1. Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings.
2. Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels.

Planning and Management to Promote Health

1. Assess population needs, assets and capacities that affect communities' health.
2. Apply awareness of cultural values and practices to the design or implementation of public health policies or programs.
3. Design a population-based policy, program, project or intervention.
4. Explain basic principles and tools of budget and resource management.
5. Select methods to evaluate public health programs.

Policy in Public Health

1. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence.
2. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.
3. Advocate for political, social or economic policies and programs that will improve health in diverse populations.
4. Evaluate policies for their impact on public health and health equity.

Leadership

1. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
2. Apply negotiation and mediation skills to address organizational or community challenges.

Communication

1. Select communication strategies for different audiences and sectors.
2. Communicate audience-appropriate public health content, both in writing and through oral presentation.
3. Describe the importance of cultural competence in communicating public health content.

Interprofessional Practice

1. Perform effectively on interprofessional teams.

Systems Thinking

1. Apply systems thinking tools to a public health issue.

Full Description

The Master of Public Health degree in Health Policy and Management is designed to help students develop real world knowledge and skills needed to pursue success in the public health industry. The program prepares students to address public health risks and develop effective health services delivery models, and incorporates health services research, health policy analysis and health care planning and management. Given the active research of the college's faculty in identifying service gaps and developing evidence-based practices and policy analysis, students emerge with strong skills in health services management, alternative models of service financing and strategies for improving services.

Career opportunities for graduates include administrative and management positions in hospitals, clinics, state and local health departments, nursing homes and mental health facilities; policy analyst positions in health planning organizations and governmental agencies; and planning and management positions in health maintenance organizations and health insurance companies.

The M.P.H. degree in Health Policy and Management can be paired with the Healthcare Compliance graduate certificate. Students may double count 12 credit hours toward both programs. Graduates are eligible to apply to sit for the Certified in Healthcare Compliance (CHC) examination through the Compliance Certification Board (CCB).

Students have the opportunity to complete a dual degree program with the Master of Business Administration degree. A separate application must be submitted for each program.

Health Services Administration - Minor

College of Public Health
www.kent.edu/publichealth

About This Program

The Health Services Administration minor is intended for students that have a strong interest in concepts related to the management, ethics and practice of the administration of health services. Students complete a series of specific courses designed to enhance their knowledge in the area of health services, as well as courses geared for professional practice.

The minor will augment students' study in a variety of majors including, but not limited to, business, communications, nursing, psychology, sociology, public health and health and human services.

[1] Students declared in the Nursing major may substitute NURS 40045 for PH 30033.

Graduation Requirements

Minimum Minor GPA	Minimum Overall GPA
2.000	2.000

- Minimum 6 credit hours in the minor must be upper-division coursework (30000 and 40000 level).
- Minimum 6 credit hours in the minor must be outside of the course requirements for any major or other minor the student is pursuing.
- Minimum 50 percent of the total credit hours for the minor must be taken at Kent State (in residence).

Program Learning Outcomes

Graduates of this program will be able to:

1. Describe the major components of the U.S. healthcare system, including key stakeholders, funding mechanisms and service delivery models.
2. Summarize basic leadership and management principles used in public health and health services organizations.
3. Explain the development of public health policies and how they influence health services administration.
4. Apply a basic ethical framework of public health and health care administration.

Health Technologies and Informatics - Minor

College of Public Health
www.kent.edu/publichealth

About This Program

Gain the skills and knowledge needed to work at the intersection of healthcare and technology. As a student in this program, you will learn about health information systems, data analysis and emerging technologies in healthcare. With a growing demand for professionals with these skills, you will be well-prepared for a wide range of careers in the healthcare industry. Read more...

- Minimum 50 percent of the total credit hours for the minor must be taken at Kent State (in residence).

Program Learning Outcomes

Graduates of this program will be able to:

1. Explain basic tenants of public health.
2. Identify how health informatics improves health care effectiveness and efficiency.
3. Describe the how technology informs lifespan learning.
4. Explain evaluation methods, e-Health, decision support, and database systems as important information technologies for supporting healthcare decision-making.
5. Identify innovative technologies that have the potential to inform and transform public health.

Full Description

The Health and Technologies and Informatics minor provides students with knowledge and skills in public health and information technology. Students who are interested in public health face new challenges and opportunities with technology. Conversely, students in other fields related to technology are often presented with challenges and opportunities related to public health. Drawing on an interdisciplinary focus of public health, education, communication, geography, information, and educational technology, students increase their skill set for practice in an information-intensive health care environment.

Students in this minor will gain knowledge on how information technology is used to organize and analyze health records, health information databases and trends in technology to improve healthcare outcomes. For students with natural science, communication, business, computer, or information technology degrees, the minor courses will expose them to the uniqueness and complexity of work processes in public health and healthcare.

Healthcare Compliance - Graduate Certificate

College of Public Health
www.kent.edu/publichealth

About This Program

With the increasing need for healthcare compliance professionals in today's regulatory environment, the Certified in Healthcare Compliance designation can set you apart from your peers and advance your career. With the CCB-accredited Healthcare Compliance graduate certificate, you will gain the knowledge and skills necessary to pass the HCCA exam and become highly employable in the field. Read more...

  - Fully online

Examples of Possible Careers

- Compliance analyst
- Compliance healthcare consultant
- Compliance healthcare manager
- Healthcare compliance officer
- Senior investigator of healthcare fraud

Accreditation

The Healthcare Compliance certificate is accredited by the Compliance Certification Board (CCB).

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

- Bachelor's degree from an accredited college or university[1]
- Minimum 3.000 undergraduate GPA on a 4.000-point scale
- Official transcript(s)
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[2]
  - Minimum 71 TOEFL iBT score
  - Minimum 6.0 IELTS score
  - Minimum 50 PTE score
  - Minimum 100 DET score

[1] Kent State undergraduate students who are enrolled in the combined B.S.P.H./M.P.H. degree program may also apply for this certificate.

[2] International applicants who do not meet the above test scores will not be considered for admission.

Graduation Requirements

Minimum Certificate GPA	Minimum Overall GPA
3.000	3.000

Program Learning Outcomes

Graduates of this program will be able to:

1. Explain the components of the Health Insurance Portability and Accountability Act (HIPAA) of 1996.
2. Perform an audit on a healthcare organization to determine uses of protected health information and highlight areas of vulnerability.
3. Determine required and permitted disclosures of protected health information.
4. Describe the legal and historical foundations of compliance programs.
5. Identify key areas of compliance oversight within a healthcare operation.
6. Develop and implement an effective compliance program.
7. Implement operational aspects of a compliance program.
8. Measure, document and report the effectiveness of a compliance program.
9. Train staff on fraud, waste and abuse topics.
10. Conduct investigations.
11. Audit and monitor healthcare functions.
12. Respond to fraud, waste and abuse.

Full Description

The Healthcare Compliance graduate certificate provides the training necessary to enter this growing field where compliance professionals design and implement comprehensive programs to identify potential risk areas, develop policies, train staff, evaluate effectiveness and conduct investigations.

Healthcare spending accounts for approximately 19 percent of the entire U.S. economy. Unfortunately, some of that money is misspent in the form of fraud, waste and abuse. Federal and state governments continue to increase their scrutiny of healthcare organizations through a maze of complex law and regulations touching every part of the organization. The field of healthcare compliance is emerging as a response to these challenges.

LGBTQ+ Public Health - Graduate Certificate

College of Public Health
www.kent.edu/publichealth

About This Program

The LGBTQ+ Public Health graduate certificate provides the foundational topics and complex issues that contribute to public health and individual health inequities affecting sexual and gender minorities through community- and systems-level strategies that promote health and healthy behaviors.

Contact Information

- **Location:**
  - Kent Campus

Examples of Possible Careers and Salaries*

Community health workers

- 15.2% much faster than the average
- 64,900 number of jobs
- $42,000 potential earnings

Health education specialists

- 11.4% much faster than the average
- 62,200 number of jobs
- $56,500 potential earnings

Additional Careers

- Project coordinator (falls under business operations specialists, all other)
- Social and community service manager
- Clinical research associate (falls under clinical laboratory technologists and technicians)

Accreditation

The B.S.P.H. degree in Public Health is accredited by the Council on Education for Public Health (CEPH).

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Former Students: Former Kent State students who have not attended another institution since Kent State and were not academically dismissed will complete the re-enrollment process through the Financial, Billing and Enrollment Center. Former students who attended another college or university since leaving Kent State must apply for admissions as a transfer or post-undergraduate student.

Transfer Students: Students who attended an educational institution after graduating from high school or earning their GED must apply as transfer students. For more information, visit the admissions website for transfer students.

Admission policies for undergraduate students may be found in the University Catalog's Academic Policies.

Students may be required to meet certain criteria to progress in their program. Any progression requirements will be listed on the program's Coursework tab

BSCI 21010	ANATOMY AND PHYSIOLOGY I (KBS) (KLAB)	
Kent Core Additional		6
General Electives (total credit hours depends on earning 120 credit hours, including 39 upper-division credit hours)		19
Minimum Total Credit Hours:		**56**

Community Health Outreach and Development Concentration Requirements

Code	Title	Credit Hours
Concentration Requirements (courses count in major GPA)		
PH 34001	PUBLIC HEALTH INTERVENTIONS I	3
PH 34002	PUBLIC HEALTH INTERVENTIONS II	3
PH 35005	ADVOCACY AND ACTIVISM IN PUBLIC HEALTH	3
or PH 43014	PUBLIC HEALTH AND MASS INCARCERATION	
Concentration Electives, choose from the following:		6
PH 20392 & PH 23000	COMMUNITY HEALTH WORKER CERTIFICATION II-INTERNSHIP (ELR) and COMMUNITY HEALTH WORKER CERTIFICATION I	
PH 35001 & PH 44092	COMMUNITY-BASED PUBLIC HEALTH PRACTICE (ELR) and INTERNSHIP IN PUBLIC HEALTH (ELR)	

PH 35001 & PH 45092	COMMUNITY-BASED PUBLIC HEALTH PRACTICE (ELR) and SERVICE LEARNING PRACTICUM IN COMMUNITY-BASED PUBLIC HEALTH (ELR)	
Additional Requirements (courses do not count in major GPA)		
Mathematics Elective, choose from the following:		3-5
MATH 10771	BASIC MATHEMATICAL CONCEPTS I PLUS (KMCR)	
MATH 10772	MODELING ALGEBRA PLUS (KMCR)	
MATH 10775	ALGEBRA FOR CALCULUS PLUS (KMCR)	
MATH 11009	MODELING ALGEBRA (KMCR)	
MATH 11010	ALGEBRA FOR CALCULUS (KMCR)	
MATH 11012	INTUITIVE CALCULUS (KMCR)	
MATH 11022	TRIGONOMETRY (KMCR)	
MATH 12011	CALCULUS WITH PRECALCULUS I (KMCR)	
MATH 12012	CALCULUS WITH PRECALCULUS II (KMCR)	
MATH 14001	BASIC MATHEMATICAL CONCEPTS I (KMCR)	
MATH 14002	BASIC MATHEMATICAL CONCEPTS II (KMCR)	
Kent Core Basic Sciences (must include one laboratory)		6-7
Kent Core Additional		6
General Electives (total credit hours depends on earning 120 credit hours, including 39 upper-division credit hours)		26
Minimum Total Credit Hours:		**56**

Global Health Concentration Requirements

Code	Title	Credit Hours
Concentration Requirements (courses count in major GPA)		
PH 42100	CLIMATE CHANGE AND POPULATION HEALTH	3
or PH 44003	ENVIRONMENTAL HEALTH ISSUES IN LOW- AND MIDDLE-INCOME COUNTRIES	
Global Health Electives, choose from the following:		6
ANTH 48250	MEDICAL ANTHROPOLOGY (DIVG)	
COMM 35852	INTERCULTURAL COMMUNICATION (DIVG)	
GEOG 31070	POPULATION AND THE ENVIRONMENT	
GEOG 42052	HEALTH GEOGRAPHY	
HED 47070	AIDS: ISSUES, EDUCATION AND PREVENTION	
PH 40105	WATER AND WASTEWATER MANAGEMENT (ELR)	
PH 43013	BUILT ENVIRONMENT AND PUBLIC HEALTH	
PHIL 40005	HEALTH CARE ETHICS	
POL 30301	INTRODUCTION TO PUBLIC ADMINISTRATION	
POL 30810	POLITICS OF THE GLOBAL ECONOMY	
POL 40450	HEALTH CARE AND SOCIAL POLICY	
POL 40470	WOMEN, POLITICS AND POLICY (DIVD)	
Public Health Electives, choose from the following: [1]		6
PH 40089	GLOBAL HEALTH IMMERSION: GENEVA, SWITZERLAND (DIVG) (ELR)	
PH 40092	INTERNATIONAL HEALTH PRACTICUM (ELR)	
PH 41092	FIELD EXPERIENCE IN MEETING THE BASIC HEALTH AND HUMAN NEEDS (ELR)	
PH 43089	PLAGUES THAT SHAPED THE WORLD (DIVG) (ELR)	
PH 44004	GLOBAL HEALTH IMMERSION: LATIN AMERICA	
Additional Requirements (courses do not count in major GPA)		
Mathematics Elective, choose from the following:		3-5
MATH 10771	BASIC MATHEMATICAL CONCEPTS I PLUS (KMCR)	
MATH 10772	MODELING ALGEBRA PLUS (KMCR)	
MATH 10775	ALGEBRA FOR CALCULUS PLUS (KMCR)	
MATH 11009	MODELING ALGEBRA (KMCR)	
MATH 11010	ALGEBRA FOR CALCULUS (KMCR)	
MATH 11012	INTUITIVE CALCULUS (KMCR)	
MATH 11022	TRIGONOMETRY (KMCR)	
MATH 12002	ANALYTIC GEOMETRY AND CALCULUS I (KMCR)	
MATH 12011	CALCULUS WITH PRECALCULUS I (KMCR)	
MATH 12012	CALCULUS WITH PRECALCULUS II (KMCR)	
MATH 14001	BASIC MATHEMATICAL CONCEPTS I (KMCR)	
MATH 14002	BASIC MATHEMATICAL CONCEPTS II (KMCR)	
Foreign Language [2]		14-16
Kent Core Basic Sciences (must include one laboratory)		6-7
Kent Core Additional		6
General Electives (total credit hours depends on earning 120 credit hours, including 39 upper-division credit hours) [3]		12
Minimum Total Credit Hours:		**56**

1 If PH 40092 was not taken during semester six, students should choose from the following to take during the summer term: PH 40089, PH 41092, PH 43089 or PH 44004.

2 Students pick from the following languages (Elementary I and II and Intermediate I and II): Arabic, Chinese, French, Russian or Spanish.

3 Minimum 12 credit hours of study abroad semester courses count as general electives.

Health Services Administration Concentration Requirements

Code	Title	Credit Hours
Concentration Requirements (courses count in major GPA)		
PH 30015	UNITED STATES HEALTH CARE SYSTEM	3
PH 44005	LEGAL ASPECTS OF HEALTH SERVICES MANAGEMENT	3
PH 44010	PUBLIC HEALTH PLANNING AND FINANCE	3
PH 44015	PUBLIC HEALTH MANAGEMENT	3
PH 44020	PUBLIC HEALTH ETHICS IN PRACTICE, POLICY AND RESEARCH	3
PH 44025	PRINCIPLES OF PUBLIC HEALTH LEADERSHIP	3
Health Services Elective, choose from the following:		3
PH 20010	INTRODUCTION TO PUBLIC HEALTH INFORMATICS	
PH 20015	ZOMBIE OUTBREAK	
PH 30020	FUNDAMENTALS OF HEALTH PRIVACY	
PH 30025	FUNDAMENTALS OF HEALTHCARE COMPLIANCE	
PH 40195	SPECIAL TOPICS IN PUBLIC HEALTH	
PH 43014	PUBLIC HEALTH AND MASS INCARCERATION	
PH 44092	INTERNSHIP IN PUBLIC HEALTH (ELR)	
Additional Requirements (courses do not count in major GPA)		
Mathematics Elective, choose from the following:		3-5
MATH 10771	BASIC MATHEMATICAL CONCEPTS I PLUS (KMCR)	
MATH 10772	MODELING ALGEBRA PLUS (KMCR)	
MATH 10775	ALGEBRA FOR CALCULUS PLUS (KMCR)	
MATH 11009	MODELING ALGEBRA (KMCR)	
MATH 11010	ALGEBRA FOR CALCULUS (KMCR)	

MATH 11012	INTUITIVE CALCULUS (KMCR)	
MATH 11022	TRIGONOMETRY (KMCR)	
MATH 12002	ANALYTIC GEOMETRY AND CALCULUS I (KMCR)	
MATH 12011	CALCULUS WITH PRECALCULUS I (KMCR)	
MATH 12012	CALCULUS WITH PRECALCULUS II (KMCR)	
MATH 14001	BASIC MATHEMATICAL CONCEPTS I (KMCR)	
MATH 14002	BASIC MATHEMATICAL CONCEPTS II (KMCR)	
Kent Core Basic Sciences (must include one laboratory)		6-7
Kent Core Additional		6
General Electives (total credit hours depends on earning 120 credit hours, including 39 upper-division credit hours)		20
Minimum Total Credit Hours:		**56**

Pre-Medicine, Dental, Osteopathy Concentration Requirements

Code	Title	Credit Hours
Concentration Requirements (courses count in major GPA)		
BSCI 10120	BIOLOGICAL FOUNDATIONS (ELR) (KBS) (KLAB)	4
CHEM 10060	GENERAL CHEMISTRY I (KBS)	4
CHEM 10061	GENERAL CHEMISTRY II (KBS)	4
CHEM 10062	GENERAL CHEMISTRY I LABORATORY (KBS) (KLAB)	1
CHEM 10063	GENERAL CHEMISTRY II LABORATORY (KBS) (KLAB)	1
CHEM 20481	BASIC ORGANIC CHEMISTRY I	3-4
or CHEM 30481	ORGANIC CHEMISTRY I	
CHEM 30475	ORGANIC CHEMISTRY LABORATORY I (ELR)	1
Concentration Electives, choose from the following:		35
ATTR 25057	HUMAN ANATOMY AND PHYSIOLOGY I (KBS) (KLAB)	
ATTR 25058	HUMAN ANATOMY AND PHYSIOLOGY II (KBS) (KLAB)	
BSCI 10110	BIOLOGICAL DIVERSITY (ELR) (KBS) (KLAB)	
BSCI 11010	FOUNDATIONAL ANATOMY AND PHYSIOLOGY I (KBS) (KLAB)	
BSCI 21010	ANATOMY AND PHYSIOLOGY I (KBS) (KLAB)	
BSCI 21020	ANATOMY AND PHYSIOLOGY II	
BSCI 30130	HUMAN PHYSIOLOGY	
BSCI 30140	CELL BIOLOGY	
BSCI 30156	ELEMENTS OF GENETICS	
BSCI 30171	GENERAL MICROBIOLOGY	
BSCI 40430	ANIMAL PHYSIOLOGY	
CHEM 20482	BASIC ORGANIC CHEMISTRY II [1]	
or CHEM 30482	ORGANIC CHEMISTRY II	
CHEM 30284	INTRODUCTORY BIOLOGICAL CHEMISTRY	
CHEM 30476	ORGANIC CHEMISTRY LABORATORY II	
CHEM 40248	ADVANCED BIOLOGICAL CHEMISTRY	
ECON 22060	PRINCIPLES OF MICROECONOMICS (KSS)	
GERO 14029	INTRODUCTION TO GERONTOLOGY (DIVD) (KSS)	
HED 14020	MEDICAL TERMINOLOGY	
HONR 40197	SENIOR COLLOQUIUM	
MATH 12021	CALCULUS FOR LIFE SCIENCES	
MATH 12022	PROBABILITY AND STATISTICS FOR LIFE SCIENCES	
or MATH 30011	BASIC PROBABILITY AND STATISTICS	
NUTR 23511	SCIENCE OF HUMAN NUTRITION (KBS)	
PESP 25033	LIFESPAN MOTOR DEVELOPMENT	
PHIL 21001	INTRODUCTION TO ETHICS (DIVG) (KHUM)	
PHY 13001 & PHY 13021	GENERAL COLLEGE PHYSICS I (KBS) and GENERAL COLLEGE PHYSICS LABORATORY I (KBS) (KLAB)	
or PHY 23101	GENERAL UNIVERSITY PHYSICS I (KBS) (KLAB)	
PHY 13002 & PHY 13022	GENERAL COLLEGE PHYSICS II (KBS) and GENERAL COLLEGE PHYSICS LABORATORY II (KBS) (KLAB)	
or PHY 23102	GENERAL UNIVERSITY PHYSICS II (KBS) (KLAB)	
PSYC 11762	GENERAL PSYCHOLOGY (DIVD) (KSS)	
SOC 12050	INTRODUCTION TO SOCIOLOGY (DIVD) (KSS)	
Additional Requirements (courses do not count in major GPA)		
Mathematics Elective, choose from the following:		3-5
MATH 10775	ALGEBRA FOR CALCULUS PLUS (KMCR)	
MATH 11010	ALGEBRA FOR CALCULUS (KMCR)	
MATH 11022	TRIGONOMETRY (KMCR)	
MATH 12002	ANALYTIC GEOMETRY AND CALCULUS I (KMCR)	
Minimum Total Credit Hours:		**56**

[1] CHEM 30482 is highly recommended as an additional course for students planning to take the Medical College Admission Test (MCAT).

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
2.000	2.000

Roadmaps

Allied Health Concentration

This roadmap is a recommended semester-by-semester plan of study for this program. Students will work with their advisor to develop a sequence based on their academic goals and history. Courses designated as critical (!) must be completed in the semester listed to ensure a timely graduation.

	Semester Prerequisite		Credits
!	State Licensure or Concentration Electives		12
	Credit Hours		**12**
	Semester One		
	PH 10001	INTRODUCTION TO PUBLIC HEALTH	3
	UC 10001	FLASHES 101	1
	Mathematics Elective		3-5
	Kent Core Requirement		3
	Kent Core Requirement		3
	Kent Core Requirement		3
	Credit Hours		**16**
	Semester Two		
	PH 10002	INTRODUCTION TO GLOBAL HEALTH (DIVG)	3
	Kent Core Requirement		3
	Kent Core Requirement		3
	Kent Core Requirement		3
	General Elective		3
	Credit Hours		**15**
	Semester Three		
	PH 20000	PUBLIC HEALTH PROFESSIONAL PRACTICE I	1

!	PH 20001	ESSENTIALS OF EPIDEMIOLOGY	3
	PH 30005	SOCIAL AND BEHAVIORAL SCIENCE THEORIES IN PUBLIC HEALTH	3
	Kent Core Requirement		3
	Kent Core Requirement		3
		Credit Hours	**13**
	Semester Four		
!	PH 30007	PREVENTION AND CONTROL OF DISEASES	3
	PH 30033	PUBLIC HEALTH POLICY AND DECISION MAKING	3
	Kent Core Requirement		3
	Kent Core Requirement		3
	General Elective		2
		Credit Hours	**14**
	Semester Five		
!	PH 30002	INTRODUCTORY BIOSTATISTICS	3
	PH 30006	INTRODUCTION TO ENVIRONMENTAL HEALTH AND SAFETY	3
	Public Health (PH) Elective		3
	General Elective		3
		Credit Hours	**12**
	Semester Six		
	PH 30000	PUBLIC HEALTH PROFESSIONAL PRACTICE II	1
!	PH 30004	PUBLIC HEALTH RESEARCH	3
	Public Health (PH) Elective		3
	General Electives		6
		Credit Hours	**13**
	Semester Seven		
	PH 40000	PUBLIC HEALTH PROFESSIONAL PRACTICE III	1

University Requirements

All students in a bachelor's degree program at Kent State University must complete the following university requirements for graduation.

NOTE: University requirements may be fulfilled in this program by specific course requirements. Please see Program Requirements for details.

Flashes 101 (UC 10001)	1 credit hour
Course is not required for students with 30+ transfer credits (excluding College Credit Plus) or age 21+ at time of admission.	
Diversity Domestic/Global (DIVD/DIVG)	2 courses
Students must successfully complete one domestic and one global course, of which one must be from the Kent Core.	
Experiential Learning Requirement (ELR)	varies
Students must successfully complete one course or approved experience.	
Kent Core (see table below)	36-37 credit hours
Writing-Intensive Course (WIC)	1 course
Students must earn a minimum C grade in the course.	
Upper-Division Requirement	39 credit hours
Students must successfully complete 39 upper-division (numbered 30000 to 49999) credit hours to graduate.	
Total Credit Hour Requirement	120 credit hours

Kent Core Requirements

Kent Core Composition (KCMP)	6
Kent Core Mathematics and Critical Reasoning (KMCR)	3
Kent Core Humanities and Fine Arts (KHUM/KFA) (min one course each)	9
Kent Core Social Sciences (KSS) (must be from two disciplines)	6
Kent Core Basic Sciences (KBS/KLAB) (must include one laboratory)	6-7
Kent Core Additional (KADL)	6
Total Credit Hours:	**36-37**

Program Learning Outcomes

Graduates of this program will be able to:

1. Overview of Public Health: Address the history and philosophy of public health as well as its core values, concepts and functions across the globe and in society.
2. Role and Importance of Data in Public Health: Address the basic concepts, methods and tools of public health data collection, use and analysis, and why evidence-based approaches are an essential part of public health practice.

3. Identifying and Addressing Population Health Challenges: Address the concepts of population health and basic processes, approaches and interventions that identify and address the major health-related needs and concerns of populations.
4. Human Health: Address the underlying science of human health and disease, including opportunities for promoting and protecting health across the life course.
5. Determinants of Health: Address the socioeconomic, behavioral, biological, environmental and other factors that impact human health and contribute to health disparities.
6. Project Implementation: Address the fundamental concepts and features of project implementation, including planning, assessment and evaluation.
7. Overview of the Health System: Address the fundamental characteristics and organizational structures of the U.S. health system as well as the differences in systems in other countries.
8. Health Policy, Law, Ethics and Economics: Address the basic concepts of legal, ethical, economic and regulatory dimensions of health care and public health policy; and the roles, influences and responsibilities of the different agencies and branches of government.
9. Health Communications: Address the basic concepts of public health-specific communication (including technical and professional writing) and the use of mass media and electronic technology.

Full Description

The Bachelor of Science in Public Health degree in Public Health broadly prepares students to enter the workforce as a public health professional or enter an advanced program of study. Students explore the five disciplines of public health: biostatistics, environmental health, epidemiology, health policy and management and the social and behavioral sciences through general coursework.

The Public Health major comprises the following concentrations:

- The **Allied Health** concentration seeks to augment the career portfolio of the allied health professional or aspiring student. Students who are interested in a generalist focus in public health or moving to a professional degree (accelerated nursing) or technical allied health degree (respiratory care, radiologic technology, occupational/physical therapy assisting, etc.) are encouraged to pursue this path. Students may currently hold or be actively pursuing a state licensure in an allied health field and may be eligible to receive a maximum 12 credit hours of upper-division credit for their prior experience and demonstrated competency in select areas. Students without a state licensure may still pursue this concentration but will complete 12 hours of coursework in allied health-specific areas. Students in this concentration are exposed to broad areas of public health, including epidemiology, biostatistics, environmental health, global health and health policy; thus, preparing students to meet the increased demands for a trained and educated public health workforce.
- The **Clinical Trials Research** concentration focuses on training students in the epidemiology methods used in clinical research. The curriculum provides students a thorough understanding of the management of research studies; the scientific literature related to drugs, medical devices and other new therapies; and the federal regulations related to conducting clinical trials. Students are prepared to design and answer research questions, collect and manage data and communicate research findings to both scientific and lay audiences. An internship experience provides necessary experience in a clinical research setting. Potential places of employment for graduates include hospitals, contract research organizations, medical schools and pharmaceutical companies where graduates assist with and manage clinical research studies.
- The **Community Health Outreach and Development** concentration focuses on identifying and exploring ways to influence the multilevel determinants of population health and health behaviors, from a perspective that prioritizes health equity and social justice. Approaches focus on community- and system-level strategies to promote health and healthy behaviors among populations and eliminate health disparities through media, policy and education initiatives. Career options include the public sector, social services, nonprofit agencies and other community-based health promotion and advocacy efforts. Graduates are prepared to assist with developing, implementing and coordinating public health interventions that promote community health and organize diverse communities around issues related to health and health behavior.
- The **Global Health** concentration educates students in identifying and working to address the critical public health and human needs of diverse, underserved and vulnerable populations locally and globally. Students learn the need for multidisciplinary (biological and social sciences) approaches and cooperation to address the major global public health problems. In addition, they have the opportunity to focus on a specific aspect of global health, e.g., HIV/AIDS, health policy, health disparities, health education, environmental health, nutrition. Graduates are prepared to work at entry-level positions in public health with local, regional, national or international public health agencies in both public and private sectors. Students who pursue this concentration are required to participate in a study abroad experience and complete four courses (at the elementary and intermediate levels) of either Arabic, Chinese, French, Russian or Spanish.
- The **Health Services Administration** concentration establishes a foundation for graduate work in health policy and management. Students analyze national and local public health infrastructure, evaluate the effectiveness and efficiency of health care delivery and explore the legal and ethical issues of health care administration. Graduates enter the health care workforce as finance managers, compliance officers, patient navigators, insurance specialists and other health care managers. Students are encouraged to pair this concentration with a minor.
- The **Pre-Medicine, Dentistry, Osteopathy** concentration includes preparatory courses for the Medical College Admissions Test (MCAT), Dental Admissions Test (DAT) and admission entry into other professional schools, including pharmacy, podiatry, occupational/physical therapy and physicians assistant programs. The overall curriculum — focusing on biological, social and economic determinants of health; prevention and control of diseases; introduction to biostatistics; and public health research — makes this program highly desirable for admission to professional schools. The unique features of the program open new opportunities and offer competitive advantages for students seeking to enter into clinical medicine.

Students may apply early to the following master's degree programs and double count 9 credit hours of graduate courses toward both degree programs. See the Combined Bachelor's/Master's Degree Program Policy in the University Catalog for more information:

- Master of Public Health degree in Biostatistics
- Master of Public Health degree in Epidemiology

- Master of Public Health degree in Health Policy and Management
- Master of Public Health degree in Social and Behavioral Sciences
- Master of Science degree in Clinical Epidemiology

Students must consult with their undergraduate and faculty advisors each semester to create a plan substituting selected master's courses for selected undergraduate courses based on approved courses. Following graduation, students' applications to the M.P.H. or M.S. degree may be activated for admission.

Public Health - Minor

College of Public Health
www.kent.edu/publichealth

About This Program

The Public Health minor integrates key aspects of preventing disease, prolonging life and promoting health through the organized efforts and informed choices of society, organizations, communities and individuals. Students who choose to augment their major by adding the public health minor increase their awareness of emerging issues in public health, the social and behavioral aspects of preventing disease, environmental health concepts, the changing U.S. health care system and the monitoring of diseases in the community through applied public health research.

- Speak with an Advisor

Program Delivery

- **Delivery:**
  - Fully online
  - In person
- **Location:**
  - Kent Campus

Admission Requirements

Admission to a minor is open to students declared in a bachelor's degree, the A.A.B. or A.A.S. degree or the A.T.S. degree (not Individualized Program major). Students declared only in the A.A. or A.S. degree or the A.T.S. degree in Individualized Program may not declare a minor. Students may not pursue a minor and a major in the same discipline.

Program Requirements

Minor Requirements

Code	Title	Credit Hours
Minor Requirements		
PH 10001	INTRODUCTION TO PUBLIC HEALTH	3
PH 20001	ESSENTIALS OF EPIDEMIOLOGY	3
PH 44000	HEALTH DISPARITIES (DIVD) (WIC)	3
Public Health (PH) Lower-Division Elective (10000 or 20000 level)		3
Public Health (PH) Upper-Division Electives (30000 or 40000 level) [1]		6
Minimum Total Credit Hours:		**18**

[1] Students in the Nursing major may substitute NURS 40020 for PH 30007, NURS 40045 for PH 30033 and NURS 40872 for PH 30004.

Graduation Requirements

Minimum Minor GPA	Minimum Overall GPA
2.000	2.000

- Minimum 6 credit hours in the minor must be upper-division coursework (30000 and 40000 level).
- Minimum 6 credit hours in the minor must be outside of the course requirements for any major or other minor the student is pursuing.
- Minimum 50 percent of the total credit hours for the minor must be taken at Kent State (in residence).

Program Learning Outcomes

Graduates of this program will be able to:

1. Understand the history and philosophy of public health, as well as its core values, concepts and functions across the globe and in society.
2. Understand the basic concepts, methods and tools of public health data collection, use and analysis; in addition to why evidence-based approaches are an essential part of public health practice.
3. Understand the socio-economic, behavioral, biological, environmental and other factors that impact human health and contribute to health disparities.

Public Health - Ph.D.

College of Public Health
www.kent.edu/publichealth

About This Program

The Ph.D. degree in Public Health bridges population health and research methods to prepare graduates for careers in academics, industry and public service agencies. Students concentrate in either epidemiology or prevention science and complete two to three years of coursework with an additional two or more years of research. Students complete a comprehensive exam and oral prospectus defense and prepare a final written dissertation with presentation and defense. Read more...

Program Delivery

- **Delivery:**
  - In person
- **Location:**
  - Kent Campus

Applications to the Health Policy and Management concentration are not being accepted at this time.

Examples of Possible Careers and Salaries*

Epidemiologists

- 4.6% about as fast as the average
- 8,000 number of jobs
- $74,560 potential earnings

Health specialties teachers, postsecondary

- 20.5% much faster than the average
- 254,000 number of jobs
- $99,090 potential earnings

Medical and health services managers

- 31.5% much faster than the average
- 422,300 number of jobs
- $104,280 potential earnings

Accreditation

The Ph.D. degree in Public Health is accredited by the Council on Education For Public Health (CEPH).

* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics' Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

For more information about graduate admissions, visit the graduate admission website. For more information on international admissions, visit the international admission website.

Admission Requirements

Applications to the Health Policy and Management concentration are not being accepted at this time.

- Master's degree in a related discipline from an accredited college or university
- Minimum 3.000 graduate GPA on a 4.000-point scale
- Official transcript(s)
- GRE score or other standardized graduate admission exam with a quantitative component[1]
- Résumé
- Goal statement
- Three letters of recommendation
- Interview with faculty
- English language proficiency - all international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning one of the following:[2]
  - Minimum 94 TOEFL iBT score
  - Minimum 7.0 IELTS score
  - Minimum 65 PTE score
  - Minimum 120 DET score

Students who do not meet prerequisites for the Ph.D. degree may be required to complete additional coursework.

[1] GRE scores may be waived as determined by graduate coordinator.
[2] International applicants who do not meet the above test scores will not be considered for admission.

Application Deadlines

- **Fall Semester**
  - Priority deadline: December 1

All application materials (including applicable fee, transcripts, recommendation letters, etc.) submitted by this deadline will receive the strongest consideration for admission.

Minimum Total Credit Hours:		**48**

1 Content-related elective courses should be selected by the student with a faculty advisor, depending upon the student's research interest. A minimum 3 credit hours of content-related courses must be in research methods or statistics. The courses may be in the College of Public Health or in other disciplines outside the college.

2 Each doctoral candidate, upon admission to candidacy, must register for Dissertation I for a total of 30 credit hours. It is expected that a doctoral candidate will continuously register for Dissertation I, and thereafter Dissertation II, each semester, until all requirements for the degree have been met.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Pass concentration-specific candidacy exam

Program Learning Outcomes

Graduates of this program will be able to:

1. Explain public health history, philosophy and values.
2. Identify the core functions of public health and the 10 Essential Public Health Services.
3. Explain the role of quantitative and qualitative methods and sciences in describing and assessing a population's health.
4. List major causes and trends of morbidity and mortality in the United States or other community relevant to the school or program.
5. Discuss the science of primary, secondary and tertiary prevention in population health, including health promotion, screening, etc.
6. Explain the critical importance of evidence in advancing public health knowledge.
7. Explain effects of environmental factors on a population's health.
8. Explain biological and genetic factors that affect a population's health.
9. Explain behavioral and psychological factors that affect a population's health.
10. Explain the social, political and economic determinants of health and how they contribute to population health and health inequities.
11. Explain how globalization affects global burdens of disease.
12. Explain an ecological perspective on the connections among human health, animal health and ecosystem health (e.g., One Health).

Full Description

The Ph.D. degree in Public Health bridges public safety and health career pathways to address a nationwide shortage of public health workers.

The Public Health major comprises the following concentrations:

- The **Epidemiology** concentration prepares students to examine the distribution and determinants of diseases in populations. Graduates are able to apply quantitative and qualitative methods to examine critical and/or emerging health issues, gain advanced ability to conduct large studies and analyze data sets in order to project health trends in populations of interest. Students in this concentration benefit from active faculty research agendas in biopreparedness, public health surveillance systems, chronic disease, cancer and infectious disease epidemiology.
- The **Health Policy and Management** concentration prepares students to design and implement studies and use advanced research methods to examine critical and emerging health issues. The heart of the concentration is a focus on interdisciplinary skills to meet the rapidly changing health needs of communities. Students benefit from active faculty research agendas in health systems research, occupational health and safety, reproductive health, HIV/AIDS, access to health care, health literacy, substance abuse prevention and community-based programming.
- The **Prevention Science** concentration is an interdisciplinary program aimed at promoting healthy behaviors in populations across the life course. Graduates are prepared to design and evaluate public health interventions and have expertise in a variety of theoretical and substantive perspectives for conducting research within systems of the family, health and education, workplace and community.

Active faculty research provide students the opportunity to work on community-based prevention research.

Public Health - Undergraduate Certificate

College of Public Health
www.kent.edu/publichealth

About This Program

The Public Health undergraduate certificate integrates key aspects of preventing disease, prolonging life and promoting health through the organized efforts and informed choices of society, organizations, communities and individuals. The certificate program is aimed at students who are interested in gaining exposure to the field of public health, do not intend to pursue a bachelor's degree or already hold a bachelor's or associate degree and wish to broaden their knowledge of public health. Certificate graduates have an understanding of emerging issues in public health, the social and behavioral aspects to preventing disease, environmental health concepts, the changing U.S. health care system and the monitoring of diseases in the community through applied public health research.

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students who graduated from high school three or more years ago.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of English language proficiency (unless they meet specific exceptions to waive) by earning a minimum 71 TOEFL iBT score, minimum 6.0 IELTS score, minimum 47 PTE score or minimum 100 DET score, or by completing the ELS level 112 Intensive English Program. For more information, visit the admissions website for international students.

Transfer Students: Students who have attended any other educational institution after graduating from high school must apply as undergraduate transfer students. For more information, visit the admissions website for transfer students.

Former Students: Former Kent State students or graduates who have not attended another college or university since Kent State may complete the reenrollment or reinstatement form on the University Registrar's website.

Admission policies for undergraduate students may be found in the University Catalog's Academic Policies.

Some programs may require that students meet certain requirements before progressing through the program. For programs with progression requirements, the information is shown on the program's Coursework tab.

CES 67692	PRACTICUM IN ADDICTIONS COUNSELING [1]	3-6
or SBS 60392	APPLIED PRACTICE EXPERIENCE IN SOCIAL AND BEHAVIORAL SCIENCES	
PH 61199	INTEGRATIVE LEARNING EXPERIENCE	1
Minimum Total Credit Hours:		**46**

[1] Students declared in the Addictions Counseling graduate certificate will take CES 67664 and CES 67692.

Graduation Requirements

Minimum Major GPA	Minimum Overall GPA
-	3.000

- Practicum placement at an approved public health agency under the guidance of a qualified preceptor (150 contact hours)
- Final portfolio/report and a seminar presentation integrating theory and practice
- Successful completion of PH 61199.
- Participation in at least one approved interprofessional education event; event requires students to participate at a specific time/date to be determined in consultation with the student's advisor.

- No more than one-half of a graduate student's coursework may be taken in 50000-level courses.
- Grades below C are not counted toward completion of requirements for the degree.

Program Learning Outcomes

Graduates of this program will be able to:

Evidence-based Approaches to Public Health

1. Apply epidemiological methods to the breadth of settings and situations in public health practice.
2. Select quantitative and qualitative data collection methods appropriate for a given public health context.
3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.
4. Interpret results of data analysis for public health research, policy or practice.

Public Health and Health Care Systems

1. Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings.
2. Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels.

Planning and Management to Promote Health

1. Assess population needs, assets and capacities that affect communities' health.
2. Apply awareness of cultural values and practices to the design or implementation of public health policies or programs.
3. Design a population-based policy, program, project or intervention.

4. Explain basic principles and tools of budget and resource management.
5. Select methods to evaluate public health programs.

Policy in Public Health

1. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence.
2. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.
3. Advocate for political, social or economic policies and programs that will improve health in diverse populations.
4. Evaluate policies for their impact on public health and health equity.

Leadership

1. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision making.
2. Apply negotiation and mediation skills to address organizational or community challenges.

Communication

1. Select communication strategies for different audiences and sectors.
2. Communicate audience-appropriate public health content, both in writing and through oral presentation.
3. Describe the importance of cultural competence in communicating public health content.

Interprofessional Practice

1. Perform effectively on interprofessional teams.

Systems Thinking

1. Apply systems thinking tools to a public health issue.

Full Description

The Master of Public Health degree in Social and Behavioral Sciences provides students with an interdisciplinary approach to improve health in populations across the life course. Students learn to apply theoretical principles to design, implement and evaluate effective programs that include behavioral and environmental approaches. Graduates are able to design and evaluate public health interventions intended to improve health for families, workplaces, communities and other settings.

The active research of the college's faculty — particularly in the areas of childhood obesity, violence and injury prevention, substance abuse prevention and chronic disease prevention — provides students the opportunity to work on large-scale externally funded prevention research. Students are prepared for careers in health promotion; program design and evaluation; and prevention program development for state and local health departments, workplace health promotion programs, hospitals, international health agencies, mental health centers and non-profit organizations.

Students have the opportunity to declare the Addictions Counseling graduate certificate to become a licensed chemical dependency counselor in Ohio.

Graduate College

Graduate College (GCOL)

GCOL 60098 RESEARCH 1-6 Credit Hours
(Repeatable for credit) Independent research or scholarly activity for master's level graduate students conducted under the supervision of a faculty member.
Prerequisite: Graduate standing.
Schedule Type: Research
Contact Hours: 3-18 other
Grade Mode: Standard Letter-IP

GCOL 60100 APPLICATIONS IN DESIGN THINKING AND INNOVATION 3 Credit Hours
(Slashed with GCOL 80100) This course blends analytical skills, intuition and creative thinking to develop practical solutions to real world problems. This will be a reflective lecture and small project-based course that addresses the programmatic, technical, business, social and human factors of design in a way that leads to innovation(s) in the development of integrated solutions. After being introduced to essential concepts, students, working in interdisciplinary teams, will learn how to engage with end users, effectively frame problems, identify potential solutions, build prototypes to test assumptions and learn what works (and doesn't).
Prerequisite: Graduate standing.
Schedule Type: Laboratory, Lecture, Combined Lecture and Lab
Contact Hours: 2 lecture, 2 lab
Grade Mode: Standard Letter

GCOL 61001 WORKSHOP IN COLLEGE TEACHING 1 Credit Hour
(Slashed with GCOL 71001) Orientation to college teaching for new teaching assistants.
Prerequisite: Graduate standing.
Schedule Type: Workshop
Contact Hours: 1 other
Grade Mode: Satisfactory/Unsatisfactory

GCOL 61094 COLLEGE TEACHING 2 Credit Hours
(Slashed with GCOL 71094) Training, supervision and evaluation in college-level instruction.
Prerequisite: Graduate standing.
Schedule Type: Lecture
Contact Hours: 2 lecture
Grade Mode: Standard Letter

GCOL 61095 SPECIAL TOPICS 1-4 Credit Hours
(Repeatable for credit) (Slashed with GCOL 81095) Special topics in graduate education announced when scheduled. Specialized offerings in response to emerging trends or topics intended to encourage interdisciplinary study to cover areas not treated adequately in traditional coursework and to make available promptly the new and significant experience of graduate faculty.
Prerequisite: Graduate standing.
Schedule Type: Lecture
Contact Hours: 1-4 other
Grade Mode: Standard Letter

GCOL 61096 INDIVIDUAL INVESTIGATION 1-3 Credit Hours
(Repeatable for credit) Individual investigation as agreed upon by the instructor and student.
Prerequisite: Graduate standing.
Schedule Type: Individual Investigation
Contact Hours: 3-9 other
Grade Mode: Standard Letter-IP

GCOL 61195 SPECIAL TOPICS SEMINAR 1-4 Credit Hours
(Repeatable for credit) (Slashed with GCOL 81195) Variable topic seminar; varies per course offering.
Prerequisite: Graduate standing.
Schedule Type: Seminar
Contact Hours: 1-4 other
Grade Mode: Standard Letter

GCOL 71001 WORKSHOP IN COLLEGE TEACHING 1 Credit Hour
(Slashed with GCOL 61001) Orientation to college teaching for new teaching assistants.
Prerequisite: Doctoral standing.
Schedule Type: Workshop
Contact Hours: 1 other
Grade Mode: Satisfactory/Unsatisfactory

GCOL 71094 COLLEGE TEACHING 2 Credit Hours
(Slashed with GCOL 61094) Training, supervision and evaluation in college-level instruction.
Prerequisite: Doctoral standing.
Schedule Type: Lecture
Contact Hours: 2 lecture
Grade Mode: Standard Letter

GCOL 80098 RESEARCH 1-6 Credit Hours
(Repeatable for credit) Independent research or scholarly activity for doctoral-level graduate students conducted under the supervision of a faculty member.
Prerequisite: Doctoral standing.
Schedule Type: Research
Contact Hours: 3-18 other
Grade Mode: Standard Letter-IP

GCOL 80100 APPLICATIONS IN DESIGN THINKING AND INNOVATION 3 Credit Hours
(Slashed with GCOL 60100) This course blends analytical skills, intuition and creative thinking to develop practical solutions to real world problems. This will be a reflective lecture and small project-based course that addresses the programmatic, technical, business, social and human factors of design in a way that leads to innovation(s) in the development of integrated solutions. After being introduced to essential concepts, students, working in interdisciplinary teams, will learn how to engage with end users, effectively frame problems, identify potential solutions, build prototypes to test assumptions and learn what works (and doesn't).
Prerequisite: Doctoral standing.
Schedule Type: Laboratory, Lecture, Combined Lecture and Lab
Contact Hours: 2 lecture, 2 lab
Grade Mode: Standard Letter

GCOL 81095 SPECIAL TOPICS 1-4 Credit Hours
(Repeatable for credit) (Slashed with GCOL 61095) Special topics in graduate education announced when scheduled. Specialized offerings in response to emerging trends or topics intended to encourage interdisciplinary study to cover areas not treated adequately in traditional coursework and to make available promptly the new and significant experience of graduate faculty.
Prerequisite: Doctoral standing.
Schedule Type: Lecture
Contact Hours: 1-4 other
Grade Mode: Standard Letter

GCOL 81096 INDIVIDUAL INVESTIGATION 1-3 Credit Hours
(Repeatable for credit) Individual Investigation as agreed upon by the instructor and student.
Prerequisite: Doctoral standing.
Schedule Type: Individual Investigation
Contact Hours: 3-9 other
Grade Mode: Standard Letter-IP

GCOL 81195 SPECIAL TOPICS SEMINAR 1-4 Credit Hours
(Repeatable for credit) (Slashed with GCOL 61195) Variable topic seminar; varies per course offering.
Prerequisite: Doctoral standing.
Schedule Type: Seminar
Contact Hours: 1-4 other
Grade Mode: Standard Letter

Mission of the College

The mission of the Honors College is to provide an enriched educational experience for academically motivated and talented students at Kent State University. We welcome students of diverse backgrounds and are firmly committed to advancing a diverse, inclusive and equitable community of scholars. We affirm that all members of the Honors College community are valued for their contributions and treated with dignity and respect. Each student in the college plays a vital role in enhancing and influencing critical debate, critical thinking and learning from each other through their individual stories and lived experiences. This synergy creates a unique and inclusive foundation on which students can explore and develop their sense of belonging.

Founded in 1933, the Honors College is at the center of Kent State University's tradition of providing special attention to undergraduates with outstanding intellectual and creative ability. Within the framework of the larger university, with its diverse academic programs and excellent research and library facilities, the Honors College offers students enriched and challenging courses and programs, opportunities for close relationships with their peers and faculty, and careful advising to meet their interests and goals.

Academic Programs

Special Programs - Non-Degree

- Honors Program

Design Innovation (DI)

DI 10010 SURVEY OF DESIGN INNOVATION NODES 3 Credit Hours
Develop awareness and actively utilize the wide array of shared-resource laboratories and environments across Kent State University's eight campus system that are connected as part of the Design Innovation (DI) Ecosystem. Explore the context of maker-communities, emerging technologies and social innovation resources while working in collaborative cross-disciplinary teams to tackle projects that intentionally connect the capabilities of multiple DI Nodes.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 3 lecture
Grade Mode: Standard Letter

DI 20020 BE SMARTER THAN YOUR SMARTPHONE 3 Credit Hours
This course uses the development of the smart phone to illustrate the multi-disciplinary nature of design and innovation. It provides an understanding of the technologies that make the smartphone possible. Specifically, the course covers the role of research and design in product development, the changed in patterns and nature of our communications through smartphones, and the implications for businesses, markets and society. The aim of this course is to introduce the multidisciplinary nature of innovation using the smartphone as an example. It presents the complexities, challenges, and opportunities that the smartphone has created.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 3 lecture
Grade Mode: Standard Letter

DI 20100 INTRODUCTION TO DESIGN INNOVATION 3 Credit Hours
This course blends analytical skills, intuition and creative thinking to develop practical solutions to real world problems. Students will gain a high-level understanding of the design process through team-based projects tackling challenges. Design thinking, methods and strategies offer novel ways to discover market opportunities, experiment to validate concepts and mitigate risk, and deliver value to all. This will be a reflective lecture and small project-based course that addresses the programmatic, technical, business, social and human factors of design in a way that leads to innovation(s) in the development of integrated solutions. Learn how to engage with end users, effectively frame problems, identify potential solutions, build prototypes to test assumptions and learn what works (and doesn't). Then dive into a range of ways large and small to bring design innovation into your daily life.
Prerequisite: None.
Schedule Type: Laboratory, Lecture, Combined Lecture and Lab
Contact Hours: 2 lecture, 3 lab
Grade Mode: Standard Letter

DI 30099 CHALLENGE-BASED INNOVATION (ELR) 3 Credit Hours
(Repeatable for credit) Challenge-Based Innovation (CBI) is a project and problem-based learning course, where multidisciplinary student teams and their instructors collaborate with faculty researchers, community and industry partners to discover novel solutions for the future of humankind. The projects are an elaborate mixture, proposed by cross-disciplinary faculty teams and derived from using research to tackle messy or complex problems to meet societal, human-driven needs. The multidisciplinary student teams act as catalysts in creating novel solutions to pressing problems.
Prerequisite: None.
Schedule Type: Laboratory, Lecture, Combined Lecture and Lab, Project or Capstone
Contact Hours: 2 lecture, 3 lab
Grade Mode: Standard Letter
Attributes: Experiential Learning Requirement

DI 49095 SPECIAL TOPICS IN DESIGN INNOVATION STUDIO 1-6 Credit Hours
(Repeatable for credit) Analysis and cross-disciplinary problem-solving of significant and current issues in design innovation not covered in existing design innovation courses. This studio course is offered when opportunities and resources permit; the topic is announced when the course is scheduled.
Prerequisite: None.
Schedule Type: Studio
Contact Hours: 2-6 other
Grade Mode: Standard Letter

DI 49099 DESIGN INNOVATION WORKSHOP (ELR) 1-4 Credit Hours
(Repeatable for credit) This course supports brief, intensive and interactive activities that address a narrowly defined range of problems in which the content is practical and concentrates on the acquisition of specific information and skills related to practices in design innovation. The variable credit format allows for intensive challenges that might occur in short periods, and that it might be focused on a single problem.
Prerequisite: None.
Schedule Type: Project or Capstone, Workshop
Contact Hours: 1-4 other
Grade Mode: Satisfactory/Unsatisfactory
Attributes: Experiential Learning Requirement

DI 49995 SPECIAL TOPICS IN DESIGN INNOVATION 1-3 Credit Hours
(Repeatable for credit) Analysis and cross-disciplinary problem-solving of significant and current issues in design innovation not covered in existing design innovation courses. This course is offered when opportunities and resources permit; the topic is announced when the course is scheduled.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 1-3 lecture
Grade Mode: Standard Letter

DI 49999 DESIGN INNOVATION GRAND CHALLENGES STUDIO PROJECT (ELR) 3 Credit Hours
(Repeatable for credit) A cross disciplinary project-based capstone course that collaboratively focuses on a single grand challenge. Challenges range from those identified by GrandChallenges.org, "solving global health and development problems for those most in need" to one of the "Grand Challenges for Engineering", to one from the list regularly updated by the National Science Foundation, to a pressing challenge identified by the faculty. Taught by a multidisciplinary team of primary instructors with input from industry leaders with complementary expertise, the collaborative effort of students, faculty members, industry partners and-or community leaders, focuses on developing robust multi-perspective, actionable solutions considering multiple criteria including but not limited to technical, socio-cultural and economic dimensions. Outcomes range from early designs, to physical prototypes or policy solutions with an understanding of how to take them to a next phase. Travel component may be included.
Prerequisite: None.
Schedule Type: Project or Capstone
Contact Hours: 6 other
Grade Mode: Standard Letter
Attributes: Experiential Learning Requirement

Honors (HONR)

HONR 10010 HONORS LEADERSHIP ACADEMY 2 Credit Hours
This course will examine effective leadership in the public and nonprofit sectors from both a theoretical and practical perspective. Using course readings, discussions, and assignments students will be challenged and equipped to serve as actively engaged citizens at the university and in the greater community. Students will examine the complexities of generational leadership, working in groups, using effective communication, inspiring a shared vision and purpose, group problem solving, and decision making, ethical leadership, civic engagement, and leading in communities of difference. This class will feature multiple learning methods including lectures, class discussion, case studies, group exercises, in and out-of-class assignments, presentations, and self-reflection. This course aims to teach first semester Honors freshmen students how to be engaged Honors College leaders from the beginning of their college career.
Prerequisite: None.
Schedule Type: Seminar
Contact Hours: 2 lecture
Grade Mode: Standard Letter

HONR 10096 INDIVIDUAL HONORS WORK 1-4 Credit Hours
(Repeatable for credit) Directed independent study for freshmen in any department.
Prerequisite: Special approval of department.
Schedule Type: Individual Investigation
Contact Hours: 1-4 other
Grade Mode: Standard Letter-IP

HONR 10197 FRESHMAN HONORS COLLOQUIUM I (KCMP) 3 Credit Hours
(Repeatable for credit) Required of all honors freshmen and can be taken in lieu of College Writing. Stresses exploration, discussion and communication of ideas expressed in works related to theme of colloquium.
Prerequisite: Admitted to the Honors College.
Schedule Type: Colloquium
Contact Hours: 3 lecture
Grade Mode: Standard Letter
Attributes: Kent Core Composition

HONR 10297 FRESHMAN HONORS COLLOQUIUM II (KCMP) 3 Credit Hours
(Repeatable for credit) Continuation of HONR 10197, and can be taken in lieu of ENG 21011.
Prerequisite: Admitted to the Honors College.
Schedule Type: Colloquium
Contact Hours: 3 lecture
Grade Mode: Standard Letter
Attributes: Kent Core Composition

HONR 13597 COLLOQUIUM: THE WESTERN IDENTITY (KADL) 3 Credit Hours
(Repeatable for credit) Focuses on Western and non-Western cultures from a comparative perspective, in order to identify both different and shared values and to see how one's own culture shapes one's perspective, ideology, and values.
Prerequisite: Admitted to the Honors College; and special approval.
Schedule Type: Colloquium
Contact Hours: 3 lecture
Grade Mode: Standard Letter
Attributes: Kent Core Additional

HONR 20096 INDIVIDUAL HONORS WORK 1-4 Credit Hours
(Repeatable for credit) Directed independent study for sophomores in any department.
Prerequisite: Special approval of the department.
Schedule Type: Individual Investigation
Contact Hours: 1-4 other
Grade Mode: Standard Letter-IP

HONR 20197 SOPHOMORE COLLOQUIUM 1-4 Credit Hours
(Repeatable for credit) One-semester course or two-semester sequence exploring interdisciplinary ideas and issues related to a single theme, by means of readings, discussion and individual papers and projects.
Prerequisite: Admitted to the Honors College.
Schedule Type: Colloquium
Contact Hours: 1-4 other
Grade Mode: Standard Letter-IP

HONR 30096 INDIVIDUAL HONORS WORK 1-4 Credit Hours
(Repeatable for credit) Directed independent study for juniors in any department.
Prerequisite: Special approval of department.
Schedule Type: Individual Investigation
Contact Hours: 1-4 other
Grade Mode: Standard Letter-IP

HONR 30197 JUNIOR COLLOQUIUM 1-4 Credit Hours
(Repeatable for credit) One-semester course or two-semester sequence for juniors or seniors exploring interdisciplinary ideas and issues related to single theme, by means of readings, discussion and individual papers and projects.
Prerequisite: Admitted to the Honors College.
Schedule Type: Colloquium
Contact Hours: 1-4 other
Grade Mode: Standard Letter-IP

HONR 30297 JUNIOR COLLOQUIUM 1-4 Credit Hours
(Repeatable for credit) One-semester course or two-semester sequence for juniors or seniors exploring interdisciplinary ideas and issues related to single theme, by means of readings, discussion and individual papers and projects.
Prerequisite: Admitted to the Honors College.
Schedule Type: Colloquium
Contact Hours: 1-4 other
Grade Mode: Standard Letter-IP

HONR 40085 SENIOR HONORS PORTFOLIO 1 Credit Hour
Construction of a senior portfolio, consisting of a collection of artifacts and a reflective essay interpreting the student's growth during the college years.
Prerequisite: Senior standing.
Schedule Type: Individual Investigation
Contact Hours: 1 other
Grade Mode: Standard Letter-IP

HONR 40096 INDIVIDUAL HONORS WORK 1-4 Credit Hours
(Repeatable for credit) Directed independent study for seniors in any department.
Prerequisite: Prior special approval of instructor; and special approval of and preregistration with Honors College.
Schedule Type: Individual Investigation
Contact Hours: 1-4 other
Grade Mode: Standard Letter-IP

HONR 40099 SENIOR HONORS THESIS/PROJECT (ELR) 1-10 Credit Hours
(Repeatable for credit) Thesis or creative project.
Prerequisite: Special approval of department.
Schedule Type: Senior Project/Honors Thesis
Contact Hours: 1-10 other
Grade Mode: Standard Letter-IP
Attributes: Experiential Learning Requirement

HONR 40197 SENIOR COLLOQUIUM 1-4 Credit Hours
(Repeatable for credit) One-semester course or two-semester sequence exploring interdisciplinary ideas and issues related to single theme, by means of readings, discussion and individual papers and projects.
Prerequisite: Admitted to the Honors College.
Schedule Type: Colloquium
Contact Hours: 1-4 other
Grade Mode: Standard Letter-IP

HONR 40297 SENIOR COLLOQUIUM 1-4 Credit Hours
(Repeatable for credit) One-semester course or two-semester sequence exploring interdisciplinary ideas and issues related to single theme, by means of readings, discussion and individual papers and projects.
Prerequisite: Admitted to the Honors College.
Schedule Type: Colloquium
Contact Hours: 3 other
Grade Mode: Standard Letter-IP

Admission Requirements

The Honors College seeks incoming students who demonstrate the potential for superior academic and creative ability at Kent State University. Admission to the Honors College for new undergraduate students is by invitation only. In addition to reviewing the student's admission application, the college conducts a holistic review of many variables, including, but not limited to, high school performance (curriculum, grade point average), essay, extra-curricular activities and work experiences. Standardized tests are considered but not required for admission to the Honors College.

Program Requirements

Honors section of courses can be used to meet requirements in all degree granting colleges and schools of the university and to also satisfy Kent Core requirements. All new honors students are enrolled in the year-long colloquium (HONR 10197 and HONR 10297). The colloquium is designed to be a rigorous course in reading, thinking and writing about literature and ideas. The goal of the courses are to develop habits of intellectual inquiry, mature understanding and effective communication that will serve the students through the college years and afterward.

Beyond the honors colloquium courses, many Honors courses are offered by distinguished faculty from academic departments throughout the university. Although these courses differ significantly in content, from art to zoology, they share a common form. Class enrollments are small, and students can get to know each other and their professors in an environment that encourages learning through discussion, reading, individual work and writing.

Seniors in the Honors College can conclude their undergraduate careers by completing a sustained scholarly or creative project under faculty guidance. Theses and projects have been submitted by seniors from all of the degree-granting colleges and schools at Kent State University and have ranged over many disciplines and areas of creative endeavor. Novels and plays have been written; research has been undertaken in the natural and social sciences; historical events and periods have been critically analyzed; architectural models have been proposed for urban renewal sites; and paintings and films have been created and exhibited. Each thesis/project attests to the willingness of Honors students to extend learning beyond the classroom to self-directed efforts appropriate to the conclusion of an enriched program of study.

Graduation Requirements

The college offers three programs for Graduation with Honors. Although each has minimum overall GPA requirements, the primary emphasis is on the successful completion of an undergraduate degree program, including a Senior Honors Thesis or Project.

- Graduation with Departmental Honors requires completion of a Senior Honors Thesis or Project and a minimum 3.5 overall GPA. The requirements are sufficiently flexible to enable undergraduates who join the college in their junior year to participate in this program.
- Graduation with General Honors requires completion of a Senior Honors Thesis or Project plus 24 Honors College credit hours and a minimum 3.5 overall GPA.
- Graduation with University Honors requires completion of a Senior Honors Thesis or Project plus 24 Honors College credit hours and a minimum 3.8 overall GPA.

Students who do not wish to complete a Senior Honors Thesis or Project to graduate with Honors may alternatively finish 24 Honors College credit hours and achieve a minimum 3.25 overall GPA to graduate from the university as Honors College Scholars.

The Honors Concept

The Honors College is guided by two basic principles:

- The first is a responsibility to provide academic work that offers intellectual challenge to the best students in the university and demands of them the best effort of which they are capable. To this end, courses are designed to stretch the mind, sharpen skills and encourage high standards of performance.
- The second principle is a belief that, regardless of degree program, students should be liberally educated. That is, they should understand and appreciate the language, literature and history of our culture; the social, political and economic structure of our society; the creative achievements that enrich our lives; and the basic assumptions and substance of the natural sciences. Honors students are, therefore, encouraged to select courses that provide an understanding of the arts, humanities and sciences.

Honors Advising

Students meet with their Honors College advisors at least once per semester. During advising meetings, students are encouraged to develop long-range plans to organize their academic work and co-curricular experiences in accordance with their interests and career aspirations.

Community

The Stopher-Johnson complex is located at the center of campus. Honors student living there have the best of worlds - a nurturing and stimulating experience with other Honors students as well as convenient access to the surrounding Kent State campus community.

The Honors complex includes the three-story Johnson and Stopher Residence Halls, a library/computer room, a reception lobby and advising offices. Students live just steps from the Honors College dean and its academic advisors.

Student involvement in the affairs of the college is a tradition. For example, Honors students are eligible to serve on the Honors College College Advising Committee.

Scholarships

All new students who are admitted to the Honors College will automatically be considered for an Honors College scholarship award. Honors College scholarships are renewable for maximum eight semesters of undergraduate work, provided students remain in good standing with the Honors College. These scholarships are in addition to university awards.

Mission of the College

The mission of the University College is to help foster an inclusive environment that empowers all students to explore, engage and succeed.

The college's record of innovation includes 20 national awards, three internationally certified programs and nearly $10 million in grant funding in the past several years.

Initiatives in the University College for students to succeed include the following:

- Students who regularly attend services offered by the Academic Success Center are 17 percent more likely to return for the next academic year and had a graduation rate 18.9% higher than their classmates.
- Students who attend Academic Success Center sessions GPA 0.26 points, on average, higher than their classmates.
- The college's Office of Career Exploration and Development helps our students find on-campus employment, and these students are more likely to earn higher grades and stay in school.

- Our Career Exploration and Development mantra is “Early and Often” – The results are that first-year students engage in career experiences at the same rate as junior and senior students.
- Students who participate in the Exploratory Advising Center’s Exploratory Learning Community are nearly 10 percent more likely to return to Kent State compared to their peers.
- Student Support Services exceeded all Ohio Department of Education performance goals by 10 percent or more.

Academic Programs

Pre-Major

- Exploratory

Special Program - Non-Degree

- Cooperative Education Program

University College (UC)

UC 10001 FLASHES 101 1 Credit Hour
(Equivalent to UC 10002 or UC 20007) Course aims to foster a university-wide sense of belonging; promote engagement in the curricular and co-curricular life of the university; articulate what students can expect from and contribute to their community; and help students continue to clarify their purpose, meaning and direction. This course is required for all new degree-seeking, first-time students to Kent State. The course is not required for transfer students with 30 or more credit hours or students who are admitted as an adult student.
Prerequisite: None.
Schedule Type: Seminar
Contact Hours: 1 lecture
Grade Mode: Satisfactory/Unsatisfactory

UC 10002 ADULT STUDENT ORIENTATION 1 Credit Hour
(Equivalent to UC 10001) Course focuses on balancing adult roles and responsibilities with college demands. Students sharpen learning skills and study strategies while making connections with other adult students at Kent State.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 1 lecture
Grade Mode: Satisfactory/Unsatisfactory

UC 10095 SPECIAL TOPICS IN UNIVERSITY COLLEGE 1-3 Credit Hours
(Repeatable for credit) Variable topics course that covers areas not treated adequately in traditional coursework related to student success and the student experience.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 1-3 lecture
Grade Mode: Standard Letter

UC 10096 INDIVIDUAL INVESTIGATION 1-6 Credit Hours
(Repeatable for a maximum of 6 credit hours) Experiential learning opportunity, working with a faculty member in his or her area of expertise.
Prerequisite: None.
Schedule Type: Individual Investigation
Contact Hours: 1-6 other
Grade Mode: Standard Letter-IP

UC 10162 INTRODUCTION TO PROFESSIONAL DEVELOPMENT 1 Credit Hour
Course exposes students to professional skills and competencies they will need and use in the future. Students begin to develop important career ready competencies. Students learn about the art of networking and relationship building, what it means to be culturally agile, how to succinctly present themselves (elevator pitch and executive summaries), how to use career job sites and resources for career exploration and-or researching companies. Students must have satisfactorily completed UC 10001 before taking this course.
Prerequisite: Ambassador Crawford College of Business and Entrepreneurship major or College of Applied and Technical Studies major.
Schedule Type: Lecture
Contact Hours: 1 lecture
Grade Mode: Standard Letter

UC 10192 EXPERIENTIAL LEARNING PLUS-1 CREDIT (ELR) 1 Credit Hour
(Repeatable for maximum 2 credits) Course allows students to add experiential learning to any undergraduate course. The course involves applying the knowledge and skills developed in a course to support local initiative through civic engagement. Students consider the knowledge base of the primary course and/or discipline, and how it is applied in real practice. Reflective activities are used to challenge students to consider larger questions and the interdisciplinary nature of complex problems and solutions. This course is not a stand-alone course - it must be appended to a primary course.
Prerequisite: Special approval.
Schedule Type: Practical Experience
Contact Hours: 3 other
Grade Mode: Standard Letter
Attributes: Experiential Learning Requirement

UC 20007 LIFE BEYOND KSU 1 Credit Hour
(Equivalent to UC 10001) Equips students with the knowledge and tools critical for entering the professional world through research and application of career-related concepts and activities. Reserved for students who have not successfully completed the Flashes 101 course.
Prerequisite: Junior or senior standing.
Schedule Type: Lecture
Contact Hours: 1 lecture
Grade Mode: Standard Letter

UC 20010 CAREER NAVIGATION: CONSTRUCTING POSSIBILITIES 2 Credit Hours
Navigating a career and life planning can be complex. Course is designed to equip students with self-awareness, knowledge and skills useful in deciding how to use opportunities to build meaningful futures and how to maintain flexibility and adaptability in the work environment. Students learn how to balance planning with uncertainty and navigate a lifetime of meaningful occupational realities. Through experiential activities, discussions and reflective exercises, students gain self-understanding and connect academic opportunities to careers and specializations in career fields. Designed for students who have not yet declare a major, are interested in finding personal meaning and mattering in occupational and life decisions or are contemplating or engaged in life and career exploration or change.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 2 lecture
Grade Mode: Standard Letter

UC 20011 CAREER CONFIRMATION 1 Credit Hour
This course is designed to support students as they develop a professional self-image, explore their personal work values and learn about important decision-making skills needed to navigate the workforce. Through hands-on application, activities and reflective exercises, students will develop skills needed to network with professionals, approach work with an equitable perspective and practice, and connect vocational identity to community belonging. This course is designed for exploratory students who are close to a decision, or students with a declared major who are exploring post-graduation paths. This course will support the student's journey to build a professional mission that guides the development of short- and long-term career goals.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 1 lecture
Grade Mode: Standard Letter

UC 20095 SPECIAL TOPICS IN UNIVERSITY COLLEGE 1-3 Credit Hours
(Repeatable for credit) Variable topics course that encourages interdisciplinary study to cover areas not treated adequately in traditional coursework and to make available promptly the new and significant experience of the faculty.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 1-3 lecture
Grade Mode: Standard Letter

UC 20193 VARIABLE TITLE WORKSHOP IN UNIVERSITY COLLEGE 1-3 Credit Hours
(Repeatable for credit) Workshop focused on variable topics.
Prerequisite: None.
Schedule Type: Workshop
Contact Hours: 1-3 other
Grade Mode: Satisfactory/Unsatisfactory

UC 20201 PEER SUCCESS ACADEMY 2 Credit Hours
The P.E.E.R. (Peer Experiential Education and Reflection) Success Academy is designed to train students to cultivate and nurture critical skills that serve as a foundation for peer educator positions across Kent State University. The course curriculum is designed to be hands on, immersing students in skill development with content pertaining to mentorship, leadership, group dynamics, personal strengths, problem solving, value free advice, diversity, equity, inclusion and belonging, emotional intelligence, conflict management and self-wellness.
Prerequisite: UC 10001.
Schedule Type: Lecture
Contact Hours: 2 lecture
Grade Mode: Satisfactory/Unsatisfactory

UC 20203 THEORY AND PRACTICE OF PEER TUTORING 1 Credit Hour
Preparation for tutoring in several academic areas. Emphasis on the student as learner. Introduction to current learning theories. Opportunities provided to adapt learning strategy to particular disciplines. Field experience included.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 1 lecture
Grade Mode: Standard Letter

UC 20250 COLLEGIATE LEADERSHIP COMPETITION 2 Credit Hours
This experiential, competency-based course is designed to help students become more aware of a wide range of managerial and leadership concepts. Students will develop leadership skills and gain an opportunity to build their resume and professional network. This course will increase the student's understanding of personal strengths and areas for improvement by stretching them to the boundaries of their knowledge, skills, and abilities. Likewise, students will build skills around ethical decision making, problem solving, negotiation, conflict management, and presentation skills. Students will represent Kent State University at the Collegiate Leadership Competition against other schools in the Great Lakes Region.
Prerequisite: None.
Schedule Type: Lecture
Contact Hours: 2 lecture
Grade Mode: Standard Letter

UC 20260 (R)EVOLUTION LEADERSHIP 1 Credit Hour
The (R)evolution leadership course is an experiential, competency-based course designed to equip students with the tools and the introspection they need to be successful leaders and engaged community members in a complex and ever changing landscape. Students are taken through a series of leadership modules and develop a capstone project that will utilize the skills they have gained and make a positive impact on the community.
Prerequisite: None.
Schedule Type: Seminar
Contact Hours: 1 lecture
Grade Mode: Standard Letter

UC 20292 EXPERIENTIAL LEARNING PLUS-1 CREDIT (ELR) 1 Credit Hour
(Repeatable for maximum 2 credits) Course allows students to add experiential learning to any undergraduate course. The course involves applying the knowledge and skills developed in a course to support local initiative through civic engagement. Students consider the knowledge base of the primary course and/or discipline, and how it is applied in real practice. Reflective activities are used to challenge students to consider larger questions and the interdisciplinary nature of complex problems and solutions. This course is not a stand-alone course - it must be appended to a primary course.
Prerequisite: Special approval.
Schedule Type: Practical Experience
Contact Hours: 3 other
Grade Mode: Standard Letter
Attributes: Experiential Learning Requirement

UC 30202 FLASHES 101: PEER SUCCESS MENTOR SEMINAR 2 Credit Hours
(Repeatable a maximum of 4 credits) Required of all student success leaders who are paired with a faculty member in assisting with UC 10097. Students need to meet the minimum requirements for the college or department in which they serve as a student success leader.
Prerequisite: UC 20201.
Schedule Type: Seminar
Contact Hours: 2 other
Grade Mode: Satisfactory/Unsatisfactory

UC 30392 EXPERIENTIAL LEARNING PLUS-1 CREDIT (ELR) 1 Credit Hour
(Repeatable for credit) Course allows students to add experiential learning to any undergraduate course. The course involves applying the knowledge and skills developed in a course to support local initiative through civic engagement. Students consider the knowledge base of the primary course and/or discipline, and how it is applied in real practice. Reflective activities are used to challenge students to consider larger questions and the interdisciplinary nature of complex problems and solutions. This course is not a stand-alone course - it must be appended to a primary course.
Prerequisite: Special approval.
Schedule Type: Practical Experience
Contact Hours: 3 other
Grade Mode: Standard Letter
Attributes: Experiential Learning Requirement

UC 31000 MCNAIR RESEARCH METHODS I 1 Credit Hour
This course is part one of the McNair Research Methods series, which provides students in the McNair Scholars Program with practical research skills and professional development. The primary goal of the course is to prepare you to successfully complete all stages of your faculty-mentored independent research projects and to explore options for graduate study.
Prerequisite: Special approval.
Schedule Type: Lecture
Contact Hours: 1 lecture
Grade Mode: Standard Letter

UC 31001 MCNAIR RESEARCH METHODS II 1 Credit Hour
This course is part two of the McNair Research Methods series. This course will continue to provide students in the McNair Scholars Program with practical research skills and professional development. The primary goals of the course are to prepare Scholars to successfully complete all stages of their faculty-mentored independent research projects and prepare for graduate study.
Prerequisite: Special approval.
Schedule Type: Lecture
Contact Hours: 1 lecture
Grade Mode: Standard Letter

UC 40010 MCNAIR SCHOLARS SEMINAR I 1 Credit Hour
McNair Scholars are required to take this course after participation in Summer Research Institute. The course provides training related to the graduate school application process. This course will assist scholars with applying to graduate school programs, further developing research projects, and navigating the personal, professional and technical challenges in completing a graduate degree. The prerequisites for this course are acceptance to the McNair Scholars Program and successful completion of the Summer Research Institute.
Prerequisite: Special approval.
Schedule Type: Seminar
Contact Hours: 1 lecture
Grade Mode: Standard Letter

UC 40201 PEER SUCCESS TRAINER SEMINAR 3 Credit Hours
Course provides training and skill development for experienced student leaders involved in assisting with training student peers enrolled in UC 20201, P.E.E.R. Success Academy.
Prerequisite: UC 30202.
Schedule Type: Lecture
Contact Hours: 3 lecture
Grade Mode: Standard Letter

UC 40202 FLASHES 101: PEER SUCCESS COACH SEMINAR 3 Credit Hours
The seminar course is designed for Peer Success Coaches to develop effective coaching strategies, methods, and habits to support Peer Success Mentors in their role. Throughout the course, Peer Success Coaches will learn how to develop, implement, and facilitate group check-in activities that position the Peer Success Mentors to cultivate a peer success network within the larger group for support.
Prerequisite: UC 30202.
Schedule Type: Lecture
Contact Hours: 3 lecture
Grade Mode: Standard Letter

UC 40492 EXPERIENTIAL LEARNING PLUS-1 CREDIT (ELR) 1 Credit Hour
(Repeatable for credit) Course allows students to add experiential learning to any undergraduate course. The course involves applying the knowledge and skills developed in a course to support local initiative through civic engagement. Students consider the knowledge base of the primary course and/or discipline, and how it is applied in real practice. Reflective activities are used to challenge students to consider larger questions and the interdisciplinary nature of complex problems and solutions. This course is not a stand-alone course - it must be appended to a primary course.
Prerequisite: Special approval.
Schedule Type: Practical Experience
Contact Hours: 3 other
Grade Mode: Standard Letter
Attributes: Experiential Learning Requirement

UC 41010 MCNAIR SCHOLARS SEMINAR II 1 Credit Hour
McNair Scholars are required to take this course after participation in Summer Research Institute. This course provides training related to the graduate school application process. This course will assist scholars with applying to graduate school programs, further developing research projects, and navigating the personal, professional, and technical challenges in completing a graduate degree. Registration is restricted to McNair Scholars. The prerequisites for this course are acceptance to the McNair Scholars Program and successful completion of the Summer Research Institute.
Prerequisite: Special approval.
Schedule Type: Seminar
Contact Hours: 1 lecture
Grade Mode: Standard Letter

Cooperative Education Program

University College
Department of Career Exploration and Development
www.kent.edu/career/co-op

About This Program

Looking for a way to gain professional work experience while earning your degree? Look no further than Kent State University's Cooperative Education Program. Our co-op program provides students with the opportunity to alternate between full-time semesters of classroom instruction and full-time semesters of paid, professional work experience in their field of study. Read more...

Program Delivery

- **Delivery:**
  - In person
- **Location:**
  - Ashtabula
  - East Liverpool
  - Geauga
  - Kent
  - Salem
  - Stark
  - Trumbull
  - Tuscarawas
  - Twinsburg Academic Center

Admission Requirements

- Students must have one semester as a degree-seeking student at Kent State prior to their first co-op rotation.
- Students must be enrolled as a half- or full-time student (minimum 6 credit hours) in the semester prior to enrollment in the co-op education program.
- Students must have earned a minimum 2.000 overall GPA at the time of their co-op application.
- Students must have no holds on their student's record from any source (financial, academic, conduct).
- Cooperative position must be approved and relevant to students' career direction.
- Students must have received a completed grade and have resolved any outstanding non-completed grades for previous co-op rotations.
- International students must receive work authorization prior to enrolling in each co-op rotation.

The University College will work with the student's college to assess all applicants holistically, considering their academic progress, related experience, academic and extracurricular activities, among others, to evaluate the student's likelihood of success in the program.

Full Description

Students in Kent State University's Cooperative Education Program (co-op) enhance their degree program by relating theory to practice and applying what they have learned in the classroom to real-life workplace scenarios. This process of "learning by doing" increases student motivation and employability after graduation and maximizes student growth and development. Through a co-op experience, students explore career and academic options, test career choices, increase professional skills and earn money to contribute to educational expenses. Cooperative education experiences are highly desired, selective and in the student's chosen field.

All students participating in a co-op experience must register for COOP 20092 (non-credit, offered through University College) and pay the co-op fee. Enrollment in the course is restricted by special approval, and students may only register after submission and approval of all application forms. Enrollment in the course will ensure the student is designated and reported as a full-time student and permit the student to have access to all student services and resources during the co-op semester. Students participating in a cooperative education course do not earn credit hours the semester away. As a result, students are not eligible to receive federal or state grants, student loans or institutional scholarships. However, students will be reported to their federal loan services as enrolled full-time, allowing for student loans to remain in the in-school deferment status and therefore not enter repayment.

Exploratory Program

Examples of Declared Majors

The top majors declared by students earning a degree from Kent State in 2021 who started in the Exploratory program:

- Psychology
- Business Management
- Communication Studies
- Marketing
- Finance
- Speech Pathology and Audiology

Admission Requirements

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students.

First-Year Students on the Kent Campus: First-year admission policy on the Kent Campus is selective. Admission decisions are based upon cumulative grade point average, strength of high school college preparatory curriculum and grade trends. Students not admissible to the Kent Campus may be administratively referred to one of the seven regional campuses to begin their college coursework. For more information, visit the admissions website for first-year students.

First-Year Students on the Regional Campuses: First-year admission to Kent State's campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, as well as the Twinsburg Academic Center, is open to anyone with a high school diploma or its equivalent. For more information on admissions, contact the Regional Campuses admissions offices.

International Students: All international students must provide proof of proficiency of the English language (unless they meet specific exceptions) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English as a Second Language Center before entering their program. For more information, visit the admissions website for international students.

Former Students: Former Kent State students who have not attended another institution since Kent State and were not academically dismissed will complete the re-enrollment process through the Financial, Billing and Enrollment Center. Former students who attended another college or university since leaving Kent State must apply for admissions as a transfer or post-undergraduate student.

Transfer Students: Students who attended an educational institution after graduating from high school or earning their GED must apply as transfer students. For more information, visit the admissions website for transfer students.

Admission policies for undergraduate students may be found in the University Catalog's Academic Policies.

Students may be required to meet certain criteria to progress in their program. Any progression requirements will be listed on the program's Coursework tab

Program Learning Outcomes

Completers of this program will be able to:

1. Identify their majors of#interest.
2. Relate their major interests to future career possibilities.
3. Develop#meaningful relationships within the Exploratory community.

4. Identify available resources and support for individual success.
5. Report feeling confident about declaring their major.

Full Description

The Exploratory pre-major affords a tremendous opportunity for students to engage in meaningful and experience driven self-discovery — leading to confidence in themselves and their major declaration. Students benefit from the guidance, advising and support offered in the Exploratory program. Beginning in a student's first semester, students partner with academic advisors through a personalized exploration process.

The Exploratory pre-major does not lead to a degree. Students must declare a degree-granting major by the time they have earned 45 credit hours at Kent State University.

The Exploratory pre-major is housed in the Exploratory Advising Center. The Exploratory Advising Center values the following:

1. Validating and celebrating the **uniqueness** of each student
2. **Relationship**-building and **authentic** conversations
3. Openness to learning and **curiosity**
4. Building **resiliency** and **confidence** in decision-making
5. Being present in the now and being open to **future possibilities**

The Exploratory pre-major may be a good fit for students who are:

- Undecided in a major of interest;
- Looking to take time to make an informed decision;
- Wanting to gain a better understanding of themselves;
- Looking to discover different career possibilities; and
- Wanting to build confidence in decision making.

Exploratory students meet with their assigned exploratory advisor at least once a semester. These expert academic advisors are focused on partnering with the student. This partnership includes guiding students through their personalized exploration plan, keeping them on track to declare their major (and staying on track to graduate as planned) and celebrating their major declaration and graduation.

A and AS Levels

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State accepts for credit the successful completion of A (Advanced) Level and AS (Advanced Subsidiary) Level qualification conferred as part of the General Certificate of Education administered by AQA, Edexcel or the University of Cambridge International Examinations.

The A and AS Levels Credit Chart gives information about these exams and credits earned for passed exam reports. The chart reflects Cambridge exam numbers and syllabi, but exams from other sources will be cross-referenced by the Office of Global Education in consultation with faculty upon evaluation of scores.

An official score report must be submitted to Kent State before A- and AS-level credit can be applied to a student's academic record. Specific questions regarding how these credits apply to program requirements should be directed to the student's major program's college office.

Academic Standing - Graduate Student

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2025
Last Reviewed: Fall 2024
Last Revised: Fall 2013
Next Review: Fall 2034

Policy Statement

Good academic standing indicates that students are meeting university and program requirements and are making satisfactory progress towards their academic program. The definition of satisfactory performance and progress toward completion may differ among programs; therefore, it is imperative that each graduate program have these requirements in writing in their graduate handbook and distribute them to graduate students when they matriculate into the program.

Progress Toward Degree Completion

All graduate students are expected to meet university and program requirements, and to make progress toward completion of their program. This progress includes satisfying the conditions listed below and achieving the requirements set by the individual program.

Students who fail to satisfy the requirements of their program and/or the conditions outlined below may be dismissed from the program.

1. Students must maintain their status as degree-seeking by registering for, at minimum, 1 graduate credit hour that contributes to their degree requirements as determined by their graduate program each year (defined as three consecutive terms, including summer as one term) or by taking an approved leave of absence. Courses taken for audit and course withdrawals will not be counted as fulfilling the minimum enrollment requirements. Meeting this minimum enrollment requirement does not guarantee students will meet the minimum requirements of other programs, offices or agencies.
2. Students are expected to maintain a minimum 3.000 grade point average (GPA).[1] Some programs have minimum academic standards that may exceed the overall university standards and are listed in the University Catalog.
3. Doctoral degree students must comply with the time limits for passing candidacy. Reference policy on Candidacy for Doctoral Degree.
4. Students must comply with the policy of Time Limits for Graduate Programs.

In addition to the performance and progress made upon the conditions listed above, individual programs will review student performance in the fulfillment of the program's requirements. Consideration may include, but is not limited to, such factors as performance during informal coursework and seminars; research capability and performance; professional standards of conduct; and the number of AU (Audit), IN (Incomplete), IP (In Progress) and W (Withdrawal) administrative marks on a student's record. Violations of the administrative policy on plagiarism and cheating may also impact a student's academic standing.

Grades of C- and below are not counted toward completion of requirements for any graduate degree, minor, certificate, endorsement, licensure and other non-degree programs, but are counted in the graduate GPA. Credit hours earned in undergraduate courses are not counted toward completion of any graduate degree or certificate and are not counted in the graduate GPA. A change by a graduate student from one department or program to another does not remove from the student's GPA the grades that were earned in the first enrollment. Refer to the Grading Policies and Procedures in the University Catalog for information on grades and administrative marks and their application to the GPA.

Review of Academic Performance

Each graduate program should review the academic performance and progress of its students, according to university and program requirements, at least once per academic year. Reviews may result in one of four outcomes:[2]

1. No action
2. Warning
3. Probation
4. Dismissal

(1) No Action

If a student's performance and progress are satisfactory, the program may provide the student with written communication regarding the student's satisfactory performance and progress in the program.

(2) Warning

A warning may be issued to a student if the student's performance and/or progress falls slightly below expectations (e.g., failure to make timely progress on thesis or dissertation; overall GPA is 3.000 or higher, but term GPA is below 3.000).

The department chair, school director or program coordinator administrating the program will provide the student with written communication regarding the warning, including expectations for future performance and a timetable for the correction of deficiencies. Warnings are documented by the graduate program and may be communicated to the college dean, or designee.

(3) Probation

Students are placed on academic probation at the end of any semester in which their overall Kent State GPA in graduate courses within the current program is below 3.000. Students must complete 6 graduate credit hours at Kent State before being subject to academic probation. Enrollment is permitted only on a term-by-term basis until the probation is removed.

The department chair, school director or program coordinator administrating the program will provide written communication and contact the student to schedule a probationary meeting. The purpose of the probationary meeting is to review expectations for future performance and create a timetable for the correction of deficiencies.

Students must obtain a minimum 3.000 semester GPA in the first semester of probation. Failure to do so will result in academic dismissal.

Students who earn a 3.000 or higher semester GPA in their first semester probation but still have an overall GPA below 3.000 will be given one additional term to raise their overall GPA to 3.000 or higher. Failure to do so will lead to academic dismissal.

Exceptions:

- A student on an official leave of absence cannot be issued academic probation.
- If a student on academic probation does not take any graded (A-F) coursework, then that semester will not count as their semester of probation.
- A second semester of academic probation requires approval of the student's school/department and college dean.
- Any further extensions or exceptions require approval of the student's school/department, college dean and the Graduate College.

Students are not eligible to begin a new graduate assistant position while on academic probation.

Students in the College of Podiatric Medicine will have the probation noted on their student record, including the official transcript.

Coursework used in raising the student's GPA must be a part of normal program requirements and must be approved in advance by the program. The department chair, school director or program coordinator must notify the college dean, or designee, of the review outcome.

(4) Academic Dismissal

Review of a student's performance, progress and adherence to professional standards in a graduate program may result in a recommendation for academic dismissal. Refer to the **Dismissal and Appeal–Graduate** policy in the University Catalog for more information.

[1] Refer to the College of Podiatric Medicine's section in the University Catalog for GPA expectations for students seeking the Doctor of Podiatric Medicine degree.

[2] The College of Podiatric Medicine has two additional outcomes:

1. **Dean's List.** Full-time students in the College of Podiatric Medicine who have a minimum 3.500 current GPA for the fall and spring semesters and earned no grade below a C or S (Satisfactory) in all course/rotation work will be cited on the Dean's List at the end of each semester. Only students taking a full course load will be eligible for the Dean's List. College of Podiatric Medicine students are ranked at the end of each semester according to their overall grade point averages. Ranking is done on an individual basis by class year.
2. **Good Standing.** Students in the College of Podiatric Medicine and/or the College of Nursing are considered to be in good standing if they are meeting course and/or program expectations and have not failed any requirements.

Reason for Policy

This policy provides clear guidelines regarding student status related to warnings and probationary status and creates a consistent approach for student progress to prevent dismissal. The policy also clarifies minimum GPA and guidelines for students to know what they must earn when in status of probation.

Procedures

The academic status of graduate students is reviewed by the student's department at the end of each semester. Good academic standing is defined by a student achieving both of the following:

- Minimum 3.000 semester GPA and
- Minimum 3.000 overall GPA

Once status is determined, the department chair, school director or program coordinator administrating the program will provide the student with written communication regarding the consequences of academic status, i.e., warning or probation.

Upon exceeding the term of probation, the department chair, school director or program coordinator will submit recommendation for dismissal following the Dismissal and Appeal–Graduate policy.

Forms/Instructions

There are no additional forms or instructions associated with this policy.

Additional Resources

There are no additional resources associated with this policy.

Frequently Asked Questions

1. **What are my options if I have been given a warning or placed on probation?**
   Students who have a question or concern related to warning or probation status may contact the Student Ombuds.
2. **Will a warning or probation appear on my transcript?**
   No, a warning or probation will not appear on a student's transcript.

Definitions

Minimum GPA: A minimum GPA is no more than 6 credits of grades below a 3.000.

Warning notice: A warning notice will be sent from the academic unit to students whose semester GPA falls below a 3.000.

Probation: The academic status condition in which a student's overall GPA is below 3.000.

- Leave of Absence for Graduate Students
- Time Limits for Graduate Programs

Revision History

Amended August 2025: Revised policy removes variance by credit hour (8 credit hours of grades lower than a B or more than 4 credit hours lower than a C) to be subject to dismissal; adds reference to minors, certificate, endorsement, licensure and other non-degree programs; clarifies probation and amount of time allotted to be in good standing; and requires students to be in good standing to begin a new graduate assistantship.

Effective August 2013: Establishes of a policy on academic standing for graduate students to replace current policies on dismissal and dismissal appeals.

Academic Standing - Undergraduate Student

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Because undergraduate students must earn a minimum 2.000 overall grade point average (GPA) to graduate from the university, they must maintain that average throughout the undergraduate years. Students whose GPA falls below 2.000 should make a positive effort to improve their academic performance. Such students should devote their entire attention and energies to their studies by improving study habits and concentrating on such basic skills as composition, reading and mathematics.

The following academic standing designations apply to undergraduate students:

President's List

In recognition of an extremely high level of academic excellence, a President's List is compiled each academic semester. To qualify, students must have a 4.000 GPA in the semester and must have completed 15 or more credit hours (all of which must have regular letter grades) by the end of that semester. This notation will be printed on students' official transcripts.

Dean's List for Full-Time Students

In recognition of academic excellence, a Dean's List is compiled each academic semester. To qualify, students must have a minimum 3.400 GPA in the semester and must have completed 12 or more regular letter-graded credit hours by the end of that semester. This notation will be printed on students' official transcripts.

Dean's List for Part-Time Students

A Dean's List for Part-Time Students is compiled after spring semester grades are issued. To qualify, students must have a minimum 3.400 GPA in 12 or more regular letter-graded hours taken during the previous summer, fall and spring semesters. Such students must have registered for fewer than 12 hours in each of the semesters under consideration. This notation will be printed on students' official transcripts.

In Good Academic Standing

Students with a minimum 2.000 GPA are in good academic standing. Students with an overall GPA below 2.000 are placed on academic probation. Good academic standing is not the same as eligibility for financial aid or for participation in other activities of the university such as athletics, student organization leadership, extracurricular activities, etc. For information about eligibility standards, students should contact the appropriate office or organization.

Midterm Warning

Students who earn a midterm GPA of less than 2.000 will be placed on midterm warning.

Semester Warning

Students with a minimum 2.000 overall GPA who earn a semester GPA of less than 2.000 in any given semester will be placed on semester warning.

Selected Academic Program Warning

If a student's GPA does not meet the standards required for a selective program, the dean may place the student on selective academic program warning. The student would be allowed to remain enrolled in the selective major while attempting to improve academic performance.

Program Progression Requirements

Students not progressing academically in their selected academic program will be deemed not permitted to continue based on criteria established by their program area. Refer to the Program Progression Requirements policy in the University Catalog for more information.

Academic Probation

Students who fail to maintain a minimum 2.000 overall GPA will be placed on academic probation. This probation signifies that the cumulative performance is below the minimum university requirement for graduation. Probation is an emphatic warning to the students that the quality of their academic performance must improve if they are to obtain the minimum grades required for graduation. Students on probation must show considerable improvement in their academic work or they will be dismissed from the university. Students on probation must reduce their course load to 15 hours and may receive a prescription from the dean of their college or campus that they further reduce their hours carried until removed from probation. The students also should reduce participation in social and extracurricular activities. Students are removed from probation only when they have achieved a minimum 2.000 overall GPA. Students on probation will be notified by their dean's office.

In addition, the following students will be placed on academic probation:

1. Students reinstated to the university after being dismissed because of poor scholarship.
2. Transfer students whose cumulative records at all previous institutions do not meet the minimum GPA requirements of Kent State University.

Academic Dismissal

Students whose academic performance indicates a limited chance of obtaining the minimum grades required for graduation will be subject to dismissal from the university. Refer to the Dismissal, Appeal and Reinstatement–Undergraduate policy in the University Catalog for more information.

Accommodations for Student Religious and Spiritual Beliefs

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Date Effective: June 12, 2023

Policy Statement

A student will be granted up to three days each academic term to take holidays for reasons of faith or religious or spiritual belief system, or participate in organized activities conducted under the auspices of any religious or spiritual organization. Kent State University shall not impose an academic penalty as a result of a student being absent as permitted in this policy.

Students will be provided with alternative accommodations with regard to examinations and other academic requirements missed due to an absence, if both of the following apply:

- The student's sincerely held religious belief or practice severely affects the student's ability to take an examination or meet an academic requirement; and
- Not later than 14 days after the first day of instruction in a particular course, the student provides the instructor with written notice of the specific dates for which the student requests alternative accommodations.

The instructor shall accept without question the sincerity of a student's religious or spiritual belief system. An instructor shall keep requests for alternative accommodations confidential. An instructor shall schedule a time and date for an alternative examination, which may be before or after the time and date the examination or other academic requirement was originally scheduled but shall do so without prejudicial effect.

Instructors are required to include in each course syllabus a statement regarding this policy. The statement shall include a description of the general procedure for requesting accommodations and contact information for an individual whom a student may contact for more information about the policy.

Reason for Policy

The purpose of this policy is to establish procedures to reasonably accommodate the sincerely held beliefs and practices of individual students with regard to all examinations or other academic requirements and absences for reasons of faith or religious or spiritual belief system consist with Ohio Revised Code 3345.026.

Procedures

Students requesting alternative accommodations in a course due to religious belief or practice must provide the course instructor written notice no later than 14 days after the first day of instruction in that course. Students with concerns about an alleged violation of this policy are encouraged, but not required, to first discuss those concerns with their instructor. Students may also notify the university of any complaint following the Administrative Policy and Procedure for Student Academic Complaints (3342.4-02.3).

Forms/Instructions

- Non-exhaustive list of major religious holidays or festivals
  This list may not be used to deny accommodations to a student for a holiday or festival of the student's faith or religious or spiritual belief system that does not appear on the list. No inclusion or exclusion of a religious holiday or festival on the list shall preclude a student from full and reasonable accommodations for any sincerely held religious beliefs and practices with regard to all examinations or other academic requirements and absences for reasons of faith or religious or spiritual belief system provided under this policy.

Frequently Asked Questions

There is no FAQ associated with this policy.

Definitions

- **Ohio Revised Code:** The codified law of the state of Ohio found at codes.ohio.gov/ohio-administrative-code.
- **Instructor:** Instructor of record with the primary responsibility for course instruction, including the assignment of appropriate grades.
- **Syllabus:** An outline or a summary of the main points of what will be expected of students in a course, provided by the course's instructor.

Related Information

- Class Attendance and Class Absence policy

Revision History

Effective April 2023: Establishes a formal university policy regarding accommodations for student religious and spiritual beliefs.

Admission of Former Graduate Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State University graduate students who withdrew from or left the university in good standing will be required to re-apply for admission and pay the non-refundable application fee. Refer to the policy for Enrollment - Graduate in the University Catalog for more information.

For information concerning former graduate students who have been dismissed from the university, refer to the policy for Academic Standing - Graduate Student in the University Catalog.

Admission of Graduate Guest Students

Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2006
Next Review: Fall 2035

Policy Statement

The graduate guest student status allows individuals to enroll in a limited number of Kent State University graduate-level courses for credit without being formally admitted to a degree or certificate program. Guest students typically enroll for personal or professional enrichment, or to transfer coursework back to another institution.

Admission Requirements and Limitations:

- Applicants must hold a bachelor's degree from an accredited institution to apply for the graduate guest student status.

- Applicants are ineligible for admission if they were denied admission to Kent State due to student conduct or criminal history.
- Applicants are ineligible for admission if they are currently under academic dismissal from Kent State.
- Financial aid is not available to guest students through Kent State.
- Guest students may registered for maximum 6 credit hours at Kent State.
- Guest students cannot earn a degree or certificate in this status.
- To register for courses, guest students must secure approval from the appropriate program coordinator and meet all course prerequisites (or obtain instructor permission) to register for courses.

To continue beyond this 6-credit hour limitation or to pursue a specific program, guest students must apply for regular admission as a degree- or certificate-seeking student.

Reason for Policy

This policy defines the criteria and limitations for guest student admission to ensure appropriate access to Kent State University courses while maintaining academic standards and compliance with institutional policies.

Procedures

There are no procedures associated with this policy.

Frequently Asked Questions

There are no FAQ associated with this policy.

Definitions

- **Certificate Program:** A formal academic credential that signifies the completion of a focused program of study that addresses contemporary, topical and/or workplace need at the undergraduate or graduate level. Certificate programs normally contain between 15 and 25 credit hours of coursework.
- **Degree:** A formal academic credential awarded upon the successful completion of a prescribed program of study at the undergraduate or graduate level. Degree programs require the fulfillment of specific credit hour, curriculum and academic performance standards and are designated as associate, bachelor's, master's, post-master's or doctoral degrees.

Revision History

Amended August 2025: Revised policy allows guest admittance for applicants who were denied degree-seeking admission due to their academic achievement. Going forward, only applicants who have been denied due to criminal or student conduct history will not be admitted as guest students. In addition, information about admission as an undergraduate guest student has been moved to the Admission of Undergraduate Students policy.

Amended August 2006: Revised policy adds requirement for students to obtain approval from program coordinator to register for courses.

Admission of Graduate Non-Degree Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Admission as a non-degree student enables students to take a limited number of courses for credit (either full time or part time). Students in this status are not seeking a degree, but may wish to earn a certificate or take courses for job achievement, personal enrichment, intellectual curiosity or other personal reasons. Students cannot earn a degree in the non-degree status.

Application for graduate non-degree student status should be made through the Office of Admissions. Students who plan to pursue a graduate certificate program must apply as a non-degree student, unless they are already in a concurrent degree program. Admission is based on the same criteria detailed in the Admission of Graduate Students policy in the University Catalog.

Graduate non-degree students must register for coursework within one year after the admission date. Admission of students who do not register within one year will be inactivated. Reapplication must be made if students desire to register for coursework at this time. Once registered, graduate non-degree students may continue to take courses for six years. Six years after the first registration, non-degree students will be inactivated and must reapply for admission if continued registration in graduate coursework at Kent State University is desired. Anyone who has been denied admission to graduate studies, or is under dismissal from the university, is not eligible for graduate non-degree student status.

Graduate non-degree students who wish to pursue a degree must apply for admission to the degree program. A maximum of 12 semester credit hours taken as a non-degree student may be petitioned to satisfy requirements of a degree program. A petition for transfer of credit must receive approval of the department or school and the college dean. Note that some departments and schools will not accept any credit hours for transfer.

Non-degree students must meet all prerequisites for courses (or obtain permission of the instructor). In addition, graduate non-degree students must obtain approval from the corresponding graduate program coordinator to register for graduate courses. Students may not transfer in credit earned at another university while in non-degree status.

All fees, deadlines and performance standards for degree students apply to non-degree students.

Admission of Graduate Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State University is an access institution and has an important role to play in making sure its graduate programs are open to applicants who desire to pursue them. Applicants are evaluated based on both past academic performance and potential for continued achievement. In all cases, a combination of quantitative and qualitative measures is assessed. Credentials indicating an ability to succeed in graduate-level work may include overall and major grade point average (GPA), caliber of prior institutions attended, progression of academic performance over time, written communication skills, recommendation letters, relevant work experience, indices of leadership, prior research experience and correspondence between research interests and available faculty expertise.

Refer to the end of this section for admission procedures for the College of Podiatric Medicine.

Minimum Qualifications For Admission

1. **A bachelor's degree from an accredited college or university.** If applicant attended a non-U.S. college or university, the degree must have been received from a recognized institution where the requirements for the bachelor's degree are similar to those at Kent State University, as determined by Kent State's Office of Global Education.
2. **A total undergraduate grade point average (GPA) of 2.750 on a 4.000 point scale.** For graduate-level coursework, a minimum 3.000 GPA is required. Some programs may require a higher minimum undergraduate or graduate GPA. Refer to individual program admission criteria in the University Catalog for any required GPA above the minimum.

Applicants who do not meet the minimum GPA requirement may still be considered for admission if the applicant demonstrates one or more of the following conditions:

- Earned a graduate degree from an accredited institution with a 3.000 GPA.
- Completed 9 or more graduate credit hours at Kent State University or an accredited institution and earned a minimum 3.000 overall GPA in graduate-level courses.
- Scored at the 50th percentile or above on a standardized admission examination relevant to the academic program (e.g., GRE, GMAT, MCAT, LSAT).
- Earned a 3.000 overall GPA in the undergraduate major or in courses related to the academic program to which the applicant has applied.
- Earned a 3.000 overall GPA in the last 60 credit hours of completed undergraduate courses.
- Other compelling evidence as determined by the academic program.

Applicants who do not meet the minimum university and/or program requirements for admission may be considered for conditional admission. Admission in such cases will depend heavily on other indices of the student's ability to handle graduate-level work. These might include strong performance on standardized tests, GPA in the major and/or other experiences that are clearly indicative of strong academic ability.

Conditional Admission

The purpose of conditional admission is to provide applicants with an opportunity to compensate for any deficiencies and to demonstrate their ability to satisfactorily complete graduate level work. Conditional admission is normally assigned for one or more of the following reasons:

1. **Applicant does not meet minimum university/program requirements**. The conditions are determined by the applicant's program/college. Normally, conditions will include the successful completion of specified graduate coursework and/or the achievement of a specified first semester GPA. A statement of the conditions of admission, as well as the rationale for conditional admission, will be sent to the student in writing by the academic college. Monitoring the student's success in meeting specified conditions is the responsibility of the program.
2. **Applicant does not have expected academic background in the field of proposed graduate study**. The conditions are determined by the applicant's program/college. Normally, the conditions will include the successful completion of specified undergraduate coursework. A statement of the conditions of admission, as well as the rationale for conditional admission, will be sent to the student in writing by the academic college. Monitoring the student's success in meeting specified conditions is the responsibility of the program.
3. **Applicant does not meet minimum English proficiency requirements**. A statement of the conditions of admission will be included in the student's letter of admission. Conditions include the successful completion of English as a Second Language (ESL) courses and proof of English proficiency. Enrollment in ESL courses does not assure admission to an academic program. ESL faculty members are responsible for monitoring the student's conditions.

It is recommended that students who are admitted conditionally do not enroll in more than 9 credit hours during their first semester of enrollment.

Students admitted conditionally must satisfactorily complete the conditions of admission as prescribed by the academic program to which they are admitted and maintain a 3.000 overall GPA in the first 9 credit hours of graduate coursework attempted.

Required Application Materials For Admission

- Online application and non-refundable application fee.
- Copy of official transcripts from the college or university that conferred a bachelor's degree (or equivalent) and any further degree(s) earned. Additional transcripts, official or unofficial, may be required. Scanned copies of official transcripts may be uploaded as PDF files in the electronic admission application.
    - Applicants previously enrolled at Kent State do not need to submit the Kent State transcript. The Admissions Office will obtain the Kent State transcripts on the applicants behalf, as long as Kent State is listed as a previous institution on the admission application. Applicants must still submit transcripts for all post-secondary work done elsewhere.
    - Students offered admission to Kent State University will be required to submit official transcripts from the college or university that conferred any degree, undergraduate or graduate. The offer of admission will be considered "Provisional" until **all** required official transcripts are received by Kent State University.
    - The Admissions Office is responsible for monitoring receipt of official transcripts. If official transcripts are not received by the Admissions Office by the second week of students' first semester of attendance, a registration hold will be placed on their records. Students will not be able to register

or adjust their course schedule until all official transcripts have been received.
    - Any significant discrepancies found between student-provided unofficial transcripts and official transcripts will be **grounds for dismissal**.
- Letters of recommendation. Most programs require three letters, although some programs require two. The letters should be completed by persons who are familiar with the applicant's educational goals and professional and/or academic ability.
- Proof of English proficiency. All applicants whose education has been primarily outside the United States must have objective evidence of proficiency in the English language. Exceptions may be granted for applicants who have completed their education in a primarily English speaking country/territory. Refer to individual program admission criteria in the University Catalog for minimum test score requirements and applicable exceptions.
- Test Scores. As an access institution, Kent State University does not require the Graduate Record Exam (GRE) or the Graduate Management Admission Test (GMAT) for graduate admission. However, a graduate program may require a GRE or GMAT score as part of its admissions criteria if it is deemed necessary. Refer to individual program admission criteria in the University Catalog for any minimum test score requirements.
- Additional materials as required by the graduate program to which the individual is applying.

Once received, all application materials become the property of Kent State University and will not be returned. Application materials are kept for a period of one year from the date the completed online application form is submitted. After that time, materials will be destroyed. Applicants interested in admission after one year will need to reapply and submit a new application fee.

Multiple Applications

If an applicant chooses to apply to more than one graduate program, the applicant must submit a separate application and application fee for each program. Contact the Admissions Office to have application materials applied to more than one application. Applicants may be required to submit additional materials. Refer to individual programs in the University Catalog for required application materials.

Deadlines For Admission

For timely consideration of the application, it is recommended applicants submit a complete application at least one month before the start of the semester of first coursework. Some programs may have much earlier deadlines. Refer to individual programs in the University Catalog for their deadlines.

Application Procedures

Domestic Applicants

Domestic applications are received and processed by the Admissions Office. All transcripts, letters of recommendation, goal/purpose statements, vita/résumés and other required materials as specified by the program must be sent to gradapps@kent.edu.

After completing the online application form, applicants will receive notification via e-mail that the application was received. Applicants can also view the status of their submitted application using the Login ID and PIN that they created to complete the application. The Admissions Office will send applicants periodic e-mail reminders regarding any required application materials that have yet to be received.

Once all required application materials are received, the completed application form and materials are electronically forwarded to the respective program for review. The program's review committee then forwards its recommendation for admission or denial to the academic college dean. The dean's final admission decision is sent to the Admissions Office where it is documented on the applicant's record. The official admission decision letter is sent by the dean of graduate studies. Individual programs may send additional information to applicants, such as information about a graduate assistantship.

International Applicants

International applications are received and processed by Kent State's Office of Global Education. Applicants who require an F-1 or J-1 student visa must:

1. Meet the visa eligibility requirements.
2. Verify that they have the financial resources to cover their expenses during graduate study at Kent State University. The Financial Information Worksheet for International Students is available through the Office of Global Education. If a governmental entity is funding the student, an official letter regarding the funding must be submitted along with the Financial Information Worksheet for International Students.

The Financial Information Worksheet for International Students, proof of English proficiency and all transcripts, letters of recommendation, goal/purpose statements, vita/résumés and other required materials as specified by the graduate program must be sent to the Office of Global Education, Kent State University, 106 Van Campen Hall, 625 Loop Road, Kent, OH 44242, USA.

After completing the online application form, international applications will receive notification via e-mail that it was received. Applicants can also view the status of their submitted application using the Login ID and PIN that they created to complete the application. The Admissions Office will send applicants periodic e-mail reminders regarding any required application materials that have yet to be received.

Once all required application materials are received, the completed application form and materials are electronically forwarded to the respective program for review. The program's review committee then forwards its recommendation for admission or denial to the academic college dean. The dean's final admission decision is sent to the Admissions Office where it is documented on the applicant's record. The official admission decision letter is sent by the dean of graduate studies. Individual programs may send additional information to applicants, such as information about a graduate assistantship. If accepted for admission, the Office of Global Education will issue the form I-20 or DS-2019.

International students may enroll at Kent State University only if they have been admitted to a degree program, certificate program or post-baccalaureate teacher education program. The form I-20 (required to obtain F-1 immigration status) or the form DS-2019 (required to obtain J-1 immigration status) is issued only after the application is complete, all documents are properly verified, the applicant is admitted to a program and proof of funding is received.

Fraudulent Records

Any transcripts, certificates, translations or examination results that appear irregular will be verified with the appropriate school or

examination authorities, and the application process will be delayed until verification is received. If it is determined that an applicant has submitted false records or omitted information about previous school attendance, the application will be denied, and legal action may be taken.

Change Of Application Term

Applications and application materials are valid for one year only. Applicants may change the term of their application to a later term within one calendar year from the date the completed online application form was submitted. To be considered for admission during a different term, contact the Admissions Office to have the term of application changed. Some programs admit only one term per year. Refer to individual programs in the University Catalog for the term(s) during which they will consider admission. Applicants interested in admission after one year will need to re-apply and submit a new application fee.

Defer Enrollment

Admitted students are expected to enroll in and attend courses during the term of their admission. Students may defer the term of enrollment to another term within one calendar year from the term of admission. Initial enrollment beyond one year is not permitted. To defer enrollment to a later term, contact the Admissions Office. Students who have not enrolled in and attended courses within one calendar year of admission will need to re-apply and submit a new application fee.

College Of Podiatric Medicine

Kent State University's College of Podiatric Medicine adheres to the admissions policies set forth by the American Podiatric Medical Association. For the college's admissions procedures and requirements, visit the College of Podiatric Medicine website. Applicants to the Doctor of Podiatric Medicine degree will need to apply through the American Association of Colleges of Podiatric Medicine Application Service.

Admission of Non-Traditional Master's Degree Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

In rare instances, persons who have not completed a baccalaureate will be considered for admission to the appropriate graduate unit due to unusual and exemplary experiential learning.

Such applicants may apply for admission by presenting for departmental consideration a curricular plan encompassing undergraduate and graduate coursework to achieve a liberal educational background and professional graduate degree and three letters of recommendation attesting to their potential for graduate study. Upon departmental recommendation and the approval of the college dean, applicants will be admitted to undertake graduate work.

Upon successful completion of the curricular plan and the particular master's degree requirements, the students will be awarded the master's degree.

Admission of Transient Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Students pursuing a degree at another institution may apply as transient students to Kent State. Such students must be in good standing. Transient undergraduate students must possess a minimum 2.000 GPA (on a scale of 4.000) to be eligible for admission. The transient permission form must be certified in writing by the registrar or college dean of the institution where the students are enrolled. Graduate students may obtain a Graduate Transient Certification of Good Standing form on the Graduate College website.

Transient status is for one semester only. Students wishing to attend more than one semester must reapply. Returning transient students must be in good academic standing at Kent State. A non-refundable transient student fee will be assessed for each transient admission. An ID card may be obtained through the FLASHcard Office in the Kent Student Center.

Kent State undergraduate students wishing for take coursework at another institution should refer to the policy on Transfer of Undergraduate Credit in the University Catalog.

Transient International Visiting Graduate Students

Students who are in good standing in a graduate degree program at a university abroad may be admitted as transient students at Kent State University to take coursework that may apply to their degree program.

Steps for approval:

1. Complete the International Transient Certification of Good Standing form, which will be processed through the Office of Global Education, 106 Van Campen Hall.
2. Submit a request letter from the advisor at the home institution certifying that the student is in good standing.
3. Submit a letter of acceptance from a Kent State faculty member.
4. Receive approval by the department/school graduate program committee and by the college dean.

International transient students are allowed to work using Kent State facilities for maximum 12 months. Students may also register for research hours or for regular courses not to exceed a total of 12 credit hours over the visiting period. Tuition will be paid by students' home institution or by a Kent State grant. Students will be identified as full time.

Admission of Undergraduate Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2012
Next Review: Fall 2035

Policy Statement

Kent State University affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special talents and adult students.

All credentials submitted for admission become the property of the university and are not returnable or transferable. Kent State reserves the right to change, without notice, any admissions procedures described in the University Catalog.

Admission Types

First-Year Applicants

First-year applicants are the following:

- Applicants are currently attending their final year of high school or homeschool.

- Applications have earned their high school diploma or GED (or diploma equivalency) and have not attended any other educational institution.
- Applicants have taken college-level courses while in high school or homeschool (e.g., College Credit Plus) but have not attended any other educational institution after graduating from high school or earning their GED (or diploma equivalency).

Transcript Requirements for High School Applicants
First-year applicants must submit an official high school transcript with their application. In-progress transcripts are accepted for admission consideration during the applicant's final year of high school. All years of high school should be included in the transcript with explanations of delays or unexpected class advancements. If an applicant has attended multiple high schools, transcripts may be required from each school attended. See the policy on official transcript submission.

Applicants who are taking college-level courses while in high school (e.g., College Credit Plus) are not required to submit official college transcripts for admission consideration. Admitted students who completed college-level courses through an institution other than Kent State must send their official transcripts to the Office of Admissions after their high school graduation and prior to the start of their admission term.

Admitted students must submit an official, final high school transcript with the diploma conferral date prior to the start of their admission term before they can start courses, and any financial aid can be disbursed at Kent State University.

Transcript Requirements for Homeschool or GED Applicants
Home-schooled applicants must submit the following with their application:

- A General Educational Development (GED) diploma or a transcript or portfolio that documents all completed secondary coursework.
- Ohio residents: written acknowledgment from their local school district verifying their homeschool status.
- Non-Ohio residents: documentation that meets the home-school verification requirements of their respective state.

Applicants with a diploma equivalency (e.g., GED) must submit the official results of their examination with their application.

Admitted students must submit an official, final transcript with diploma conferral by the parent or homeschool administrator, a GED score report or a diploma equivalency prior to the start of their admission term before they can start courses, and any financial aid can be disbursed at Kent State University.

Admission as a First-Year Student
First-year applicants to the Kent Campus should demonstrate college readiness. See the policy on University Readiness Standards and Placement Assessment for more information.

Admission to the regional campuses is open to all applicants who are in the process of graduating from high school or who have obtained a high school diploma or diploma equivalency. See the section below for more information on being referred to a regional campus at admission.

Transfer Applicants

Transfer applicants have attended an educational institution after graduating from high school or earning a diploma equivalency (e.g., GED).

Transcript Requirements for Transfer Applicants
Transfer applicants must list on the application each educational institution they attended following high school graduation, regardless of credit hours earned, and submit official transcripts from each institution. See the policy on official transcript submission.

Applicants who completed college-level courses while in high school (e.g., College Credit Plus) at an educational institution other than Kent State must submit official transcripts during the admission process. Applicants who have not finished their first term of college-level coursework may be provisionally admitted based on their academic achievement during high school. Provisionally admitted applicants cannot receive financial aid until an official transcript is provided directly to the Office of Admissions from the educational institution.

Applicants who have earned fewer than 12 college credit hours also must submit an official, final high school transcript (or diploma equivalency) with the diploma conferral date before being considered for admission.

Admission as a Transfer Student
Generally, transfer applicants may be admitted to the Kent Campus if they have earned a minimum of 12 credit hours of non-remedial/developmental coursework with a minimum 2.000 overall GPA as computed by Kent State University (on a scale of 4.000). Applicants who have taken fewer than 12 credit hours will be evaluated on both their college and high school records.

Applicants who have been academically dismissed from another educational institution will be considered for admission to Kent State if any one of the following is true:

- Applicants are eligible to return to their previous institution.
- Applicants have been out of college for at least 12 consecutive months since their academic dismissal.
- Applicants have earned a minimum 12 credit hours of credit at another institution with a minimum 2.000 overall GPA (on a scale of 4.000).

Admission to the regional campuses is open to all applicants who are in the process of graduating from high school or who have obtained a high school diploma or diploma equivalency, including those who have been academically dismissed from other institutions. See the policy on referred to a regional campus.

Acceptance of Transfer Credit
More information about the transfer of college courses and credit hours can be found in the Transfer of Undergraduate Credit policy.

Post-Undergraduate Applicants

Post-undergraduate applicants have earned a bachelor's degree and wish to take additional undergraduate coursework, either to earn a second degree or an undergraduate certificate, to prepare for graduate study or to pursue personal or professional development.

Admission Process
Applicants with a Kent State bachelor's degree who have not enrolled in undergraduate coursework at another institution after graduation should complete the re-enrollment process, as outlined on the Financial, Billing and Enrollment Center website.

Applicants who earned their bachelor's degree at another institution or earned a Kent State bachelor's degree and completed undergraduate coursework at another institution since earning that bachelor's degree must apply for admission as post-undergraduate applicants.

Transcript Requirements for Post-Undergraduate Applicants
Post-undergraduate applicants must list on the application each educational institution they attended following high school graduation, regardless of credit hours earned, and submit official transcripts from each institution. Applicants in the process of finishing their bachelor's degree should provide a letter confirming their eligibility to receive a bachelor's degree in time to begin their post-undergraduate program at Kent State. See the policy on official transcript submission.

Guest Applicants

Guest applicants enroll in a limited number of Kent State courses without being formally admitted to a degree or certificate program. Guest students typically are seeking personal or professional enrichment or are planning to transfer coursework back to another educational institution. Financial aid is not available to guest students through Kent State.

Guest students cannot earn a degree or certificate and may take a maximum of 18 credit hours of coursework. To continue beyond these credit limits or to pursue a degree or certificate, guest students must apply for regular admission.

Admission Requirements for Guest Applicants

- Applicants are not required to provide transcripts for admission.
- Applicants must have a high school diploma, GED or diploma equivalency.
- Applicants must meet all course prerequisites or obtain instructor permission to register for courses.
- Applicants were not denied admission to Kent State due to student conduct or criminal history.
- Applicants were not academically dismissed from Kent State University.

Non-Degree Applicants

Non-degree undergraduate applicants enroll in a limited number of Kent State courses to earn a certificate or other non-degree credential; to meet prerequisites before applying to a degree program; or for job achievement, personal enrichment, intellectual curiosity or other personal reasons. Students cannot earn a degree as a non-degree student.

Non-degree students may enroll in courses for one academic year or until a maximum of 45 credit hours are earned. Non-degree students planning to pursue a degree, either before or upon earning 45 credit hours, can apply for admission to any of Kent State's campuses or locations.

Non-degree students must meet all course prerequisites or obtain instructor permission to register for courses. All fees, deadlines and performance standards that apply for degree students also apply to non-degree students.

Transcript Requirements for Non-Degree Applicants
Non-degree applicants must list on the application each educational institution they attended, regardless of credit hours earned, and submit official transcripts from each institution.See the policy on official transcript submission.

International Applicants

International applicants are not citizens of the United States or are not currently maintaining immigration status in the United States as a legal permanent resident, refugee or asylee. Applications from international students are received and processed by the Office of International Admissions. See the policy on international transcript submission.

English Proficiency Requirement
All international applicants must provide proof of proficiency in the English language (unless they meet specific exceptions to waive the requirement) through the submission of an English language proficiency test score or by completing English language classes at Kent State's English at a Second Language Center before entering their program. Information on submission and score requirements can be found on the International Admissions website.

Student Visa
International applicants should apply for admission at least six months before classes begin to allow time to complete the application and immigration process. Applicants who require an F-1 or J-1 student visa must meet visa eligibility requirements and be able to verify that they have the financial resources to cover their expenses while studying at Kent State University. The form I-20 (required for F-1 immigration status) or the form DS-2019 (required for J-1 immigration status) is issued only after all the following are complete:

- Applicants submitted a fully complete admission application to Kent State.
- Applicants are admitted to a degree program at Kent State University.
- All the applicants' documents are properly verified.
- Kent State has received and verified the applicants' proof of funding.

Former Kent State Students

Former Kent State undergraduate students who wish to return as undergraduate students will complete one of the following admission processes depending on their academic and enrollment history:

- Applicants left Kent State in good standing or on academic probation and did not attend another institution since then: Complete the re-enrollment process, as outlined on the Financial, Billing and Enrollment Center website.
- Applicants attended another institution since leaving Kent State: Apply for admission as a transfer or post-undergraduate student.
- Applicants were academically dismissed from Kent State: Follow the procedures outlined in the Dismissal, Appeal and Reinstatement policy to be reinstated at Kent State.

Military Veteran Applicants

Ohio veterans who left high school before graduation to serve in the military may be considered for admission to Kent State University if they are 21 years old or older and have passed the GED exam (or diploma equivalency).

Some military training courses may also qualify for college credit. To be considered, veterans should submit certificates of completion to the Office of Admissions. For more details, see the Military Training policy on how college credit may be awarded for military experience.

Veterans are encouraged to contact the Center for Adult and Veteran Services for help with pre-admission counseling and support throughout the admissions process.

Delayed-Entry and Diploma Equivalency Applicants

Delayed-entry and diploma equivalency applicants who are first-year college students are classified as one of the following:

- Applicants are 21 years or older at the time of their first enrollment at Kent State.
- Applicants earned their high school diploma three or more years ago by the start of their first enrollment at Kent State.

- Applicants earned their GED or other diploma completion credential before the start of their first enrollment at Kent State.

Applicants meeting these criteria are considered for admission regardless of their high school GPA and may contact the Center for Adult and Veteran Services for pre-admission counseling, advocacy and assistance with policies and procedures.

Application Process

Application Submission

All applicants can apply for admission to any of Kent State's campuses or locations through the Kent State institutional application. First-year and transfer applicants may use either the Kent State application or the Common Application to apply specifically to the Kent Campus. Only one application is accepted per term. Updates to application programs and campuses can be requested by contacting the Office of Admissions.

Application Deadlines

Applications for undergraduate admission are reviewed on a rolling basis. Early application helps ensure early consideration for scheduling new student orientation, course registration, residence hall preference and financial aid. Therefore, the best time to apply is at least six months prior to the anticipated term of enrollment, although some programs may have different deadlines.

Some academic programs may have additional application requirements. Individual requirements for these programs are listed under their Admissions tab in the University Catalog. Students interested in these special admission programs should apply one year prior to the date of anticipated enrollment.

Prospective transfer students are encouraged to apply before or by the end of their second year of college. Students applying just to Kent State at or after the end of their second year should consult with the appropriate college concerning the suitability of their preparation for their intended major.

Application Fee

A non-refundable application fee or fee waiver is required for all degree-seeking applicants before an application to the Kent Campus will be reviewed. Applying directly to a regional campus is free.

Official Transcript Submission

All applicants are required to submit official, final transcripts for any high school or college coursework, containing the school seal and the signature of a registrar or school official (unless sent by the school through an official, electronic third-party service). Transcripts must be sent directly from the issuing institution to the Kent State University Office of Admissions. Kent State will not accept transcripts provided by the applicant or individuals not affiliated with the educational institution, with the exception of international transcripts (see below).

Final transcripts should be received by Kent State no later than the second week of the student's first term of enrollment. Students who do not submit all required final transcripts by this deadline will not be allowed to register for future semesters until the documents are received.

Failure to comply with transcript requirements for admissions represents falsification by the applicant and may be subject to the cancellation of their admission decision or dismissal from the university.

International Transcripts

Applicants who have attended high school, university or any other educational institution outside of the United States may provide their personal copies of official transcripts for admission consideration if the institution is unable to provide them directly to Kent State University. Academic credentials may include, but are not limited to, transcripts, detailed mark sheets, diplomas, statements of marks and certificates of graduation.

After being admitted to Kent State University, students with international transcripts must present their original, institution-issued academic credentials to the Office of Global Education for verification. Any significant discrepancies between student-provided transcripts and the final, official transcripts submitted to Kent State University will be grounds for application cancellation or dismissal from the university.

Test Scores

Kent State University offers a test-optional admission pathway where applicants are not required to submit a standardized test score (e.g., ACT, SAT) to be considered for admission. The absence of test scores will not hinder an applicant's potential to be admitted.

Applicants are welcome to submit test scores if they choose. If submitted, the scores will be considered as one of many factors in a holistic review of the application and supporting materials. Test scores should be reported to Kent State University directly from the testing agency using the appropriate code below.

- Ashtabula Campus (3773)
- East Liverpool Campus (3225)
- Geauga Campus (3224)
- Kent Campus (3284 ACT/1367 SAT)
- Salem Campus (3354)
- Stark Campus (3226)
- Trumbull Campus (3343)
- Tuscarawas Campus (3361)

Application Review

An application will not be reviewed for admission until it is complete. Kent State reviews applications holistically. Rather than disproportionately focusing on one factor, the Office of Admissions carefully reviews each applicant based on multiple factors, including overall grade point average (GPA), strength and rigor of curriculum, grade trends, optional writing samples, optional letters of recommendations and special talents or passions.

Admission Decision

An offer of admission to Kent State University is contingent upon the successful completion of in-progress high school or college coursework and a review of the application and supporting information demonstrating continued admissibility to the university.

The admission decision provided to students by the Office of Admissions can be revoked or changed at any time at the discretion of personnel. Applicants who are found or suspected to have misrepresented themselves, provided falsified documents or have not provided complete information regarding their academic or student conduct history may be subject to cancellation of their admission decision or dismissal from the university.

Change of Admission Term

Admission to Kent State University is valid only for the specific term to which the applicant is admitted. Applicants who wish to begin their enrollment in a different term than they were admitted must contact the Office of Admissions to initiate their request. Applicants may request a new admission term that begins up to one year from their original

admission term. Moving the admission term beyond one year requires a new application and application fee.

Referred to a Regional Campus

Admission to the Kent Campus is selective, based upon overall grade point average (GPA), strength of curriculum, supplemental materials and grade trends. Applicants who do not meet the criteria for admission to the Kent Campus may be administratively referred to a regional campus; applicants living in Northeast Ohio are referred to their preferred or closest regional campus. When completing their application, students should select a secondary campus for which they would like to be considered for admission.

Applicants not meeting the admission criteria for the Kent Campus who still wish to be admitted to Kent State University must enroll for at least one semester at a regional campus. Enrollment at the regional campuses permits students to take advantage of smaller class sizes, more individualized advising services and a wider range of developmental coursework and programs.

Referred first-year and transfer students who enroll at a regional campus must complete the following to obtain the best possible foundation for academic success and become eligible to enroll at the Kent Campus:

- Successfully finish all developmental coursework as prescribed by placement testing and an academic advisor.
- Earn 12 credit hours of college-level coursework (not including any coursework considered developmental).
- Achieve a minimum 2.000 overall GPA.

Students are strongly encouraged to work closely with their academic advisor in planning for the transition to the Kent Campus.

Conduct and Criminal History Disclosure

Kent State is committed to ensuring a safe and secure learning environment for students, faculty, staff and guests of the university. Applicants are required to answer questions related to pending felony charges, felony convictions and dismissal or suspension from previous educational institutions for non-academic reasons. Disclosing one's criminal or student conduct history does not automatically preclude admission to Kent State but will require applicants to complete a personal explanation statement and provide supporting documentation for review by the pre-admissions committee to determine eligibility for admission. Conditions for admission may be applied to those applicants who are admitted.

Appealing an Admission Decision

Students not admitted to the Kent Campus may appeal the admission decision by contacting their personal admission counselor. To appeal an admission decision, students should be prepared to submit new information supporting their ability (e.g., updated transcript, improved GPA, test scores, letters of recommendation, personal essay outlining extenuating circumstances).

Applicants not admitted to the university due to criminal or student conduct history should review their decision letter for information on how to appeal a decision.

New Student Orientation

Newly admitted students to Kent State University are expected to attend the orientation appropriate to their admitted student type and campus for academic advising and registration. During the event, students and their guests learn information that is key to their success at Kent State University. The primary goal of new student orientation is to acquaint students and guests with Kent State University programs and services, provide an advising session to each student and register students for classes.

Reason for Policy

This policy outlines the undergraduate admission process at Kent State University and ensures transparency, consistency and fairness in evaluating applicants. It supports the university's mission to provide access to higher education for students from diverse backgrounds while maintaining academic standards and fostering a safe and supportive learning environment.

Frequently Asked Questions

1. **What campus should I apply to?**
   You should choose the campus based on its location to your home and the programs it offers. If you are unsure, contact the Office of Admissions at 330-672-2444 to discuss your options.
2. **How do I add a previous college to my enrollment history?**
   Contact the Office of Admissions at 330-672-2444, and we will update your application for you.
3. **How do I change my application type if I applied using the wrong one?**

   Contact the Office of Admissions at 330-672-2444, and we will update your application for you.

Definitions

Academically Dismissed Student: A student who is no longer allowed to enroll at the university due to failing to make adequate progress toward completion of a program of study or whose academic performance indicated little chance of obtaining the minimum grades required for graduation.

Certificate: A formal academic credential that signifies the completion of a focused program of study that addresses contemporary, topical and/or workplace need at the undergraduate or graduate level. Undergraduate certificate programs normally contain between 16 and 25 credit hours of coursework.

Degree: A formal academic credential awarded upon the successful completion of a prescribed program of study at the undergraduate or graduate level. Degree programs require the fulfillment of specific credit hour, curriculum and academic performance standards and are

designated as associate, bachelor's, master's, post-master's or doctoral degrees.

Educational Institution: An establishment dedicated to providing formal instruction and learning experiences and includes, but is not limited to colleges, universities and vocational trade/tech schools.

GED (General Educational Development): A credential that is recognized as an alternative to a traditional high school diploma earned by individuals who successfully complete the GED exam. The exam assesses proficiency in language arts, mathematics, science and social studies.

Transcript: The accurate and complete record of a student's academic coursework attempted at an educational institution, presented in either electronic format or paper format.

- Flashes 101 (New Student Orientation)

Revision History

Amended August 2025: Revised policy widened the classification of the delayed entry and diploma equivalency applicant type (previously "adult applicant") to include not only people who are 21+ at the time of enrollment, but also applicants who have graduated from high school three or more years; or who have a GED (or diploma equivalency). For those applicants, high school GPA is not considered for admission. In addition, required documentation for homeschool applicants is updated; the different application pathways for post-undergraduate students are clarified; and a stipulation is added in the Conduct and Criminal History Disclosure section that conditions for admission may be applied for full transparency of what may be expected of admits.

Admission to International Pathway Program

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

International students whose English proficiency is below the university minimum but are otherwise admissible may be admitted to Kent State's International Pathway Program. To be eligible, applicants must meet one of following English proficiency requirements based on degree level:

Undergraduate Degree Level

- TOEFL 54
- IELTS 5.0
- Duolingo English 75
- Completion of ESL Center Level 6

Graduate Degree Level

- TOEFL 61
- IELTS 5.5
- Duolingo English 90
- Completion of ESL Center Level 8

In addition to English proficiency, international pathway applicants must meet all other admission requirements outlined in this section of the University Catalog depending on their level, student type and program. Refer to the different Admission policies for more information on criteria for admission and application procedures.

Advanced Placement (AP)

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

The College Board Advanced Placement (AP) program awards college credit based on college-level high school courses and tests administered through the high schools. The State of Ohio, working through the University System of Ohio, has initiated policies to facilitate the ease of transition from high school to college as well as between and among Ohio's public colleges and universities.

Beginning in fall 2009:

- Students obtaining an AP exam score of 3 or above will be awarded the aligned course(s) and credits for the AP exam area(s) successfully completed.
- General education courses and credits received will be applied towards graduation and will satisfy a general education requirement (Kent Core) if the course to which the AP area is equivalent fulfills a requirement.
- If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.
- Additional courses or credits may be available when a score of 4 or 5 is obtained. Award of credit for higher score values varies depending on the academic discipline.
- In academic disciplines containing highly dependent sequences (e.g., sciences, technology, engineering and mathematics), students are strongly advised to confer with their advisor to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

Kent State will not accept AP credit from a high school or out-of-state transcript. Students must submit either an official score report from the College Board or, upon special request, a transcript from an Ohio college or university with the AP credit displayed. Visit the Credit Transfer Office's AP website for more information on scores and credits earned.

Alternative Credit Programs

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

After enrollment at Kent State in an undergraduate degree or certificate program, students may be awarded credit toward their academic program through methods other than completing Kent State coursework. This credit may shorten the time required to complete a Kent State degree.

For information on credit awarded for transfer coursework earned before or after matriculation at Kent State, refer to the Transfer of Undergraduate Credit policy in the University Catalog.

Credit will not be awarded for any exam or content that duplicates the content of a college course for which a student has already received credit or if a student has completed more advanced study, i.e. beyond the level covered by an exam. Evaluation of credit earned by alternative methods is based on articulated course and requirement equivalencies in effect at the time the credit is requested. General guidelines for alternative credit types accepted by the university are described in the sections below.

Advanced Placement (AP)

The College Board Advanced Placement (AP) program awards college credit based on college-level high school courses and tests administered through the high schools. The State of Ohio, working through the University System of Ohio, has initiated policies to facilitate the ease of transition from high school to college as well as between and among Ohio's public colleges and universities.

Beginning in fall 2009:

- Students obtaining an AP exam score of 3 or above will be awarded the aligned course(s) and credits for the AP exam area(s) successfully completed.
- General education courses and credits received will be applied towards graduation and will satisfy a general education requirement (Kent Core) if the course to which the AP area is equivalent fulfills a requirement.
- If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.
- Additional courses or credits may be available when a score of 4 or 5 is obtained. Award of credit for higher score values varies depending on the academic discipline.
- In academic disciplines containing highly dependent sequences (e.g., sciences, technology, engineering and mathematics), students are strongly advised to confer with their advisor to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

Kent State will not accept AP credit from a high school or out-of-state transcript. Students must submit either an official score report from the College Board or, upon special request, a transcript from an Ohio college or university with the AP credit displayed. Visit the Credit Transfer Office's AP website for more information on scores and credits earned.

A and AS Levels

Kent State accepts for credit the successful completion of A (Advanced) Level and AS (Advanced Subsidiary) Level qualification conferred as part of the General Certificate of Education administered by AQA, Edexcel or the University of Cambridge International Examinations.

The A and AS Levels Credit Chart gives information about these exams and credits earned for passed exam reports. The chart reflects Cambridge exam numbers and syllabi, but exams from other sources will be cross-referenced by the Office of Global Education in consultation with faculty upon evaluation of scores.

An official score report must be submitted to Kent State before A- and AS-level credit can be applied to a student's academic record. Specific questions regarding how these credits apply to program requirements should be directed to the student's major program's college office.

College Level Examination Program (CLEP)

Students may earn academic credit through the College Board's College Level Examination Program (CLEP) administered at Kent State by the Office of Academic Engagement and Degree Completion. CLEP allows a student to earn college credit for prior knowledge and move on to more advanced coursework sooner. Credit hours, but no letter grade, is granted for scores that meet the minimum for each exam as determined on the CLEP guide for the Kent State University Catalog in effect at the time of the exam.

For additional CLEP information, including available tests, Kent State course equivalents and test dates, visit the Office of University Advising and Testing's website. Refer to the Alternative Credit-Testing Eligibility policy at the end of this section for more regulations on earning credit through testing.

College Tech Prep (CTP)

Kent State University will award college credit to students who successfully complete an approved College Tech Prep (CTP) program. Credit received through the CTP program is applied toward an appropriate degree at Kent State as identified in the signed articulation agreement. A student-articulated credit application for CTP credit is available from the CTP teacher or high school guidance counselor or on the Kent State Tech Prep website.

To earn Kent State University credit, students must:

- Complete the state-approved CTP program with a minimum B grade
- Graduate from high school
- Enroll at Kent State and request credits within three years after high school graduation
- Meet any additional criteria identified on the articulated credit application

Credit By Examination (CBE)

Students with demonstrable ability and knowledge in a particular subject area may earn credit in selected courses though Credit-By-Examination (CBE), coordinated by the Office of the University Registrar. Students who wish to pursue CBE must complete the CBE application to gain appropriate college and departmental permission. The appropriate academic department administers the exam, which may include the completion of additional assignments. The minimum passing standard for CBE is the equivalent of a C grade. However, no letter grade, only credit hours, are posted to the academic transcript for CBE.

For the CBE application, per-credit-hour fee and a list of available courses, visit the Office of the University Registrar's CBE website. Refer to the Alternative Credit-Testing Eligibility policy at the end of this section for more regulations on earning credit through testing.

DANTES Subject Standardized Tests (DSST)

Formerly known as the Defense Activity for Non-Traditional Educational Support (DANTES) exams, the DANTES Subject Standardized Tests (DSST) is a nationally recognized program that gives students the opportunity to receive college credit for learning acquired outside the traditional college classroom. Kent State accepts the American Council on Education (ACE) recommendations for the minimum score required and the amount of credit awarded. Official score reports or a joint services transcript (JST) must be submitted to Kent State before the credit can be applied to a student's academic record.

For information on credit options for military students, visit the Credit Transfer Office website.

Industry-Recognized Certifications, Examinations and Professional Training

Kent State accepts many industry-recognized certifications, examinations and professional training as prior learning credit applicable toward degree programs upon programmatic approval. Kent State awards academic credit following recommendations from the American Council on Education (ACE) and the Ohio Department of Higher Education. Official documentation from the issuing company or professional organization must be submitted to Kent State before credit can be applied to a student's academic record.

Industry-recognized certifications, examinations and professional training that is not evaluated by ACE may be considered for academic credit. Students who wish to request credit for training not yet evaluated must complete the industry/training credit application, including submission of all documentation to determine whether academic credit is to be awarded. All credit for industry/professional training appears on the student transcript without a grade.

Students should contact the Credit Transfer Office for more information on the types of certifications, examinations and professional training accepted and the approval process. Official documentation from the issuing agency must be submitted to Kent State before the credit can be applied to a student's academic record.

International Baccalaureate (IB)

Students who complete the International Baccalaureate (IB) Diploma Programme, a rigorous two-year course of pre-university studies in their high school, may be awarded credit toward a degree or certificate at Kent State. An official IB transcript must be submitted to Kent State before the credit can to be applied to a student's academic record. (A notation on a high school transcript will not be accepted.)

Kent State accepts scores of 5, 6 or 7 for higher-level (HL) and standard-level (SL) IB exams toward specific course equivalencies and general education requirements (e.g., Kent Core, diversity). Visit the Credit Transfer Office's IB website for more information on these scores and credits earned.

Military Training

Kent State University awards academic credit for military coursework according to recommendations listed on the Joint Services Transcript (JST). All eligible credits must be recognized by the American Council on Education (ACE). Kent State awards Military Transfer Assurance Guide (MTAG) coursework for articulated credit as established by the Ohio Department of Higher Education. Service members can visit Kent State's Credit Transfer Office website for information regarding requesting and submitting military transcripts.

Service Examinations: Credit is awarded for some experiences in basic training that are equivalent to specific beginning Physical Activity, Wellness and Sport (PWS) courses at Kent State University. Credit is awarded on the basis of recommendations from the School of Teaching, Learning and Curriculum Studies in the College of Education, Health and Human Services.

In order for credit to be granted in any of the above areas, a transcript or certificate of completion or a veterans DD 214 form is required. In addition, Kent State reserves the right to set the percentile score that is necessary for satisfactory performance in a course and for the granting of credit. Credit will not be given for duplicate work taken through any of these agencies.

Military Transfer Credit Appeals Process

Students must submit, in writing, a letter of appeal regarding their military transfer credit to the Credit Transfer Office c/o Kent State University. Upon recommendation by the Transfer Review Committee, students will be notified of the outcome, in writing. Information regarding the standards for satisfactory performance or to submit an appeal may be found on the Credit Transfer Office website.

Retroactive Credit

Undergraduate students currently enrolled in a degree or certificate program who are placed into an advanced course through assessment or departmental review may earn retroactive credit for designated lower level course(s) in that subject. The advanced courses approved for earning retroactive credits are listed below.

To apply for retroactive credit, students must submit an application for retroactive credits.

The following stipulations apply:

- Students must complete the advanced course at Kent State with a minimum C or S (Satisfactory) grade to be eligible for retroactive credit. Courses taken for the pass/fail grade or audit mark will not be accepted for retroactive credit.
- Students who withdraw from or fail to meet the minimum C or S grade in the advanced course may retake the course and apply for retroactive credit once the minimum C or S grade is achieved and posted.
- Course credits earned through the retroactive policy are not assigned a letter (A-F) grade. The mark CR will be posted to a student's transcript for the enrolled term the student applied for the retroactive credit.
- Retroactive credit will count toward students' class standing, total credit hours earned for graduation and hours required for graduation honors.
- Retroactive credit will not count in students' grade point average (GPA), quality points and residence requirement.
- Students are not eligible for retroactive credit if they previously earned college credit for a course that is comparable to a lower level course in the same subject of the advanced course. Previous college credit includes credit earned through exam (e.g., AP, CLEP); courses transferred from other college-level institutions, tech prep programs or dual enrollment in a high school; or any other alternative credit listed in the University Catalog.
- Not all courses that offer retroactive credits are available each semester.
- Retroactive credit is not available for graduate courses.
- Students may apply for retroactive credit following the posting of the grade at any time before graduation, but no later than the second Sunday of the semester in which they are graduating.

A fee per credit hour is charged for processing and posting of the credit on the student's transcript. The Kent State Retroactive Credit Chart provides information about eligible courses and credits earned.

Alternative Credit-Testing Eligibility

The student's college determines eligibility for testing. The following regulations govern credit through testing:

1. Credit is awarded on a course-by-course basis. Students may be tested for Credit-By-Examination (CBE) only once for any given course. Students may not attempt a course CBE for which they have previously attempted through the College Level Examination Program (CLEP).
2. New students may take the CLEP before beginning work at Kent State University. CBE is available to currently enrolled degree- and certificate-seeking Kent State students only.
3. Students are allowed to take CBE only if they are in good standing (i.e., not on probation).
4. Students may not take CLEP or CBE for any course:
   a. In which they have audited
   b. In which they are currently enrolled
   c. In which they have previously enrolled and earned a grade, including withdrawal (A-F, AU, IN, IP, NF, NR, S, SF, U, W, Y or Z)

In subject fields in which knowledge is sequential or accumulative (e.g., mathematics, foreign language), courses are structured in prescribed sequences. Students who have received credit for, or established proficiency at, one level in such a sequence (either by testing or by enrolling in and completing the course) cannot subsequently earn CLEP or CBE credit for any prior course in the sequence or in any lower level sequence. Students who want to earn CBE for more than one course in such a sequence must complete CBE one course at a time, beginning with the lowest level course for which they want to receive academic CBE credit.

Students approaching graduation must complete all CBE and CLEP credit by at least the semester proceeding the semester in which they plan to graduate.

Students who sign up for CBE must take the exam within 60 days of the payment date of application. If they do not, they forfeit any fees paid and must reapply to take the exam.

Alternative Credit-Testing Eligibility

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

The student's college determines eligibility for testing. The following regulations govern credit through testing:

1. Credit is awarded on a course-by-course basis. Students may be tested for Credit-By-Examination (CBE) only once for any given course. Students may not attempt a course CBE for which they have previously attempted through the College Level Examination Program (CLEP).
2. New students may take the CLEP before beginning work at Kent State University. CBE is available to currently enrolled degree- and certificate-seeking Kent State students only.
3. Students are allowed to take CBE only if they are in good standing (i.e., not on probation).
4. Students may not take CLEP or CBE for any course:
   a. In which they have audited
   b. In which they are currently enrolled
   c. In which they have previously enrolled and earned a grade, including withdrawal (A-F, AU, IN, IP, NF, NR, S, SF, U, W, Y or Z)

In subject fields in which knowledge is sequential or accumulative (e.g., mathematics, foreign language), courses are structured in prescribed sequences. Students who have received credit for, or established proficiency at, one level in such a sequence (either by testing or by enrolling in and completing the course) cannot subsequently earn CLEP or CBE credit for any prior course in the sequence or in any lower level sequence. Students who want to earn CBE for more than one course in such a sequence must complete CBE one course at a time, beginning with the lowest level course for which they want to receive academic CBE credit.

Students approaching graduation must complete all CBE and CLEP credit by at least the semester proceeding the semester in which they plan to graduate.

Students who sign up for CBE must take the exam within 60 days of the payment date of application. If they do not, they forfeit any fees paid and must reapply to take the exam.

Award of a Master's Degree to a Doctoral Student

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

A student who has been admitted to and is currently pursuing a doctoral degree may apply for a master's degree in the same department in which the doctorate is to be taken. Upon certification that the student has met the requirements for the master's degree in that department, the degree may be awarded. The total number of graduate hours required for the doctorate shall not be altered thereby.

Candidacy for Doctoral Degree

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

To become a candidate for the doctorate, a student must pass a candidacy (comprehensive) examination in the field of the major subject. This examination will be taken when departmental requirements have been met, but it should not be taken later than nine months before the student expects to receive the degree. The content and scope of the examination are determined by the department concerned. The examination may be either written or oral or both. The student is not permitted to continue with the dissertation unless this requirement is satisfied. Failure on the candidacy examination and a subsequent prescription and reexamination are subject to departmental policy. When opportunities for such reexamination are exhausted without success, the student will be dismissed from graduate study.

For candidacy of the Doctor of Podiatric Medicine degree, refer to the college policies in the College of Podiatric Medicine section of the University Catalog.

Catalog Rights and Exclusions

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2020
Last Reviewed: Fall 2019
Last Revised: Spring 2020
Next Review: Fall 2030

Policy Statement

The university has established the following Catalog rights and exclusions relating to requirements for students in an academic program (major, minor, certificate). While these Catalog rights establish specific

academic program requirements for students, the exclusions noted ensure that the knowledge and skills acquired by students will be current with the state of knowledge in their fields of study.

Rights

1. The students' academic requirements for graduation are based on the Catalog year that is assigned initially to the student's first term of enrollment in a degree or certificate program at Kent State University.
2. Students are permitted to complete an academic program (major, minor, certificate) under a more recent Catalog year. When changing Catalog year, students must comply with all the requirements relevant to their program in the newer Catalog year. After a Catalog year is updated, students are not permitted to revert to an older catalog year.
3. Students may declare a different Catalog year for a minor, certificate or second major/degree. However, students must comply with all the requirements relevant to the additional program in the different Catalog year.
4. Catalog rights may be granted through mutual agreements with other institutions. Such rights are subject to the same exclusions noted below.

Exclusions

1. Students are governed by the academic policies in the Catalog in effect for the current academic year, regardless of students' first term of enrollment.
2. Students who transfer to another university and return to Kent State are readmitted under the Catalog in effect for the term of readmission.
3. Dismissed students are reinstated under the Catalog in effect for the term of reinstatement.
4. Undergraduate students who interrupt their enrollment at the university for one full academic year or longer, consecutively, including summer, are updated to the Catalog in effect for the term of their most recent re-enrollment. Transfer work and alternative credit do not qualify as enrollment at Kent State University.
5. Kent State will not permit admission or reentry into programs that are no longer offered.
6. Undergraduate students who are enrolled continuously in a degree or certificate program in a catalog older than six years may be required to update to a more recent Catalog.
7. The university reserves the right to change academic requirements to keep programs in compliance with accreditation, certification, licensure or industry standards. In these situations, the college administering the program may update students to a more recent Catalog year.
8. The university reserves the right to change academic requirements due to financial urgency, unavailability of faculty or unavailability of other instructional resources. Where programmatic changes are required that do not alter the core academic requirements of the university, the students' college dean will identify available alternatives for currently enrolled students to complete their declared program(s).
9. Course specifications such as title, credit hours, prerequisites, status (e.g., Kent Core), etc., are based on the term for which the student registered for the course. If the course is revised after the student completed it, the student does not gain or lose anything with that revision. In the event that a change in prerequisite, for example, would substantially disadvantage a continuously enrolled student by unreasonably adding one or more courses to that student's academic requirements, the college administrating the student's program may authorize course substitutions, waiver(s) or some other appropriate alternative.
10. The university reserves the right to change course specifications; cancel a scheduled course; and change the time, location or delivery of class meetings for a scheduled course. If a course is canceled, every attempt will be made to contact the registered students. Students registered in canceled courses will be given the opportunity to change to another course with seats available.

Reason for Policy

Policy establishes consistent practices for understanding requirements for students in an academic program.

Procedures

There are no procedures with this policy.

Forms/Instructions

- Manage My Programs in FlashLine

Frequently Asked Questions

There are no FAQ associated with this policy.

Definitions

Catalog: official document of record for undergraduate and graduate programs, courses, academic policies and special programs.

Catalog Year: identifies the University Catalog that contains the requirements for the student's academic program.

Re-enrollment: process for students who have previously attended Kent State University as an undergraduate to return as an undergraduate student.

Related Information

- Kent Core (General Education Requirement)
- Minors

Revision History

Amended August 2020: Revised policy clarifies how catalog year is assigned and the meaning of a catalog year; adds limitation that students cannot revert after updating catalog year; replaces term "in force" with "in effect"; adds disclaimer that colleges may approve appropriate substitutions or waivers if changes to courses substantially disadvantage enrolled students; and adds university's rights to cancel courses and change the time, location or delivery of a scheduled course.

Amended August 2015: Revised policy addresses students whose first term of enrollment is a summer term, who are declared in a certificate program or who declare multiple programs; adds a clause to clarify that all students are governed generally by the university academic, administrative and operational policies in the Catalog currently in force; adds a stipulation to reflect current practice that students who left the university and later returned may not be declared back into their original program if that program is no longer offered; and modifies the requirement of the six-year rule to, instead, state that students who are

enrolled continuously in a degree or certificate program in a catalog older than six years may be required to update to a more recent Catalog.

Amended August 2014: Revised policy clarifies that course specifications such as course title, content, prerequisite and status (e.g., Kent Core) are in force for the term in which the student is enrolled in the course.

Amended August 2012: Revised policy allows student to have different catalog years for declared majors, minors and certificates.

Amended August 2010: Revised policy requires all undergraduate students at all campuses to move to the catalog-in-force after six years in their program.

Amended August 1998: Revised policy requires students who do not complete degree requirements within 10 years to update to the current catalog.

Change in Graduate Program of Study

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Because admission to a graduate degree program involves admission to both the program and the university, a change in program of study (degree, major, concentration or catalog year) requires approval. Admission to a new program is not automatic.

A graduate assistantship normally does not transfer with students who are approved for admission into a different graduate program. Doctoral candidacy status does not transfer to a new graduate program. International students must consult with the Office of Global Education to determine how a change of program affects their visa status.

Procedures

Students interested in changing their program of study should first contact the graduate coordinator of the proposed program to gain a clear understanding of the program's requirements. Admission requirements, deadlines and required application materials vary by graduate program, and it is the student's responsibility to adhere to the requirements and deadlines.

Students must contact the graduate coordinator of the proposed program to determine whether they submit either a Change in Program of Study form or a new application. The determination of whether a form or application should be submitted is based on the proposed program's judgment about the amount, and availability, of application materials needed by the program in order to make an informed admission decision. More significant program changes (e.g., change to a major within a different department/school) likely will require a new application, while less significant changes (e.g., change to another concentration within the same major in the same department/school) likely will require completion of the Change in Program of Study form.

In some cases, the proposed program will accept application materials that had been submitted to the student's original graduate program. In other cases, new materials may be required. If the proposed program will accept materials that were submitted along with the student's application to the current program, the student must contact the Office of Admissions to request that the materials be added to the new application.

The proposed program will review the application/form and all materials according to established procedures. Applicants who do not meet the minimum university and/or program requirements may be considered for conditional admission. If the student is admitted into the program, the program will determine how much of the student's previously completed work may be applied toward the new graduate degree, in accordance with the university's transfer of credit policy.

Class Attendance and Class Absence

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Date Revised: June 28, 2023
Date Effective: August 28, 2023

Policy Statement

Regular attendance in class is expected of all students at all levels at the university. While classes are conducted on the premise that regular attendance is expected, the university recognizes certain activities, events and circumstances as legitimate reasons for absence from class. This policy provides for accommodations in accordance with federal and state laws prohibiting discrimination, including, but not limited to, Section 504 of the Rehabilitation Act of 1973, 29 U.S.C.§794, and its implementing regulation, 34 C.F.R. Part 104; Title II of the Americans with Disabilities Act of 1990, 42 U.S.C. §12131 et seq., and its implementing regulations, 28 C.F.R. Part 35; as well as university policy 5-16.

This policy describes the procedures for requesting and responding to legitimate absences with the exception of absences for religious and spiritual beliefs. Refer to the policy for absences for religious and spiritual beliefs.

The individual instructor has both the responsibility and the prerogative for managing student attendance. The instructor's policy regarding attendance for each course should be written in the course syllabus and communicated to students during the first week of the term. The policy may take alternate forms within the bounds of appropriate instructional techniques.

Legitimate reasons for an "excused" absence include, but are not limited to, illness and injury, disability-related concerns, military service, death in the immediate family, academic field trips, participation in an approved concert or athletic event and direct participation in university disciplinary hearings.

Even though any absence can potentially interfere with the planned development of a course, and the student bears the responsibility for fulfilling all course requirements in a timely and responsible manner, instructors will, without prejudice, provide students returning to class after a legitimate absence with appropriate assistance and counsel about completing missed assignments and class material. Neither academic departments nor individual faculty members are required to waive essential or fundamental academic requirements of a course to accommodate student absences. However, each circumstance will be reviewed on a case-by-case basis.

Informal resolution should first be attempted between individual instructors and students in the event of any attendance-related concerns. If informal resolution is unsuccessful, the following offices, with respect to that office's purview, can provide assistance and guidance on attendance concerns and instruction on filing a grievance: student ombuds; student accessibility services; or compliance, equal opportunity and affirmative action.

In addition to this policy, students are responsible for following the procedures and policies of the respective offices from which they are

seeking assistance, e.g., student accessibility services, the student ombuds, etc. In all instances of absences, students shall be responsible for all material covered in class during their absence. Students are responsible for completing any makeup work resulting from their absence. In no case is an excuse from class to be interpreted as a release from class responsibility.

The general procedures and responsibilities for requesting and determining legitimate class absence can be found in policy 3-01.2 of the University Policy Register.

Reason for Policy

Kent State University aims to foster an atmosphere of honesty and trust between instructors and their students. It is in both the university's and the student's interest to outline academic protections for students when they miss class for legitimate reasons. This policy places parameters around what is a legitimate absence, and reinforces the responsibilities of the instructor and the student.

Procedures

The general procedures and responsibilities for requesting and determining legitimate class absence can be found in policy 3-01.2 of the University Policy Register.

Forms/Instructions

- Class Absence Authorization Form
- Procedures for requesting an absence

Additional Resources

- Office of the Student Ombuds
- Office of Student Accessibility Services
- Office of Compliance, Equal Opportunity and Affirmative Action

Frequently Asked Questions

1. **Can I receive a letter from the DeWeese Health Center to be excused from class or exam?**
   The DeWeese Health Center does not provide written absence excuses for students who miss a class, presentation, quiz, exam or other academic responsibility. Refer to the DeWeese Health Center website for more information.
2. **Can I request class absences when I have flare-ups of a chronic illness?**
   Please contact the Office of Student Accessibility Services to discuss eligibility of using the attendance modification policy.
3. **I missed the first day of class and received an email that I now have an NF (Never Attended - Fail) grade for the course. What can I do?**
   Contact the course's instructor as soon as possible to discuss the circumstances and to start attending the course.
4. **What should I consider if I am going to miss a significant amount of class time and/or academically related activities due to illness or other reasons?**
   You should contact your instructor to discuss your academic standing in the course so you can determine your next steps. For example, this could include dropping the course, withdrawing from the course, requesting an Incomplete mark (if eligible) or leave of absence (graduate students only). You can also consult with your academic advisor or the student ombuds if you need assistance discussing academic options.

Definitions

Course syllabus: An outline or a summary of the main points of what will be expected of students in a course, provided by the course's instructor.

University disciplinary hearings: A formal meeting through the Office of Residence Services or the Office of Student Conduct for a violation of university rules.

Information to come

Classification of Undergraduate Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

An undergraduate student is classified as follows:

- FRESHMAN — 0 to 29 credit hours of earned credit
- SOPHOMORE — 30 to 59 credit hours of earned credit
- JUNIOR — 60 to 89 credit hours of earned credit
- SENIOR — 90 credit hours to graduation

College Credit Plus

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

College Credit Plus is offered through the University College for middle/high school students (grades 7-12) who want to take Kent State courses at any Kent State campus, online, hybrid in-class/online or at their middle/high school. The course is taught by either a Kent State faculty member or a Kent State-qualified secondary instructor.

A College Credit Plus course offered in middle/high schools through the university must duplicate the course offered by Kent State to matriculated students. Courses must be approved for College Credit Plus status, and credit awarded must be deemed acceptable for transfer by faculty of the appropriate Kent State academic department/school.

Students enrolled in College Credit Plus courses must adhere to the deadline dates specified by Kent State for registration, drop, withdrawal and refund. Kent State may give priority to matriculated students for course registration over College Credit Plus students. However, once a College Credit Plus student has been registered into a course, Kent State will not displace that student for another student.

Kent State will provide students full access to Kent State libraries and electronic databases, as appropriate, and general academic support services, including academic advising, regardless of whether the course is taken in person, online or at a middle/high school.

Kent State is responsible for maintaining a College Credit Plus student's college transcript. Courses will be identified on the Kent State transcript as a college-level course. The middle/high school is responsible for maintaining the student's middle/high school transcript. The evaluation of courses when transferring to a college or university other than Kent State is the purview of that college or university.

College Credit Plus students are limited to a maximum of 30 credit hours per academic year and a maximum of 120 credit hours overall prior to high school graduation. Students who wish to continue at Kent State

University after high school graduation should apply for admission as new freshman during the fall of their senior year.

For more information, please visit Kent State's College Credit Plus website.

College Level Examination Program (CLEP)

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Students may earn academic credit through the College Board's College Level Examination Program (CLEP) administered at Kent State by the Office of Academic Engagement and Degree Completion. CLEP allows a student to earn college credit for prior knowledge and move on to more advanced coursework sooner. Credit hours, but no letter grade, is granted for scores that meet the minimum for each exam as determined on the CLEP guide for the Kent State University Catalog in effect at the time of the exam.

For additional CLEP information, including available tests, Kent State course equivalents and test dates, visit the Office of University Advising and Testing's website. Refer to the Alternative Credit-Testing Eligibility policy at the end of this section for more regulations on earning credit through testing.

College Tech Prep (CTP)

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State University will award college credit to students who successfully complete an approved College Tech Prep (CTP) program. Credit received through the CTP program is applied toward an appropriate degree at Kent State as identified in the signed articulation agreement. A student-articulated credit application for CTP credit is available from the CTP teacher or high school guidance counselor or on the Kent State Tech Prep website.

To earn Kent State University credit, students must:

- Complete the state-approved CTP program with a minimum B grade
- Graduate from high school
- Enroll at Kent State and request credits within three years after high school graduation
- Meet any additional criteria identified on the articulated credit application

Combined Bachelor's/Master's Degree Program

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2023
Last Reviewed: Fall 2022
Last Revised: Spring 2023
Next Review: Fall 2026

Policy Statement

A combined bachelor's/master's degree program allows exceptional, well-prepared Kent State University undergraduate students early admission into a graduate program. Students in a combined degree program take graduate-level coursework as undergraduate students, thus enabling courses to be applied toward both degree programs.

Students in a combined degree program must meet the minimum requirements for each degree earned. Undergraduate requirements must be fully satisfied before a bachelor's degree will be awarded. Until that time, students continue to have undergraduate student status and are charged undergraduate tuition and fees. Following the awarding of the undergraduate degree, their status is changed to that of graduate student.

Eligibility for Admission

To be eligible for admission to a combined degree program, undergraduate students must meet the following stipulations:

- Earn a minimum 60 credit hours (junior standing)
- Achieve a minimum 3.000 overall Kent State GPA (some combined degree programs may require a higher GPA)
- Complete a standard online graduate application, including paying the application fee
- Meet all admissions requirements for the master's degree program (consult the University Catalog for specific requirements)
- Be admitted to the master's degree program
- Submit the Combined Bachelor's/Master's Degree Form prior to the first semester of enrollment in the combined program

Application of Graduate Credit

Undergraduate students in a combined degree program may complete a maximum 9 credit hours of graduate-level coursework and apply the courses and credit hours toward their undergraduate degree. Once students complete the undergraduate degree and enter graduate student status, their graduate-level coursework may be applied toward the graduate degree (i.e., courses are double counted). Students who undertake a combined bachelor's/master's degree program must complete a minimum 141 unique credit hours, with a minimum 30 of those credit hours applied toward the master's degree.

To be eligible for double counting, the coursework must meet all the following criteria:

1. Be of graduate level – under no circumstances will undergraduate-level coursework be applied toward the master's degree
2. Apply to degree requirements for the bachelor's and master's degrees
3. Are not awarded as credit by examination
4. Meet minimum standards as described in the Academic Standing - Graduate policy in the University Catalog

Combined degree programs are initiated by students in consultation with their academic advisor. The combined degree program should be developed according to the individual career interests and goals of the student and should be an integrated learning experience rather than merely the completion of a certain number of undergraduate and graduate credits. The proposed combined degree program requires the approval of both the undergraduate and the graduate programs involved, as well as the respective college dean(s).

Reason for Policy

Policy enforces uniform standards for undergraduate students seeking early admission to a graduate degree at Kent State University and aligns with the policy from the Ohio Department of Higher Education.

Procedures

There are no procedures with this policy.

Forms/Instructions

Revision History

Amended August 2023: Revised policy decreases the maximum of graduate courses that may be double-counted toward both degrees, from 9-12 credit hours (depending on the credit hours of the master's degree) to 9 credit hours for all combined programs.

Amended August 2020: Revised policy permits a minimum total of 141 unique credit hours earned (111 for bachelor's and 21 for master's and 9 double counted) with approval of the university and Ohio Department of Higher Education. The revised policy also replaces specific GPA per credit hours with a minimum 3.000 overall GPA for eligibility for a combined degree program; removes requirement that a letter grade must be earned in courses that will be doubled counted toward both degrees; and removes categories of formal and informal combined programs.

Amended August 2014: Revised policy requires a minimum total of 150 unique credit hours earned (120 for bachelor's and 30 for master's) before double counting of credit hours is allowed. The revised policy also distinguishes between formal (university approved) and informal programs and clarifies that students in the combined program are classified as undergraduate until the bachelor's degree is earned; after that award, they are reclassified as graduate.

Amended August 1988: Revised policy allow maximum 12 credit hours of graduate courses that may be double-counted toward both degrees. Those credit hours can only be counted as electives, and not toward any requirements, in the bachelor's degree.

Effective September 1976: Establishes a policy to allow baccalaureate-seeking students early admission to a master's degree and be dually enrolled in both degrees upon recommendation of the academic department, the undergraduate college dean and upon approval of the dean of the Graduate College.

Core and Critical Reading Strategies Placement

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State University regional campuses offer two courses to help students develop reading strategies to successfully complete college-level coursework — READ 00003 and READ 00006. A student placed into READ 00003 must take READ 00006 the following term. Both courses require a minimum C grade. Students who have taken the Accuplacer Classic or Next Generation at another institution within two years of their initial start date may opt to transfer that score to Kent State University.

Assessment	Score	Placement
ACT Reading	0-13	READ 00003
ACT Reading	14-19	READ 00006
ACT Reading	20+	No Course
SAT Evidence-Based Reading and Writing	200-380	READ 00003
SAT Evidence-Based Reading and Writing	390-470	READ 00006
SAT Evidence-Based Reading and Writing	480+	No Course
Accuplacer Classic Reading	0-50	READ 00003
Accuplacer Classic Reading	51-79	READ 00006
Accuplacer Classic Reading	80-120	No Course
Accuplacer Next Generation Reading	200-221	READ 00003
Accuplacer Next Generation Reading	222-249	READ 00006
Accuplacer Next Generation Reading	250-300	No Course
GED Reasoning Through Language Arts College Ready	165+ *	No Course
Final high school GPA	0.00-1.59	READ 00003
Final high school GPA	1.6-2.79	READ 00006
Final high school GPA	2.8+	No course

* Kent State University awards college credit for GED 175+ scores.

Course Numbering System

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State University's numbering system for courses is as follows:

Range	Level
00000-09999	Developmental level
10000-19999	Freshman level
20000-29999	Sophomore level
30000-39999	Junior level
40000-49999	Senior level
50000-59999	Master's level
60000-69999	Master's level
70000-79999	Doctoral level
80000-89999	Doctoral level

Developmental courses (00000-09999) are considered pre-college level. Refer to the Developmental Coursework policy in the University Catalog for more information.

Undergraduate courses (10000-49999) are generally open to students of a class rank equivalent to the levels indicated. Students participating in the Honors program, College Credit Plus and Advanced Placement (AP), as well as those who otherwise present evidence of qualifications beyond their class rank, may enroll in the appropriate undergraduate courses with the approval of their advisors and the instructors or departments offering the courses.

Most courses are offered in a regular sequence to meet students' programmatic needs; however, the availability of any specific course in a given semester is subject to sufficient student demand and available resources. Some courses require that a special fee be paid in addition to instructional and general fees. A listing of courses with these special fees can be found on the Financial, Billing and Enrollment Center website.

Courses numbered 50000 and above are for graduate students only and are referred to as graduate courses. Many of the 50000-level courses are also offered at the 40000 level for undergraduates. Students who have already completed 40000-level courses may not repeat the courses at the 50000-level for credit toward a graduate degree. No more than one-half of a graduate student's coursework may be taken in 50000-level courses.

Course Overload

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Undergraduate Students

Eligible undergraduate students wanting to register for more than the maximum listed under registration limits may do so through an automated overload process.

Criteria for Eligibility

- Students who have a minimum 12 Kent State earned credit hours and the following GPA are eligible for an automatic overload:

GPA	Overload Credits
2.500-2.749	students may register for 19 credit hours in fall and spring
2.750-2.999	students may register for 19-20 credit hours in fall and spring
3.000-4.000	students may register for 19-21 credit hours in fall and spring

- First-semester transfer students and freshmen without a Kent State GPA are excluded from qualifying for an automatic overload. They must seek approval from their advising office.
- Students not meeting the above criteria or requesting more than 21 credit hours in the fall or spring semester (more than 12 credit hours in all summer terms) will be blocked from registering for an overload unless approval is granted from their advising office.
- Students on academic probation may not register for more than 15 credit hours and may receive a prescription from the dean of their college or campus that they further reduce the credit hours carried until removed from probation.

Exceptions to this rule must be approved by the appropriate college dean.

Graduate Students

Graduate students wanting to register for more than the maximum listed under registration limits should request permission from their advisor, who will consider such factors as academic standing, progress to degree and the rigor of their proposed course schedule in deciding whether to approve the overload. Graduate students with an approved overload will have their course limit adjusted to register for the approved overload class(es).

Course Privilege for Doctoral Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

A doctoral student will be allowed, with the consent of the advisor and of the instructor concerned, to enroll in any course offered at Kent State University.

Course Repeat

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2019
Last Reviewed: Spring 2019
Last Revised: Fall 2015
Next Review: Spring 2031

Policy Statement

Students must register and pay tuition and any applicable fees when repeating a class. All course attempts and grades appear on the student transcript, including grades not calculated in the GPA. A student's Kent State GPA will not be affected by repeating courses at another institution. The university is not obligated to offer courses so that students can repeat them. If students plan to repeat a course, they are to work with their advisor to identify resources for academic support. Repeating courses could affect students' financial aid, scholarships or other assistance. Students should consult the appropriate office prior to registration. Students may repeat courses taken at Kent State University subject to the following provisions:

Undergraduate Courses

Students may repeat undergraduate courses (00000-40000 levels) no more than two times (a maximum of three attempts per course). The university will use only the highest grade and the credit hours associated with that highest grade in all attempts of the same course in the calculation of the overall undergraduate GPA, program GPA, credit hour totals and requirements for students' program.

Additional conditions for the repeating of undergraduate courses:

- After the third attempt (second repeat), the student is restricted from registering for the course again.
- Withdrawal from a course is counted as an attempt.

- Courses designated as "repeatable for credit" (see section below) are exempt from the three-attempt limit.
- Recalculation of the student's GPA occurs automatically at the end of the semester in which the student completes the repeated course.
- All grades for all attempts at a course are used in the GPA calculation for determining Latin honors (e.g., summa cum laude) and class standing (e.g., dean's list). These GPA calculations are independent of the overall GPA as it appears on the student transcript.
- All grades for all attempts may be counted for admission to or progression in specific programs, for admission to graduate programs or for admission to other institutions.

This policy is in effect for all undergraduate courses repeated in or after the fall 2019 semester.

Graduate Courses

Students may repeat graduate courses (50000-80000 levels), and the university will use all grades (passed and failed) in the calculation of the overall graduate GPA. Earned credit for a course applies only once toward meeting program requirements and credit hour totals.

Repeatable-for-Credit Courses

Some undergraduate and graduate courses are identified as "repeatable for credit" in the course description. Typically, a repeatable-for-credit course offers a different instructional experience and learning outcomes each time students take the course (e.g., internship, special topics, applied music). For those courses, students earn credit for each successful attempt, and the university uses all grades (passed and failed) for all attempts in the calculation of the GPA.

Students repeating a repeatable-for-credit course should consult the University Catalog and their advisor because some academic programs have a limit on the total number of credit hours that may be applied for these types of courses.

Reason for Policy

Students may need to repeat a course to fulfill a requirement to earn a degree or certificate. This policy outlines limitations when repeating a course and the effect of a repeated course on the student's GPA.

Procedures

There are no procedures associated with this policy.

Forms/Instructions

There are no forms associated with this policy.

Frequently Asked Questions

1. **The undergraduate policy indicates that I can only repeat the same course two times (maximum three attempts per course). What counts as an attempt?**
   A course attempt is any Kent State course for which a grade (A-F, S/U) or mark is given and displayed on your transcript and GPS degree audit. Marks include withdrawal (W), credit/no credit (Y/Z), audit (AU), never attended–F (NF) and stopped attending–F (SF). Courses that you dropped before the 14th day of the semester (or earlier for short-term courses) — i.e., you did not receive a W mark — are not counted as an attempt.
2. **Where can I find what is counted or not counted in my GPA for repeated courses?**
   All attempts of the same (or equivalent) Kent State course will have either the letter "I" (include) or "E" (exclude) next to the grade on your transcript and your GPS degree audit (both found in FlashLine).
   a. "I" counts in your GPA.
   b. "E" does not count in your GPA; and earned credit hours are 0.
3. **Do I have to fill out any paperwork to repeat a course?**
   No. If the course is eligible to be repeated, simply register for the course again. At the end of the term in which you are repeating the course, the course repeat will automatically occur once all grades are submitted in FlashFAST.

Additional FAQ: Course Repeat

Definitions

GPA (Grade Point Average): An indication of a student's academic achievement at Kent State University, determined by the number of credit hours attempted at Kent State University and the grades received. The Kent State GPA is calculated to three places past the decimal point and not rounded.

- Honors at Graduation

Revision History

Amended August 2019: Revised policy allows all repeated undergraduate courses to be eligible for GPA recalculation for graduation.

Amended August 2015: Revised policy limits the number, to three, of overall attempts to an undergraduate course before a student can no longer register for that course. The student must then meet with meet with an advisor to decide next steps.

Amended August 2010: Revised policy clarifies that any student who has already received a bachelor's degree from any college or university is ineligible to use a course repeat to remove a grade from the GPA.

Amended August 2008: Revised policy allows lower-division courses taken for an earned associate degree to be repeated for a GPA recalculation; but prohibits course repeats for GPA recalculation after conferral of the bachelor's degree.

Amended January 2008: Revised policy counts only the highest grade earned in a repeated lower-division course in the GPA, subject to specific provisions.

Amended August 1987: Revised policy allows the grade in the second attempt of a passed undergraduate course (with approval) to count toward graduation.

Amended August 1980: Revised policy allows the grade in the second attempt of a passed undergraduate course (with approval) to count in the GPA, although the grade does not count toward graduation.

Amended September 1971: Revised policy limits the credit hours and grade in the second attempt of a passed undergraduate course (with approval) from counting toward graduation and in the GPA. Students may repeat courses that are identified as repeatable for credit.

Amended September 1970: Revised policy requires dean approval for students to repeat an undergraduate course in which the student already received a passing grade, and the credit hours and grade in the second attempt do not count toward graduation. All grades count in the GPA.

Effective September 1952: Establishes a formal course repeat policy that specifies that students are not eligible automatically to repeat an undergraduate course. However, under certain conditions and with dean and department head approval, only the grade in the second attempt may be used for the student's scholastic standing.

Supersedes:
Rule for Recalculation of First-Year Grade Point Average (2008)
Freshman Rule for Recalculation of Grade Point Average (2004)

Course Withdrawal

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Course withdrawal indicates that a student intends to stop attending any or all classes for the current term. Course withdrawal is permitted through the end (11:59 p.m.) of the 70th calendar day the fall or spring semester (prorated deadline for summer or flexibly scheduled courses). The spring semester course withdrawal deadline may be adjusted for spring break. After that time, students are considered to be committed to all remaining courses and must complete them.

Students will use FlashLine to withdraw from one or more courses by the deadline. If students are unable to complete the term because of extreme circumstances that first occur after the deadline, they should consult their college or campus dean's office. Any course withdrawal(s) processed on or after the 15th calendar day of the fall or spring semester (or prorated deadline for summer or flexibly scheduled courses) will appear on the students' academic record with the Withdrawal (W) administrative mark. For more information on the W mark, refer to Grading Policies and Procedures in the University Catalog. Any applicable tuition credit is determined by the date the transaction is processed on FlashLine (see university policy regarding tuition credit).

International students on J1 and F1 visas are required to contact the Office of Global Education if a course withdrawal causes them to be less than full time.

Graduate students who withdraw from all courses with an intention to return at a later date may be eligible for a leave of absence (refer to Leave of Absence for Graduate Students policy in the University Catalog).

Students in the College of Podiatric Medicine who fail to complete registration requirements by the deadline will not be enrolled in classes for the following academic year and may be withdrawn from the college. These students may also be subject to a professionalism deficiency evaluation. Podiatric Medicine Students who request withdrawal after seven weeks of course instruction will receive on their academic record the administrative mark WP or WF if passing or failing, respectively, for each withdrawn course. Refer to the college policies in the College of Podiatric Medicine section of the University Catalog for more information on the procedures for withdrawal.

Course withdrawal does not negate a student's financial obligation, and students will be held responsible for all balances due to the university.

Credit By Examination (CBE)

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Students with demonstrable ability and knowledge in a particular subject area may earn credit in selected courses though Credit-By-Examination (CBE), coordinated by the Office of the University Registrar. Students who wish to pursue CBE must complete the CBE application to gain appropriate college and departmental permission. The appropriate academic department administers the exam, which may include the completion of additional assignments. The minimum passing standard for CBE is the equivalent of a C grade. However, no letter grade, only credit hours, are posted to the academic transcript for CBE.

For the CBE application, per-credit-hour fee and a list of available courses, visit the Office of the University Registrar's CBE website. Refer to the Alternative Credit-Testing Eligibility policy at the end of this section for more regulations on earning credit through testing.

Credit-Hour Requirement for Graduation

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Undergraduate Students

All students in bachelor's degree programs must satisfactorily earn (with passing grades) a minimum of 120 credit hours of coursework to graduate. Associate degrees are awarded for the successful completion of a minimum of 60 credit hours of coursework. Some bachelor's and associate degree programs require more hours than the 120 and 60, respectively.

As part of this requirement, students must complete a minimum 36 credit hours of the Kent Core for the bachelor's, Associate of Arts and Associate of Science degrees. Students must complete a minimum 15 credit hours of the Kent Core for applied and technical associate degrees.

Students who have had coursework or credits waived may be allowed to graduate from their program when they earn fewer than the minimum credit hours stated for that program in the University Catalog provided that they fulfill all requirements for the program and meet the university minimum credits hours for graduation.

Graduate Students

All master's degree students must satisfactorily complete a minimum 30 credit hours applicable toward a master's degree in order to graduate. Some master's degree programs require more credit hours.

While the well-prepared doctoral candidate may expect to meet formal course requirements (exclusive of dissertation) for the doctoral program by completing a minimum of two years of full-time work beyond the baccalaureate, departments may require more extensive preparation where needed. In order to qualify for a doctoral degree, students must present a minimum of 90 credit hours beyond the bachelor's degree, or 60 credit hours beyond the master's degree. These hours may include registration for coursework, individual investigation or research courses and dissertation. Only work of high quality is approved for doctoral credit.

Credit/No Credit Grade

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2016
Next Review: Fall 2035

Policy Statement

Students who wish to pursue an unfamiliar field or otherwise expand their educational knowledge beyond the requirements of any declared academic program may request to take certain undergraduate courses with a Credit/No Credit grade.

Students may **not** request the Credit/No Credit grading option for the following types of courses:

- Courses used to meet requirements in a student's major, minor, concentration or certificate program, or to meet college requirements for the student's degree.
- Courses designated as Kent Core (general education requirement).
- Courses numbered 00000-09999 (developmental).
- Courses numbered 50000-89999 (graduate).
- Courses graded Satisfactory/Unsatisfactory (S/U).

Credit/no credit grading is subject to the following conditions:

1. Students whose overall GPA is below 2.000 after their most recent graded term are not eligible to request the Credit/No Credit grading option.
2. Instructors will not be informed of students' selection of the Credit/No Credit grading option. Regular passing letter grades (e.g., B, C, D) that are reported by the instructor will be converted to a Credit (Y) grade. Letter grades of F (Fail), NF (Never Attended–Fail) and SF (Stopped Attending–Fail) reported by the instructor will be converted to a No Credit (Z) grade.
3. Under no circumstances will Credit (Y) or No Credit (Z) grades be converted to regular grades.
4. Students who earn Credit (Y) grades and later declare a major, minor, concentration or certificate program may apply the courses with the Credit (Y) grade to program requirements, if applicable, but all subsequent required coursework must be completed with regular grading.
5. A maximum 12 credit hours of Credit (Y) grades may be applied toward a declared undergraduate program.
6. Credit (Y) and No Credit (Z) grades are not used in computing grade point averages and do not satisfy specific required grades (other than the minimum D grade) in course prerequisites and program requirements.

Reason For Policy

The purpose of this option is to foster experimentation by providing students with the opportunity to explore a broad range of coursework outside of their major or comfort zone without affecting their grade point average. This encourages intellectual curiosity and broadens their educational experience.

Procedures

- To request the Credit/No Credit grading option, students must submit a **Credit/No Credit Grade Request form** to the Office of the University Registrar.
- Students may not change grading options, including Credit/No Credit, after the final day of schedule adjustments for that term.
- Information about schedule adjustment deadlines, which includes deadlines for changes to grading options, is located in the Registration policy in the University Catalog.

Frequently Asked Questions

1. **Will my professor know that I am taking their class for credit/no-credit?**
   No. Instructors will not know your grading status has changed and will continue to submit grades as they normally would. Once submitted, the grades are converted to Credit (Y) or No Credit (Z) in the system.
2. **How do I know if I can take a course for credit/no-credit?**
   It is always good to consult with your advisor before requesting the Credit/No Credit grade. You may not take any courses with a Kent Core designation, are developmental (00000-09999) or graduate level (50000-89999), graded S/U or will be used satisfy a requirement in your major, minor, concentration or certificate. You can refer to your GPS audit to see if the course meets one of those requirements.
3. **How do I request to take a course for credit/no-credit?**
   The Credit/No Credit Request Form is searchable on the Forms and Requests website. Make sure to check the deadlines to request (last day to add the course).

Additional FAQ: Credit/No Credit Grade

Definitions

Developmental courses: A course that is below college level and cannot be applied toward a certificate or degree program. At Kent State, course numbers that begin with a "0" are designated as developmental.

Flashline: The web-based portal (entryway) for Kent State students, faculty, staff and alumni. For help with FlashLine, contact the university Helpdesk at 330-672-HELP or visit the FlashLine information website.

Office of the University Registrar: The university office that plans and oversees academic scheduling, academic records, credit transfer, graduation, transcript processing, and system support and compliance reporting./p>

Schedule adjustment: A change to a class schedule for a student who has already enrolled in at least one course for the term. See the registration deadlines and important dates on the Financial, Billing and Enrollment Center website.

Revision History

Amended August 2025: Revised policy updates name, from "Pass/Fail" to "Credit/No Credit" and removed clause that limits students to one course per semester while keeping the existing overall limit of 12 credit hours.

Amended August 2016: Revised policy removed from exclusions courses in student's major department and courses used to meet requirements in a student's supporting area. Revisions also clarified that graduate courses and courses graded Satisfactory/Unsatisfactory are not options for Pass/Fail grading.

Amended August 1983: Revised policy removed Pass/Fail grade option for general education courses.

Amended August 1979: Revised to reflect the university's conversion from quarters to semesters. Overall limit of Pass/Fail courses allowed revised from 24 quarter credit hours to 12 semester credit hours.

Amended September 1973: Policy approved to continue with one revision: reduction in overall limit of Pass/Fail courses, from 48 to 24 quarter credit hours.

Effective September 1968: Established a policy to permit pass/fail grading for a trial period of four years with the following limitations: students must be full-time undergraduate; maximum one course per quarter for a total of 48 quarter credit hours; instructors do not know if the Pass/Fail grade is selected; Pass/Fail grading is not permitted in first-year English course and major coursework; and a Pass/Fail grade cannot be converted to a regular grade.

DANTES Subject Standardized Tests (DSST)

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Formerly known as the Defense Activity for Non-Traditional Educational Support (DANTES) exams, the DANTES Subject Standardized Tests (DSST) is a nationally recognized program that gives students the opportunity to receive college credit for learning acquired outside the traditional college classroom. Kent State accepts the American Council on Education (ACE) recommendations for the minimum score required and the amount of credit awarded. Official score reports or a joint services transcript (JST) must be submitted to Kent State before the credit can be applied to a student's academic record.

For information on credit options for military students, visit the Credit Transfer Office website.

Developmental Coursework

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

"Developmental" means a course that is below college level and cannot be applied toward a certificate or degree program. At Kent State, course numbers that begin with a "0" (e.g., MATH 00022) are designated as developmental and may be prescribed or recommended through placement testing. Although these courses will count toward the course load for financial aid and other purposes, credit hours earned in these courses will be subtracted from the students' total before graduation. None of these courses may be taken pass/fail.

Students placed into any developmental course must continuously enroll in the course(s) each semester until they successfully complete the course or sequence of courses. Students who delay the start of their developmental mathematics coursework more than one semester must be reassessed for placement (a fee may be charged). Students who are placed into a developmental mathematics course and whose program has a specific mathematics requirement must continuously enroll in the course(s) each semester, beginning with their first semester at Kent State, until they successfully complete their first non-developmental mathematics requirement.

Dismissal and Appeal - Graduate

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2025
Last Reviewed: Fall 2024
Last Revised: Fall 2019
Next Review: Fall 2034

Policy Statement

Review of a graduate student's performance, progress and adherence to professional standards in a graduate program may result in a recommendation for academic dismissal.[1] Expectations for academic performance, progress and professional standards are defined in the Academic Standing policy, as well on the specific graduate program pages.

The decision for academic dismissal rests with the unit administrator of the program. Students who have been dismissed will be provided the decision in writing along with information on their right to appeal the decision (see appeal of dismissal section below).

Students who are dismissed from their degree program — or from all programs for students admitted to a dual degree or multiple programs — are dismissed from Kent State University. The college notifies the Office of the University Registrar to remove the student immediately from the program(s) and from any future-registered courses. The university registrar will note on the student's record, including the student's official transcript, that the student was academically dismissed as of the term of the dismissal decision.

Students admitted to a dual-degree or multiple programs who are dismissed from only one of the programs are not dismissed from the university and may continue in the other program. Undergraduate students admitted to a combined bachelor's/master's degree program who have been dismissed from the undergraduate program are dismissed from the graduate program.

Dismissed students who wish to enroll in a different graduate program or in coursework at Kent State must complete an application for admission and follow the graduate admission procedures found in the University Catalog.

In the College of Podiatric Medicine, determinations for dismissal are made in accordance with the grading policy. The director of academic operations, assessment, and institutional research is responsible for providing the student with written communication regarding the dismissal decision and notifying the university registrar to remove the student from the program and all registered courses. For more

information on that college's policy for dismissal, refer to the College of Podiatric Medicine section of the University Catalog.

[1] A student on an official leave of absence cannot be dismissed.

Reason for Policy

This policy specifies the process by which graduate students may be dismissed from their academic program and the appropriate steps for appealing a dismissal decision.

Procedures for Appeal of Dismissal

Students who are dismissed have the right to appeal the decision. Students who are dismissed from more than one program must appeal each dismissal separately.

Appeal Process

Students may appeal to the college dean, or designee, for the dismissal decision made at the department, school or program level in that college. If conditions or causes exist requiring a modification of the time limits listed below, it is the responsibility of the college dean, or designee, to assess such circumstances and determine the nature or extent of any such modification. If the college dean, or designee, decides to modify the time limits, the college dean, or designee, immediately will inform all parties involved.

1. If the student decides to appeal the dismissal decision, the student must submit the appeal in writing to the appropriate college dean, or designee, within 10 weekdays of when the dismissal email is sent. In the written appeal statement, the student must state clearly the reasons why the decision is being appealed, the nature of the appeal, the facts and circumstances leading to the appeal, reasons in support of the appeal and the remedy or remedies requested. Supporting documents may be appended. The appeal statement submitted by the student becomes the basis for all further consideration of the matter.
2. Upon receipt of the student's appeal statement, the dean, or designee, convenes the college's dismissal and appeals committee to review and make a recommendation on the appeal.
3. The college dean, or designee, must send a copy of the appeal statement to the unit administrator who issued the dismissal decision. The unit administrator may respond to the student's appeal and include any information or documentation related to the response. The unit administrator will provide that written response to the college's dismissal and appeals committee, with a copy sent to the student.
4. The college's dismissal and appeals committee shall examine and evaluate fully the dismissal decision, including any supporting documentation submitted by the student or by the unit administrator who issued the dismissal. At its discretion, the committee may interview the student and/or the unit administrator and/or consult with any others who the committee believes may assist in the review of the appeal.
5. The college's dismissal and appeals committee is expected to conduct its review as expeditiously as possible. If a full committee is unable to convene in a timely manner, the college dean, or designee, will determine — with input from the student and the unit administrator who issued the dismissal decision — if the appeal review process will proceed with limited committee members or will be scheduled to convene at a later, predetermined time.
6. Once the review of the appeal is completed, the committee's chair must forward a written recommendation to the college dean, or designee. The recommendation becomes part of the student's record.
7. The college dean, or designee, shall make the final decision and provide that decision in writing to the student, with a copy sent to the university registrar, the college's dismissal and appeals committee and the unit administrator who issued the dismissal.
8. If the appeal is approved, the university registrar will re-enroll the student into the program, and the student may re-register for courses. The notation of the student's dismissal is updated or removed from the student's record (depending on the decision).

College of Podiatric Medicine: For dismissal appeal procedures in the College of Podiatric Medicine, refer to that college's section in the University Catalog. Dismissed students who are reinstated are placed on academic probation with a notation on their transcript, until outstanding failures have been satisfactorily resolved. Students who are officially dismissed from the college for any other reason are not eligible for readmission consideration at any time. Any student who has been officially dismissed two times from the college is ineligible for readmission consideration at any time.

Frequently Asked Questions

1. **I was dismissed from a graduate program. Can I enroll in a different graduate program or in coursework at Kent State?**
   Dismissed students must complete an application for admission and follow the graduate admission procedures found in the University Catalog to enroll in a different graduate program.
2. **What if I'm dismissed from just one of my graduate programs, but I'm in more than one?**
   If you're dismissed from one graduate program but still in good standing in another, you can continue in the program where you're still active. You'll just need to submit a program change form to update your enrollment status. For example, if you're dismissed from the M.S.N. degree but are allowed to continue in the M.B.A. degree, you can keep going in the M.B.A. — only the M.S.N. degree is affected.
3. **Will the Registrar's Office drop all my classes if I get dismissed? What if I'm in more than one program?**
   Yes, the Registrar's Office will drop all your courses after a dismissal unless told otherwise. If you're enrolled in more than one program, the Registrar's Office will confirm to which program the dismissal applies and will adjust your class registration accordingly.

Definitions

There are no definitions associated with this policy.

Related Information

- Academic Standing for Graduate Students

Revision History

Amended August 2025: Revised policy adjusted working titles to allow more flexibility given the difference in structure across college leadership. Titles have been more generally referenced as unit administrator versus every working title.

Amended August 2019: Revised policy included the following items: addressed dismissal of students declared in dual-degree or multiple programs; included violation of professional standards as part of the academic dismissal review and determination; and clarified roles and responsibilities of who determines the dismissal and who makes the final decision upon appeal.

Amended August 2009: Revised policy changes the criteria for dismissal, from a C or lower grade in more than 7 credit hours to a B- or lower grade in more than 8 credit hours.

Dismissal, Appeal and Reinstatement - Undergraduate

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Academic Dismissal

Undergraduate students whose academic performance indicates a limited chance of obtaining the minimum grades required for good academic standing will be subject to dismissal from the university.

The provost may dismiss a student if any of the following conditions apply to that student:

1. Any student who earns between a 0.000 and 0.500 grade point average (GPA) in the student's first semester at Kent State.
2. Any continuing student who is:
   a. Placed on academic probation (0.000 to 1.999 overall GPA) for the last term of attendance at the undergraduate level, and
   b. Earns between 0.000 and 1.999 semester GPA in the term under review, and
   c. Earns one of the following:
      i. Between 0.000 and 1.099 overall GPA for students with 0.000 to 29.999 GPA credit hours* or
      ii. Between 0.000 and 1.499 overall GPA for students with 30.000 to 59.999 GPA credit hours* or
      iii. Between 0.000 and 1.749 overall GPA for students with 60.000 to 89.999 GPA credit hours* or
      iv. Between 0.000 and 1.999 overall GPA for students with 90.000 or more GPA credit hours*.
3. Any full-time student in the student's first semester at Kent State or on academic probation who receives 9 or more credit hours of any combination of the following grades or marks in the semester under review: F (Fail), NF (Never Attended–Fail), SF (Stopped Attending–Fail), U (Unsatisfactory). This policy applies without regard to whether the designated grades were included or excluded from the student's overall GPA.
4. Any less-than-full-time student in the student's first semester at Kent State or on academic probation who receives 6 or more credit hours of any combination of the following grades or marks in the semester under review: F (Fail), NF (Never Attended–Fail), SF (Stopped Attending–Fail), U (Unsatisfactory). This policy applies without regard to whether the designated grades were included or excluded from the student's overall GPA.

A student who is dismissed should expect to be away from the university for a minimum of 12 consecutive months. A dismissed student may not register for any coursework at any campus of Kent State University. The notation of academic dismissal will be printed on the student's official transcript. For further information concerning the conditions of academic probation and dismissal, students should contact their college or campus advising office. See guidelines for dismissal appeals below.

* "GPA credit hours" are credit hours earned with a Kent State grade that counts toward the student's GPA (e.g., 3 credit hours earned with a B grade at Kent State).

Dismissal Appeal

A student who is dismissed has the right to appeal the decision. Appeals must be based on recent circumstances that were beyond the control of the student. Appeals must be made in writing to the college or campus at which the student was enrolled at the time of the dismissal.

The appeal letter must be composed, typed and signed by the student. The appeal letter may be delivered personally or sent by mail, fax or e-mail from the student's kent.edu account, and must include all pertinent documentation for the appeal to be considered. Appeal letters for dismissals must be received by the college or campus no later than 10 calendar days after final grades are posted on the student's FlashLine account. Dates when final grades are posted can be found at the calendar page of the Office of the University Registrar website.

Appeal letters must include the following:

1. An explanation of the extenuating circumstances, such as personal illness/injury, critical family illness or other situations of sufficient severity that they may have adversely affected academic performance. These circumstances must be documented by providing physician statements or other appropriate official documents.
2. Proof of consistent satisfactory academic performance prior to the occurrence of the circumstances believed to be the cause of the dismissal. These efforts must be documented by course instructors, and their statements must be submitted on university letterhead or sent from each instructor's Kent State e-mail address. If errors have occurred for one or more reported grades, the course instructor must verify that a grade change has been submitted.
3. An explanation of why action such as course withdrawal, complete term withdrawal, request for an incomplete grade, etc., was not taken before the end of the semester.
4. A detailed plan of action for achieving academic success for any future enrollment at Kent State University.
5. The student's full name, Kent State ID number, current and permanent mailing addresses, current and permanent telephone numbers and Kent State e-mail address.

Appeals that do not meet these guidelines will not be reviewed.

Reinstatement

Reinstatement after dismissal from Kent State University is neither automatic nor guaranteed. A student may be reinstated only if the student provides convincing evidence of probable academic success if permitted to return to the university. A dismissed student who has

previously accumulated a substantial number of credit hours and/or an excessively low GPA should expect that reinstatement is not likely to be approved.

Application for reinstatement after the required period of time away from the university should be to the dean of the college or campus that houses the major program the student wishes to enter. Students wanting to be reinstated into a program with selective admission requirements, specified certification standards or additional graduation requirements may be approved to be reinstated into the university but not into that particular program. The application should include convincing evidence of the student's motivation to continue and of the student's specific efforts during the period of dismissal to eliminate previous weaknesses. After evaluating the application for reinstatement and all supporting materials, the dean will inform the student of the reinstatement decision.

A student who is reinstated is automatically placed on academic probation until good academic standing (minimum 2.000 overall GPA) is attained. Academic requirements will be determined by the Catalog-in-force at the time the student re-enrolls at the university. For further information concerning reinstatement, students should consult their college or campus advising office.

Dissertation for the Doctoral Degree

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2020
Next Review: Fall 2030

Policy Statement

A dissertation is required of candidates for the Ph.D. and Ed.D. degrees and must demonstrate the candidate's ability to plan, conduct and present scholarly research and activity within their field or research area under the direction of members of the graduate faculty.

Dissertation Registration and Applicability Toward Degree

Each doctoral student, upon admission to candidacy, must register continuously for Dissertation I (8x199) each semester (fall, spring) for 30 credit hours. A student who has completed the required 30 credit hours of Dissertation I but has not finished the dissertation is expected, thereafter, to register continuously for Dissertation II (8x299) each semester (fall, spring) until all degree requirements are met. Students who are planning to defend their dissertation in summer or early fall, or who are requiring access to university resources during the summer months — including, but not limited to, feedback or mentoring from their dissertation advisors, use of university buildings and other research resources — must register for dissertation in the summer term.#For students in good standing, those credit hours will be approved by the academic unit administrator. The student receives an In-Progress (IP) administrative mark until the dissertation is completed, when the IP mark is changed to either the Satisfactory (S) or Unsatisfactory (U) grade.

No more than 30 credit hours of Dissertation I may be counted toward completion of degree requirements. Credit hours earned in Dissertation II do not, under any circumstances, count toward the degree.

Dissertation Prospectus

The dissertation topic must be approved by the academic unit and filed with the college dean no later than one semester preceding that in which the candidate expects to receive the degree. Each graduate unit has adopted a procedure for the preparation of a dissertation prospectus. The prospectus must be in writing, but an oral presentation may also be required.

This document normally will include the following:

- An outline of the parameters of the projected dissertation topic with a statement of the problem to be undertaken;
- The procedure or methodology to be used in the research;
- A preliminary review of the literature substantiating the need for the study; and
- The principle sources of information for the dissertation.

Dissertation Committee

When the student has developed a dissertation topic acceptable to the advisor, a dissertation committee is convened, responsible for overseeing the progress of the candidate's dissertation. The program coordinator appoints the members of the committee in consultation with the student and the student's advisor. This group will consist, at minimum, of three members:

1. The advisor who serves as dissertation director and who chairs the committee. The director must have full graduate faculty status in their college and be approved to direct dissertations and must be in the student's program area.
2. One committee member from the candidate's unit (school, department or college). This member must have full or associate graduate faculty status.
3. One committee member from outside the program. This member must have graduate faculty status and may be from outside the university.
4. Optional additional members (can be from outside the university). This member(s) must have graduate faculty status.

Special permission must be obtained from the college dean for anyone on the dissertation committee who does not meet the qualifications stated above.

The student can change committee membership at any time in consultation with the program coordinator or academic unit administrator. In the event of a change, the program coordinator or academic unit administrator will notify the committee members of the changes and request that the student initiate committee changes using the appropriate doctoral form.

Examining Committee

When the advisor believes the candidate's dissertation is ready for preliminary approval, the advisor will convene an examining committee. The examining committee will consist of members of the dissertation committee and an appointed graduate faculty representative. The procedures for appointing the graduate faculty representative are detailed in the procedures section below.

Once the graduate faculty representative is appointed, the advisor will submit the dissertation to the committee members for a 10-day reading period. Following the reading period, the advisor will convene the examination committee to evaluate the dissertation. The advisor will note and communicate to the candidate any revisions recommended by the committee. When, in the advisor and the candidate's opinion, the appropriate revisions have been made, the advisor will inform the

graduate/program coordinator, the academic unit's lead administrator and the college dean.

Final Examination (Oral Defense)

Upon completion of the revisions, if any, the student will be required to defend the findings before a committee of graduate faculty members, including the dissertation committee and others chosen by the academic unit and college dean.

The dissertation must be in final form (not just a late draft) before the final oral defense. If, in the opinion of more than one member of the examining committee, the dissertation is not in acceptable final form, the oral defense will not be held. An acceptable final form refers to the substance and usefulness of the dissertation and the writing's quality. The decision to halt the defense is to be determined by vote prior to the final oral examination and without the candidate or others being present. If a negative vote occurs, the candidate may be called in to provide clarification.

A rescheduling of the oral defense, if necessary, will occur when, in the advisor and student's opinion, the dissertation has been modified to incorporate the suggested changes. The dissertation must be acceptable, with no more than one dissenting vote, before the rescheduled final oral can be held. If the dissertation is not in suitable form at this second scheduled oral, the advisor will notify the college dean. Further action is then the responsibility of the college dean.

The procedures for the defense are detailed in the procedures section below.

Dissertation Submission

After passing the oral examination, doctoral candidates must submit their dissertation in electronic form to theOhioLINK Electronic Thesis or Dissertation (ETD) Center, where the dissertation is made publicly available. The dissertation must include an abstract of maximum 350 words. The dissertation must be prepared according to established guidelines, which are available in the college office.

Individual units may still require submission of a paper copy for their archives, and the deadline for the dissertation to be filed in the college office is the last day of classes for the term of graduation (some colleges may require an earlier deadline). It is the doctoral student's responsibility to fulfill this requirement.

All dissertations must be submitted to ProQuest for archiving, indexing and dissemination. This submission is made when students upload their dissertation to the OhioLINK ETD Center. All communications and relations between faculty or students and ProQuest shall be carried out only through the Kent State University Libraries or OhioLINK. Publication of the complete dissertation or significant parts of it through other avenues is expected, but this is not to be used in lieu of the requirement stated herein.

Reason for Policy

Policy enforces uniform standards for the doctoral dissertation submission and oral defense and defines the dissertation committees and applicability toward the doctoral degree.

Procedures

Procedures for Appointing the Graduate Faculty Representative

The college dean, or designee, will appoint the graduate faculty representative to the examining committee after consultation, when appropriate, with the advisor or lead administrator of the academic unit. The graduate faculty representative must have the following credentials:

- Directed a dissertation to completion
- Familiar with the general content area of the candidate's dissertation
- Outside the candidate's program or outside the candidate's area of focus

The graduate faculty representative may be appointed from outside the university but still must have directed a dissertation to completion.

The principal responsibility of the graduate faculty representative is to preside and moderate the final examination (oral defense) and to note whether the nature of the questioning of the faculty and the responses of the candidate meet highly respectable scholarly standards. Any concerns must be presented immediately to the college dean or designee. As moderator, the graduate faculty representative should ensure that all participants in the defense act in a civilized, polite and proper manner. The graduate faculty representative should be familiar with the procedures of the oral defense and has the authority to suspend the examination should a situation arise that would not be conducive to a fair examination.

The graduate faculty representative is expected to question the candidate and to vote on the passing of the final examination.

If a separate moderator for the final oral defense is desired, that individual will be selected by the dissertation committee from the members of the graduate faculty who have been approved to direct dissertations. The separate moderator will not be a faculty member in the candidate's program.

Procedures for the Final Examination (Oral Defense)

When the dissertation committee has met and has agreed to proceed to the final examination, the advisor will designate the time and place of the final oral defense and notify the student and all members of the examining committee.

The oral defense is open to any member of the university wishing to attend and, therefore, a facility adequate to meet this requirement should be provided. The defense should be scheduled to allow a minimum of 10 days for all members of the examining committee to review the dissertation; this is in addition to the 10-day period preceding the dissertation committee meeting.

In the advisor's absence, the academic unit's lead administrator may postpone the oral defense. In the case of long-term absence or enduring illness of the advisor, the lead administrator, in consultation with the college dean, should make appropriate arrangements for a substitute.

The advisor should notify the academic unit of the time and place of the oral defense so that it may be announced in a suitable way. The student should provide the dissertation abstract to the academic unit so that it will be available to interested individuals prior to the defense with the methodology and findings.

Students may participate in the oral defense in a different location than the committee members (i.e., by web conferencing) if they are declared in a fully online degree program or have obtained permission in advance from the committee chair. See the policy onremote participation in a thesis or dissertation defense#in the University Catalog.

The candidate will open the defense with a brief presentation of dissertation findings, after which the members of the examining committee will question the candidate in an order to be determined by the moderator. When, in the moderator's opinion, members of the examining committee have had an adequate opportunity to question the candidate, the moderator may open the examination to appropriate questions from others present. Questions dealing with the substance, meaning and usefulness of the research in the dissertation are of greatest propriety. Questions or comments dealing with punctuation or grammatical minutiae, spelling, etc., are out of order and should be written out and privately submitted to the advisor.

If, in the opinion of the moderator or upon motion duly passed by a majority of the committee, it should be deemed necessary to discontinue the defense, the moderator may recess the defense until a time mutually agreeable to the moderator, the advisor, the candidate and the college dean.

When the questioning has run its course, the moderator will adjourn the defense, and the room will be cleared of everyone except the members of the examining committee. Parliamentary procedure will be observed to determine the success or failure of the candidate, with the moderator acting as chair without a vote. The committee should evaluate the candidate on (a) the dissertation's overall quality and significance and (b) the oral defense of the findings.

All members of the examining committee will sign the Report of Final Examination form, recording their votes of "yes" or "no." Committee members may not abstain in this vote. A candidate passes the final oral defense if there is no more than one dissenting vote. The moderator and lead administrator of the academic unit must then sign the report, forwarded to the college for the dean's signature. The college returns a copy of the completed form to the academic unit.

Only members of the examining committee who voted "yes" are required to sign the dissertation signature page.

Frequently Asked Questions

There is no FAQ associated with this policy.

Definitions

Academic Unit: An academic unit is a department, school or a designated graduate program within a college, department or school.

Defense: Defense refers to students presenting, explaining and defending their ideas submitted in their dissertation. The defense is designed so that faculty members can ask questions to ensure that students understand their chosen field and focus area.

Dissertation: A dissertation is a highly individualized investigative study that results in the development and writing of a scholarly, comprehensive paper and fulfills the culminating requirement for a Ph.D. or Ed.D. degree. The dissertation must demonstrate that the student has acquired the ability to conduct research in a discriminating and original manner. The dissertation should make a significant enough contribution to the field in which it is written that at least one scholarly article suitable for publication in a professional journal may be derived from it or that the findings of the dissertation would be otherwise publishable.

Revision History

Amended August 2025: Revised policy includes the Ed.D. degree in programs requiring a dissertation; decreases dissertation committee membership from minimum four to three members; and requires student's advisor to have full graduate faculty status in their college and be in the student's program area.

Amended August 2020: Revised policy clarifies that a dissertation is required for the Ph.D. degree, rather than all doctoral degrees; replaces language regarding dissertation committees with more up-to-date information; removes graduate faculty status levels; eliminates summer registration requirement; add credit hours earned in Dissertation II do not count toward the degree; and adds deadline for filing the dissertation.

Dual Degrees and Double Majors

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2024
Last Reviewed: Spring 2024
Last Revised: Spring 2024
Next Review: Fall 2027

Policy Statement

Undergraduate Programs

Kent State University students may be able to simultaneously pursue two associate or bachelor's degree programs through either a double major or a dual degree. A double major combines two majors within the same degree (e.g., B.A. degree). A dual degree combines two majors within different degrees (e.g., B.A. and B.S. degrees).

Certain major combinations are not permitted by the colleges. Students interested in a double major or dual degree must consult with their advisor (and an advisor for the second major if in a different college) to determine whether the desired combination of majors is permitted. Declaring a double major or dual degree in the same department or school is allowed only when the department or school offers different majors. For example, a student may declare the Spanish major and the French major even though both majors are offered by the Department of Modern and Classical Language Studies. Some departments or schools

may allow a student who earned a Bachelor of Arts degree to return to complete a Bachelor of Science degree in the same major.

Because of their generalist nature, the following degree programs may not be earned as a double major or dual degree with another major and cannot be earned as an additional degree after another degree at the same or higher level has been earned previously:

- Applied Media - B.A.
- Individualized Program - A.T.S.
- Integrative Studies - B.I.S.
- Professional Studies - B.S.
- Technical and Applied Studies - B.T.A.S.

In addition, due to the similarity in program requirements, the Associate of Arts and the Associate of Science degrees may not be earned concurrently with each other; nor may either be awarded as an additional degree when one has been earned previously.

Students cannot be on academic probation and declare another major or degree at either the associate or bachelor's level.

Students pursuing a double major or dual degree concurrently or subsequently must be officially admitted to the programs and complete all requirements for both in addition to the university's undergraduate and residence requirements.

Graduate Programs

Graduate dual degree programs allow students to simultaneously pursue two graduate degrees at the same level (two master's degrees or two doctoral degrees) or two graduate degrees at different levels (one master's degree and one doctoral degree).[1] Rather than sequentially completing first one degree and then the other, the amount of time required to complete both sets of degree requirements may be reduced by completing the programs in a coordinated way. Graduate dual degrees are distinct from combined degree programs, which allow students to simultaneously pursue two degrees at the undergraduate and graduate levels (see policy on Combined Bachelor's/Master's Degree Program in the University Catalog for details).

Coursework common to both programs must constitute a well-planned and meaningful part of each program. A minimum of 60 percent of the total credit hours required for each degree program must be unique to that degree program, after which some courses may be double counted. The percentage of unique hours that must be completed in each degree program may vary from the 60 percent minimum only when the graduate dual degree program has been formally approved by the university.

Graduate credit transferred from another institution is limited to a maximum of 12 credit hours across both degree programs. Doctoral-level courses may be applied toward a master's degree. Under no circumstances may master's-level courses be applied toward a doctoral degree.

The maximum time limits for completing degree requirements and graduation apply to each degree individually (see the policy on Academic Standing–Graduate Student in the University Catalog for details).

Kent State University allows for both informal and formal dual degree programs, as described below.

Informal Dual Graduate Degree Programs

Students may simultaneously pursue two graduate degrees in different programs through an informal dual degree program (those that have not received official university approval). Informal dual degree programs offer students the flexibility to double-count some coursework, given that the two programs in question approve the arrangements. Once admitted to both degree programs, the student and advisor(s) must plan an integrated course of study. The plan must be approved by both programs and filed with the respective college(s). Culminating experiences (e.g. capstone courses, theses, dissertations, applied projects) and comprehensive examinations cannot be shared.

Formal Dual Graduate Degree Programs

A formal dual degree program is one that has been officially approved by the university. It has one curriculum established by two programs resulting in the completion of two graduate degrees at the same level. A list of dual degree programs that have been formally approved may be found in the University Catalog.

[1] This policy does not apply to dual concentrations. Students should contact their program coordinator if they are interested in completing dual concentrations.

Reason for Policy

Policy enforces uniform standards for students seeking to pursue multiple degree programs, either concurrently or subsequently.

Procedures

Undergraduate Dual Degrees and Double Majors

Undergraduate students request the second major/degree through the Manage My Program application in FlashLine and review program requirements in their GPS degree audit.

Graduate Dual Degrees

An applicant who is not currently a graduate student at Kent State University must submit an application and pay an application fee for each program.

Students who are currently enrolled in one graduate program at Kent State University must submit an application and pay an application fee for the second program, indicating on the application that the intent is to complete both degrees rather than to transfer from the first to the second program.

If applying to a formal degree program, the applicant/student should indicate the specific dual-degree concentration in the program.

If admitted to an informal degree program, the student and advisor(s) must plan an integrated course of study. The plan must be approved by both programs and filed with the respective college(s).

Forms/Instructions

Frequently Asked Questions

Undergraduate Programs

1. **What are the benefits of declaring a double major or dual degree?**
   A double major/dual degree allows you to expand your knowledge and gain skills and expertise in two fields. Earning two degrees demonstrates that you are motivated, hard-working and determined. This distinction can make you more competitive during the hiring process when starting your career.
2. **What is the difference between a double major or dual degree? They sound like the same thing.**
   A double major combines two majors within the same degree (e.g., English and Sociology majors in the B.A. degree). A dual degree combines two majors within different degrees (e.g., Architectural Studies major in the B.A. degree and Construction Management major in the B.S. degree). In some cases, some degrees have requirements in addition to major requirements that you will be required to complete for that degree.
3. **Can I double major or earn a dual degree in anything?**
   No, there are certain combinations that are not allowed. Some are not permitted by the college, and you will need to talk to your advisor (or an advisor for the second major if in a different college) to find out which are allowed. You cannot earn a second major/degree in any one of the following due to the generalist nature of the program: A.T.S. degree in Individualized Program, B.A. degree in Applied Media, B.S. degree in Professional Studies, B.I.S. degree in Integrative Studies or B.T.A.S. degree in Technical and Applied Studies.

Additional FAQ: Undergraduate Dual Degrees and Double Majors

Graduate Programs

1. **Do I need to complete all the requirements for both degrees if I apply for a dual degree?**
   For formal dual degree programs, the colleges have approved a curriculum separate from the individual degree that allows for courses to count toward both degrees, with total credit hours below what would be required if the degree programs were taken separately. You can find this curriculum on the "Dual Degree" tab for that program in the University Catalog (e.g., curriculum for all dual degrees with the M.B.A.)
2. **I do not see the dual degree I want listed in the catalog. What can I do?**
   You should contact the program coordinators of the two programs to discuss the feasibility of pursuing both degrees simultaneously. If you are approved to be admitted to both degrees, you and your advisor(s) will plan an integrated course of study. The plan must be approved by both programs and filed with the respective college(s). Please know that the program's culminating experience (e.g., capstone, thesis, projects) and comprehensive examinations cannot be double counted toward both degrees.
3. **Will I receive two diplomas?**
   Yes, you will receive a diploma for each degree program earned.
4. **What happens if I am dismissed from one of my graduate dual degrees?**
   Please see the Dismissal and Appeal–Graduate policy for information on students in dual degree programs.
5. **Do I have extended time limits for dual graduate degrees?**
   No, you will still be bound by the university's time limits for graduate programs unless you are granted an extension by the program area.

Definitions

Degree: an award for completion of a course of study at a specific level designated by the customary titles of associate, bachelor's, master's, specialist or doctorate. Examples: Associate of Arts degree, Bachelor of Arts degree, Master of Arts degree, Doctor of Philosophy degree.

Double Counting: allowance of a course (and its credit hours) to count toward the requirements of two programs.

Double Major: combines two majors with the same degree; e.g., B.A. degree in Psychology and the B.A. degree in Sociology.

Dual Degree: combines two majors with different degrees, e.g., B.A. degree in Fashion Merchandising and B.B.A. degree in Business Management.

Formal Dual Graduate Degree: dual graduate degree program that has been officially approved by the university; the curriculum for the dual degree is published in the University Catalog.

Informal Dual Graduate Degree: an agreement between two program areas to allow a student admitted to both degree programs to double-count specific coursework toward both.

Major: a set of requirements for completion of a degree as authorized by the Kent State Board of Trustees and the Ohio Department of Higher Education. Examples: Geography major, Nursing major, Public Health major.

Revision History

Amended August 2024: Revised to include two additional completer programs and to link to the list of graduate dual degree programs so they can be updated as needed without having to update this policy.

Amended August 2023: Revised to reflect name change of the bachelor's degree in educational studies and the addition of new graduate dual degree programs.

Amended August 2020: Revised to redefine "double major," eliminate the 140-credit hour requirement for dual degrees; eliminate additional 15 credit hours for concurrent or subsequent associate degrees; provide more information on certain major/degree combinations that are not permitted; restrict students on academic probation from declaring multiple majors; and include master's/doctoral degrees in the graduate dual degrees policy.

Amended August 2015: Revised to reflect university minimum semester credit hours for a degree was decreased, from 121 to 120 for one major or double majors. Minimum semester credit hours for dual degrees remains at 140. Disclaimer on dual concentrations within one major is added.

Amended August 1995: Revised to reflect university minimum semester credit hours for a degree was decreased, from 129 to 121 for one major or double majors and from 148 to 140 for dual degrees.

Amended August 1995: Distinction between double majors and dual degrees are made, with no minimum credit hours for double majors beyond what is required for one degree (129 semester credit hours). Minimum semester credit hours for dual degrees remains at 148.

Amended August 1988: Application fee for graduation is eliminated.

Amended August 1979: Revised to reflect the university's conversion from quarters to semesters; total semester credit hours for two degrees is increased, from 147 (220 quarter credit hours) to 148.

Amended September 1974: Disclaimer added that some degree combinations are not permitted. Students are now allowed to declare and earn two degrees simultaneously. Required additional coursework (30-35 quarter credit hours) is eliminated. A deadline and fee are added for applying for graduation.

Amended September 1965: Allowance on qualifying for a degree in absentia is removed.

Amended June 1952: New allowance on qualifying for a degree in absentia after three years of work at Kent State University.

Amended June 1948: Total quarter credit hours for two degrees is decreased, from 234 to 220. Additional coursework is revised from one year to 30-35 quarter credit hours. Now recommends declaration in second degree as early as possible, changing it from junior to sophomore year. Second degree must be earned after first degree (no awarding of two simultaneously).

Amended June 1942: Revised to reflect the university's conversion from semesters to quarters (now requiring 234 quarter credit hours); procedures added for students to seek college dean approval for a dual degree before the start of junior year.

Effective June 1939: Establishes a policy requiring students to complete 156 semester credit hours and one year (or six summer terms) of residence beyond four years to earn two degrees in any two colleges or two degrees in the same college.

Eligibility for a Doctoral Degree

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

The student will ordinarily observe the following procedure in order to be eligible for the doctoral degree:

- Indicate the intention to meet specifications of the departments concerned by applying for admission. The college or independent school and the department together will determine acceptability.
- Fulfill the credit requirements of the department in which the major work is done.
- Fulfill the residence requirements (if any).
- Satisfy the language or research tool requirements of the department.
- Pass the candidacy (comprehensive) examination in the field of the major subject.
- Carry out a suitable scholarly research or creative program.
- Write a dissertation that shows high attainment and creativity.
- Successfully defend the findings of the dissertation in public before a committee of the graduate faculty.
- Have registered for a minimum of 90 credit hours beyond the bachelor's degree, or 60 credit hours beyond the master's degree (registration for thesis, dissertation and research may be included in this total).

For eligibility for the Doctor of Podiatric Medicine degree, please refer to the college policies in the College of Podiatric Medicine section of this Catalog.

English Placement

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

English Placement

All undergraduate degree programs require successful completion of the Kent Core Composition requirement. Placement into the appropriate starting course in the sequence is determined by ACT English or SAT evidence-based reading and writing or high school GPA. In the event students do not have ACT, SAT scores or qualifying high school GPA and are attending a Kent State University regional campus, they will take Accuplacer Next Generation reading and Writeplacer. This assessment is available on site or remotely. Students who have taken Accuplacer sentence skills, Writeplacer or reading comprehensive at another institution within two years of their initial start date may opt to transfer those scores to Kent State University.

Students enrolled at a Kent State University regional campus who do not meet the university readiness standards will be required to enroll in and earn a minimum C grade in ENG 01001 and a minimum C- grade ENG 11002 before they can enroll in ENG 21011 . Students who wish to challenge their writing placement may do so using the Writing Placement Reassessment.

To provide more opportunities to all students, ACT/SAT scores and/or high school GPA older than two years are acceptable for English placement. Regional Campus students should also be informed about the Stretch sequence and given the option to enroll in Stretch, regardless of their older ACT/SAT or GPA. Students who do not have ACT/SAT scores or high school GPA will take Accuplacer Reading and Writeplacer.

Kent Campus Students

Assessment	Score	Placement
ACT English	0-25	ENG 11011
ACT English	26+	ENG 21011
SAT Evidence-Based Reading and Writing	200-590	ENG 11011
SAT Evidence-Based Reading and Writing	600+	ENG 21011
Accuplacer and Writeplacer (challenge to ACT/SAT placement)	7+	ENG 21011
GED Reasoning Through Language Arts College Reading	165+ *	ENG 11011
Final high school GPA	2.8+	ENG 11011
Final high school GPA	3.8+ and writing sample **	ENG 21011

Regional Campus Students

Assessment	Score	Placement
ACT English	0-17	ENG 01001 and ENG 11002
ACT English	18-25	ENG 11011
ACT English	26+	ENG 21011

ACT Reading and Writeplacer Next Generation	0-19 and 4	ENG 01001 and ENG 11002
ACT Reading and Writeplacer Next Generation	20+ and 4	ENG 11011
SAT Evidence-Based Reading and Writing	200-470	ENG 01001 and ENG 11002
SAT Evidence-Based Reading and Writing	480-590	ENG 11011
SAT Evidence-Based Reading and Writing	600+	ENG 21011
Accuplacer Next Generation Writing	0-4	ENG 01001 and ENG 11002
Accuplacer Next Generation Writing	4 and 0-249 Accuplacer Reading	ENG 01001 and ENG 11002
Accuplacer Next Generation Writing	4 and 250+ Accuplacer Reading	ENG 11011
Accuplacer Next Generation Writing	5-6	ENG 11011
Accuplacer Next Generation Writing	7+	ENG 21011
GED Reasoning Through Language Arts College Reading	165+ *	ENG 11011
Final high school GPA	0.0-2.9	ENG 01001 and ENG 11002
Final high school GPA	2.8+	ENG 11011
Final high school GPA	3.8+ and writing sample **	ENG 21011

* Kent State University awards college credit for GED 175+ scores.

** Permission must be granted from the Department of English after review of writing sample.

Enrollment - Graduate

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Graduate students shall enroll for at least one term each year (three consecutive terms, including summer as one term) to maintain status as a degree-seeking student. Meeting this minimum enrollment requirement does not guarantee the student will meet the minimum requirements of other programs, offices or agencies.

Students not meeting the minimum enrollment requirement for maintaining status as a degree-seeking graduate student will be considered as having voluntarily withdrawn from the university. After three consecutive terms of non-enrollment, students will be inactivated as a degree-seeking student.

Students who withdrew and wish to have their graduate standing re-instated must follow the same admission procedures as those required of new applicants, including submission of a non-refundable application fee and application materials. Acceptance back into a graduate program is not guaranteed even if the student departed in good standing. Students who apply and are admitted will be re-instated under the catalog-in-force at the time of admission. The program determines how much of the previously completed work may be applied toward the graduate degree program.

Students on an approved leave of absence may return to their program of study by completing the Application for Graduate Re-Enrollment form found on the Graduate College forms website.

Enrollment Definitions

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

For financial aid eligibility and enrollment certification for loan deferments, insurance coverage and other purposes, the enrollment status of students is defined as the following:

Undergraduate Students

Enrollment Type	Credit Hours
Full-time	12+
Three-quarter-time	9-11
Half-time	6-8
Less-than-half-time	1-5

Graduate Students

Enrollment Type	Credit Hours
Full-time	8+
Three-quarter-time	6-7
Half-time	4-5
Less-than-half-time	1-3

For summer, the statues listed above may be fulfilled by enrollment in one or more sessions within the summer semester, including summer intersession. Courses receiving an AU, NF or SF mark are not counted in enrollment credit hours. This definition differs from the one used for assessing tuition and fees (for more information, see Office of the Bursar website).

Exploratory and General Majors

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State offers the non-degree Exploratory major on all campuses and generalist majors within most colleges to enable undergraduate students to explore academic areas and/or meet minimum program requirements. Baccalaureate-seeking students in these non-degree majors must declare a degree major by the time they have earned 45 credit hours at Kent State University. Students needing assistance with selecting a major must consult with an academic advisor.

Foreign Language Placement

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Students intending to study Chinese, French, German, Italian, Russian or Spanish should take the placement assessment 48 hours before their academic advising appointment.

Students planning to study a language other than the ones listed above should contact the Department of Modern and Classical Language Studies via email (mcls@kent.edu) or website for further placement instructions. All students should begin foreign language study in the appropriate course, which may be determined in one of the following ways:

1. Webcape Placement Exam available on the Placement Channel in FlashLine for Chinese, French, German, Italian, Russian and Spanish.
2. Placement interview with a faculty member in the Department Modern and Classical Language Studies for languages for which there is no Webcape Placement Exam.
3. Placement based on alternative credits accrued per one of the approved methods specified in the University Catalog.

Foreign Language Requirements: Generally, foreign language requirements are met by passing the highest level course in the language requirement or a course beyond the highest level in the requirement. Students should review the University Catalog and consult with their academic advisor(s) to determine specific language requirements for their college and program. Some students may begin their university foreign language experience beyond the Elementary I level without receiving credit for the previous course(s) and, thus, may complete the requirement with fewer credit hours and fewer courses than specified in their language requirement. In this case, the credit hours not used for the language requirement may be still required for graduation, but may be applied toward coursework in the student's major or minor or as electives.

Foreign Language Proficiency Waiver: Students able to demonstrate foreign language proficiency comparable to the highest course in their foreign language requirement may be able to have their language requirement waived. Students should review the University Catalog and consult with their academic advisor(s) and the Department of Modern and Classical Language Studies to verify eligibility. Proficiency waivers will be granted for the following:

1. **International students** who were educated through high or secondary school in a language other than English. Foreign language waivers will be granted to international students who have
   a. TOEFL, IELTS, MELAB, PTE Academic score recorded in their Kent State University academic record;
   b. completed English-as-second-language courses at Kent State; or
   c. provided documentation that they attended a secondary or high school in a country in which courses were taught in a language other than English (e.g., high school transcripts or diploma in the original language along with a certified English translation).
2. **American Council on the Teaching of Foreign Languages (ACTFL) Exams.** The tests are administered by Language Testing International. Students are responsible for the costs of the exam(s) and for providing the Department of Modern and Classical Language Studies with a copy of the certificate(s). Instructions for taking the ACTFL Exams may be found on the department's website.
   a. A proficiency waiver will be granted through Elementary II of a foreign language to students who provide either
      i. an official ACTFL Oral Proficiency Interview (OPI) certificate that documents proficiency at the Intermediate Low or higher level; or
      ii. comparable qualifying score on an ACTFL-based proficiency exam such as those accepted for the Ohio Seal of Biliteracy confirming oral proficiency of at least an intermediate low level.
   b. A proficiency waiver will be granted through Intermediate II of a foreign language to students who provide either
      i. an official ACTFL Oral Proficiency Interview (OPI) **and** Writing Proficiency Test (WPT) certificates with scores at the Intermediate Low or higher level; or
      ii. comparable qualifying ACTFL-based proficiency exams such as those accepted for the Ohio Seal of Biliteracy confirming oral proficiency **and** writing proficiency of at least an intermediate low level.
3. **Common European Framework of Reference for Language (CEFR) Ratings.** A proficiency waiver will be granted through Elementary II of a foreign language to students who provide an official (European) CEFR certificate confirming oral proficiency of at least the B1.1 level. A proficiency waiver will be granted through Intermediate II of a foreign language to students who provide an official CEFR certificate confirming oral and writing proficiency of at least the B1.2 level. Students are responsible for providing the Department of Modern and Classical Language Studies with a copy of the certificate(s).
4. **Defense Language Proficiency Test (DLPT).** A proficiency waiver will be granted through Elementary II of a foreign language to students who were tested during military service and provide an official DLPT certificate confirming oral proficiency of at least ILR 1. A proficiency waiver will be granted through Intermediate II of a foreign language to students who provide an official DLPT certificate confirming oral proficiency of at least ILR 1+.
5. **Ohio Seal of Biliteracy.** A proficiency waiver will be granted through Intermediate II of a foreign language to students with an Ohio Seal of Biliteracy. Students who have qualified for the Ohio Seal of Biliteracy by means of an International Baccalaureate or AP exam or who submit their ACE transcripts may be eligible to receive credit for the Ohio Seal of Biliteracy. For more information, visit the Credit Transfer website.
6. **Alternative proficiency measures.** Students may have proficiency in a language for which no standardized test exists. In this case, students should contact the Department of Modern and Classical Language Studies to arrange for assessment by an approved native speaker of that foreign language (e.g., teacher, professor or certified translator), with the assessment method approved in advance by a department administrator.

Grade Point Average (GPA)

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Undergraduate Students

Overall GPA for Graduation

To graduate from Kent State University with an associate degree, bachelor's degree, undergraduate minor or undergraduate certificate, all students must earn a minimum 2.000 overall grade point average (GPA). Some programs require a higher overall GPA for graduation, and these are noted on the program's page in the University Catalog and in the GPS degree audit.

A student's overall GPA is calculated using all coursework taken at Kent State, with the exception of grades exempted through Kent State's course repeat or GPA adjustment policies.

Major, Minor and Certificate GPA for Graduation

To graduate with a declared undergraduate major, minor or certificate, all students must earn a minimum 2.000 GPA in the program. Some programs require a higher GPA for graduation, and these are noted on the program's page in the University Catalog and in the GPS degree audit.

A student's major, minor or certificate GPA is calculated using only the courses that complete the requirements in that major, minor or certificate. When multiple courses may be used to complete a specific requirement (e.g., "choose from" or either/or choice), the course with the highest passing grade will complete the requirement and be used in the calculation of the major, minor or certificate GPA.

The major, minor and certificate GPA can be found in the student's GPS degree audit; they are not displayed on the student transcript or diploma and are not stored in the university's student information system.

Latin Honors GPA

For information on how the GPA is calculated for Latin Honors (bachelor's degrees) and for Distinction (associate degrees), refer to the Honors at Graduation policy in the University Catalog.

Graduate Students

To be considered "in good standing," a 3.000 average or better in all graduate and required undergraduate work undertaken at Kent State University should be maintained by graduate students[1]. In order to qualify for graduation, the student must have a 3.000 average in all graduate courses attempted. The grade point average of a student who enlists in the military service after work is begun toward a graduate degree may, at the student's request upon return from military service, exclude the grades earned in the last semester in which that student is in residence prior to induction.

[1] Students seeking the Doctor of Podiatric Medicine degree are expected to maintain a minimum 2.000 grade point average.

Calculating Grade Point Average

Quality points are awarded on the following scale:

- 1 credit hour of A equals 4.000 points
- 1 credit hour of A- equals 3.700 points
- 1 credit hour of B+ equals 3.300 points
- 1 credit hour of B equals 3.000 points
- 1 credit hour of B- equals 2.700 points
- 1 credit hour of C+ equals 2.300 points
- 1 credit hour of C equals 2.000 points
- 1 credit hour of C- equals 1.700 points
- 1 credit hour of D+ equals 1.300 points
- 1 credit hour of D equals 1.000 point
- 1 credit hour of F equals 0.000 points
- 1 credit hour of NF equals 0.000 points
- 1 credit hour of SF equals 0.000 points
- 1 credit hour of U equals 0.000 points

A grade point average is determined by dividing the total number of points earned by the number of quality hours taken. Totals are extended to three decimal points and are **not** rounded up.

As an example, assume a student has completed 30 credit hours with a grade distribution of 3 credit hours of A, 3 credit hours of B, 3 credit hours of B-, 15 credit hours of C, 4 credit hours of D and 2 credit hours of F.

Dividing 63.100 by 30, a GPA of 2.103 is obtained, which is slightly above a C average. Overall GPA is computed by dividing the total quality points by the total quality hours. Grades of S (Satisfactory), Y (Pass) and Z (Fail) are not included in the GPA.

Grade Point Average (GPA) Adjustment

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: August 2023
Last Reviewed: October 2018
Last Revised: February 2023
Next Review: February 2026

Policy Statement

The Grade Point Average (GPA) Adjustment policy provides students the opportunity to make progress toward degree completion by allowing them to remove a maximum of six courses with grades C- or lower from the calculation of their overall GPA and earned hours.

Eligibility

To be eligible for a GPA adjustment, students must meet all the following conditions at the time of the request:

- Officially admitted, reenrolled or reinstated to Kent State *
- Seeking a Kent State undergraduate degree or certificate
- Enrolled in undergraduate credit courses at Kent State

* Students who are dismissed may apply for GPA adjustment if they appeal and are reinstated.

Students with a previous undergraduate degree or certificate and currently enrolled in a subsequent undergraduate program are eligible with the following stipulations:

- Students who earned a Kent State associate or bachelor's degree or certificate may request a GPA adjustment for failed grades (F, NF, SF, U) and only C-, D+ and D grades for the courses that were not used toward earning the previous degree or certificate.
- Students who earned a non-Kent State associate or bachelor's degree or certificate may request a GPA adjustment for failed grades (F, NF, SF, U) earned before or after the awarded degree or certificate and only C-, D+ and D grades earned after the awarded degree or certificate.

Reason for Policy

This GPA Adjustment policy is an alternative to the Course Repeat policy and allows students to request specific course grades to be removed from their GPA and overall credit hours subjected to specific conditions for eligibility and approval.

Procedures

To apply for a GPA adjustment, students must complete the following steps:

1. Meet with an academic advisor to begin an application
2. Provide a written statement describing their plan to assure successful academic performance in the future
3. Select a maximum of six courses with grades C-, D+, D, F, NF, SF, M and/or U to be removed from the GPA and earned hours

Once the steps outlined above have been completed, the Office of the University Registrar will remove the student-selected grades from the calculation of the student's GPA and earned hours. The grades will be retained on the student's transcript with the notation of an "E" (excluded) in the repeat column. The official grade for the courses will be changed to X* (e.g., XC-, XD) to denote a GPA adjustment.

The following stipulations to course forgiveness will be enforced:

- The GPA Adjustment policy applies only to coursework taken at Kent State University and only to the students' Kent State transcript.

Students cannot request the policy for grades earned from transfer courses.
- Students cannot request the policy for courses taken for a pass/fail grade.
- The course must officially be recorded on the student's transcript for grade adjustment to be considered.
- Students selecting a GPA adjustment for a course required to graduate with their declared program must retake this course unless the dean of the college in which they are enrolled approves a suitable substitution.
- The original GPA (includes any courses under the GPA Adjustment policy) will be used in determining eligibility for Latin honors, distinction or other recognition, as well as satisfactory academic progress eligibility for federal financial aid, based upon the entirety of students' undergraduate academic career and record of academic performance.
- A student may submit multiple requests for GPA adjustment until the maximum six courses is met or the student graduates with that degree or certificate, whichever comes first. Students cannot request this policy for a course in a degree or certificate program after that degree or certificate has been awarded.
- Students who participated in academic forgiveness in the past may request GPA adjustment if they had fewer than six courses removed from their GPA and earned hours under the previous policy. Maximum six courses may be removed under previous and proposed policy, combined.
- Once the course grade and credit hours have been removed from the student's GPA and earned hours, they will not, under any circumstances, be reinstated.
- A graduate school may review a student's complete undergraduate record (including any courses under the GPA Adjustment policy) when making admission decisions.

Forms/Instructions

Students must contact an academic advisor to begin an application.

Frequently Asked Questions

1. **How does the new GPA Adjustment policy differ from the Academic Forgiveness policy?**
   The Academic Forgiveness policy has been revised and renamed GPA Adjustment. The process for applying and the eligibility requirements have been modified to simplify the process and remove unintended barriers for students to receive a second chance at pursuing their academic goals and progress for degree completion.
2. **What is the difference between the GPA Adjustment policy and the Course Repeat policy?**
   GPA Adjustment allows for students to select a maximum of six courses with grades C- and lower to be removed from the calculation of their GPA and overall credit hours. Course Repeat also allows for courses taken to be excluded the student's GPA; however, in contrast to the GPA Adjustment Policy, students must take the same course again (i.e., repeat), and have only the highest grade earned in the attempts be applied to the GPA. You should consult with your academic advisor regarding both policies to help them determine which one applies best to your circumstances.
3. **How will using GPA Adjustment affect my financial aid?**
   Courses forgiven under GPA Adjustment still will be used in determining your financial aid eligibility. Grades and credit hours (earned and attempted) from forgiven courses will be reflected in your Satisfactory Academic Progress calculation found in FlashLine.

Additional FAQ: GPA Adjustment

Definitions

Admitted: Offered admission to enroll in a program at Kent State University.

Earned Hours: Credit hours for courses that the student completed with a grade or administrative mark that is considered passing.

Enrolled: Student has completed course registration for a specific term.

GPA (Grade Point Average): An indication of a student's academic achievement at Kent State University, determined by the number of credit hours attempted at Kent State University and the grades received. The Kent State GPA is calculated to three places past the decimal point and not rounded.

GPS Degree Audit: A summary of all official program requirements merged with the student's academic record to provide a real-time assessment of progress toward graduation.

Reenrolled: Act of being restored to active-student status in order to register for courses and pursue completion of an academic program after an absence of one full academic year or longer.

Reinstated: Act of being restored to active-student status after academic dismissal in order to register for courses and pursue completion of an academic program.

Student Transcript: The accurate and complete record of a student's academic coursework attempted at an institution, presented in either electronic format or paper format.

Revision History

Amended August 2023: Revised policy clarifies that students must be seeking a Kent State undergraduate degree/certificate and enrolled in undergraduate Kent State courses (i.e., not open to guest students or former students who do not return to Kent State). In addition, the required quiz is eliminated; instead, students initial each statement that was part of the quiz on their application request.

Amended August 2022: Revised policy eliminates the one-year away requirement from Kent State, allows students with a previous degree to be eligible with certain stipulations, replaces GPA and credit-hours requirement for eligibility with requirement that students meet with their academic advisor and provide a written statement describing their plan to assure successful academic performance in the future. Instead

of removing all grades C- and lower from the GPA, students select a maximum of six courses with grades C- and lower to be removed. Policy is renamed Grade Point Average (GPA) Adjustment.

Amended August 2012: Revised policy applies to the clause for Kent State associate degree holders to allow forgiveness to be applied toward any course not used for a previous associate or certificate degree, rather an any course after earning the previous credential.

Amended August 2011: Revised policy decreases the time away from three (two for veterans) to one year for all students; and removes stipulation that students cannot take coursework elsewhere for at last three years. Students who earned a Kent State associate degree are now eligible for coursework taken after that degree.

Amended August 2005: Revised policy add C- to the list of grades that are forgiven after eligibility.

Amended August 1981: Revised policy decreases the time away only for students who were enlisted in the armed forces, from three to two years. Former students who did complete coursework elsewhere may be eligible if three years passed since that study. Revision also adds an eligibility requirement of 15-30 credit hours of graded coursework with a 2.000 GPA. Once eligible, all grades D or lower are forgiven.

Effective September 1976: Establishes a formal Academic Forgiveness policy for all undergraduate students. To be eligible, former students must be away from the university for three or more calendar years and have not attended another university during that time.

Effective September 1968: Establishes an administrative policy regarding academic forgiveness for former students who had left the university to serve in the armed forces. To be eligible, students must be away from the university for three or more calendar years.

Grade-/Mark-To-Grade Change Policy

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

With the exception of the IN, IP and NR marks, once grades or marks are submitted, they are final and will not be changed except in cases of administrative error. Grades will not be changed by allowing the students to do additional work (e.g., retaking exams; redoing papers; submitting extra credit papers, reports) or by using criteria other than those applied to all students in the class.

In the event of a possible administrative error, the students must contact the instructor as soon as possible following the awarding of the grade. If the instructor is not available, the department/school chair/director should be contacted.

Grade appeals for reasons other than administrative error must follow established policy and procedures for student academic complaints, see policies 4-02.3 for Kent Campus and 8-01.4 for regional campuses in the University Policy Register.

Approved grade change requests for reasons other than removal of the IN, IP and NR marks must be submitted no later than the end of three consecutive terms after the grade was submitted or before the student's degree is posted officially to the permanent academic record, whichever comes first.[1] No challenge will be considered or adjustment made after that period. Deadline for removing the IN mark is noted in the Administrative Marks section above.

Grading Policies and Procedures

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

The transcript is an accurate and complete historical record of work attempted at the university. Changes to transcript entries that alter the enrollment history of a student are not to be made.

Academic Grades

The following grades are determined and assigned by faculty based upon appraisal and evaluation of student performance in completing requirements of a course:

Letter Grade	Description
A	(4.000) Denotes "superior scholarship."
A-	(3.700)
B+	(3.300)
B	(3.000) Denotes "good performance" for students in undergraduate courses and "average performance" for students in graduate courses.
B-	(2.700)
C+	(2.300)
C	(2.000) Denotes "fair or average performance" for students in undergraduate courses and "below average performance" for students in graduate courses.
C-	(1.700)
D+	(1.300)
D	(1.000) Denotes "poor (but passing) performance" for students in undergraduate courses and "far below average performance" for students in graduate courses.
F	(0.000) Denotes failure of the student's overall performance. This grade is earned and is not used for students who never attended or stopped attending the course (see NF and SF marks in Administrative Marks section below).
S	The grade S (Satisfactory) denotes passing performance and is used for courses where S/U grading, rather than letter grading, is permitted. The credit hours are awarded, but the grade is not counted in grade point averages. Work earning an S grade may be applied toward meeting degree requirements.
U	The grade U (Unsatisfactory) denotes failing performance and is used for courses where S/U grading, rather than letter grading, is permitted. This grade is earned and is not used for students who never attended or stopped attending the course (see NF and SF marks in Administrative Marks section below). Credit hours are recorded as attempted, and the grade is counted as an F (zero quality points) in grade point averages.

Y	The grade Y denotes a passing grade in undergraduate courses in which students have elected the credit/no credit grading option. The credit hours are awarded, but the grade is not counted in grade point averages.[1]
Z	The grade Z denotes failing performance in undergraduate courses in which students have elected the credit/no credit grading option. The credit hours are recorded as attempted, and the grade is not counted in grade point averages.[1]

[1] Refer to the Credit/No Credit Grade policy for conditions governing the acceptability of credit/no credit (Y/Z) grades at Kent State.

Administrative Marks

The following administrative marks are assigned when a letter grade is not appropriate.

Mark	Description
AU	The mark AU (Audit) denotes enrollment in a course without benefit of a grade or credit, typically for purposes of self-enrichment and academic exploration. Students may audit any course subject to space availability and prior departmental approval. To audit a course, students must go through registration procedures and be assessed registration fees. An audited course cannot be applied toward a student's degree or certificate. An instructor may impose whatever attendance requirements deemed necessary upon the students registered for audit. The students must be informed of these requirements at the beginning of the semester. Failure to meet such attendance requirements subjects the students to being withdrawn from the course by the instructor. The AU mark is not counted in grade point averages.[1]
CP	The mark CP (Complete) denotes completion of requirements for registered course COOP 20092 Cooperative Education. The CP mark is not counted in grade point averages.
CR	The mark CR (Credit) denotes credit hours, but not letter grade, earned through successful completion of an alternate credit program (e.g., exam credit, trade competency or other non-institutional credit). The CR mark is not counted in grade point averages.
IN	The mark IN (Incomplete) may be given to students who—due to extenuating circumstances—are unable to complete the required work between the course withdrawal deadline and the end of classes. The timeline shall be adjusted appropriately for summer sessions and flexibly scheduled courses. The IN mark is not counted in grade point averages.[2]
IP	The mark IP (In Progress) may be given to students to indicate that work is in progress toward a thesis, dissertation, research, individual investigation or a similar effort that requires additional time beyond a semester. A grade will be given when the work is completed. The IP mark can be utilized only in designated courses and remains a terminal mark if the student does not complete the requirements for the course. For courses required for a degree or certificate, a grade must be given before the credential may be granted. The IP mark is not counted in grade point averages.
M	The mark M (Missing) was used until 1980. It is similar to the NF and SF marks (see below) and counts as an F grade (zero quality points) in grade point averages.
NC	The mark NC (Not Complete) denotes requirements have not been completed for registered course COOP 20092 Cooperative Education. The NC mark is not counted in grade point averages.
NF	The mark NF (Never Attended–Fail) denotes that the student neither attended any class session nor formally withdrew from the course. The NF mark counts as an F grade (zero quality points) in grade point averages. In the case of undergraduate courses taken pass/fail, the NF mark will be changed to a Z (fail) grade.[1]
NR	The mark NR (Not Reported) indicates the instructor did not submit a grade. For courses required for a degree or certificate, a grade must be given before a credential can be granted. The NR mark is not counted in grade point averages.
SF	The mark SF (Stopped Attending–Fail) denotes that the student stopped attending the course and did not formally withdraw. The SF mark counts as an F grade (zero quality points) in grade point averages and must be accompanied by a date of last attendance in the course. Faculty who cannot determine the exact date of last attendance may use the date of the last academic activity in which students participated. In the case of undergraduate courses taken pass/fail, the SF mark will be changed to a Z (fail) grade.[1]
T	The mark T denotes student participation in a national or international academic exchange program and is not counted in grade point averages.
TR	The mark TR (Transfer) denotes accepted transfer coursework and is not counted in grade point averages.

W	The mark W (Withdrawal) denotes that the student has withdrawn from the university or from any individual course without evaluation. For courses in the College of Podiatric Medicine, this mark is given to students who withdraw prior to midterm exams. The W mark is not counted in grade point averages.
WF	The mark WF (Withdrawal–Fail) is used by the College of Podiatric Medicine to denote that the student has withdrawn from the university or from any individual course/rotation with failing status after seven weeks of course instruction. The WF mark is not counted in grade point averages.[3]
WP	The mark WP (Withdrawal–Pass) is used by the College of Podiatric Medicine to denote that the student has withdrawn from the university or from any individual course/rotation with passing status after seven weeks of course instruction. The WP mark is not counted in grade point averages.[3]

[1] A student receiving the AU, NF or SF mark is enrolled officially in the course; however, credit hours for the course are not applied toward the student's course load for financial aid and other select purposes.

[2] Please refer to the Incomplete Mark policy below for conditions governing student eligibility and approval for an Incomplete mark at Kent State.

[3] Please refer to the College of Podiatric Medicine section in the University Catalog for procedures for withdrawal.

Calculating Grade Point Average

Quality points are awarded on the following scale:

- Each hour of A equals 4.000 points
- Each hour of A- equals 3.700 points
- Each hour of B+ equals 3.300 points
- Each hour of B equals 3.000 points
- Each hour of B- equals 2.700 points
- Each hour of C+ equals 2.300 points
- Each hour of C equals 2.000 points
- Each hour of C- equals 1.700 points
- Each hour of D+ equals 1.300 points
- Each hour of D equals 1.000 point
- Each hour of F equals 0.000 points
- Each hour of NF equals 0.000 points
- Each hour of SF equals 0.000 points
- Each hour of U equals 0.000 points

A grade point average is determined by dividing the total number of points earned by the number of quality hours taken. Totals are extended to three decimal points and are not rounded up.

As an example, assume a student has completed 30 credit hours with a grade distribution of 3 credit hours of A, 3 credit hours of B, 3 credit hours of B-, 15 credit hours of C, 4 credit hours of D and 2 credit hours of F.

Dividing 63.100 by 30, a grade point average of 2.103 is obtained, which is slightly above a C average. Cumulative averages are computed by dividing the total quality points by the total quality hours. Grades of S, Y and Z are not included in grade point average.

Grade Reports

Final grades are reported at the close of each academic term and become a part of the students' permanent records. Grades are available in FlashLine.

Incomplete Mark Policy

The mark IN (Incomplete) may be given to students who—due to extenuating circumstances—are unable to complete the required work between the course withdrawal deadline and the end of classes. The timeline shall be adjusted appropriately for summer sessions and flexibly scheduled courses. The IN mark is not counted in grade point averages.

To be eligible to request an incomplete mark for a course that was not completed due to extenuating circumstances, undergraduate students must be earning a minimum D grade, and graduate students must be earning a minimum C grade, in the course at the time of the request. Appropriate documentation is required to support the extenuating circumstance.

The student or university-approved designee must request the IN mark from the instructor of the course, and it is the responsibility of the student to arrange to make up the incomplete work. After the instructor approves the request, the instructor must initiate the request by submitting an Incomplete Mark Contract workflow to the department chair/school director prior to the grading deadline. This electronic workflow includes justification for awarding the Incomplete, describes the work to be completed for the course and specifies the grade to be assigned if the work is not completed (default grade). The Incomplete Mark Contract is sent electronically to the student.

When the work is completed, an appropriate grade will be assigned—based on the instructor's evaluation of the work submitted—and a new grade point average computed.

If the student does not complete and receive a grade, or is not granted an extension, the student's IN mark for the course automatically will lapse to the default grade designated on the Incomplete Mark Contract:

1. at the end of one semester for undergraduate courses or
2. at the end of three consecutive terms for graduate courses.

If the student is granted an extension and does not complete and receive a grade by the deadline, the student's IN mark for the course automatically will lapse to the default grade designated on the Incomplete Mark Contract at the end of the term in which the extension deadline occurs.

Grade-/Mark-To-Grade Change Policy

With the exception of the IN, IP and NR marks, once grades or marks are submitted, they are final and will not be changed except in cases of administrative error. Grades will not be changed by allowing the students to do additional work (e.g., retaking exams; redoing papers; submitting extra credit papers, reports) or by using criteria other than those applied to all students in the class.

In the event of a possible administrative error, the students must contact the instructor as soon as possible following the awarding of the grade.

If the instructor is not available, the department/school chair/director should be contacted.

Grade appeals for reasons other than administrative error must follow established policy and procedures for student academic complaints, see policies 4-02.3 for Kent Campus and 8-01.4 for regional campuses in the University Policy Register.

Approved grade change requests for reasons other than removal of the IN, IP and NR marks must be submitted no later than the end of three consecutive terms after the grade was submitted or before the student's degree is posted officially to the permanent academic record, whichever comes first.[1] No challenge will be considered or adjustment made after that period. Deadline for removing the IN mark is noted in the Administrative Marks section above.

Graduation

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2009
Next Review: Spring 2029

Policy Statement

Kent State University awards undergraduate and graduate degrees and certificates each December, May and August. The graduation requirements for these programs are outlined in the various sections of the University Catalog.

Reason For Policy

In order to be awarded their declared degree/credential, all students must formally apply for graduation. This policy outlines the general procedure the university community must follow regarding the graduation application process and posting of degrees.

Procedures

Application for Graduation

Graduation is not automatic. Undergraduate and graduate students applying for graduation must complete the online graduation application in **FlashLine** (Student / Resources / Graduation) by the published deadlines listed below. The online graduate application is used for all degrees, minors and certificate programs on all Kent State campuses and locations. More information on application deadlines may be found on the Financial, Billing and Enrollment Center website.

- **December Graduation:**
  - Application for a bachelor's degree or undergraduate certificate must be submitted by the 15th day of the preceding March.
  - Application for an associate degree, graduate degree (master's, post-master's or doctoral) or graduate certificate must be submitted by the Friday of the first week of the fall term in which graduation will occur.
- **May Graduation:**
  - Application for a bachelor's degree or undergraduate certificate must be submitted by the 15th day of the preceding September.
  - Application for an associate degree, graduate degree (master's, post-master's or doctoral) or graduate certificate must be submitted by the Friday of the first week of the spring term in which graduation will occur.[1]
- **August Graduation:**
  - Application for a bachelor's degree or undergraduate certificate must be submitted by the 15th day of the preceding December.
  - Application for an associate degree, graduate degree (master's, post-master's or doctoral) or graduate certificate must be submitted by the Friday of the first week of the summer term in which graduation will occur.

[1] Candidates for the Doctor of Podiatric Medicine degree must meet all graduation requirements before June 30 immediately following the May graduation. Completion of program requirements after June 30 but before the conclusion of the calendar year will result in a December graduation. After December, candidates will not be eligible for graduation until the following May. Attendance at the graduation ceremony is required.

Students who missed their application deadline but still wish to apply for graduation may complete a Late Graduation Application and submit the application to their college advising office or campus student services office for approval.

Degrees are posted to students' permanent academic record, including the student transcript, following their effective date of graduation.

Frequently Asked Questions

1. **Why do I have to apply for graduation?**
   Since students progress through their program at their own pace, applying for graduation is the only way to let the university know when you intend to graduate. It then affords the university time to review your progress, submit any necessary adjustments, prepare your diploma and forward your information to the Commencement Office for inclusion in the ceremonies.
2. **How do I know when I'm ready to graduate?**
   One of the best tools to track your progress in your program is the GPS degree audit, which combines your declared program's requirements with your course registration and final grades. You can find your audit by logging into FlashLine and clicking on the "Student" tab; the GPS Audit and Plan is on the dashboard.
3. **How soon can I apply before the deadline?**

The online application for graduation typically is available anywhere from six to nine months PRIOR to the deadline. For specific dates, you can consult the Financial Aid, Billing and Enrollment Center website.

Additional FAQ: Graduation

Definitions

Commencement: Commencement is the formal ceremony that commemorates degree/certificate candidates.

Flashline: FlashLine is the web-based portal (entryway) for Kent State students, faculty, staff and alumni. For help with FlashLine, call 330-672-HELP (4357) or visit Tech Help.

GPS Degree Audit: The GPS (Graduation Planning System) degree audit is the official list of degree requirements merged with students' individual academic records to provide a real-time assessment of their progress toward graduation.

Graduation: The status of completion of a degree program.

Revision History

Amended August 2025: Revised policy to more accurately follow current practice and specify the distinction between graduation and commencement. Specific changes include removal of late application fee and change in language of awarding of certificates at commencement.

Amended 2009: Revised policy adds a fee for students submitting a late application for graduation.

Amended 1993: Revised policy changes application deadlines for undergraduate programs: from 10th week of the spring semester to March 15 for December graduation; from second week of the fall semester to September 15 for May graduation; and from last week of the fall semester to December 15 for August graduation.

Graduation Planning System (GPS)

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2012
Next Review: Fall 2035

Policy Statement

The Graduation Planning System (GPS) is the degree audit tool used by Kent State University to provide a real-time assessment of students' progress in their declared academic program and is the official record that determines eligibility for graduation. The audit is a direct reflection of the requirements outlined in the University Catalog and is merged with the student's academic record.

Reason For Policy

In addition to being a tool for students to use to track their progress in their declared program of study, the Graduation Planning System is also the authority for program completion and graduation.

Procedures

There are no procedures associated with this policy.

Forms/Instructions

GPS Audit and Plan can be accessed in the Advising and GPS channel (Student Tools and Courses tab) in **FlashLine.**

Additional Resources

- Academic Advising (Schedule an Appointment)
- Financial, Billing and Enrollment Center
- Introduction to the GPS Audit and Student Manual
- Manage My Program for Students (Change My Program)

Frequently Asked Questions

1. **Are the requirements listed in my GPS the same as in the catalog?**
   Yes. The requirements listed on your GPS audit reflect those listed in the University Catalog for your declared catalog year for each program. Your GPS audit, as an extension of the university catalog, is the official contract between you and the university in terms of the requirements you need to complete to earn your program.
2. **How do I find my GPS audit?**
   You can find your audit by logging into FlashLine and going to the "Student" tab; the GPS Audit and Plan is on the dashboard. It is also listed under "Resources" and then "Advising and GPS." You also can use the search bar in FlashLine and enter "GPS."
3. **If I think a course should be applying to my program on my audit, but is not, what should I do?**
   You should meet with your academic advisor and/or program coordinator to discuss any discrepancies you may have. If there is a correction that needs to be made, they will submit the request to update the audit on your behalf.
4. **How current is the information on my audit?**
   Information in your audit is updated nightly from Kent State's student information system (Banner). To be certain that your audit information is refreshed, you should always click on the "Process" button when you view your audit.

More FAQ can be found on the GPS website.

Definitions

Catalog: A term identifying the catalog that contains the requirements defining a student's academic program. Initially, it is the Catalog in force during the student's first semester at Kent State University.

Catalog in Force: The University Catalog for the current academic year. Example: In fall semester 2024, spring semester 2025 and summer term 2025, the Catalog in force is the 2024-2025 University Catalog.

FlashLine: FlashLine is the web-based portal (entryway) for Kent State students, faculty, staff and alumni. For help with FlashLine, call 330-672-HELP (4357) or visit Tech Help.

GPS Degree Audit: The GPS (Graduation Planning System) degree audit is the official list of degree requirements merged with students' individual academic records to provide a real-time assessment of their progress toward graduation.

Office of the University Registrar: The university office that plans and oversees academic scheduling, academic records, credit transfer, graduation, transcript processing, and system support and compliance reporting.

Policy Statement

Graduation with Latin Honors

Candidates for bachelor's degrees who demonstrate high levels of scholarship throughout their undergraduate years will graduate with Latin honors. To graduate with this recognition at Kent State University, students must achieve one of the following criteria:

- Earn a minimum 60 credit hours at Kent State and earn a minimum 3.500 Kent State GPA; or
- Earn at least 30 but fewer than 60 credit hours at Kent State and earn a minimum 3.500 Kent State GPA and earn a minimum 3.500 transfer GPA

There are three levels of Latin honors at graduation with a bachelor's degree:

- *Cum laude* — Student has earned a Kent State GPA of 3.500 to 3.699.
- *Magna cum laude* — Student has earned a Kent State GPA of 3.700 to 3.899.
- *Summa cum laude* — Student has earned a Kent State GPA of 3.900 to 4.000.

The Kent State GPA for determining Latin honors is calculated from all grades earned in undergraduate courses at Kent State University, including original grades forgiven and/or recalculated under other policies. The transfer GPA is calculated from all grades earned in undergraduate transfer courses that were awarded college credit by Kent State and completed prior to the student's most recent admission to Kent State. The GPA for both is extended to three decimal places and not rounded up.

Because grades in courses taken in the student's final term are not official until after commencement, Latin honors candidates will be recognized at the commencement ceremony based on all their Kent State academic work completed prior to those courses. However, the final term grades will be used in determining honors posted to the transcript and the diploma. Honor citations are inscribed on diplomas as follows: cum laude, magna cum laude and summa cum laude.

Graduation with Distinction

Candidates for associate degrees who demonstrate high levels of scholarship throughout their coursework will graduate "with distinction." To graduate with this recognition, students must achieve the following criteria:

- Earn a minimum 30 credit hours at Kent State University, and
- Earn a minimum 3.500 Kent State University GPA

A Kent State GPA is calculated from all grades earned in undergraduate courses at Kent State University, including original grades forgiven and/or recalculated under other policies. The GPA used to determine the "with distinction" designation is extended to three decimal places and not rounded up.

Because grades in courses taken in the student's graduation term are not official until after commencement, distinction candidates will be recognized at the commencement ceremony based on all their Kent State academic work completed prior to those courses. However, the final term grades will be used in determining the "graduated with distinction" recognition posted to the transcript and the diploma.

Reason for Policy

Students who achieve high academic performance as evidenced in their grade point average receive recognition on their transcript and diploma and during the commencement ceremony.

Forms/Instructions

There are no forms associated with this policy.

Frequently Asked Questions

1. **Can any student earn Latin honor?**
   To qualify for Latin honors, students must (1) be awarded a bachelor's degree, (2) earn a minimum of 60 semester credit hours of Kent State courses and (3) meet the minimum criteria for one of the three honors level as listed in the policy. Students who are being awarded a bachelor's degree with fewer than 60 semester credit hours of Kent State courses still may qualify for Latin honors if they have a minimum 3.500 transfer GPA and meet the minimum criteria for one of the three honors level at listed in the policy.

2. **Will a student's transfer GPA (if one) always be calculated for eligibility for Latin honors?**
   No, the transfer GPA will factor into eligibility only for students being awarded a bachelor's degree with fewer than 60 credit hours of Kent State courses.
3. **How is a student's transfer GPA calculated for eligibility for Latin honors?**
   The transfer GPA is calculated from all grades for undergraduate transfer courses awarded college credit at Kent State and completed prior to the student's most recent admission to Kent State.

Additional FAQ: Graduation Honors

Definitions

Cum laude: A recognition with honor; from the Latin *cum* ("with") and *laude* (ablative of *lause*, "praise").

GPA (Grade Point Average): An indication of a student's academic achievement at Kent State University, determined by the number of credit hours attempted at Kent State University and the grades received. The Kent State GPA is calculated to three places past the decimal point and not rounded.

Magna cum laude: A recognition with great honor; from the Latin *cum* ("with"), *magna* (plural of *magnum*, "great") and *laude* (ablative of *lause*, "praise")

Summa cum laude: A recognition with the highest honor; from the Latin *summa* (feminine of *summus*, "highest," "greatest"), *cum* ("with") and *laude* (ablative of *lause*, "praise")

- Graduation

Revision History

Amended December 2019: Institutional Honors for bachelor's degree students is revised to allow eligibility for students who do not meet the requirement of 60 Kent State semester credit hours but have a minimum 3.500 transfer GPA at the point of admission to Kent State. Policy is renamed Latin honors. Graduation with Distinction for associate degree students is revised to decrease minimum Kent State credit hours for eligibility, from 32 to 30 semester credit hours.

Amended May 2016: Institutional Honors for bachelor's degree students is revised to increase minimum overall GPA criteria to earn cum laude (from 3.300 to 3.500), magna cum laude (from 3.600 to 3.700) and summa cum laude (from 3.800 to 3.900).

Amended August 2012: Institutional Honors for bachelor's degree students is revised to extend the GPA to three decimal points and not round up to determine honors. Graduation with Distinction for associate degree students is revised to extend the GPA to three decimal points and not round up to determine distinction.

Amended May 2008: Institutional Honors for bachelor's degree students is revised to round up the GPA to determine honors. Graduation with Distinction for associate degree students is revised to round up the GPA to determine distinction.

Amended May 1996: Graduation with Distinction for associate degree students is revised to remove inclusion of other institution grades, with the GPA calculated with only Kent State courses. Revised policy also establishes a requirement that students earn minimum 32 semester credit hours at Kent State for distinction eligibility.

Amended December 1995: Honors for bachelor's degree students is revised to increase the required Kent State credit hours for honors eligibility, from the minimum credit hours required for a bachelor's degree to 64 semester credit hours. Revised policy also removes inclusion of other institution grades, with the GPA calculated with only Kent State courses. Policy is renamed Institutional Honors.

Amended December 1995: Honors is revised to clarify that the GPA to determine honors is extended two decimal points and not rounded up.

Amended August 1976: Honors is revised to decrease the required Kent State credit hours for honors eligibility, from 96 quarter credit hours (64 semester credit hours) to the minimum credit hours required for a bachelor's degree (48 quarter or 32 semester credit hours). Graduation "With Distinction" is established for students earning an associate degree with a minimum overall 3.5 GPA earned at Ken State and other institutions.

Amended March 1968: Honors for High Scholarship is revised to clarify that students must have minimum 96 quarter credit hours (64 semester credit hours) of Kent State coursework to be eligible. Policy is renamed Honors.

Amended June 1956: Honors for High Scholarship is revised to base honors eligibility on only students' overall GPA with stipulation that at least one half of the students' courses must be taken at Kent State.

Effective June 1937: Establishes a formal Honors for High Scholarship recognition, awarded by vote of university faculty for graduating students who earned a minimum overall GPA of 3.3 (cum laude), 3.6 (magna cum laude) and 3.8 (summa cum laude) at Kent State and other institutions.

Incomplete Mark Policy

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

The mark IN (Incomplete) may be given to students who—due to extenuating circumstances—are unable to complete the required work between the course withdrawal deadline and the end of classes. The timeline shall be adjusted appropriately for summer sessions and flexibly scheduled courses. The IN mark is not counted in grade point averages.

To be eligible to request an incomplete mark for a course that was not completed due to extenuating circumstances, undergraduate students must be earning a minimum D grade, and graduate students must be earning a minimum C grade, in the course at the time of the request. Appropriate documentation is required to support the extenuating circumstance.

The student or university-approved designee must request the IN mark from the instructor of the course, and it is the responsibility of the student to arrange to make up the incomplete work. After the instructor approves the request, the instructor must initiate the request by submitting an Incomplete Mark Contract workflow to the department chair/school director prior to the grading deadline. This electronic workflow includes justification for awarding the Incomplete, describes the work to be completed for the course and specifies the grade to be

assigned if the work is not completed (default grade). The Incomplete Mark Contract is sent electronically to the student.

When the work is completed, an appropriate grade will be assigned—based on the instructor's evaluation of the work submitted—and a new grade point average computed.

If the student does not complete and receive a grade, or is not granted an extension, the student's IN mark for the course automatically will lapse to the default grade designated on the Incomplete Mark Contract:

1. at the end of one semester for undergraduate courses or
2. at the end of three consecutive terms for graduate courses.

If the student is granted an extension and does not complete and receive a grade by the deadline, the student's IN mark for the course automatically will lapse to the default grade designated on the Incomplete Mark Contract at the end of the term in which the extension deadline occurs.

Industry-Recognized Certifications, Examinations and Professional Training

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State accepts many industry-recognized certifications, examinations and professional training as prior learning credit applicable toward degree programs upon programmatic approval. Kent State awards academic credit following recommendations from the American Council on Education (ACE) and the Ohio Department of Higher Education. Official documentation from the issuing company or professional organization must be submitted to Kent State before credit can be applied to a student's academic record.

Industry-recognized certifications, examinations and professional training that is not evaluated by ACE may be considered for academic credit. Students who wish to request credit for training not yet evaluated must complete the industry/training credit application, including submission of all documentation to determine whether academic credit is to be awarded. All credit for industry/professional training appears on the student transcript without a grade.

Students should contact the Credit Transfer Office for more information on the types of certifications, examinations and professional training accepted and the approval process. Official documentation from the issuing agency must be submitted to Kent State before the credit can be applied to a student's academic record.

International Baccalaureate (IB)

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Students who complete the International Baccalaureate (IB) Diploma Programme, a rigorous two-year course of pre-university studies in their high school, may be awarded credit toward a degree or certificate at Kent State. An official IB transcript must be submitted to Kent State before the credit can to be applied to a student's academic record. (A notation on a high school transcript will not be accepted.)

Kent State accepts scores of 5, 6 or 7 for higher-level (HL) and standard-level (SL) IB exams toward specific course equivalencies and general education requirements (e.g., Kent Core, diversity). Visit the Credit Transfer Office's IB website for more information on these scores and credits earned.

Language Requirement for Graduate Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

All students must demonstrate proficiency in both oral and written English, which is the language of graduate study at Kent State. Judgment of such competence rests with the appropriate major department. Deficiency in English is cause for dismissal from any graduate program.

There is no universal foreign language or research tool requirement. Individual departments or discipline areas may have specific requirements. Students should consult their individual departments. The appropriate languages are determined by the student's major department. Language requirements (if any) must be completed before doctoral students are admitted to candidacy. Special arrangements for examinations in other languages must be made by the student's major department in consultation with the chair of the Department of Modern and Classical Language Studies. Where required, the language examination used to establish a student's language proficiency is determined by the student's department. The examination may be a departmentally designed and administered test. Dates for departmentally administered tests are set by the department.

GER 61901 and GER 61902 have been instituted to develop reading proficiency in German. Reading proficiency is demonstrated when the student completes both GER 61901 and GER 61902 with a minimum B grade. Credit hours earned in these courses are not applicable toward the completion of the hour requirement in a student's graduate program and do not count toward the minimum 8-credit-hour semester load required.

Leave of Absence for Graduate Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

A leave of absence is granted for degree-seeking graduate students in active status who must be away from their studies for one or more semesters for personal, family, financial or other compelling reasons. Prior to applying for a leave of absence, students should consider its potential implications for such matters as funding (including assistantships and veterans benefits), loan repayment, immigration status, health insurance, university housing and time-to-degree completion.

International students should contact the Office of Global Education before the initiation of a leave of absence and before returning to campus to ensure compliance with immigration regulations and visa restrictions.

To be eligible for a leave of absence, a student must be seeking a graduate degree, have completed at least one full term of enrollment prior to the date a leave is to begin, be in good academic standing and be making reasonable progress toward the degree. Leaves will not be granted to students who fit one of the following criteria:

- Completed less than one full term of enrollment
- Not in good academic standing
- Received an extension of the degree time limit

Leaves of absence are granted for a maximum of three consecutive terms (e.g., fall, spring, summer).[1] Students may request an extension

for maximum one additional term. Although a leave may be taken for as many as 12 months, students are encouraged to return to graduate study as soon as is reasonably possible to minimize the impact of the leave on degree progress. The time taken on an approved leave of absence is not included in the time limitations for degree completion and advancement to candidacy, with the exception of the Doctor of Podiatric Medicine degree.

[1] Refer to the College of Podiatric Medicine section in the University Catalog for leave of absence time limits and procedures for requesting a leave of absence for the Doctor of Podiatric Medicine degree.

The Request for Leave of Absence form should be submitted prior to the start of the term for which the leave is requested, when the necessity for leave is foreseeable. If the need for a leave is not foreseeable, the request should be submitted as soon as possible, but no later than the last day of classes in the term during which the leave has been taken. A retroactive leave of absence will not be granted.

When a department/school grants a leave of absence, it implies the program will be willing to re-admit the student. A plan for re-admission, including any conditions that must be met, should be put in writing and clearly understood by all parties prior to the start of the leave.

Students who are registered for courses must drop or withdraw from all courses prior to taking leave. Course withdrawal does not negate a student's financial obligation, and students will be held responsible for all balances due to the university. Any applicable refunds will be processed per university policy 7-06 regarding student fee refunds, see the Policy Register. Students are advised to check with the Financial, Billing and Enrollment Center prior to taking an approved leave of absence in order to determine the status of their student accounts. Accounts that are overdue will be subject to regular procedures in accordance with university guidelines, notwithstanding any approved leave of absence.

Course withdrawal is not permitted after the tenth week of the fall and spring semesters (or the prorated deadline for flexibly scheduled sections and summer terms). Students applying for a leave of absence after the course withdrawal deadline should address grading and course completion issues with their individual instructors. To consider any variation from this rule for reasons of extenuating circumstances, the student must submit a Petition for Exception to Registration to the University Registrar.

Students on a leave of absence are not registered and, therefore, do not have the rights and privileges of registered students, including course pre-registration and access to the libraries, recreational center and health services. They cannot fulfill any official department or university requirements during the leave period, such as taking qualifying exams or submitting a dissertation/thesis. Students on an approved leave must complete the Application for Graduate Re-Enrollment form in order to register for classes and have the rights and privileges of registered students.

If a student does not return to the graduate program within the approved period for which the leave of absence was granted, he or she will be considered as having permanently withdrawn from the university. To be reconsidered for graduate study, students who have permanently withdrawn must formally apply to their program of interest, including the submission of an application, the non-refundable application fee and any necessary application materials.
University Catalog

Mathematics Placement

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

In addition to the remediation-free standards established by the Ohio Department of Education, Kent State's Department of Mathematical Sciences accepts the following for students in a program that does not require higher levels of mathematics (i.e., non-algebra track):

- Students with a 3.00 overall high school GPA or higher may take MATH 10040 or MATH 10050, regardless of their score on assessments mentioned in the standards listed above.
- Student with a 3.50 overall high school GPA or higher may take MATH 10041 or MATH 10051 regardless of their score on assessments mentioned in the standards listed above.

All undergraduate degree programs require the successful completion of the Kent Core Mathematics and Critical Reasoning requirement. Some programs may require specific mathematics course(s). Placement into mathematics courses is determined by a student's score on the ALEKS placement assessment and/or the ACT or SAT score or scores on the other listed assessments. Not all students need to take the ALEKS mathematics placement assessment, and students should check their "My Lists" checklist in FlashLine for that determination. However, all students scoring below 22 on ACT mathematics or below 530 on SAT mathematics or below the threshold in the other listed assessments need to take the ALEKS placement assessment.

Students may improve their initial placement score by working in an individualized learning module on ALEKS, then retaking the ALEKS mathematics placement assessment. They have free access to their learning modules and reassessment for one year from their initial assessment. Students who score 80 percent mastery in the learning modules have an excellent chance of improving their placement through a proctored reassessment.

Students deemed remediation-free in mathematics , as described in the table above, or with an overall 3.5 high school GPA or higher, may register for one of the following courses, as required by their major.

- Algebra Track: MATH 10675, MATH 10771, MATH 10772
- Non-Algebra Track: MATH 10041, MATH 10051, MATH 11008

Remediation-free students who want to register for a course other than the ones listed above may take the ALEKS mathematics placement assessment.

Students who are not deemed remediation-free in mathematics, as described in the table above, must take the ALEKS mathematics placement assessment to determine the course they should take as required by their major.

Additional information regarding placement after taking the ALEKS assessment may be found on the Department of Mathematical Sciences website.

Midterm Evaluation

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2024
Last Reviewed: Spring 2015
Last Revised: Fall 2016
Next Review: Fall 2028

Policy Statement

A midterm evaluation grade is submitted between the fourth and seventh week for all students in lower-division undergraduate courses (levels 00000, 10000, 20000). Midterm evaluation grades are not given for summer or flexible-scheduled courses due to the short duration of these offerings. Midterm results are available to academic advisors and college/school/campus deans for the purpose of intervening when achievement is considered unsatisfactory according to program or university requirements. Students will be able to view their midterm evaluation grades in FlashLine for the fall or spring semester in progress. Midterm evaluation grades are not included as part of the students' academic transcript, nor are they included in a student's grade point average (GPA).

Reason For Policy

Research has shown that early and frequent assessments are important to student success because they can help students not only have a sense of how they are doing in their courses, but also help to improve their final grade. Midterm evaluations are a snapshot of how a student is performing in the course and allows time to seek help and make adjustments. While midterm grades are encouraged for all undergraduate students, lower-level classes are targeted due to the high concentration of new students who may be experiencing college courses for the first time. There are additional opportunities for students to see their progress in a course either by viewing the course grades in Canvas or talking with the faculty member teaching the course.

Procedures

Students can log into their FlashLine account to view their midterm grades. Faculty can submit midterm grades as early as the fourth week and through the seventh week.

Forms/Instructions

There are no forms associated with this policy.

Frequently Asked Questions

1. **What do midterm grades mean?**
   Midterm grades are an early signal from your instructor about how you are doing in the course at the time the grade is submitted. Because courses can vary in the rhythm of assignments and how those assignments are weighted, your midterm grades will likely mean different things for each of your courses. While a midterm grade is not part of your permanent Kent State record, you should use your midterm grades as important and helpful feedback.
2. **Where can I see my midterm grades?**
   You will need to log in to FlashLine to view your midterm grades. In Flash, under Student Resources, select Grades and Transcripts, then click on View Midterm Grades.
3. **When can I view my midterm grades?**
   Faculty can submit the grades any time between the fourth and seventh week of the semester. You can see them in FlashLine as soon as they are submitted. Check back often as additional grades may appear. All grades must be in by the end of the seventh week.

Additional FAQ: Midterm Evaluation

Definitions

Academic Advising: Advising helps students clarify their career goals, reach their maximum educational potential and achieve academic success. Academic advisors address student needs related to learning, personal development and career aspirations; recognize and respond to diverse individual needs and differences among students; and help students plan and implement academic programs of study in a manner that will ensure timely progress toward graduation.

Canvas: Cloud-based learning management system (LMS) that allows instructors to manage their courses, including posting materials, assignments, quizzes and grades. Through Canvas, students can submit assignments, participate in discussions, view course materials and their grades.

FlashLine: Web-based portal (entryway) for Kent State students, faculty, staff and alumni.

GPA (Grade Point Average). A number that is determined by the number of credit hours attempted at Kent State University and the grades received. The GPA is calculated to three places past the decimal point and not rounded.

Lower Division Courses: (10000, 20000): Courses that are for freshmen, sophomores and others with little or no background in the discipline. Generally, these courses provide the understanding, foundation and preparation for more advanced study (although a pathway for more advanced study is not always required, and they may be ends in themselves).

Transcript: An accurate and complete record of a student's academic coursework attempted at an institution, presented in either electronic format or paper format.

Revision History

Amended August 2024: Policy is revised to include more explanation to help students understand the meaning and purpose of midterm evaluation. Faculty may now submit mid-term evaluations for upper-division courses if they choose.

Amended August 2016: Policy is revised to extend the midterm evaluation to students in all lower-division (00000-20000) courses. In addition, window for submitting evaluations starts earlier, between the fourth and seventh week.

Effective September 1979: Mention of a midterm evaluation is first listed in the Undergraduate Catalog. All freshmen who have completed less than 32 credit hours receive a mid-term evaluation in the seventh week.

Military Training

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State University awards academic credit for military coursework according to recommendations listed on the Joint Services Transcript (JST). All eligible credits must be recognized by the American Council on Education (ACE). Kent State awards Military Transfer Assurance Guide (MTAG) coursework for articulated credit as established by the Ohio Department of Higher Education. Service members can visit Kent State's Credit Transfer Office website for information regarding requesting and submitting military transcripts.

Service Examinations: Credit is awarded for some experiences in basic training that are equivalent to specific beginning Physical Activity, Wellness and Sport (PWS) courses at Kent State University. Credit is awarded on the basis of recommendations from the School of Teaching, Learning and Curriculum Studies in the College of Education, Health and Human Services.

In order for credit to be granted in any of the above areas, a transcript or certificate of completion or a veterans DD 214 form is required. In addition, Kent State reserves the right to set the percentile score that is necessary for satisfactory performance in a course and for the granting of credit. Credit will not be given for duplicate work taken through any of these agencies.

Military Transfer Credit Appeals Process

Students must submit, in writing, a letter of appeal regarding their military transfer credit to the Credit Transfer Office c/o Kent State University. Upon recommendation by the Transfer Review Committee, students will be notified of the outcome, in writing. Information regarding the standards for satisfactory performance or to submit an appeal may be found on the Credit Transfer Office website.

Minors

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

An academic minor is a curriculum component, smaller than the major, which enables a student to make an inquiry into a discipline or field of study or to investigate a particular theme. The purpose of a minor is to provide formalized guidance to students in selecting courses in a field or content area that is outside the major and to provide formal recognition of that work on the transcript. The courses in the minor may be centered in a specific department or be drawn from several departments, as in the case of an interdisciplinary topical or thematic focus.

Students may not pursue a minor and a major in the same discipline. A minimum of 6 credit hours in the minor must be outside of the course requirements for any major or other minor the student is pursuing.

Undergraduate Minors

An undergraduate minor is minimum 12 credit hours and normally contains between 18 and 25 credit hours, with a minimum of 6 of those hours being upper-division credit and a minimum 50 percent of the total hours in residence.

Students must formally declare a minor, similar to the process by which they declare the major. Students in a bachelor's or an applied associate degree (e.g., A.A.B., A.A.S.) or the Associate of Technical Study (A.T.S.), of which there is a major, may declare a minor. Students in a generalist associate degree (e.g., A.A., A.S., A.T.S.–Individualized Program) may not declare a minor.

Graduate Minors

A graduate minor is minimum 9 credit hours, with a minimum 50 percent of the total credit hours taken at Kent State.

Students must be admitted to a master's, post-master's or doctoral degree to declare a graduate minor. Students formally declare a minor through the change of program application, which must be approved by the college administrating the students' major and the college administrating the chosen minor.

Ohio Articulation and Transfer Policy

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2021
Next Review: Fall 2035

Policy Statement

Institutional Transfer

The Ohio Department of Higher Education in 1990, following a directive of the 118th Ohio General Assembly, developed the Ohio Articulation and Transfer Policy to facilitate students' ability to transfer credits from one Ohio public college or university to another in order to avoid duplication of course requirements. A subsequent policy review and recommendations produced by the Articulation and Transfer Advisory Council in 2004, together with mandates from the 125th Ohio General Assembly in the form of Amended Substitute House Bill 95, have prompted improvements of the original policy. Additional legislation from the 125th Ohio General Assembly also initiated the development of a statewide system for articulation agreements among state institutions of higher education for transfer students pursuing teacher education programs.

Action by the 126th Ohio General Assembly led to the establishment of criteria, policies, and procedures for the transfer of technical courses completed through a career-technical education institution; and standards for the awarding of college credit based on Advanced Placement (AP) test scores.

Legislation from the 130th Ohio General Assembly required public institutions of higher education to: use baseline standards and procedures in the granting of college credit for military training, experience, and coursework; establish an appeals process for resolving disputes over the awarding of credit for military experience; provide specific assistance and support to veterans and service members; adopt a common definition of a service member and veteran; and establish a credit articulation system in which adult graduates of public career-technical institutions who complete a 900 clock-hour program of study and obtain an industry-recognized credential approved by the chancellor shall receive 30 college technical credit hours toward a technical degree upon enrollment.

While all public colleges and universities are required to follow the Ohio Articulation and Transfer Policy, independent colleges and universities in Ohio may or may not participate in the Transfer Policy. Therefore, students interested in transferring to independent institutions are encouraged to check with the college or university of their choice regarding transfer agreements. In support of improved articulation and transfer processes, the Ohio Department of Higher Education has established an articulation and transfer clearinghouse to receive, annotate, and convey transcripts among public colleges and universities.

This system is designed to provide standardized information and help colleges and universities reduce undesirable variability in the transfer credit evaluation process.

Acceptance of Transfer and Articulated Credit

To recognize courses appropriately and provide equity in the treatment of incoming transfer students and students native to the receiving institution, transfer credit will be accepted for all successfully completed college-level courses completed in or after fall 2005 from Ohio public institutions of higher education. Students who successfully completed Associate of Arts (A.A.) or Associate of Science (A.S.) degrees prior to fall 2005 with a 2.0 or better overall grade-point average would also receive credit for all college-level courses they have passed. While this reflects the baseline policy requirement, individual institutions may set equitable institutional policies that are more accepting.

Pass/Fail courses, credit-by-examination credits, experiential learning courses and other non-traditional credit courses that meet these conditions will also be accepted and posted to the student record.

Application of Transfer and Articulated Credit

Application of credit is the decision process performed by the receiving institution to determine how the credits it has accepted and recorded on the student's official academic transcript will or will not apply toward program and degree requirements. While the receiving institution makes this decision, it will do so within the parameters of this Policy.

The following guidelines and requirements shall govern the application of transfer and articulated credit:

Ohio Transfer 36

The Ohio Transfer 36 (previously called the Ohio Transfer Module or OTM) is a subset or the entire set of a public higher education institution's general education curriculum in Associate of Arts (A.A.), Associate of Science (A.S.) and bachelor's degree programs. Students in applied associate degree programs may complete some individual Ohio Transfer 36 courses within their degree program or continue beyond the degree program to complete the entire Ohio Transfer 36. The Ohio Transfer 36 contains 36-40 semester or 54-60 quarter hours of course credit in English composition (minimum of 3 semester or 5 quarter hours); mathematics, statistics and logic (minimum of 3 semester or 3 quarter hours); arts and humanities (minimum of 6 semester or 9 quarter hours); social and behavioral sciences (minimum of 6 semester or 9 quarter hours); and natural sciences (minimum of 6 semester or 9 quarter hours). Oral communication and interdisciplinary areas may be included as additional options. Additional elective hours from among these areas make up the total hours for a completed Ohio Transfer 36. Courses for the Ohio Transfer 36 should be 100- and 200-level general education courses commonly completed in the first two years of a student's course of study. Each public university and technical and community college is required to establish and maintain an approved Ohio Transfer 36.

Ohio Transfer 36 course(s) or the full 36 completed at one college or university will automatically meet the requirements of individual Ohio Transfer 36 course(s) or the full Ohio Transfer 36 at another college or university once the student is admitted. Students may be required, however, to meet additional general education requirements at the institution to which they transfer. For example, a student who completes the Ohio Transfer 36 at Institution S (sending institution) and then transfers to Institution R (receiving institution) is said to have completed the Ohio Transfer 36 portion of Institution R's general education program. Institution R, however, may have general education courses that go beyond its Ohio Transfer 36. State policy initially required that all courses in the Ohio Transfer 36 be completed to receive its benefit in transfer. However, subsequent policy revisions have extended this benefit to the completion of individual Ohio Transfer 36 courses on a course-by-course basis.

Transfer Assurance Guide (TAG)

The Transfer Assurance Guide (TAG) comprise Ohio Transfer 36 courses and additional courses required for an academic major called TAG courses. A TAG is an advising tool to assist Ohio university and community and technical college students in planning for specific majors and making course selections that will ensure comparable, compatible, and equivalent learning experiences across Ohio's public higher education system. A number of area-specific TAG pathways in meta-majors including the arts, humanities, business, communication, education, health, mathematics, sciences, engineering, engineering technologies, social sciences and foreign languages have been developed by faculty teams.

TAGs empower students to make informed course selection decisions and plans for their future transfer. Advisors at the institution to which a student wishes to transfer should also be consulted during the transfer process. Students may elect to complete the full TAG or any subset of courses from the TAG. Because of specific major requirements, early identification of a student's intended major is encouraged.

Career-Technical Assurance Guide (CTAG)

Collaboration among the Ohio Department of Higher Education, the Ohio Department of Education and other key stakeholders led to the development of policies and procedures to create statewide career-technical discipline specific articulation agreements and further ensure that students completing coursework at an adult or secondary career-technical institution can articulate and transfer agreed-upon technical courses/programs to any Ohio public institution of higher education and among Ohio public institutions of higher education "without unnecessary duplication or institutional barriers."

Career-Technical Assurance Guides (CTAG) are statewide articulation agreements that guarantee the recognition of learning which occurs at public adult and secondary career-technical institutions and have the opportunity for the award of college credit toward technical courses/programs at any public higher education institution. CTAG serve as advising tools, identifying the statewide content guarantee and describing other conditions or obligations (e.g., program accreditation or industry credential) associated with the guarantee.

Military Transfer Assurance Guide (MTAG)

In response to the legislative requirement (Ohio Revised Code 3333.164) to create a military articulation and transfer assurance guide for college-level learning that took place through military training, experience, and coursework, college credit will be granted to students with military training, experience, and/or coursework that is recognized by the American Council on Education (ACE) or a regionally accredited military institution, such as Community College of the Air Force

In order to streamline the awarding, transferability and applicability of college credit, service members and veterans are guaranteed to earn certain types of credit(s) or course(s) as specified in the Military Transfer Assurance Guides (MTAG), which are based on the endorsed baseline standards and procedures by the chancellor. Equivalent course(s), credits for courses or block of credit is to be awarded and applied towards general education and/or major course requirements at the receiving

institution in accordance with the MTAG guarantee. There is some training, experience, and coursework that the receiving institution may be able to award college credit only toward general or free electives.

In addition, public institutions of higher education shall ensure that appropriate equivalent credit is awarded for military training, experience, and coursework that meet the baseline standards and procedures according to the Ohio Revised Code 3333.164. This requirement goes beyond credit/course awarded based on the MTAG alignment process.

Apprenticeship Pathway Programs

The apprenticeship pathways initiative advocates for individuals completing apprenticeships by incorporating their learning into academic credit, thereby saving them time and money and encouraging them to advance their academic credentials to contribute to a strong, educated workforce.

Ohio apprenticeship programs partner with public two-year institutions to provide technology-specific statewide articulation agreements that recognize non-traditional prior learning. College credit is awarded toward a technical associate degree. Each agreement simplifies student advising by outlining how apprenticeship training in a certain pathway applies to an applied associate degree and lists remaining courses required to complete the degree. The application of the credit toward a technical associate degree in these agreements is guaranteed at the participating receiving institutions.

Advanced Placement (AP) Exams

The State of Ohio, working with public institutions of higher education, has initiated policies to facilitate the ease of transition from high school to college, as well as between and among Ohio's public colleges and universities.

Beginning in the fall semester 2009:

1. Students obtaining an Advanced Placement (AP) exam score of 3 or above will be awarded the aligned course(s) and credits for the AP exam area(s) successfully completed.
2. General education courses and credits received will be applied towards graduation and will satisfy a general education requirement if the course(s) to which the AP area is equivalent fulfill(s) a requirement.
3. If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.
4. Additional courses or credits may be available when a score of 4 or 5 is obtained. Award of credit for higher score values varies depending on the institution and academic discipline.

In academic disciplines containing highly dependent sequences (Sciences, Technology, Engineering and Mathematics – STEM) students are strongly advised to confer with the college/university advising staff to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

College-Level Examination Program (CLEP)

The State of Ohio, working with public institutions of higher education and statewide faculty panels, has developed policies to recognize students' prior learning and to facilitate the articulation and guaranteed transfer of such learning between Ohio's public colleges and universities.

College credit is guaranteed for students who achieve an established College-Level Examination Program (CLEP) test score for exams that have been endorsed statewide as college level. Statewide faculty panels aligned CLEP exams to equivalent Ohio Transfer 36 and Transfer Assurance Guide (TAG) courses, as appropriate. If an equivalent course is not available for the CLEP exam area, by default, endorsed elective or area credit will still be awarded and applied towards graduation.

Specific endorsed alignments and scores for individual CLEP exams that are outlined in the College-Level Examination Program (CLEP) Endorsed Alignment Policies document are available on the Ohio Department of Higher Education website.

Associate of Technical Studies Pathway

The Associate of Technical Studies Pathway (previously called the One-Year Option) builds upon Ohio's articulation and transfer system to help more adults accelerate their preparation for work by earning a technical associate degree. Consistent with the philosophy of the Career-Technical Assurance Guides (CTAG), the Ohio Technical Centers (OTC) Degree Pathway guarantees that college credit will be awarded for college-level learning that occurs through approved Ohio Technical Centers.

Adults who complete a career-technical education program of study consisting of a minimum of 900 clock-hours and achieve an industry-recognized credential approved by the chancellor shall receive 30 semester credit hours of technical course credit toward a standardized Associate of Technical Study (A.T.S.) degree upon matriculation at a public institution of higher education that confers such a degree. The 30 semester credit hours will be awarded as a block of credit rather than credit for specific courses. Proportional credit is to be awarded toward the A.T.S. degree for adults who complete a program of study between 600 and 899 clock hours and achieved an industry-recognized credential approved by the chancellor.

The credit earned through the Associate of Technical Studies Pathway will be applied to Kent State's A.T.S.degree, Individualized Program.

Conditions for Transfer Admission

1. Graduates who are considered transfer students under the Integrated Postsecondary Education Data System (IPEDS) definition with associate degrees from Ohio's public institutions of higher education and a completed, approved Ohio Transfer 36 shall be admitted to a public institution of higher education in Ohio, provided their cumulative grade-point average is at least 2.0 for all previous college-level courses and and other institutional admission criteria, such as space availability, adherence to deadlines, payment of fees and grade-point average that are fairly and equally applied to all undergraduate students, have also been satisfied. Further, these students shall have admission priority over graduates with an out-of-state associate degree and other transfer students with transferable and/or articulated college credit.
2. Associate degree holders who are considered transfer students under the IPEDS definition and have not completed the Ohio Transfer 36 from an Ohio public institution of higher education will be eligible for preferential consideration for admission as transfer students as long as the institution's admission criteria, such as the minimum academic standards, space availability, adherence to deadlines and payment of fees, are fairly and equally applied to all undergraduate students.
3. In order to encourage completion of the bachelor's degree, students who are not enrolled in or who have not earned an degree but have earned 60 semester/90 quarter hours or more of credit toward a

bachelor's degree with a cumulative grade-point average of at least a 2.0 for all previous college-level courses will be eligible for preferential consideration for admission as transfer students as long as the institution's admission criteria, such as the minimum academic standards, space availability, adherence to deadlines and payment of fees, are fairly and equally applied to all undergraduate students.

4. Students who have not earned an associate degree or who have not earned 60 semester credit hours (90 quarter credit hours) with a minimum 2.000 GPA for all previous college-level courses will be eligible for admission as transfer students on a competitive basis.
5. Incoming transfer students admitted to a college or university shall compete for admission to selective programs, majors, and units on an equal basis with students native to the receiving institution.

The admission of transfer students by an institution, however, does not guarantee admission to any majors, minors or fields of concentration at the institution. Some programs have additional academic and non-academic requirements beyond those for general admission to the institution (e.g., background check, a grade-point average higher than a 2.0 or a grade-point average higher than the average required for admission to the institution). Once admitted, transfer students shall be subject to the same regulations governing applicability of catalog requirements as native students. Furthermore, transfer students shall be accorded the same class standing and other privileges as native students on the basis of the number of credits earned. All residency requirements must be completed at the receiving institution.

Responsibilities of Students

To maximize transfer credit application, prospective transfer students must take responsibility for planning their course of study to meet both the academic and non-academic requirements of the institution to which they desire to articulate or transfer credit as early as possible.

The student is responsible for the following:

- Identify early in their collegiate studies an institution and major to which they desire to transfer.
- Investigate and use the information, advising and other available resources to develop a plan their course of study.
- Actively seek program, degree and transfer information.
- Meet with an advisor from both the current and receiving institutions to assist them in preparing a course of study that meets the academic requirements for the program/degree to which they plan to transfer.
- Use the various electronic course/program transfer and applicability database systems, including Ohio Transfer to Degree Guarantee web resources.
- Select courses/programs at their current institution that satisfy requirements at the receiving institution to maximize the application of transfer credit.
- Determine if there are foreign language requirements or any special course requirements that can be met during the freshman or sophomore year.

This will enable students to plan and pursue a course of study that will better articulate with the receiving institution's major.

Appeals Process

Following the evaluation of a student transcript from another institution, the receiving college institution will provide the student with a Statement of Transfer and Articulated Credit Applicability (Degree Audit Report).

Students disagreeing with the application of transfer and/or articulated credit by the receiving institution must file their appeal in writing within 90 days of receipt of the Statement of Transfer and Articulated Credit Applicability. The institution shall respond to the appeal within 30 days of the receipt of the appeal at each appeal level.

Student Complaints Following Transfer Appeals at the Receiving Institution

After a student exhausts the appeals process at the receiving institution and chooses to pursue further action, the Ohio Department of Higher Education (ODHE) responds to formal written complaints related to Ohio Articulation and Transfer Policy against public, independent non-profit and proprietary institutions of higher education in Ohio. While the ODHE has limited authority over colleges and universities and cannot offer legal advice or initiate civil court cases, staff will review written complaints submitted through its established process and work with student complainants and institutions.

Reason for Policy

This policy ensures that students transferring between Ohio public institutions of higher education receive equitable treatment and appropriate credit for previously completed coursework. The policy supports student mobility, reduces duplication of coursework and promotes timely degree completion through a standardized, statewide transfer and articulation system, in compliance with directives from the Ohio General Assembly and the Ohio Department of Higher Education.

Revision History

Amended August 2025: Revised policy updates the name of the Associate of Technical Studies Pathway, previously the One-Year Option.

Amended August 2021: Revised policy updates the name of the Ohio Transfer 36 (OT36), previously the Ohio Transfer Module (OTM).

Orientation for Graduate Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

All new teaching assistants are required to attend and participate in the university's Graduate Student Orientation program prior to the beginning of the semester. The program is also open to all new graduate students and current graduate students with new teaching responsibilities. Departments may also require attendance at departmental orientation meetings.

Program Progression Requirements - Undergraduate

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2015
Next Review: Fall 2035

Policy Statement

Academic units have the right to establish requirements for students' to progress in an undergraduate program that are above and beyond the academic standing requirements to continue at the university. The criteria set forth by each unit can be found under the program section of the University Catalog. Students who fail to meet those minimum requirements may be deemed ineligible to progress and can be required to change their program.

Students who are not permitted to progress in their program may continue their enrollment at Kent State University provided they are not subject to academic dismissal and are able to declare another program for which they meet the admission requirements.

Reason for Policy

Select programs may have higher-than university academic standards based on accreditation, limited access to upper-level courses and other factors that make it necessary to impose requirements to progress.

Procedures

Students admitted to an undergraduate program with specific requirements to progress as outlined in the University Catalog will be:

- Notified by their academic unit that they are enrolled in such a program and provided detailed information about the minimum requirements they must meet to progress.
- Given a warning when they are not meeting the requirements so they can take action to rectify their situation.

If deemed by the academic unit to not meet the program's progression requirements, students will be notified with steps they must take to change their program and a deadline in which to do so. Students not meeting the deadline to change their program may be prevented from registering for coursework in a future term until they have meet with an advisor and choose a new plan of action.

Students who believe they have been incorrectly identified as ineligible to progress in their program may appeal that decision to the program director or coordinator. The appeal should be submitted in writing within 10 business days of notification and include specific information and any supporting documents that support the belief that the decision was made in error. The decision of the program director or coordinator is final.

Frequently Asked Questions

1. **How do I know if my program has a progression requirement?**
   Progression requirements will be listed on the Coursework tab for your program in the University Catalog.
2. **What can I do if I have questions about my program's progression requirements?**
   You should always talk with your academic advisor if you have questions. An advisor can help you understand the requirements for your program and how you are progressing towards those. You can also talk with the faculty in your program who can also help to answer any questions or concerns you may have.
3. **I was just notified that I can't stay in my current program. Does this mean that I have been dismissed from the university?**
   Not necessarily. You can be asked to leave your program due to its progression requirements but still be academically eligible to remain at Kent State. In such a case, you must change your program to another program that you are eligible to declare. If you are academically dismissed from the university, you will be notified via email to your kent.edu account. If academically dismissed, you must leave the university.

Additional FAQ: Program Progression Requirements – Undergraduate

Definitions

Academic Advising: Advising helps students clarify their career goals, reach their maximum educational potential and achieve academic success. Academic advisors address student needs related to learning, personal development and career aspirations; recognize and respond to diverse individual needs and differences among students; and help students plan and implement academic programs of study in a manner that will ensure timely progress toward graduation.

Academic Dismissal: Students who are removed from the university due to poor academic performance and no longer allowed to enroll in courses. This occurs when a student's GPA consistently falls below the minimum standards.

Academic Standing: Academic status at institutions of higher education. Students with a minimum 2.000 GPA are deemed in good academic standing.

Academic Unit: An academic department, school or a designated graduate program within a college, department or school

Accreditation: An external review process by which experts authorize or give credentials indicating that standards and expectations have been met by academic programs or institutions.

Advisor: Professional advising staff member or a faculty member who provides students with information concerning courses, programs of study and other aspects of academic life.

Program: A major, minor or certificate program.

Requirement: Course or condition that must be fulfilled as part of a particular program.

Related Information

- Academic Standing – Undergraduate Student
- Dismissal, Appeal, and Reinstatement - Undergraduate

Revision History

Amended August 2025: Revised policy adds appeal information; removes the specific business process that were never implemented; and renames policy, from "Not Permitted to Continue" to "Program Progression Requirements – Undergraduate."

Amended August 2015: Revised policy identified the process, procedures and communication that will be implemented for students who are identified by their academic unit as not eligible to continue in their declared major because they no longer meet the program's requirements for progression and/or graduation.

Qualifying Examination for Master's Degree

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

In some departments, graduate students are required to take a qualifying examination. Each student should inquire of the major department whether such an examination is required and when it should be taken. The student is responsible for making the arrangements for taking the examination. Students working for a degree requiring a thesis may have their thesis topic approved as soon as they pass the qualifying examination.

Registration

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Only students who have been formally admitted to Kent State University may register for coursework and pay the appropriate fees. An official registration is a record of a student's schedule of classes maintained online in the university's student information system, Banner. Students who are not officially registered for a course by published university deadlines should not attend classes and will not receive credit or a grade for the course. Students are responsible for their schedules and have the ultimate responsibility to confirm the accuracy frequently during the semester before posted deadline dates. Allowing a member of the university staff to make schedule changes does not relieve the student of his or her responsibilities.

Students register for courses online through FlashLine. Students must clear any registration holds before adjusting their class schedule. Refer to the Financial, Billing and Enrollment Center website for registration information, instructions, dates, deadlines and procedures. New freshmen and new transfer students register through the various campus advising and registration orientation programs.

All changes to a student's course schedule must be completed by published university deadlines. Students can find registration deadlines on their course schedule and in the Schedule of Classes in FlashLine.

Kent State University reserves the right to change the time of a course if it is deemed necessary, and it reserves the right to drop any course from the Schedule of Classes if there is insufficient student demand or if resources are unavailable to offer the course.

Late Registration Fee

Students who are not officially enrolled for any coursework (i.e., neither registered nor paid fees) as of the end (11:59 p.m.) of the seventh calendar day for the fall or spring semester will have a non-refundable late registration fee assessed for any initial registration processed. A non-payment fee will be assessed for registrations not paid by the end (11:59 p.m.) of the 14th calendar day of the semester. Visit Tuition and Fees website for information on students' fees.

Add, Drop and Other Schedule Adjustments

Schedule adjustments are changes to a class schedule for students who have already enrolled in at least one course (1 credit hour or more) for that semester. During registration, students may make adjustments or requests in FlashLine by the following deadlines:

- Deadline is the end (11:59 p.m.) of the seventh calendar day of the fall or spring semester (prorated deadline for summer or flexibly scheduled courses):
  - Adding a course or changing the section of a course[1]
- Deadline is the end (11:59 p.m.) of the 14th calendar day of the fall or spring semester (prorated deadline for summer or flexibly scheduled courses):
  - Adding a course or changing the section of a course with instructor approval[1]
  - Dropping a course/section
  - Changing credit hours for a variable-credit-hour course
  - Changing from graded to pass/fail or audit status
  - Changing from pass/fail or audit to graded status

Students must submit the Registration Exception Form when requesting schedule adjustments after the university deadlines listed above. There are no processing fees for schedule adjustments, but tuition and fees assessment may be affected.

[1] The ability to add a course (or change the section of a course) after the semester begins will depend on available seats in the course section and the student satisfying course prerequisites and other registration requirements.

Registration Cancellation

To receive a full refund of tuition, students who register and decide not to attend the university must cancel their registration as early as possible, and no later than the end (11:59 p.m.) of the seventh calendar day of the fall and spring semester (prorated deadline for summer or flexibly scheduled courses). This may be accomplished by the student dropping all courses in FlashLine during registration periods.

Any paid registration not canceled by the end (11:59 p.m.) of the seventh calendar day of the fall and spring semester (prorated deadline for summer or flexibly scheduled courses) will be subject to the refund policy published on the Financial, Billing and Enrollment Center website.

Any applicable refund is determined by the date the transaction is processed in the student information system.

Registration Limits

Undergraduate students are able to register each fall and spring for a maximum of 18 credit hours.

Graduate students are able to register each fall and spring for a maximum of 16 credit hours, with the exception of students in the Doctor of Podiatric Medicine degree who may be required to be registered for more.

For the summer term, undergraduate and graduate students have the following registration limits:

- Maximum 6 credit hours in a single five-week summer session
- Maximum 10 credit hours in an eight-week summer session
- Maximum 10 credit hours in overlapping summer sessions
- Maximum 12 credit hours for all summer sessions combined, including summer intersession

Course Withdrawal

Course withdrawal indicates that a student intends to stop attending any or all classes for the current term. Course withdrawal is permitted through the end (11:59 p.m.) of the 70th calendar day the fall or spring semester (prorated deadline for summer or flexibly scheduled courses). The spring semester course withdrawal deadline may be adjusted for spring break. After that time, students are considered to be committed to all remaining courses and must complete them.

Students will use FlashLine to withdraw from one or more courses by the deadline. If students are unable to complete the term because of extreme circumstances that first occur after the deadline, they should consult their college or campus dean's office. Any course withdrawal(s) processed on or after the 15th calendar day of the fall or spring semester (or prorated deadline for summer or flexibly scheduled courses) will appear on the students' academic record with the Withdrawal (W) administrative mark. For more information on the W mark, refer to Grading Policies and Procedures in the University Catalog. Any applicable tuition credit is determined by the date the transaction is processed on FlashLine (see university policy regarding tuition credit).

International students on J1 and F1 visas are required to contact the Office of Global Education if a course withdrawal causes them to be less than full time.

Graduate students who withdraw from all courses with an intention to return at a later date may be eligible for a leave of absence (refer to Leave of Absence for Graduate Students policy in the University Catalog).

Students in the College of Podiatric Medicine who fail to complete registration requirements by the deadline will not be enrolled in classes for the following academic year and may be withdrawn from the college. These students may also be subject to a professionalism deficiency evaluation. Podiatric Medicine Students who request withdrawal after seven weeks of course instruction will receive on their academic record the administrative mark WP or WF if passing or failing, respectively, for each withdrawn course. Refer to the college policies in the College of Podiatric Medicine section of the University Catalog for more information on the procedures for withdrawal.

Course withdrawal does not negate a student's financial obligation, and students will be held responsible for all balances due to the university.

Course Overload

Undergraduate Students

Eligible undergraduate students wanting to register for more than the maximum listed under registration limits may do so through an automated overload process.

Criteria for Eligibility

- Students who have a minimum 12 Kent State earned credit hours and the following GPA are eligible for an automatic overload:

GPA	Overload Credits
2.500-2.749	students may register for 19 credit hours in fall and spring
2.750-2.999	students may register for 19-20 credit hours in fall and spring
3.000-4.000	students may register for 19-21 credit hours in fall and spring

- First-semester transfer students and freshmen without a Kent State GPA are excluded from qualifying for an automatic overload. They must seek approval from their advising office.
- Students not meeting the above criteria or requesting more than 21 credit hours in the fall or spring semester (more than 12 credit hours in all summer terms) will be blocked from registering for an overload unless approval is granted from their advising office.
- Students on academic probation may not register for more than 15 credit hours and may receive a prescription from the dean of their college or campus that they further reduce the credit hours carried until removed from probation.

Exceptions to this rule must be approved by the appropriate college dean.

Graduate Students

Graduate students wanting to register for more than the maximum listed under registration limits should request permission from their advisor, who will consider such factors as academic standing, progress to degree and the rigor of their proposed course schedule in deciding whether to approve the overload. Graduate students with an approved overload will have their course limit adjusted to register for the approved overload class(es).

Enrollment Definitions

For financial aid eligibility and enrollment certification for loan deferments, insurance coverage and other purposes, the enrollment status of students is defined as the following:

Undergraduate Students

Enrollment Type	Credit Hours
Full-time	12+
Three-quarter-time	9-11
Half-time	6-8
Less-than-half-time	1-5

Graduate Students

Enrollment Type	Credit Hours
Full-time	8+
Three-quarter-time	6-7
Half-time	4-5
Less-than-half-time	1-3

For summer, the statues listed above may be fulfilled by enrollment in one or more sessions within the summer semester, including summer intersession. Courses receiving an AU, NF or SF mark are not counted in enrollment credit hours. This definition differs from the one used for assessing tuition and fees (for more information, see Office of the Bursar website).

Remote Participation in a Thesis or Dissertation Defense

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: August 2020
Last Reviewed: March 2020
Last Revised: May 2020
Next Reviewed: September 2025

Policy Statement

Under normal circumstances, all members of a dissertation committee must be physically present in the examination room during the entire dissertation defense and during the committee's private deliberations following the examination. In most cases, the chair of the dissertation committee and the graduate faculty representative are expected to be physically present in the examination room.

Students enrolled in a fully online degree program are not required to be physically present for their dissertation defense.

For on-ground and hybrid (online/on-ground) degree programs, remote participation by web conferencing is permitted only if the student and/or committee member has obtained permission in advance from the chair of the thesis/dissertation committee in consultation with committee members. They must provide a compelling reason and/or explanation as to why they cannot be physically present.

With any dissertation defense that is approved to be conducted with remote participation, the following rules must be enforced:

- The web-conferencing software to be used allows all participants to see and hear each other during the defense.
- The defense remains open and available to the university community.
- The program pays for any costs associated with the remote participation.
- The chair of the dissertation committee is responsible for ensuring that all requirements for remote participation are met, that the remote participation was uninterrupted and, if interrupted, that the defense was paused until all remote participations were fully restored.
- Participation by telephone only is not permitted under any circumstances.

Reason for Policy

To establish consistent practices when a student and/or a committee member are not able to be physically present for the student's defense of a thesis or dissertation.

Procedures

There are no procedures associated with this policy.

Forms/Instructions

Frequently Asked Questions

There is no FAQ associated with this policy.

Definitions

Defense: refers to students presenting, explaining and defending their ideas submitted in their thesis or dissertation. The defense is designed so that faculty members can ask questions to ensure that students understand their chosen field and focus area.

Dissertation: a highly individualized investigative study that results in the development and writing of a scholarly, comprehensive paper and fulfills the culminating requirement for a Ph.D. degree. The dissertation must demonstrate that the student has acquired the ability to conduct research in a discriminating and original manner. The dissertation should make a significant enough contribution to the field in which it is written that at least one scholarly article suitable for publication in a professional journal may be derived from it or that the findings of the dissertation would be otherwise publishable.

Thesis: a highly individualized investigative study that results in the development and writing of a scholarly, comprehensive paper and fulfills the culminating requirement for a master's degree. The thesis topic is formulated by the student in consultation with the advisor and should be one that will further the student's educational development by developing research or other skills that will help the student keep abreast of the field and enable the student to pursue independent work.

Web-conferencing software: allows participants to conduct or attend meetings via the internet. The software allows participants in different locations to connect to each other for voice and video chat, instant messaging and file and screen sharing. Examples of software include Skype, Zoom, Webex Meetings, GoToMeeting and Blackboard Collaborate.

Revision History

Effective August 2020: Establishes a formal policy for graduate students to defend their thesis or dissertation through remote participation.

Residence Requirement

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: Fall 2025
Last Reviewed: Spring 2025
Last Revised: Fall 2010
Next Review: Fall 2031

Policy Statement

Residence is defined as academic credit earned at Kent State University. In this context, residence does not refer to whether a student lives in Ohio or on campus; it refers to the Kent State credit hours required to earn a degree or certificate from Kent State University.

Undergraduate Students

- Associate degree programs: Students must complete a minimum of 15 passed hours in residence.
- Bachelor's degree programs: Students must complete a minimum of 30 passed hours in residence, of which 9 passed hours must be at the upper division (30000, 40000) level in the major.
- Certificate and minor programs: Students must complete a minimum 50 percent of the program's total required passed hours in residence. Some certificate and minor programs may require more.

Passed hours comprise graded coursework, including those receiving an S (satisfactory) or Y (pass) grade. Information on specific degree or certificate requirements may be obtained in the college section of the University Catalog. Credit hours for Kent State courses completed through a study-abroad and study-away experience will count toward the student's residence requirement.

Credit earned by means of transfer courses does not count toward residence. Transient study will not count toward the hours of residence, but it will not invalidate residence requirements in progress. Students eligible to take transfer coursework at other institutions are discouraged from taking these courses during their last semester because of the time necessary to receive and process transcripts, which may delay clearing the student for graduation. Under unusual circumstances, students may request a minor modification of this requirement by contacting their college prior to registration elsewhere.

Graduate Students

Residence requirements for graduate degree programs are determined by their respective department, school and/or college. Please consult with the program's coordinator (and/or program catalog page) as to its residence requirement for the degree.

Students admitted to a graduate certificate or graduate minor must complete a minimum 50 percent of the program's total required in residence. Some certificate and minor programs may require more.

More information on the transfer of courses may be found in the Transfer of Graduate Credit policy in the University Catalog.

Reason for Policy

It is expected that students who graduate from Kent State will have completed a minimum amount of coursework taken at the university. The requirement allows the faculty to ensure students meet the program, college and university standards of achievement. This policy implements criteria and requirements for accreditation established by the Higher Learning Commission.

Procedures

There are no procedures associated with this policy.

Frequently Asked Questions

1. **How are the credit hours "in residence" determined? For example, for a bachelor's degree, are they the first 30 credit hours or the last 30 credit hours of the degree?**
   "In residence" includes credit hours for all Kent State courses no matter when they were earned. For graduate students, all credits earned at Kent State beyond what's allowed in the transfer policy count toward "in residence".
2. **How do I know what are the upper division courses in my major that count toward the 9 credit hours for residence for a bachelor's degree?**

   Those 30000- and 40000-level courses will be listed for your program in the University Catalog under the headers "Major Requirements (courses count in major GPA)" and (if applicable)"Concentration Requirements (courses count in major GPA)." Your GPS degree audit will track fulfillment of the residence requirement.
3. **I'm searching for the Ohio residency policy for tuition. Where can I find that?**
   You can find the policy regarding Ohio student residency for state subsidy and tuition surcharge purposes in the Kent State Policy Register.

Definitions

Passed hours for undergraduate programs: Credit hours earned from courses that were graded A to D+, S (satisfactory) or Y (credit).

Passed hours for graduate programs: Credit hours earned from courses that were graded A to C or S (satisfactory).

Residence: Credit hours earned from Kent State courses. Residence does not include credit hours awarded for courses transferred from another college or university or exams (e.g., AP, CLEP) or industry-recognized credentials.

Transient study: Kent State degree- or certificate-seeking student who is taking coursework at another institution with the intention to transfer the courses back to their Kent State program.

Related Information

- Grading Policies and Procedures

Revision History

Amended August 2025: Revised policy adds a residence restriction for graduate certificates and minors. This restriction was previously only in the graduate transfer policy.

Amended August 2010: Revised policy updates minimum requirements in residence: from 30 credit hours to 30 GPA credit hours (9 credit hours upper-division in the major) for a bachelor's degree; and from first 45 or final 15 credit hours to 15 GPA credit hours for an associate degree. Revised policy removes mention of correspondence study and addresses transient study.

Retroactive Credit

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Undergraduate students currently enrolled in a degree or certificate program who are placed into an advanced course through assessment or departmental review may earn retroactive credit for designated lower level course(s) in that subject. The advanced courses approved for earning retroactive credits are listed below.

To apply for retroactive credit, students must submit an application for retroactive credits.

The following stipulations apply:

- Students must complete the advanced course at Kent State with a minimum C or S (Satisfactory) grade to be eligible for retroactive credit. Courses taken for the pass/fail grade or audit mark will not be accepted for retroactive credit.
- Students who withdraw from or fail to meet the minimum C or S grade in the advanced course may retake the course and apply for retroactive credit once the minimum C or S grade is achieved and posted.
- Course credits earned through the retroactive policy are not assigned a letter (A-F) grade. The mark CR will be posted to a student's transcript for the enrolled term the student applied for the retroactive credit.
- Retroactive credit will count toward students' class standing, total credit hours earned for graduation and hours required for graduation honors.
- Retroactive credit will not count in students' grade point average (GPA), quality points and residence requirement.
- Students are not eligible for retroactive credit if they previously earned college credit for a course that is comparable to a lower level course in the same subject of the advanced course. Previous college credit includes credit earned through exam (e.g., AP, CLEP); courses transferred from other college-level institutions, tech prep programs or dual enrollment in a high school; or any other alternative credit listed in the University Catalog.
- Not all courses that offer retroactive credits are available each semester.
- Retroactive credit is not available for graduate courses.
- Students may apply for retroactive credit following the posting of the grade at any time before graduation, but no later than the second Sunday of the semester in which they are graduating.

A fee per credit hour is charged for processing and posting of the credit on the student's transcript. The Kent State Retroactive Credit Chart provides information about eligible courses and credits earned.

Selective Service Requirement

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Pursuant to Ohio Law, House Bill 845, all Ohio resident male students between the ages of 18 and 26 not registered with Selective Service System must file a statement of Selective Service registration. If students have not already registered with the Selective Service System, they will be contacted regarding their non-compliant status. Failure to comply will result in the assessment of nonresident tuition fees to their account and the cancellation of all state-based financial aid. Further questions may be directed to the Financial, Billing and Enrollment Center.

Semester System

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

The academic year at Kent State University consists of two semesters — fall and spring — each approximately 15 weeks in length. The normal bachelor's degree program is designed to be completed in four academic years, or eight semesters. The normal associate degree is designed to be completed in two academic years, or four semesters. In addition, the university offers a 13-week summer term.

Each credit hour of coursework is called a "credit hour," as distinguished from the quarter system used at some other universities and colleges. An academic year under the quarter system consists of three 10-week quarters, and one credit hour of coursework is called a "quarter credit hour."

One quarter credit hour of coursework is equivalent to two-thirds of a credit hour (1 quarter credit hour = 0.67 credit hour); one credit hour is equivalent to one and one-half quarter credit hours (1 credit hour = 1.50 quarter hours). A transfer student with a number of quarter credit hours should multiply that number by two-thirds to determine the equivalent credit hours at Kent State University. For example, a student with 48 quarter credit hours would receive 32 credit hours of transfer credit, providing the previous work meets university academic standards.

Sequential Coursework

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

In certain subject fields, such as mathematical sciences, foreign languages, English composition and some of the basic natural sciences, knowledge is sequential or cumulative at the lower levels of study, and courses are structured in clear sequences. Students who already have received credit for, or established proficiency at, one level in such a sequence of courses may not receive academic credit counting toward graduation for a prior course in the sequence or for a course in a lower sequence.

Chemistry Course Sequencing Policy

Because of the similar level of course content in specific chemistry courses, credit hours toward graduation can be earned for only one course in each of the following groups:

Group	Courses
Group A	CHEM 10050, CHEM 10060, CHEM 10970
Group B	CHEM 10050, CHEM 10061, CHEM 10971
Group C	CHEM 20481, CHEM 30481
Group D	CHEM 20482, CHEM 30482

- Students who have successfully completed CHEM 10060 may bypass CHEM 10050.

- Students who have successfully completed CHEM 10050 may **not** bypass CHEM 10060.

Standardized Test Score Reports

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Kent State University only accepts official standardized test score reports sent directly by the testing center. Graduate Record Examination (GRE) scores are sent directly by the Educational Testing Service, and Graduate Management Admission Test (GMAT) test scores are sent directly by the Graduate Management Admission Council. Consistent with the policies of both the Educational Testing Service and the Graduate Management Admission Council, GRE and GMAT scores are valid for five calendar years. Thus, GRE and GMAT scores taken more than five calendar years prior to the date of application to Kent State University will not be accepted.

Student Conduct

The Kent State University Code of Student Conduct applies to both graduate and undergraduate students. Students are subject to educational sanctioning, including, but not limited to, probation, suspension or dismissal for violations of the code.

University policies regarding behavioral conduct and cheating/plagiarism are available on the Office of Student Conduct website and the Plagiarism website. Furnishing false or incomplete information to the university with intent to deceive or forge, alter or misuse university documents or other official documents that serve as the basis for admission and graduation may result in the revocation of admission, academic dismissal or revocation of a degree or certificate.

It is the policy of Kent State University that:

1. Students are to perform their own academic work according to the standards set by faculty members, departments, schools and colleges of the university.
2. To take and present as one's own a material portion of the ideas or words of another, or to present as one's own an idea or work derived from an existing source, without full and proper credit to the source of the ideas, words or works is considered plagiarism/cheating and will result in university sanctioning.
3. University rules and regulations form parameters for individual behavior on and off campus, and follow the normative standards of behavior adhered to by the City of Kent and Kent State University communities. By virtue of a student's enrollment at Kent State University, he/she consents to follow the policies and procedures of the university, including those outlined in the Code of Student Conduct. It is the student's responsibility and in his/her interest to be familiar with all applicable conduct-related policies.

Student Responsibilities

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Each Kent State University student is responsible for:

1. Pursuing successful completion of all courses for which he or she enrolls.
2. Meeting with an advisor to develop an academic plan. However, the final responsibility for following procedures and meeting university, college and program requirements as outlined in the University Catalog rests solely with the student.
3. Being familiar with the current academic calendar, including, but not limited to, deadlines for course registration, course withdrawal and application for graduation.
4. Knowing his or her academic record, including student schedule (found on the Student Printable Schedule in FlashLine) for each semester, and academic progress toward program completion.
5. Maintaining a current and accurate mailing address, phone number and Kent State e-mail address in FlashLine, and reading and responding promptly to all communications from the university.
6. Being familiar with and adhering to the university's rules, regulations and policies as published in the University Catalog and University Policy Register.

Thesis for the Master's Degree

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Effective Date: Fall 2020
Last Reviewed: Spring 2020
Last Revised: Spring 2020
Next Review: Spring 2032

Policy Statement

The writing of an acceptable thesis is mandatory or an option in certain master's degree programs.

Thesis Topic

The thesis topic must be approved by the student's academic unit and filed with the college dean no later than the semester preceding that in which the candidate expects to receive the degree. The thesis topic should be one that will further the student's educational development by developing research or other skills that will help the student keep abreast of the field and enable the student to pursue independent work. The thesis topic is formulated by the student in consultation with the advisor and submitted to the academic unit for approval according to normal procedures for that academic unit.

All students preparing a thesis are required to file a Notification of Approved Thesis Topic form. After the topic has been approved by the student's advisor and a committee has been formed, the advisor, members of the committee, graduate/program coordinator and lead administrator of the academic unit sign the form and forward it to the college dean for approval. The college office returns a copy of the completed form to the academic unit.

When submitting the form, the student should attach a short summary of the thesis (no more than a paragraph) that includes a clear statement of the problem to be undertaken and the procedure or methodology to be used in the research.

Thesis Committee

When the student has developed a thesis topic acceptable to the advisor, a thesis committee is convened, responsible for overseeing the progress of the candidate's thesis. The graduate/program coordinator appoints the members of the committee in consultation with the student and the student's advisor. This group will consist, at minimum, of three members:

- The advisor, who chairs the committee
- Minimum two additional members from the candidate's academic unit

- If appropriate, one or more committee members also may be selected from other academic units. However, the majority of the committee members must be from the student's home academic unit.

The advisor must be a member of the graduate faculty who has been approved to direct theses. The other members of the committee must have associate or full graduate faculty status and be approved to serve on a master's committee. A co-advisor, if is used, will count as one of the required members from the student's academic unit.

Special permission must be obtained from the college dean for anyone on the thesis committee who does not meet the qualifications stated above.

The graduate/program coordinator, in consultation with the graduate studies committee will, as necessary, review the composition of the proposed committee for appropriate balance, and the topic for strength and suitability.

Thesis Registration and Applicability Toward Degree

Upon approval of the thesis topic, the student is required to register continuously for Thesis I (6x199) each semester (fall, spring) for a total of 6 credit hours. A student who has completed the required 6 credit hours of Thesis I but has not finished the thesis is expected thereafter to register continuously for Thesis II (6x299) each semester (fall, spring) until all degree requirements are met. Students who are planning to defend their thesis in summer or early fall, or who are requiring access to university resources during the summer months — including, but not limited to, feedback or mentoring from their thesis advisors, use of university buildings and other research resources — must register for thesis in the summer term. For students in good standing, those credit hours will be approved by the academic unit administrator. The student receives an In-Progress (IP) administrative mark until the thesis is completed, at which time the IP mark is changed to either the Satisfactory (S) or Unsatisfactory (U) grade No more than 6 credit hours of Thesis I may be counted toward completion of degree requirements. Credit hours earned in Thesis II do not, under any circumstances, count toward the degree.

Student must register for thesis no later than the last semester they are in residence. The thesis must be completed and in the hands of the examining committee by the deadline as determined by the college and communicated in advance to the student.

Final Examination (Oral Defense)

In some academic units, a final examination (oral defense), open to the university community, may be required of candidates writing a thesis. This examination is directed primarily toward the thesis but may contain other topics with which the committee feels the candidate should be familiar. The procedures for the final examination are detailed in the procedures section below.

Thesis Submission

Master's candidates are required to submit their thesis in electronic form to the OhioLINK Electronic Thesis or Dissertation Center, where the thesis is made publicly available. Information on the process can be found on the University Libraries guidelines for ETD preparation website. The thesis must be prepared according to established guidelines, which are available in the college office. Individual units may still require submission of a paper copy for their archives and the deadline for the thesis to be filed in the college office is the last day of classes for the term of graduation (some colleges may require an earlier deadline). It is the responsibility of the master's student to fulfill this requirement.

Reason for Policy

Policy enforces uniform standards for the master's thesis submission and oral defense and defines the thesis committee and applicability toward the master's degree.

Procedures

When the thesis has been accepted by a student's advisor, the advisor will arrange for the final examination, and the student will distribute the thesis to members of the thesis committee. The advisor will designate the time and place of the oral defense and notify the student and all members of the thesis committee. The oral defense should be scheduled to allow a minimum of 10 days for all members of the thesis committee to review the thesis. The college dean will be kept informed of the time and place of the examination and the composition of the examining committee.

In the absence of the advisor, the graduate/program coordinator will postpone the oral defense. In the case of long-term absence or enduring illness of the advisor, the lead administrator of the academic unit, in consultation with the graduate studies committee and the original advisor, should make arrangements for a substitute.

The oral defense will be open to the university community. The advisor should notify the academic unit of the time and place of the so that it may be announced in a suitable way. The student should provide copies of the thesis abstract to the academic unit so that it will be available to interested individuals prior to the defense to familiarize members of the graduate faculty with the methodology and findings.

Students may participate in the oral defense in a different location than the committee members (i.e., by web conferencing) if they are declared in a fully online degree program or have obtained permission in advance from the committee chair. See the policy on remote participation in a thesis or dissertation defense in the University Catalog.

The thesis advisor will act as the moderator at the oral defense. The duties of the moderator are to preside and ensure that all participants act in a civilized, polite and proper manner. The advisor should be familiar with the procedures of the oral defense and has the authority to suspend proceedings should a situation arise that would not be conducive to a fair examination. The student will open the defense with a brief presentation of the thesis findings, after which the members of the thesis committee will question the student in an order determined by the advisor. Questions dealing with the substance, meaning and usefulness of the research in the thesis are of greatest priority. Inquiries or comments dealing with punctuation, grammatical minutiae, spelling, etc., are out of order and should be written out and privately submitted to the student and the advisor.

When, in the judgment of the advisor, members of the thesis committee have had an adequate opportunity to question the student, the advisor may open the examination to non-committee members of the graduate faculty, then, as the advisor deems appropriate, to others present. If, in the opinion of the advisor or upon a motion duly passed by a majority of the committee, it is deemed desirable to discontinue the oral defense, the advisor may recess the oral defense until a time mutually agreeable to the advisor, the student and the thesis committee.

When the questioning has run its course, the advisor will excuse everyone except members of the thesis committee and, if in attendance, the graduate/program coordinator and lead administrator of the academic unit. Parliamentary procedure will be followed to determine the success

or failure of the student, with the advisor serving as chair. The student should be evaluated upon both: (a) the overall quality and significance of the thesis, and (b) the oral defense of the findings.

The advisor and members of the thesis committee will sign the Report of Thesis Final Examination form, and all register their vote of "pass" or "fail." Thesis committee members may not abstain in this vote. A student passes the oral defense and becomes a "candidate" for the degree if there is no more than one dissenting vote. The graduate/program coordinator and lead administrator of the academic unit also signs the report, and the document is forwarded to the college for the signature of the dean. The college returns a copy of the completed form to the academic unit.

Following any revisions required by the committee, the advisor and the lead administrator of the academic unit must approve the final version of the thesis document by signing the signature page of the Thesis and the Thesis Preparation Approval Form when the student submits the thesis.

Frequently Asked Questions

There is no FAQ associated with this policy.

Definitions

Academic Unit: An academic department, school or a designated graduate program within a college, department or school.

Defense: Defense refers to students presenting, explaining and defending their ideas submitted in their thesis. The defense is designed so that faculty members can ask questions to ensure that students understand their chosen field and focus area.

Thesis: A thesis is a highly individualized investigative study that results in the development and writing of a scholarly, comprehensive paper and fulfills the culminating requirement for a master's degree. The thesis topic is formulated by the student in consultation with the advisor and should be one that will further the student's educational development by developing research or other skills that will help the student keep abreast of the field and enable the student to pursue independent work.

Revision History

Amended August 2020: Revised policy includes procedures, removes graduate faculty status levels, eliminates summer registration requirement, adds deadline for filing thesis and removes deadline for thesis completion (deadline now determined by each college).

Time Limits for Graduate Programs

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: Fall 2025
Last Reviewed: Summer 2025
Last Revised: Fall 2000
Next Review: Spring 2028

Policy Statement

Kent State stipulates that students must complete all requirements for a graduate program within a defined span of years starting from the most recent term of admission into the program, regardless of whether students are full time or part time.

- **Master's and post-master's degrees:** six calendar years
- **Doctoral degrees:** 10 calendar years.
- **Doctor of Podiatric Medicine degree:** six calendar years (includes any leaves of absence, withdrawals or any other interruptions)
- **Graduate certificates, minors and non-degree teacher licensure/ endorsement programs:** six calendar years

Students who do not complete their program by the time limits listed above and who have not been approved for an extension will be designated as inactive and cannot register for future coursework. Individual disciplines may have shorter time limits for their program and for the age of their courses to be applied toward the program, and students should consult their program page in the University Catalog.

Reason for Policy

This policy sets forth the time limits for students in graduate programs to ensure they make adequate and timely progress toward completion and that knowledge acquired in the program is sufficiently current at the time of completion.

Procedures

When an extension of any of these time limits is deemed necessary, students may submit an application to their faculty advisor to request an extension for a maximum three terms (e.g., if the time limit ends at the end of spring semester, the extension will end at the end of the following spring semester). The application must be approved by the faculty advisor and the administrator of the program's academic unit. The student, advisor, program coordinator and college dean will be informed of the final decision in writing.

Requests for extensions beyond the three terms must be approved by the college dean (or designee) in addition to the advisor and the administrator of the program's academic unit.

If the request for an extension is denied, the student will be designated as inactive and cannot register for future coursework after the time limit has been reached.

Forms/Instructions

- Application for Extension of Time Limits
- Graduate Forms Library

Additional Resources

- Financial, Billing and Enrollment Center

Frequently Asked Questions

1. **What should I do if I need to step away from my program for a short period due to personal reasons?**

Students who must be away from their studies for one or more terms for personal, family, financial or other compelling reasons may apply for a Leave of Absence policy. Time away under an approved leave of absence will extend your program's time limits with the exception of the D.P.M. degree.

2. **I took a Kent State graduate course a year before I started my master's degree program. Does the six-year time limit start with that course or when I started my master's degree?**
   The time limit starts with the term of admittance to the master's degree.
3. **I was admitted into a master's degree and plan to apply for the Ph.D. degree after that degree. Do I have six years to complete my masters, then another 10 years to complete my doctorate?**
   Yes.

Additional FAQ: Time Limits for Graduate Programs

Definitions

- **Time limits:** The maximum length of time within which a student is required to complete a program.
- **Calendar year:** A one-year period that starts January 1 and ends December 31.
- **Inactive:** A student who is ineligible to be registered in any course in a given term.
- **Academic unit:** An umbrella term that includes an academic department headed by a chair or a school headed by a director or a college without departments or schools headed by a dean.

- Transfer of Graduate Credit

Revision History

Amended August 2025: Revised policy includes all graduate programs, which necessitated policy name change to "Time Limits for Graduate Programs"; removes time limits for passing candidacy and oral examinations; removes requirement that transfer coursework must be earned within six years; increases limit for post-master's doctoral students, from nine to 10 years, to align with post-master's doctoral students; clarifies the process that must be completed for an extension to be granted, as well as the actions that will occur when a student is denied an exception; and removes requirement that the application for an extension beyond a year include "evidence that the degree candidate is current in his/her field of study"

Amended August 2000: Revised policy requires departments seeking dean's approval for an extension of students' time limits to provide evidence indicating that students are current in their field of study.

Transcripts

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: Fall 2024
Last Reviewed: Fall 2023
Last Revised: Spring 2024
Next Review: Fall 2028

Policy Statement

The integrity of a student's academic transcript is fundamental to the validity of coursework and degrees certified by the university. Therefore, all student transcript entries (grades and other notations) are finalized when the degree is officially posted to the permanent academic record following the effective date of graduation. Subsequent revision and alteration of any transcript entry, after the relevant degree is awarded, is permitted only for the correction of a proven error as certified by the appropriate academic dean and the registrar. Degrees are posted to students' permanent academic records approximately 30 days following the effective date of graduation.

Reason for Policy

The integrity of a student's academic transcript is fundamental to the validity of coursework and degrees certified by the university.

Procedures

There are no procedures associated with this policy.

Forms/Instructions

- Transcript Requests

Additional Resources

- Financial, Billing and Enrollment Center
- Transcript Legend

Frequently Asked Questions

1. **What's the difference between and official and unofficial transcript?**
   Official transcripts contain the seal of the university and the signature of the university registrar and are sent directly to the final recipient (e.g., your employer or graduate school). Unofficial transcripts are available to current students via FlashLine and are for your own reference only.
2. **When will my most recent grades or degree be noted on my transcript?**
   Final grades and degree postings do not appear on official transcripts until the end of the term. To find processing dates, visit Grades and Transcript Processing Dates. Degrees are posted to students' permanent academic records approximately 30 days following the effective date of graduation.
3. **How do I request a transcript?**
   Students can request transcripts online. For more information on requesting transcripts, visit the Transcript Requests website.

Additional FAQ: Transcripts

Definitions

- **Transcript:** The accurate and complete record of a student's academic coursework attempted at an institution, presented in either electronic format or paper format.

Related Information

- Grade-/Mark-To-Grade Change Policy
- Grading Policies and Procedures

Revision History

Amended August 2024: Policy is revised to eliminate the withholding of a student's transcript due to financial obligations and to add language that revisions to a transcript after the awarding of a degree is permitted to correct an administrative error.

Transfer of Graduate Credit

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: August 2024
Last Reviewed: April 2022
Last Revised: April 2024
Next Review: September 2028

Policy Statement

Graduate courses earned at another college or university may be transferred into a Kent State University graduate program. Students who wish to have those courses considered for transfer must petition administrators of the graduate program. The program can accept or reject such courses based on the program requirements, regardless of the discipline or institution in which the credits were earned.

The following conditions must be satisfied to transfer graduate credit:

1. A maximum of 12 credit hours of transfer courses may be applied toward a master's degree, the Educational Specialist degree or a doctoral degree. Some programs may have a lower maximum.
2. The graduate credit was earned at an institutional accredited college or university (or international equivalent).
3. The credit was not used for a previously awarded degree.
4. The student earned, at minimum, a B or satisfactory (S) grade in each course for which credit is to be transferred.
5. The transfer coursework satisfies a requirement in the student's program.
6. Time limits for transfer credit must follow established policy. Refer to policy for time limits for graduate programs.
7. The student's petition for transfer credit with an official transcript is filed with the program and college.
8. The student's program coordinator approves the petition.

Accepted transfer credits are posted on the Kent State University transcript in semester hours and count toward total credit hours earned for graduation at Kent State. Transfer credits and grades will not count toward the students' Kent State Grade Point Average (GPA) and residence requirement; nor will a transfer grade replace a grade earned in an equivalent course at Kent State. Transfer grades, however, may be considered for prerequisites to a specific course or admission to and/or progression for a specific program.

Students who are enrolled in a Kent State graduate program and wish to take graduate credit at another college or university to be transferred back to their Kent State's program must obtain approval from their program coordinator prior to taking the courses.

Reason for Policy

This policy specifies where authority resides for decisions regarding transferability of graduate credit and outlines the conditions required for the transfer of credits to Kent State graduate programs from other institutions.

Procedures

Students who wish to transfer graduate-level credits into a Kent State graduate program must obtain approval from their program coordinator by submitting the Request for Transfer of Graduate Credit form and including an official transcript of the courses.

Forms/Instructions

- Transfer of Graduate Credit form

Additional Resources

- Applying for Aid - Transfer Students
- Credit Transfer Office
- Financial, Billing and Enrollment Center
- Graduate College
- Office of Global Education

Frequently Asked Questions

1. **Are Kent State courses taken for one graduate program considered "transfer" if I want to apply them to another Kent State graduate program?**
   Courses completed at Kent State are not considered transfer. However, courses taken in one Kent State program may be applied toward another Kent State program with approval of that program's coordinator.
2. **Is there an appeal process if my transfer request was denied?**
   Yes, if a student wants to appeal a decision made on a transfer course, follow the administrative policy and procedure for student academic complaints
3. **Does the 12-credit limit include courses transferring from a certificate to a degree?**
   The 12-credit limit pertains to any and all coursework taken at another institution regardless of program type. The limit does not pertain to coursework taken for a Kent State graduate program (major, minor, certificate) that is being requested to apply toward another Kent State program.
4. **Where do I start the transfer process?**
   Meet with your faculty advisor and/or program coordinator to review the courses in question for applicability toward your degree program.

Definitions

Credit hour: Units based on contact hours in a learning environment that are acquired for completed coursework applied toward a degree or certificate.

GPA (Grade Point Average): An indication of a student's academic achievement at Kent State University, determined by the number of credit hours attempted at Kent State University and the grades received. The Kent State GPA is calculated to three places past the decimal point and not rounded.

Graduate credit: Courses earned for a master's, Educational Specialist or doctoral degree or for a graduate-level certificate program. Graduate credit at Kent State are courses numbered 50000-69999 for master's level and 70000-89999 for doctoral level.

Institutionally accredited college or university: Previously called regional accreditation, the primary form of accreditation for traditional colleges and universities in the United States. There are six institutional accrediting organizations recognized by the Council for Higher Education

Accreditation and the U.S. Department of Education, including the Higher Learning Commission, which accredits Kent State University.

Related Information

- Time Limits for Graduate Programs
- Residence Requirement

Revision History

Amended August 2024: Revised policy clarified earned credits from other institutions may be used in Kent State University graduate programs. The revisions also clarified language that students changing from one Kent State program to another are not considered transfer of credit.

Amended August 2023: Revised policy removes restriction that students with an earned Kent State graduate degree cannot transfer courses, with program permission, to another Kent State graduate degree.

Amended August 2015: Revised policy provides more guidance about the conditions associated with the transfer of credit at the graduate level, including the transfer of credit into the educational specialist (Ed.S.) degree; the transfer of credit that was earned at Kent State University; and the conditions surrounding the transfer of credits (e.g., role of the student, time limits, impact on the student's GPA). Name of policy changes from "Admission–Transfer Graduate Student" to "Transfer of Graduate Credit."

Transfer of Undergraduate Credit

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY
Effective Date: Fall 2025
Last Reviewed: Spring 2024
Last Revised: Fall 2016
Next Review: Fall 2034

Policy Statement

Students may transfer academic credit to Kent State University as admitted new undergraduate students, as active degree-seeking students or as returning students.

Transfer credit will be accepted for college-level courses (e.g., not remedial/developmental, eligible to count toward a degree) from institutional accredited or international equivalent institutions as determined by Kent State's Credit Transfer Office per the following conditions:

College or University in Ohio:

- The student earned a minimum D grade (or Credit or Pass or Satisfactory) in fall 2005 or later.
- The student earned a minimum C grade prior to fall 2005.
- The student earned a minimum D grade (or Credit or Pass or Satisfactory) in fall 1990 or later that was applied toward an earned Associate of Arts or Associate of Science degree with a minimum overall 2.000 GPA.

College or University Outside Ohio:

- The student earned a minimum D grade (or Credit or Pass or Satisfactory) in fall 2010 or later.
- The student earned a minimum C grade prior to fall 2010.

Effective fall 2010, upper-division and lower-division credit hours are awarded for transfer based upon the level of course to which they are equated at Kent State.

Accepted transfer credits are posted on the Kent State University transcript in semester hours based upon the number of hours earned at the source institution.

Transfer credits hours count towards:

- Class standing
- Total credit hours earned for graduation at Kent State

Transfer credits and grades will not count towards:

- Kent State Grade Point Average (GPA)
- Residence requirement
- Graduation honors
- Grade earned in an equivalent course at Kent State

Transfer grades may be considered for:

- Prerequisites to a specific course
- Admission to and/or progression for a specific program

The Kent State college that houses the student's major determines the applicability of these courses toward the desired degree or certificate. Some programs may require students to earn higher grades in specific courses or requirements. Students will be held to the required grade and GPA standards for admission to and graduation from these programs.

Students who have attended schools that are not institutionally accredited or that are not candidates for such accreditation are not granted credit by the Credit Transfer Office for work completed there. The students' Kent State college, however, may grant such credit at its discretion. Although the evaluation of a student's performance at a non-accredited institution is considered in the admissions decision, any work completed at an accredited institution takes precedence. See the Alternative Credit policy in the University Catalog for more information on limits of credit hours.

Transfer Credit Appeals Process

Students must submit in writing to the Credit Transfer Office (either by letter or email) an appeal regarding their transfer credit. Upon recommendation by the Transfer Review Committee, students will be notified of the outcome in writing.

Active Students - Transient Coursework

Active undergraduate, degree-seeking students who wish to take college-level coursework at another institution (as described in the policies above) while continuing their studies at Kent State need to complete Transfer Course Planning form, in consultation with the academic advisor, prior to enrolling at the other institution.

After completing the transfer coursework, students are responsible for submitting an official transcript from the other institution to the Kent State Admission office. Students are discouraged from taking transfer coursework during their last semester because of the time necessary to receive and process transcripts, which may delay the student's graduation.

Returning Students

All transfer policies described above apply to Kent State students who interrupted their studies at the university for one or more years, completed coursework at another college or university and are now returning to Kent State.

- Kent State students who have not attended for one year, were not academically dismissed and completed coursework at another college or university during their absence should refer to the Former Undergraduate Students section of the Admission of Undergraduate Students policy in the University Catalog.
- Kent State students who were academically dismissed and completed coursework at another college or university during their absence should refer to the Dismissal, Appeal and Reinstatement policy in the University Catalog.

Reason for Policy

Ensures that students can transition from other institutions to Kent State while maintaining the academic integrity of their degrees. This policy allows the university to assess and validate prior learning, helping students avoid repeating courses and progress efficiently toward graduation, while upholding the university's academic standards.

Procedures

The procedures below are for active, degree-seeking Kent State students who plan to take courses at another institution to transfer back to Kent State. Failure to complete these steps may result in coursework not transferring as expected.

1. Meet with their academic or faculty advisor to review program requirements, course prerequisites, remaining coursework, possible impact if repeating courses and transfer course equivalencies.
2. Complete the Transfer Course Planning form.
   a. The form is valid for one term only (quarter, semester, etc.), or for one academic year for year-long study abroad/away opportunities.
   b. The form is subject to all restrictions of the dean of the student's college.
3. Complete the Ad Hoc Consortium Agreement if applying for financial aid during the term at the institution or to continue eligibility.
4. After the grade for the transfer coursework has been assigned, students are responsible for submitting an official transcript from the other institution to the Kent State Admission office.

Forms/Instructions

- Transfer Course Planning form
- Ad Hoc Consortium Agreement Form

Frequently Asked Questions

See the Credit Transfer website.

Definitions

Active Student: An "active" student is one who is enrolled at Kent State University for a minimum 1 credit for one semester or longer without more than a one-year interruption.

Credit Hours: Units based on contact hours in a learning environment that are acquired for completed coursework applied toward a degree or certificate.

GPA (Grade Point Average): Grade point average is determined by the number of credit hours attempted at Kent State University and the grades received. The GPA is calculated to three places past the decimal point and is not rounded.

Institutional Accreditation: Institutional accreditation validates the quality of an institution as a whole and evaluates multiple aspects of an institution, including its academic offerings, governance and administration, mission, finances, and resources.

New Student: An official evaluation of transfer credit is completed for undergraduate students who have been admitted to the university and have submitted official transcripts from all post-secondary institutions previously attended.

Prerequisite: Course(s) or condition(s) required before enrollment in a more advanced class. Example: FR 13201 is a prerequisite for FR 13202.

Ohio Transfer 36: Ohio Transfer 36 (OT36) is a specific subset or the entire set of a college or university's general education requirements (Kent Core), developed by the Ohio Department of Higher Education. OT36 completed at one public Ohio college or university will automatically meet the requirements of the OT36 at the receiving Ohio institution, once the student is accepted. Students may be required, however, to meet additional general education requirements that are not included in the OT36.

Transfer Student: Any student applying to Kent State University who has attended any institution of higher learning since leaving high school.

Transient Courses: Courses approved for active Kent State University students who attended another accredited institution while maintaining enrollment at Kent State.

Transient Student: Any student enrolled in another college or university who will attend Kent State University for one term.

Upper-Division Courses (30000-49999): Upper-division credit should be awarded for courses that are major related with the specialization, breadth and depth in a particular field. These courses typically have prerequisites because it is understood that it is advanced study, and students need the proper knowledge before taking the course.

Revision History

Amended August 2025: Revised policy updated the format and language to reflect all of the current state and national transfer policies.

Amended August 2016: Revised policy merged information on transfer (students who transfer to Kent State and transient (Kent State students who take courses elsewhere).

Amended August 2014: Revised policy for Kent State transient students eliminated the 18-credit hour restriction; added requirements that students be enrolled at Kent State for at least one semester before applying and be in good academic standing for eligibility; extended approval for transient coursework from one semester to one year for students who plan to be away from Kent State for a year-long study abroad/away; and removed information about previously accepted grade for transfer, which changed from a C to a D grade in 2005 for Ohio institutions (and in 2010 for all accredited institutions).

Undergraduate Students Enrolling in Graduate Courses

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Undergraduate students who have earned a minimum of 90 credit hours and minimum 3.300 overall GPA may enroll in a maximum of 12 credit hours of graduate coursework and apply these hours to the completion of the bachelor's degree. These credit hours cannot be applied to a future graduate degree at Kent State University (nor can the student take the course again). Enrollment in graduate coursework is limited to master's (50000 and 60000) level courses, and students must obtain permission in advance.

To obtain permission to enroll in the course, the student must complete a Permission for Undergraduate Students to Enroll in Graduate Courses form. The request form must be approved by the instructor of the graduate course.

To obtain permission to apply graduate coursework to the bachelor's degree, the student must meet with their undergraduate advisor to complete a Petition for Exception to Undergraduate Program Requirements form. The advisor may approve the request if all of the following conditions apply:

- Student has earned the minimum undergraduate semester credit hours and minimum GPA requirement.
- Graduate course will provide enrichment while the student pursues the undergraduate degree.
- Student does not exceed the maximum 12 graduate credit hours.

Another option for undergraduate students to take graduate level coursework is through a combined bachelor's/master's degree program. See the Combined Bachelor's/Master's Degree Program policy for more details.

University Readiness Standards and Placement Assessment

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

In 2012, the Ohio Department of Higher Education established uniform statewide standards and college testing thresholds for remediation-free status for undergraduate students. Students meeting these standards and thresholds are deemed remediation-free and are eligible to enroll in college-level courses in the respective subjects. These standards and thresholds do not replace Kent State's placement assessment policies.

Tests	Mathematics	English	Reading
ACT	22	18	22
SAT	530	480 Evidence-Based Reading and Writing	480 Evidence-Based Reading and Writing
Accuplacer Classic	55 College-Level Mathematics	88 Sentence Skills or 5 Writeplacer	80
Accuplacer Next Generation	263 Quantitative Reasoning, Algebra and Statistics or 263 Advanced Algebra and Functions	263 Writing or 5 Writeplacer	250 Reading
GED	165+	165+	165+
MapleSoft T.A.	Algebra 50% of items correct	n/a	n/a
ALEKS	46	n/a	n/a
PlaceU	18	n/a	n/a

Kent State University Placement Assessment

Kent State University uses ACT, SAT, GED, high school GPA and/or placement assessment(s) to determine appropriate course placement in mathematics, English, foreign language and critical and core reading strategies. Any required placement assessments must be completed before a student registers for classes in order to ensure student readiness and correct course placement. Any student required to attend a campus-specific orientation program (e.g., Destination Kent State: Advising and Registration) will be required to complete all appropriate assessments prior to the orientation program.

Students who earn college credit before enrolling at Kent State may be exempt from taking some or all placement assessments. Students must submit their college transcripts (including College Credit Plus and dual enrollment credit), Advanced Placement (AP), International Baccalaureate (IB) and military transcript(s) for review and consideration of transfer credits in order to be exempt from taking some or all placement assessments.

Most assessments are accessible online. Students will be provided with information about assessments that are required and how to access the assessment, either by e-mail, "My Lists" Checklist or some other form of communication.

Time Limits: ACT, SAT, ALEKS mathematics and Accuplacer scores are accepted for two years from the date of the assessment and can be used for placement in mathematics, English and critical and core reading strategies. Placement assessment scores for Foreign Language provided through WebCape can be used for one year from the date of assessment.

Mathematics Placement

In addition to the remediation-free standards established by the Ohio Department of Education, Kent State's Department of Mathematical Sciences accepts the following for students in a program that does not require higher levels of mathematics (i.e., non-algebra track):

- Students with a 3.00 overall high school GPA or higher may take MATH 10040 or MATH 10050, regardless of their score on assessments mentioned in the standards listed above.

- Student with a 3.50 overall high school GPA or higher may take MATH 10041 or MATH 10051 regardless of their score on assessments mentioned in the standards listed above.

All undergraduate degree programs require the successful completion of the Kent Core Mathematics and Critical Reasoning requirement. Some programs may require specific mathematics course(s). Placement into mathematics courses is determined by a student's score on the ALEKS placement assessment and/or the ACT or SAT score or scores on the other listed assessments. Not all students need to take the ALEKS mathematics placement assessment, and students should check their "My Lists" checklist in FlashLine for that determination. However, all students scoring below 22 on ACT mathematics or below 530 on SAT mathematics or below the threshold in the other listed assessments need to take the ALEKS placement assessment.

Students may improve their initial placement score by working in an individualized learning module on ALEKS, then retaking the ALEKS mathematics placement assessment. They have free access to their learning modules and reassessment for one year from their initial assessment. Students who score 80 percent mastery in the learning modules have an excellent chance of improving their placement through a proctored reassessment.

Students deemed remediation-free in mathematics , as described in the table above, or with an overall 3.5 high school GPA or higher, may register for one of the following courses, as required by their major.

- Algebra Track: MATH 10675, MATH 10771, MATH 10772
- Non-Algebra Track: MATH 10041, MATH 10051, MATH 11008

Remediation-free students who want to register for a course other than the ones listed above may take the ALEKS mathematics placement assessment.

Students who are not deemed remediation-free in mathematics, as described in the table above, must take the ALEKS mathematics placement assessment to determine the course they should take as required by their major.

Additional information regarding placement after taking the ALEKS assessment may be found on the Department of Mathematical Sciences website.

English Placement

English Placement

All undergraduate degree programs require successful completion of the Kent Core Composition requirement. Placement into the appropriate starting course in the sequence is determined by ACT English or SAT evidence-based reading and writing or high school GPA. In the event students do not have ACT, SAT scores or qualifying high school GPA and are attending a Kent State University regional campus, they will take Accuplacer Next Generation reading and Writeplacer. This assessment is available on site or remotely. Students who have taken Accuplacer sentence skills, Writeplacer or reading comprehensive at another institution within two years of their initial start date may opt to transfer those scores to Kent State University.

Students enrolled at a Kent State University regional campus who do not meet the university readiness standards will be required to enroll in and earn a minimum C grade in ENG 01001 and a minimum C- grade ENG 11002 before they can enroll in ENG 21011 . Students who wish to challenge their writing placement may do so using the Writing Placement Reassessment.

To provide more opportunities to all students, ACT/SAT scores and/or high school GPA older than two years are acceptable for English placement. Regional Campus students should also be informed about the Stretch sequence and given the option to enroll in Stretch, regardless of their older ACT/SAT or GPA. Students who do not have ACT/SAT scores or high school GPA will take Accuplacer Reading and Writeplacer.

Kent Campus Students

Assessment	Score	Placement
ACT English	0-25	ENG 11011
ACT English	26+	ENG 21011
SAT Evidence-Based Reading and Writing	200-590	ENG 11011
SAT Evidence-Based Reading and Writing	600+	ENG 21011
Accuplacer and Writeplacer (challenge to ACT/SAT placement)	7+	ENG 21011
GED Reasoning Through Language Arts College Reading	165+ *	ENG 11011
Final high school GPA	2.8+	ENG 11011
Final high school GPA	3.8+ and writing sample **	ENG 21011

Regional Campus Students

Assessment	Score	Placement
ACT English	0-17	ENG 01001 and ENG 11002
ACT English	18-25	ENG 11011
ACT English	26+	ENG 21011
ACT Reading and Writeplacer Next Generation	0-19 and 4	ENG 01001 and ENG 11002
ACT Reading and Writeplacer Next Generation	20+ and 4	ENG 11011
SAT Evidence-Based Reading and Writing	200-470	ENG 01001 and ENG 11002
SAT Evidence-Based Reading and Writing	480-590	ENG 11011
SAT Evidence-Based Reading and Writing	600+	ENG 21011
Accuplacer Next Generation Writing	0-4	ENG 01001 and ENG 11002
Accuplacer Next Generation Writing	4 and 0-249 Accuplacer Reading	ENG 01001 and ENG 11002
Accuplacer Next Generation Writing	4 and 250+ Accuplacer Reading	ENG 11011
Accuplacer Next Generation Writing	5-6	ENG 11011
Accuplacer Next Generation Writing	7+	ENG 21011
GED Reasoning Through Language Arts College Reading	165+ *	ENG 11011
Final high school GPA	0.0-2.9	ENG 01001 and ENG 11002
Final high school GPA	2.8+	ENG 11011
Final high school GPA	3.8+ and writing sample **	ENG 21011

* Kent State University awards college credit for GED 175+ scores.
** Permission must be granted from the Department of English after review of writing sample.

Core and Critical Reading Strategies Placement

Kent State University regional campuses offer two courses to help students develop reading strategies to successfully complete college-level coursework — READ 00003 and READ 00006. A student placed into READ 00003 must take READ 00006 the following term. Both courses require a minimum C grade. Students who have taken the Accuplacer Classic or Next Generation at another institution within two years of their initial start date may opt to transfer that score to Kent State University.

Assessment	Score	Placement
ACT Reading	0-13	READ 00003
ACT Reading	14-19	READ 00006
ACT Reading	20+	No Course
SAT Evidence-Based Reading and Writing	200-380	READ 00003
SAT Evidence-Based Reading and Writing	390-470	READ 00006
SAT Evidence-Based Reading and Writing	480+	No Course
Accuplacer Classic Reading	0-50	READ 00003
Accuplacer Classic Reading	51-79	READ 00006
Accuplacer Classic Reading	80-120	No Course
Accuplacer Next Generation Reading	200-221	READ 00003
Accuplacer Next Generation Reading	222-249	READ 00006
Accuplacer Next Generation Reading	250-300	No Course
GED Reasoning Through Language Arts College Ready	165+ *	No Course
Final high school GPA	0.00-1.59	READ 00003
Final high school GPA	1.6-2.79	READ 00006
Final high school GPA	2.8+	No course

* Kent State University awards college credit for GED 175+ scores.

Foreign Language Placement

Students intending to study Chinese, French, German, Italian, Russian or Spanish should take the placement assessment 48 hours before their academic advising appointment.

Students planning to study a language other than the ones listed above should contact the Department of Modern and Classical Language Studies via email (mcls@kent.edu) or website for further placement instructions. All students should begin foreign language study in the appropriate course, which may be determined in one of the following ways:

1. Webcape Placement Exam available on the Placement Channel in FlashLine for Chinese, French, German, Italian, Russian and Spanish.
2. Placement interview with a faculty member in the Department Modern and Classical Language Studies for languages for which there is no Webcape Placement Exam.
3. Placement based on alternative credits accrued per one of the approved methods specified in the University Catalog.

Foreign Language Requirements: Generally, foreign language requirements are met by passing the highest level course in the language requirement or a course beyond the highest level in the requirement. Students should review the University Catalog and consult with their academic advisor(s) to determine specific language requirements for their college and program. Some students may begin their university foreign language experience beyond the Elementary I level without receiving credit for the previous course(s) and, thus, may complete the requirement with fewer credit hours and fewer courses than specified in their language requirement. In this case, the credit hours not used for the language requirement may be still required for graduation, but may be applied toward coursework in the student's major or minor or as electives.

Foreign Language Proficiency Waiver: Students able to demonstrate foreign language proficiency comparable to the highest course in their foreign language requirement may be able to have their language requirement waived. Students should review the University Catalog and consult with their academic advisor(s) and the Department of Modern and Classical Language Studies to verify eligibility. Proficiency waivers will be granted for the following:

1. **International students** who were educated through high or secondary school in a language other than English. Foreign language waivers will be granted to international students who have
   a. TOEFL, IELTS, MELAB, PTE Academic score recorded in their Kent State University academic record;
   b. completed English-as-second-language courses at Kent State; or
   c. provided documentation that they attended a secondary or high school in a country in which courses were taught in a language other than English (e.g., high school transcripts or diploma in the original language along with a certified English translation).
2. **American Council on the Teaching of Foreign Languages (ACTFL) Exams.** The tests are administered by Language Testing International. Students are responsible for the costs of the exam(s) and for providing the Department of Modern and Classical Language Studies with a copy of the certificate(s). Instructions for taking the ACTFL Exams may be found on the department's website.
   a. A proficiency waiver will be granted through Elementary II of a foreign language to students who provide either
      i. an official ACTFL Oral Proficiency Interview (OPI) certificate that documents proficiency at the Intermediate Low or higher level; or
      ii. comparable qualifying score on an ACTFL-based proficiency exam such as those accepted for the Ohio Seal of Biliteracy confirming oral proficiency of at least an intermediate low level.
   b. A proficiency waiver will be granted through Intermediate II of a foreign language to students who provide either
      i. an official ACTFL Oral Proficiency Interview (OPI) **and** Writing Proficiency Test (WPT) certificates with scores at the Intermediate Low or higher level; or

ii. comparable qualifying ACTFL-based proficiency exams such as those accepted for the Ohio Seal of Biliteracy confirming oral proficiency **and** writing proficiency of at least an intermediate low level.

3. **Common European Framework of Reference for Language (CEFR) Ratings.** A proficiency waiver will be granted through Elementary II of a foreign language to students who provide an official (European) CEFR certificate confirming oral proficiency of at least the B1.1 level. A proficiency waiver will be granted through Intermediate II of a foreign language to students who provide an official CEFR certificate confirming oral and writing proficiency of at least the B1.2 level. Students are responsible for providing the Department of Modern and Classical Language Studies with a copy of the certificate(s).
4. **Defense Language Proficiency Test (DLPT).** A proficiency waiver will be granted through Elementary II of a foreign language to students who were tested during military service and provide an official DLPT certificate confirming oral proficiency of at least ILR 1. A proficiency waiver will be granted through Intermediate II of a foreign language to students who provide an official DLPT certificate confirming oral proficiency of at least ILR 1+.
5. **Ohio Seal of Biliteracy.** A proficiency waiver will be granted through Intermediate II of a foreign language to students with an Ohio Seal of Biliteracy. Students who have qualified for the Ohio Seal of Biliteracy by means of an International Baccalaureate or AP exam or who submit their ACE transcripts may be eligible to receive credit for the Ohio Seal of Biliteracy. For more information, visit the Credit Transfer website.
6. **Alternative proficiency measures.** Students may have proficiency in a language for which no standardized test exists. In this case, students should contact the Department of Modern and Classical Language Studies to arrange for assessment by an approved native speaker of that foreign language (e.g., teacher, professor or certified translator), with the assessment method approved in advance by a department administrator.

Upper-Division Requirement

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

Most specialization in bachelor's degree programs is pursued through upper-division coursework. Upper-division courses are numbered 30000–49999 and expect both greater familiarity with the subject matter and greater intellectual sophistication. Students must complete the appropriate prerequisites in specified lower-division courses before entering upper-division courses. In general, baccalaureate programs require the successful completion of minimum 39 upper-division credit hours of coursework.

Workshops for Graduate Students

ASK A QUESTION OR SUBMIT FEEDBACK ON THIS POLICY

The Office of Continuing Education, in cooperation with academic departments, offers a variety of for-credit workshops. These workshops are especially designed to meet identified needs of various professions. Each workshop is set up to recognize the needs of the audience in terms of time, place, format and content.

A student holding a bachelor's degree from an accredited institution and who has been accepted by a workshop director for a specified workshop, institute or other special program offering graduate credit may be admitted as a special non-degree workshop student for the term of the workshop only. Prerequisites for admission are set by the instructional department. The temporary admission is valid for only one workshop consisting of a maximum of 12 credit hours. Students desiring to take other non-workshop graduate courses concurrently with the workshop or to do graduate work beyond the length of the workshop term must apply for admission to the appropriate college or school under regular procedures. A student may reapply for subsequent workshop participation under workshop admission regulations.

A maximum of 4 credit hours earned in graduate workshops may be applied to a graduate degree program. All workshops are graded S/U (satisfactory/unsatisfactory). Some departments may be more restrictive. Students are advised to consult their departments regarding application of workshop credit toward degree requirements.

University Administrators

Executive Officers and Administration

- Todd A. Diacon, President
- Melody J. Tankersley, Executive Vice President for Academic Affairs and Provost
- Eboni J. Pringle, Senior Vice President for Student Life

University Faculty

The listing below represents full-time Kent State employees with faculty status at all campuses and locations who were employed at the start of the academic year. The date in parentheses following each name is the year in which the faculty member initially was hired at Kent State University.

Ambassador Crawford College of Business and Entrepreneurship Faculty

Department of Accounting Faculty

- Ballestero, Ryan C. (2021), Assistant Professor, Ph.D., University of Texas - Austin, 2021
- Fang, Shunlan (2014), Associate Professor, Ph.D., Temple University, 2013

- Laksmana, Indrarini V. (2004), Professor, Ph.D., Georgia State University, 2004
- Li, Wei (2006), Associate Professor, Ph.D., Washington State University, 2006
- Loftus, Serena (2021), Assistant Professor, Ph.D., University Of Washington, 2015
- Miller, Scott E. (2019), Lecturer, M.A., The Ohio State University, 2005
- Nett, Malinda B. (2009), Associate Professor, M.Tax., University of Akron, 1995
- Tietz, Wendy M. (2000), Professor, Ph.D., Kent State University, 2007
- Zhang, R.Z. (2020), Assistant Professor, Ph.D., Tulane University, 2020

Department of Economics Faculty

- Bagheri, Omid (2017), Associate Professor, Ph.D., Virginia Polytechnic Institute and State University, 2017
- Boyd-Swan, Casey (2015), Associate Professor, Ph.D., Arizona State University , 2015
- Choi, Yoonho (2021), Assistant Professor, Ph.D., Iowa State University, 2017
- Cornelius, Rowena J. (2024), Assistant Professor, Ph.D., University Of Western Ontario
- Dechenaux, Emmanuel (2004), Professor, Ph.D., Purdue University, 2004
- Engelhardt, Lucas M. (2010), Associate Professor, Ph.D., The Ohio State University, 2010
- Greenhalgh-Stanley, Nadia (2009), Professor, Ph.D., Syracuse University, 2009
- Johnson, Eric D. (2005), Associate Professor, Ph.D., University of California, San Diego , 1997
- Kim, Duhyeong (2023), Assistant Professor, Ph.D., University Of Western Ontario, 2023
- Leontieva, Ludmila (2007), Associate Professor, Ph.D., Rostov State University, 1991
- Liu, Dandan (2008), Professor, Ph.D., Texas A&M University, Main Campus, 2005
- Mukherjee, Deepraj (2012), Professor, Ph.D., University of Memphis, 2010
- Park, Jooyoun (2009), Associate Professor, Ph.D., University of Michigan, 2009
- Reynolds, Curtis Lockwood (2007), Professor, Ph.D., University of Michigan, 2007
- Rohlin, Shawn (2012), Professor, Ph.D., Syracuse University, 2009
- Sahajdack, Thomas (2016), Associate Professor, Ph.D., University of Illinois, 2016
- Shaeye, Abdihafit (2018), Associate Professor, Ph.D., University of Wisconsin, Milwaukee, 2017
- Wilson, Kathryn S. (1996), Professor, Ph.D., University of Wisconsin - Madison, 1996

Department of Finance Faculty

- Baran, Lindsay C. (2011), Associate Professor, Ph.D., University of North Carolina, Charlotte, 2010
- Beier, Lois J. (1985), Professor, J.D., University of Akron, 1980
- Billik, William M. (2009), Associate Professor, Ph.D., Kent State University, 2018
- Deng, Saiying (2019), Professor, Ph.D., Temple University , 2005
- Dennis, Steven A. (2014), Professor, Ph.D., University of Kentucky, 1993
- Harris, Jeremiah R. (2014), Associate Professor, Ph.D., Purdue University, 2014
- Jiang, Lei (2023), Professor, Ph.D., Emory University, 2011
- Lloyd, Albert A. (2022), Lecturer, M.B.A., Kent State University, 1996
- Pelleg, David S. (2018), Associate Lecturer, M.B.A., University of Chicago, 1994
- Pu, Xiaoling X. (2008), Professor, Ph.D., University of Massachusetts-Amherst, 2008
- Shynkevich, Andrei (2009), Associate Professor, Ph.D., Louisiana State University, 2009

Department of Information Systems and Business Analytics Faculty

- Akpan, Ikpe A. (2012), Professor, Ph.D., Lancaster University, 2006
- Asadi, Shahla (2023), Assistant Professor, Ph.D., University Of Technology - Malaysia, 2017
- Benitez, Jose A. (2023), Professor, Ph.D., University of Granada, 2009
- Berardi, Victor L. (1993), Associate Professor, Ph.D., Kent State University, 1998
- Brandyberry, Alan A. (2000), Professor, D.B.A., Southern Illinois University, Carbondale, 1995
- Datta, Pratim (2007), Professor, Ph.D., Louisiana State University, 2003
- Dragan, Natalia (2003), Associate Professor, Ph.D., Kent State University, 2010
- Kamali Ardakani, Mostafa (2022), Associate Professor, Ph.D., Catholic University of America, 2014
- Kwak, Dong-Heon (2014), Associate Professor, Ph.D., University of Wisconsin, Milwaukee, 2014
- Liu, Li (2023), Assistant Professor, Ph.D., University of North Carolina-Charlotte, 2019
- Liu, Si (2024), Assistant Professor, Ph.D., McMaster University, 2024
- Offodile, Onyebuchi F. (1988), Professor, Ph.D., Texas Tech University, 1984
- Patuwo, Eddy B. (1988), Professor, Ph.D., Virginia Polytechnic Institute and State University, 1989
- Polites, Greta L. (2012), Professor, Ph.D., University of Georgia, 2009
- Razavi, Rouzbeh (2017), Associate Professor, Ph.D., University of Essex, 2008
- Uprety, Dambar (2022), Assistant Professor, Southern Illinois University-Carbond, 2016
- Wu, Chaojiang (2019), Associate Professor, Ph.D., University of Cincinnati, 2013
- Zhu, Yi (2024), Assistant Professor, Ph.D., University of Minnesota-Twin Cities, 2024

Department of Management Faculty

- Arikan, Asli M. (2014), Professor, Ph.D., The Ohio State University, 2004
- Arikan, Ilgaz (2014), Professor, Ph.D., The Ohio State University, 2004
- Hogue, Mary B. (2001), Professor, Ph.D., University of Akron, 2000
- Kaur, Vaneet (2019), Assistant Professor, Ph.D., University of Jammu, 2018

- Knapp, Deborah K. (1992), Professor, Ph.D., Kent State University, 1994
- Landingham, Velvet L. (2004), Professor, Ph.D., Case Western Reserve University, 2004
- Palmer-Johnson, Catrina E. (2004), Assistant Professor, Ph.D., Rutgers University, 2021
- Riczo, Steve (2014), Associate Lecturer, M.H.A., Xavier University, 1982
- Whitmore, Mark D. (2011), Associate Professor, Ph.D., The Ohio State University, 1985

Department of Marketing and Entrepreneurship Faculty

- Aimone, Randy C. (2024), Lecturer, M.B.A., Pace University At New York City, 2008
- Groening, Christopher (2013), Professor, Ph.D., University of Pittsburgh, 2008
- Heidler, Mary R. (2011), Associate Lecturer, M.B.A., American University, 1995
- Hsieh, Meng-Hua (2018), Associate Professor, Ph.D., University of Washington, 2013
- Jewell, Robert D. (2004), Professor, Ph.D., Ohio State University, 1999
- Jia, Lei (2022), Assistant Professor, Ph.D., Ohio State University, 2020
- Knapp-Blay, Kelly A. (2016), Associate Lecturer, M.B.A., Bowling Green State University, 1997
- Liu, Kun (2018), Associate Professor, Ph.D., University of Utah, 2006
- Mahar, Christopher (2022), Associate Professor
- Mohammadi Darani, Milad (2019), Assistant Professor, Ph.D., Texas A&M University, Main Camp, 2019
- Spake, Deborah F. (2013), Professor, Ph.D., The University of Alabama, 1999
- Stettler, Tatiana R. (2015), Associate Professor, Ph.D., University of Bern, 2014
- Thacker, Donald (1998), Senior Lecturer, M.B.A., Kent State University-Stark Campus, 1996
- Wang, Tuo (2004), Associate Professor, Ph.D., University of Pittsburgh, 2004
- Wiggins, Jennifer A. (2006), Professor, Ph.D., University of Wisconsin-Madison, 2006
- Zourrig, Haithem (2016), Associate Professor, Ph.D., University of Montreal, 2010

College of Aeronautics and Engineering Faculty

- Abdul-Aziz, Ali (2016), Associate Professor, Ph.D., Cleveland State University, 1985
- Al Turk, Abdelhakim (2024), Assistant Professor, Ph.D., Wichita State University, 2024
- An, Xuanhong (2024), Assistant Professor, Ph.D., Illinois Institute of Technology, 2018
- Balcerski, Jeffrey (2024), Assistant Professor
- Bloebaum, Christina L. (2018), Professor
- Boergerhoff, Jason T. (2010), Associate Professor, M.S., University of North Dakota, 2010
- Boyd, Darwin L. (1983), Assistant Professor, Ph.D., Kent State University, 1991
- Del Rosario, Ruben (2024), Professor, Ph.D., Cleveland State University, 2004
- Du, Yanhai (2013), Professor, Ph.D., University of Waikato, 2004
- Fisch, Michael R. (1998), Associate Professor, Ph.D., Harvard College, 1982
- Gurkan, Deniz (2023), Professor, Ph.D., University of Southern California, 2003
- Harrison, Joycelyn S. (2019), Professor
- Harrison, Carl E. (2021), Associate Lecturer
- Hassler, Richard P. (2018), Associate Professor, Ed.S., The Fielding Institute, 2005
- Koptur, Evren (2003), Associate Professor, Ph.D., Kent State University, 2016
- Kwasa, Benjamin (2021), Assistant Professor, Ph.D., Iowa State University, 2017
- LaBerge, Kelsen E. (2018), Professor, Ph.D., Case Western Reserve University, 2009
- Liu, Rui (2019), Assistant Professor, Ph.D., Colorado School of Mines, 2018
- Lorenzon, Jason (2007), Assistant Professor, J.D., Cleveland State University, 2007
- Mangrum, Richard L. (2003), Professor, Ed.D., Oklahoma State University, 2003
- McFarland, Maureen R. (2003), Associate Professor, Ph.D., Kent State University, 2017
- Mirinejad, Hossein (2019), Assistant Professor, Ph.D., University Of Louisville, 2016
- Neff, Carissa M. (2013), Lecturer, B.S., Kent State University, 2015
- Nettey, Richmond I. (2001), Professor, Ph.D., University of Houston-Main Campus, 2000
- Palcho, Timothy L. (2000), Professor, M.S., Mountain State University, 2009
- Ripple, James E. (2008), Associate Professor, B.A., Kent State University, 1991
- Shen, Tao (2019), Assistant Professor
- Shihab, Syed Arbab Mohd (2020), Assistant Professor, Ph.D., Iowa State University, 2020
- Testa, Michael (2017), Associate Lecturer, M.S., University of Akron, 1997
- True, Trent (2004), Associate Lecturer, M.Tech., Kent State University, 2007
- Weaver, Jonathan C. (2023), Associate Lecturer, M.A., The Open University, 2017

College of Applied and Technical Studies Faculty

- Alicea, Megan R. (2013), Associate Lecturer, M.E.T. , Boise State University, 2015
- Andreas, Sarah E. (2020), Assistant Professor, Ph.D., Johnson Bible College, 2019
- Antenucci, Robert P. (2005), Associate Professor, Ph.D., Kent State University, 2013
- Armstrong, Lori (2011), Lecturer, B.A., Kent State University, 2014
- Baker, John J. (2012), Associate Lecturer, M.S., La Roche College, 1990

- Barcus, Laurie D. (2005), Senior Lecturer, M.S.N., University of Phoenix, 2006
- Bears, Lorraine E. (1999), Senior Lecturer, M.Tech., Kent State University, 2004
- Beck, Stacy J. (2008), Senior Lecturer, M.P.H., Kent State University, 2004
- Berlin, Kingsly T. (2013), Senior Lecturer, B.S., The Ohio State University, 2005
- Berndsen, Michelle (2024), Lecturer, M.S.N., Kent State University, 2019
- Blake, Robert M. (2003), Lecturer, M.S., Duke University, 1994
- Bonaduce, Samantha J. (2012), Associate Professor, Ph.D., Post University, 2022
- Brindley, Meghan A. (2023), Lecturer, Ph.D., Kent State University, 2025
- Burkholder, Maria R. (2006), Senior Lecturer, B.S., The Ohio State University, 2001
- Burnworth, Christina M. (1995), Associate Lecturer, M.Tech., Kent State University, 2006
- Butler, Matt A. (2021), Lecturer, M.S., Case Western Reserve, 2010
- Cameron, Mary M. (2017), Associate Lecturer, B.S., Kent State University, 2013
- Carvalho, Carolyn J. (2004), Senior Lecturer, M.Tech., Kent State University, 2007
- Chen, Jie (2001), Professor, Ph.D., University of Wisconsin-Madison, 1993
- Courey, Tamra J. (1998), Associate Professor, D.N.P., Kent State University, 2014
- Cowling, Vanessa M. (2022), Lecturer, M.S.N, Post University, 2022
- d'Artenay, Tammy (2025), Assistant Professor, Ph.D., Southern Illinois Univ-Carbondale, 2011
- Daniels, Martha E. (2010), Associate Professor, Ed.D., Walden University, 2008
- Darby, Benjamin (2013), Lecturer, M.Tech. , Kent State University, 2020
- DiPofi, Rhonda S. (2018), Associate Lecturer, M.S.N., Kent State University, 2018
- Douglass, Angela T. (2003), Senior Lecturer, M.S.N., Youngstown State University, 2003
- Dragomir, Kelly A. (2012), Senior Lecturer, M.A., Kent State University, 2018
- Emens, Susan (1993), Associate Professor, Ph.D., Trident University International, 2013
- Farag Mohamed Elshahat, Sheren E. (2021), Assistant Professor, Ph.D., University Of Seville, 2011
- Fritz, Timothy E. (2003), Associate Lecturer, M.Tech., Kent State University, 2017
- Ginal, Sharon L. (2006), Associate Lecturer, M.S.N., Ursuline College, 2002
- Golden, Shawn D. (2004), Professor, Ph.D., Kent State University, 2014
- Gump, Traci L. (2016), Associate Lecturer, B.S., Ohio University, 2014
- Hancock, Darryl A. (2012), Associate Professor, Ph.D., Chatham College, 2008
- Harding, Mariann M. (2005), Professor, Ph.D., West Virginia University, 2013
- Hoffman, Susan C. (1983), Assistant Professor, M.B.A., Wheeling College, 1982
- Iagulli, Margie B. (1997), Senior Lecturer, M.Ed., Kent State University, 2002
- Inbanathan, Flavia Princess Nesamani (2023), Assistant Professor, Ph.D., Anna University, 2015
- Irfan, Mohammad A. (2024), Associate Professor, Ph.D., Case Western Reserve University, 1998
- Johnston, Kelly R. (2016), Associate Professor, D.V.M., The Ohio State University, 1992
- Kiphart, Tiffany M. (2002), Senior Lecturer, B.S., Wilmington College of Ohio, 1993
- Koptur, Turan E. (2007), Associate Lecturer, M.Tech., Kent State University, 2013
- Ledbetter, Megan A. (2025), Lecturer, M.S.N., Chamberlain University, 2018
- Leija, Lynn M. (2005), Senior Lecturer, B.S., Ohio University, 1991
- Littles, La Toya R. (2020), Lecturer, M.S., Robert Morris University, 2003
- Long, Timothy R. (2024), Assistant Professor, D.B.A., New England College of Business and Finance, 2019
- Lowden, Doug M. (2025), Lecturer, M.S.N., Chamberlain University, 2022
- Mariano, Julia (2025), Lecturer, B.S., Kent State University, 2024
- Marshall, Shelley K. (1999), Senior Lecturer, M.Tech., Kent State University, 2008
- McCrea, Justin M. (2017), Associate Lecturer, M.A., Savannah College of Art and Design, 2008
- Migliore, Heidi B. (2023), Lecturer, M.S.W., The Ohio State University, 2011
- Morgan, Donna D. (2016), Associate Lecturer, M.S.N., Kent State University, 2020
- Morris, Lora J. (2003), Associate Professor, M.S.N., Ursuline College, 2002
- Morrow, Diauntae (2025), Lecturer, M.B.A., Southeastern Oklahoma State University, 2024

- Mimms-Scavnicky, Kristen (2021), Assistant Professor, M.Arc., University of Cincinnati, 2014
- Mirando, Anthony M. (2013), Associate Professor, M.S., Colorado State University, 2014
- Mistur, Mark S. (2016), Professor
- Mosley, Paul L. (2022), Assistant Professor, M.A., University of Illinois at Chicago, 2017
- Nolte, Laure (2024), Visiting Assistant Professor
- Onsarigo, Lameck M. (2016), Associate Professor, Ph.D., Indiana State University, 2016
- Patel, Tina (2018), Associate Professor, M.F.A., Iowa State University , 2016
- Poustinchi, Mohammad Ebrahim (2017), Associate Professor, M.Arch., University of California-Los Angeles, 2014
- Robison, Elwin C. (1985), Professor, Ph.D., Cornell University, 1985
- Rugare, Steven N. (1993), Professor
- Safley, Robert N. (2018), Associate Professor, M.Arch., University of Michigan-Ann Arbor, 2013
- Sharag-Eldin, Adil M. (2002), Associate Professor, Ph.D., University of California-Berkeley, 1998
- Sosa Fontaine, Andrea-Louise (2020), Assistant Professor
- Stauffer, Thomas A. (1977), Professor, M.Arch., University of Pennsylvania, 1976
- Strand, Kathryn E. (2003), Associate Professor, M.Arch., University of Pennsylvania, 2003
- Stroh, Gregory S. (1998), Associate Professor, M.Arch., University of Pennsylvania, 1996
- Tippey, Brett D. (2012), Associate Professor, Ph.D., Universidad de Navarra, 2011
- Willoughby, William T. (2013), Associate Professor, M.A., Kent State University, 1991
- Wohl, Sharon (2023), Associate Professor
- Xiong, Ruoxin (2024), Assistant Professor, Ph.D., Carnegie Mellon University, 2024
- Yoder, Jon (2013), Associate Professor, Ph.D., University of California-Los Angeles, 2011

College of Arts and Sciences Faculty

Department of Africana Studies Faculty

- Crawford, Charmaine M. (2019), Associate Professor, Ph.D., York University, 2010

- Gooden, Amoaba (2005), Professor, Ph.D., Temple University, 2005
- Kumah-Abiwu, Felix (2015), Associate Professor
- Okantah, Mwatabu S. (1991), Professor, B.A., Kent State University, 1976
- Piccirillo-Smith, Linda A. (1983), Senior Lecturer, M.A., Kent State University, 1980
- Sunni-Ali, Asantewa (2016), Associate Professor

Department of Anthropology Faculty

- Bebber, Michelle R. (2019), Assistant Professor, Ph.D., Kent State University , 2019
- Cimino, Aldo N. (2021), Assistant Professor
- Edler, Melissa K. (1998), Assistant Professor, Ph.D., Kent State University, 2016
- Eren, Metin I. (2016), Professor, Ph.D., Southern Methodist University, 2011
- Lovejoy, C. Owen (1968), Distinguished Professor, Ph.D., University of Massachusetts, Amherst, 1970
- Meindl, Richard S. (1979), Professor, Ph.D., University of Massachusetts-Amherst, 1979
- Raghanti, Mary Ann (2000), Professor, Ph.D., Kent State University, 2007
- Spurlock, Linda B. (1993), Professor, Ph.D., Kent State University, 2001
- Stumpf-Carome, Jeanne M. (1994), Associate Professor, Ph.D., University of California, Berkeley, 1992
- Takeshita, Rafaela S. (2019), Associate Professor, D.Sc., Kyoto University, 2018
- Tosi, Anthony J. (2014), Associate Professor, Ph.D., Columbia University, 2000

Department of Biological Sciences Faculty

- Bade, Darren L. (2006), Associate Professor, Ph.D., University of Wisconsin, 2004
- Bahlai, Christine (2017), Associate Professor, Ph.D., University Of Guelph, 2012
- Bailey, Erin L. (2012), Associate Professor, Ph.D., Kent State University, 2001
- Bedont, Joseph L. (2023), Assistant Professor, Ph.D., The Johns Hopkins University, 2016
- Caldwell, Heather K. (2007), Professor, Ph.D., Georgia State University, 2004
- Chung, Wilson C. (2011), Associate Professor, Ph.D., University of Amsterdam, 2003
- Clements, Robert J. (1997), Associate Professor, Ph.D., Kent State University, 2004
- Costello, David M. (2014), Associate Professor, Ph.D., University of Notre Dame, 2010
- De Szalay, Ferenc A. (1997), Associate Professor, Ph.D., University of California-Berkeley, 1995
- Delorme, Thierry A. (2004), Associate Professor, Ph.D., University of Lyon, 1997
- Ding, Qunxing (2007), Associate Professor, Ph.D., Beijing University of Agriculture , 1994
- Eichler, Sarah E. (2019), Assistant Professor, Ph.D., University of Tennessee, Knoxville
- Eisermann, Kurtis (2002), Assistant Professor, Ph.D., Kent State University, 2011
- Engohang-Ndong, Jean (2010), Professor
- Gerbig, Donald G. (1996), Associate Professor, Ph.D., University of Tennessee-Knoxville, 1991
- Grafton, Brian W. (1994), Professor, Ph.D., Kent State University, 2004
- Groff, Chi-Hua (2009), Associate Professor, Ph.D., Wayne State University, 1997
- Gupta, Sanhita (2009), Professor, Ph.D., Case Western Reserve University, 1998
- Hamilton, Robert (2005), Associate Professor, Ph.D., Rutgers, State University of New Jersey, 2006
- Hegmann, Elda (2011), Associate Professor, Ph.D., Laval University, 2003
- Hoeh, Walter R. (1998), Associate Professor, Ph.D., University of Michigan, Ann Arbor, 1991
- Johnson, John D. (2007), Professor, Ph.D., University of Colorado-Boulder, 2002
- Kershner, Mark W. (1999), Associate Professor, Ph.D., The Ohio State University, 1998
- Kim, Min-Ho (2012), Associate Professor, Ph.D., University of Toledo, 2002
- Kim, Woo-Yang (2018), Associate Professor, Ph.D., University at Buffalo-SUNY, 2004
- Kinsman-Costello, Lauren E. (2013), Associate Professor, Ph.D., Michigan State University, 2012
- Kooijman, Edgar (1998), Professor, Ph.D., Utrecht University, 2006
- Koski, Gary K. (2010), Professor, Ph.D., Johns Hopkins University, 1995
- Kurokawa, Manabu (2017), Associate Professor, Ph.D., University of Massachusetts-Amherst, 2004
- Lamichhaney, Sangeet (2019), Assistant Professor, Ph.D., Uppsala University, 2016
- Leff, Laura G. (1994), Professor, Ph.D., University of Georgia, 1992
- Lehman, Michael N. (2019), Professor
- Lehnert, Matthew S. (2012), Professor, Ph.D., University of Florida, 2010
- McDonough, Jennifer A. (2006), Associate Professor
- Meek, Leah M. (1995), Senior Lecturer, Youngstown State University
- Mintz, Eric M. (2002), Professor, Ph.D., University of California-Santa Cruz, 1995
- Model, Michael A. (2004), Associate Professor, Ph.D., University of Michigan-Ann Arbor, 1995
- Moore, Aleisha M. (2019), Assistant Professor, Ph.D., University of Otago, 2015
- Mou, Xiaozhen (2008), Professor, Ph.D., University of Georgia, 2006
- Mueller, Devin (2018), Professor, Ph.D., Concordia University, 2005
- Novak-Barnett, Colleen M. (2009), Professor, Ph.D., Michigan State University, 1999
- Piet, Richard (2019), Assistant Professor, Univ De Bordeaux, 2003
- Piontkivska, Olena (2005), Professor, Ph.D., Pennsylvania State University, 2003
- Popescu, Daniela C. (2013), Associate Professor, Ph.D., Vanderbilt University, 2006
- Qutob, Dinah S. (2018), Assistant Professor, Ph.D., University Of Western Ontario, 2002
- Redfearn, James C. (2006), Associate Professor, Ph.D., Kent State University, 2016

- Rocha, Oscar J. (2004), Professor, Ph.D., Penn State University, 1990
- Russell, Mary A. (2003), Professor, Ph.D., The Ohio State University, 1996
- Steele, Louise (2012), Associate Professor, Ph.D., Case Western Reserve University, 2002
- Stone, Jonathan F. (2003), Associate Professor, B.S., University of Akron, 1985
- Trevelline, Brian (2023), Assistant Professor, Ph.D., Duquesne University, 2017
- Vash, Sarah R. (2004), Senior Lecturer, M.S., Kent State University, 2003
- Veney, Sean L. (2004), Associate Professor, Ph.D., University of Virginia-Main Campus, 2000
- Ward, David (2015), Professor, Ph.D., University of KwaZulu-Natal, 1988
- Zhu, Haiyan (2010), Associate Professor, Ph.D., University of Kentucky, 2006

Department of Chemistry and Biochemistry Faculty

- Abeysirigunawardena, Sanjaya C. (2015), Associate Professor, Ph.D., Wayne State University, 2008
- Abraham, Ann C. (2004), Associate Professor, Ph.D., University of Pittsburgh, 1983
- Bowers, David J. (2013), Associate Professor
- Bunge, Scott D. (2004), Associate Professor, Ph.D., Georgia Institute of Technology, 2001
- Burns, Andrew (1994), Professor, Ph.D., Brown University, 1990
- Cubon-Bell, Valerie A. (2010), Professor, Ph.D., Princeton University, 2008
- Datta, Bansidhar (2000), Associate Professor, University of Nebraska-Lincoln, 1989
- Dunietz, Barry (2012), Professor
- Ekanayake, Sujeewani K. (2012), Professor
- Fouad, Farid S. (2008), Professor, Ph.D., Northeastern University, 2003
- Friedrich, Dirk (2016), Associate Professor, Ph.D., Universitat Leipzig, 2013
- Goncalves Schmidt, Diana P. (2019), Assistant Professor
- Hegmann, Torsten (2011), Professor , Ph.D., Martin Luther University, 2001
- Huang, Songping D. (1998), Professor, Ph.D., Michigan State University, 1993
- Konar, Arkaprabha (2019), Assistant Professor, 2019, Michigan State University, 2015
- Leslie, Margaret R. (2004), Professor, Ph.D., Rhodes University, 1995
- Mao, Hanbin (2005), Professor, Ph.D., Texas A&M University, 2003
- Mighion, Jeffrey D. (2017), Assistant Professor, Ph.D., Princeton University, 2014
- Motry, Douglas H. (1996), Associate Professor, Ph.D., Michigan State University, 1996
- Pal Chaudhuri, Urmila (2008), Associate Professor, Ph.D., Indian Institute of Technology Madras, 2004
- Prevot, Marianne (2016), Assistant Professor
- Seed, Alexander J. (1996), Associate Professor, Ph.D., University Of Hull
- Shen, Hao (2018), Assistant Professor, Ph.D., Cornell University, 2015
- Subramanian, Pritha (2006), Associate Professor, Ph.D., Kent State University, 2013
- Tandon, Santokh S. (2004), Professor, Ph.D., Guru Nanak Dev University, 1979
- Tubergen, Michael J. (1995), Professor, Ph.D., University of Chicago, 1991
- Wang, Zhiqiang (2007), Professor, Fudan University, 2000
- Zheng, Yaorong (2015), Associate Professor, Ph.D., University of Utah, 2011

Department of Computer Science Faculty

- Allouzi, Maha A. (2013), Associate Professor, Ph.D., Kent State University, 2022
- Bansal, Arvind K. (1988), Professor, Ph.D., Case Western Reserve University, 1985
- Bektic, Meldin (2024), Lecturer, B.S., Kent State University, 2021
- Bhati, Deepshikha (2017), Lecturer, Uttar Pradesh Tech University, 2016
- Chae, Younghun (2016), Associate Professor, Ph.D., University of Rhode Island, 2017
- DeLozier, Gregory S. (2014), Associate Professor
- Dragan, Feodor F. (2000), Professor, Ph.D., Belarus State University
- Guan, Qiang (2018), Associate Professor, M.S., University of North Texas, 2008
- Guercio, Angela (1999), Associate Professor, Ph.D., Kent State University, 2004
- Hasan, Md Raiful (2023), Assistant Professor
- Jin, Ruoming (2005), Professor, Ph.D., The Ohio State University, 2001
- Khan, Javed I. (1997), Professor , Ph.D., University of Hawaii-Manoa, 1995
- Kim, JungYoon (2019), Associate Professor, Ph.D., Penn State University, 2014
- Kim, Kwangtaek (2019), Associate Professor, Ph.D., Purdue University, 2010
- Kim, Jong-Hoon (2017), Associate Professor
- Lian, Xiang (2016), Associate Professor, Ph.D., Hong Kong University Of Science and Technology, 2009
- Maletic, Jonathan I. (2001), Professor, Ph.D., Wayne State University, 1995
- Nesterenko, Mikhail (1998), Professor, Ph.D., Kansas State University, 1998
- Peyravi, Hassan M. (1985), Professor, Ph.D., University of Oklahoma, 1995
- Samba, Augustine S. (2001), Professor, Ph.D., University of Liverpool, 1983
- Sharma, Gokarna (2015), Associate Professor, Ph.D., Louisiana State University, 2014
- Villalobos Herrera, Giovanni (2024), Lecturer, Tech Institute of Costa Rica, 2019
- Xu, Lei (2022), Assistant Professor, Chinese Academy Of Science, 2011
- Zhao, Ye (2006), Professor, Ph.D., State University of New York, Stony Brook, 2006

Department of Earth Sciences Faculty

- Clement, Susanne M. (1995), Professor, Ph.D., Kent State University, 2005
- Gallagher, Timothy M. (2020), Assistant Professor, Ph.D., University of Michigan, 2016
- Hacker, David B. (1989), Professor, Ph.D., Kent State University, 1998
- Holm, Daniel K. (1992), Professor, Ph.D., Harvard University, 1992
- Ortiz, Joseph D. (2001), Professor, Ph.D., Oregon State University, 1995
- Schweitzer, Carrie E. (1994), Professor, Ph.D., Kent State University, 2000
- Singer, David M. (2012), Associate Professor, Ph.D., Stanford University, 2008
- Singh, Kuldeep (2017), Assistant Professor, Ph.D., University of Texas at Austin, 2013
- Smith, Alison J. (1990), Professor, Ph.D., Brown University, 1991
- Taylor, Eric S. (2012), Professor, Ph.D., The Ohio State University, 2012
- Tessin, Allyson (2020), Assistant Professor, Ph.D, University of Michigan-Ann Arbor, 2016
- Wagner, Courtney L. (2024), Assistant Professor, Ph.D., University Of Utah, 2021
- Wells, Neil A. (1984), Professor, Ph.D., University of Michigan-Ann Arbor, 1984

Department of English Faculty

- Abuzeid, Ayham (2007), Associate Lecturer, M.A., Kent State University, 2010
- Ailiesei, Sorina M. (2013), Assistant Professor, Ph.D., Babes - Bolyai University, 2012
- Baker, Alexis M. (2017), Associate Professor, Ph.D., Kent State University, 2016
- Behney, Jennifer (2024), Associate Professor, Ph.D., Michigan State University, 2011
- Bowles, Noelle K. (2001), Associate Professor, Ph.D., University of Miami, 1996
- Bracher, Mark F. (1985), Professor, Ph.D., Vanderbilt University, 1981
- Brodsky, Adam H. (2008), Senior Lecturer, M.A., Kent State University, 2011
- Byrne, Peter M. (2008), Associate Professor, Ph.D., University of California, Irvine, 2004
- Canacci, James E. (1995), Senior Lecturer, M.A., Youngstown State University, 1995
- Christen-Syed, Shannon L. (2010), Associate Lecturer, M.A., Kent State University, 2004
- Clewell, Tammy (2000), Professor, Ph.D., Florida State University, 2000
- Cunningham, Jennifer M. (2009), Professor, Ph.D., Kent State University, 2012
- Dallacheisa, Tony G. (2008), Associate Lecturer, M.A., Ohio University, 2008
- Dauterich, Edward (1997), Professor, Ph.D., Kent State University, 2006
- Davis Patterson, Kathy S. (2000), Associate Professor, Ph.D., The Ohio State University, 1999
- Devore, Elizabeth E. (2010), Senior Lecturer, M.A., New Mexico Highlands University, 2009
- Dugas, Don-John (2005), Professor, Ph.D., Penn State University, 1999
- Dunmire, Patricia L. (1995), Professor, Ph.D., Carnegie Mellon University, 1995
- Elder, Dolores M. (2009), Associate Lecturer, M.A., Kent State University, 2010
- Ellis, Marnie K. (2003), Associate Lecturer, M.F.A., Bowling Green State University, 1999
- Erritouni, Ali (2005), Associate Professor, Ph.D., University of Miami, 2004
- Faller, Patrick M. (2011), Lecturer, M.F.A., West Virginia University-Morgantown, 2010
- Hall, Elizabeth A. (2011), Lecturer, M.A., University of Akron, 2017
- Harrington, Kristine (2016), Associate Lecturer, M.A., Youngstown State University, 1995
- Hayes, Amanda (2016), Associate Professor, Ph.D., Ohio University, 2015
- Hediger, Ryan R. (2011), Professor, Ph.D., University of Oregon, 2005
- Hendrickx, Jessy A. (2015), Associate Lecturer, M.A., Kent State University, 2002
- Hricko, Mary F. (1994), Professor , Ph.D., Kent State University, 2004
- Huot, Brian A. (2004), Professor, Ph.D., Indiana University of Pennsylvania, 1988
- Jones, Jessica M. (2016), Associate Lecturer, University Of Montana, 2014
- King, Robert J. (1998), Professor, M.F.A., Indiana University-Bloomington, 1998
- Krishnan, Uma S. (2001), Professor, Ph.D., Kent State University, 2014
- Lloyd, Keith S. (2002), Professor, Ph.D., University of Louisville, 1996
- Lyons, Janet L. (2010), Associate Lecturer, M.A., Kent State University, 2011
- Lyons, Jo-Leigh (1991), Senior Lecturer, M.A., Kent State University, 1996
- M'baye, Babacar (2006), Professor, Ph.D., Bowling Green State University, 2002
- MacLure, Jennifer (2017), Associate Professor, Ph.D., University of Wisconsin, Madison, 2017
- Martinez, Ann M. (2014), Associate Professor, Ph.D., University of Kansas, 2014
- Mechenbier, Mahli X. (1996), Senior Lecturer, J.D., University of Akron, 2002
- Miller, Ryan T. (2014), Professor, Ph.D., Carnegie Mellon University, 2013
- Mokros, Molly M. (2009), Associate Lecturer, M.A., New York University, 2002
- Neaderhiser, Stephen E. (2009), Associate Professor, M.A., University of Kansas, 2004
- Orr, Katherine M. (1990), Professor, Ph.D., Kent State University, 2010
- Patterson, G. R. (2018), Associate Professor, Ph.D., Miami University, 2013
- Raabe, Wesley (2008), Associate Professor, Ph.D., University of Virginia, Main Campus, 2006
- Remley, Dirk R. (1990), Professor, Ph.D., Kent State University, 2010
- Rilling, Sarah E. (2002), Professor, Ph.D., Northern Arizona University, 1998
- Robinson, Carol L. (2000), Professor, Ph.D., University of Georgia, 1994
- Roman, Christopher M. (1997), Professor, Ph.D., University of Alabama, 2004

- Rooks, Mary A. (2005), Assistant Professor, Ph.D., University of Mexico, 2004
- Rozner, Debbie L. (2010), Professor, M.Ed., George Washington University, 2004
- Sainato, Susan M. (1987), Professor, Ph.D., Kent State University, 2002
- Sanders, Michael T. (1995), Associate Professor, Ph.D., Kent State University, 2006
- Schauffler, Charlene M. (1991), Senior Lecturer, M.A., Kent State University, 1994
- Shaker, Bonnie J. (2013), Associate Professor, Ph.D., Case Western Reserve University, 1998
- Shank, Matthew A. (1983), Senior Lecturer, M.A., University of Akron, 1982
- Smith, Jeanne R. (1998), Senior Lecturer, M.A., State University of New York, Binghamton, 1986
- Sturr, Robert D. (1997), Associate Professor, Ph.D., University of Southern California, 1998
- Swick-Higgins, Chelsea R. (2010), Lecturer
- Takayoshi, Pamela D. (2004), Professor, Ph.D., Indiana University, Purdue University Indianapolis, 1995
- Tognazzini, Anthony C. (2023), Assistant Professor, M.F.A., Indiana University Bloomington, 2002
- Trogdon, Robert W. (1997), Professor, Ph.D., University of South Carolina-Columbia, 1996
- Uhrig, Mindy D. (2006), Senior Lecturer, M.A., University of Indiana, Bloomington, 1994
- Van Ittersum, Derek (2008), Professor, Ph.D., University of Illinois-Urbana, 2008
- Vogel, Lauren A. (2001), Associate Professor, M.A., Kent State University, 2005
- Wagoner, Elizabeth A. (2004), Assistant Professor, Ph.D., Kent State University, 2014
- Wetzl, Ana M. (2007), Professor, Ph.D., Indiana University of Pennsylvania, 2011
- Whiteleather, Hagan F. (2012), Assistant Professor, M.F.A., Iowa State University, 2019
- Willey, Nicole L. (1997), Professor, Ph.D., University of Alabama, 2003
- Wing, Catherine (2010), Associate Professor, M.F.A., University of Washington, 2004
- Winkler, Kyle M. (2018), Associate Professor, Ph.D., University of Pittsburgh, 2018
- Winter, James P. (2008), Associate Professor, M.F.A., Kent State University, 2012
- Wollenzier, Michele M. (2005), Associate Lecturer, M.A.T., Kent State University, 2003

Department of Geography Faculty

- Amey, Katherine S. (2009), Professor, Ph.D., Kent State University, 2011
- Bitterman, Patrick J. (2024), Assistant Professor, Ph.D., University Of Iowa, 2017
- Kaplan, David H. (1995), Professor, Ph.D., University of Wisconsin-Madison, 1991
- Lee, Cameron C. (2008), Associate Professor, Ph.D., Kent State University, 2014
- Mapes, Jennifer E. (2012), Assistant Professor, Ph.D., University of Southern California, 2009
- Munro-Stasiuk, Mandy J. (1999), Professor, Ph.D., University of Alberta, 1999
- Parylak, Rebecca P. (2008), Professor, Ph.D., Texas State University, San Marcos, 2010
- Post, Christopher (2008), Professor, Ph.D., University of Kansas, 2006
- Sheridan, Scott C. (2000), Professor, Ph.D., University of Delaware, 2000
- Smiley, Sarah L. (2010), Professor, Ph.D., University Of Kansas, 2007
- Tyner, James A. (1997), Professor, Ph.D., University of Southern California, 1995
- Ward, Aimee L. (2020), Assistant Professor, Ph.D., University of Otago, 2018
- Widner, Emariana S. (2009), Professor, Ph.D., Texas State University, 2009
- Yin, He (2019), Assistant Professor

Department of History Faculty

- Adams, Kevin J. (2006), Associate Professor, Ph.D., University of California-Berkeley, 2004
- Bindas, Kenneth J. (1995), Professor, Ph.D., University of Toledo, 1988
- Crawford, Matthew J. (2009), Associate Professor, Ph.D., University of California, San Diego, 2009
- Diacon, Todd A. (2012), Professor, Ph.D., University of Wisconsin-Madison, 1987
- Gruenwald, Kim M. (1995), Associate Professor, Ph.D., University of Colorado, Boulder, 1994
- Hartline, Todd A. (1992), Associate Professor, Ph.D., Kent State University, 2006
- Hayashi, Brian M. (2016), Professor, Ph.D., University of California-Los Angeles, 1990
- Heaphy, Leslie A. (1995), Associate Professor, Ph.D., University of Toledo, 1995
- Heiss, Mary A. (1992), Professor, Ph.D., The Ohio State University, 1991
- Keefer, Bradley S. (1987), Associate Professor, Ph.D., Kent State University, 2006
- Li, Hongshan (1993), Professor, Ph.D., University of Missouri, Columbia, 1992
- Menning, Ralph R. (2006), Assistant Professor, Ph.D., Brown University, 1986
- Ostrum, Nicholas (2023), Assistant Professor, Ph.D., Stony Brook University-SUNY, 2017
- Parsons, Elaine (2017), Professor, Ph.D., Johns Hopkins University, 2000
- Scarnecchia, Timothy L. (2007), Professor, Ph.D., University of Michigan, 1994
- Seelye, James E. (2010), Associate Professor, Ph.D., University of Toledo, 2010
- Sergi, Molly M. (1991), Professor, Ph.D., Kent State University, 2015
- Smith, Elizabeth M. (2001), Associate Professor, Ph.D., Rutgers, The State University of New Jersey, 2001
- Starkey, Lindsay J. (2012), Associate Professor, Ph.D., University of Wisconsin, Madison, 2012
- Steigmann-Gall, Richard A. (2000), Associate Professor, Ph.D., University of Toronto, 1999

- Strate, Shane (2013), Associate Professor, Ph.D., University of Wisconsin, Madison, 2009
- Wamsley, E. Sue S. (2005), Associate Professor, Ph.D., The Ohio State University, 1998

Department of Mathematical Sciences Faculty

- Adams, Lynn (2007), Senior Lecturer, M.S., University of Akron, 2007
- Al-Niemi, Fearase (2024), University of Akron
- Alexopoulos, John K. (1994), Associate Professor, Ph.D., Kent State University, 1992
- Allen, Aaron C. (2014), Lecturer, B.S., Rensselaer Polytechnic Institute , 2011
- Allouba, Hassan A. (2002), Associate Professor, Ph.D., Cornell University, 1996
- Altobelli, Joseph A. (1997), Associate Professor, Ph.D., The Ohio State University, 1996
- Andaloro, Paul J. (1994), Assistant Professor, Ph.D., The Ohio State University, 1989
- Andriyevskyy, Volodymyr (2000), Professor, Ph.D., Institute of Mathematics of Ukrainian Academy of Sciences, 1986
- Arokiasamy, Daisy Malini (2015), Lecturer, M.S., Kent State University, 2016
- Barb, Cynthia M. (1990), Associate Professor, Ph.D., Kent State University, 1997
- Benjamin, Judy I. (2002), Assistant Professor, Ph.D., Kent State University, 2022
- Chebotar, Mikhail (2006), Professor, Ph.D., Moscow State University, 1999
- Clos, Timothy G. (2020), Assistant Professor, Ph.D., University of Toledo, 2017
- Das, Lovejoy S. (1989), Professor, Ph.D., University of Lucknow, 1979
- Davidson, Morley A. (1996), Associate Professor, Ph.D., University of Michigan, 1995
- de la Cruz Cabrera, Omar (2016), Associate Professor
- Dhaher, Yaser Y. (1989), Professor, Ph.D., Kent State University, 2007
- Dinh, Hai Q. (2004), Professor, Ph.D., Ohio University, 2003
- Dunlap, Laurie A. (2021), Associate Professor, Ph.D., University of Cincinnati, 2005
- Fesli, Emily E. (2021), Lecturer, M.S., Cleveland State University, 2021
- Gordon, Peter (2017), Associate Professor, Ph.D., Moscow University, 1999
- He, Min (1995), Professor, Ph.D., Southern Illinois University-Carbondale, 1994
- Hovhannisyan, Gro (2003), Professor, Ph.D., Yerevan State University, 1990
- Jahangiri, Jay M. (1994), Professor, Ph.D., University of York, 1986
- Jiafeng, Jin (2014), Lecturer, Ph.D., Kent State University, 2024
- Kasturiarachi, Aloysius B. (1995), Associate Professor, Ph.D., University of North Carolina-Charlotte, 1993
- Khan, Mohammad K. (1981), Professor, Ph.D., Case Western Reserve University, 1980
- Kover, Janice S. (1996), Associate Professor, Ph.D., Kent State University, 2001
- Kracht, Darci L. (1984), Professor, Ph.D., Kent State University, 2011
- Kratky, Joseph J. (2005), Associate Lecturer, M.S., Kent State University, 2011
- Law, Chelsea C. (2021), Associate Lecturer, M.S., Clemson University, 2012
- Lewis, Mark L. (1996), Professor, Ph.D., University of Wisconsin-Madison, 1995
- Li, Jing (2003), Associate Professor, Ph.D., New York University, 2002
- Li, Jun (2013), Associate Professor, Ph.D., Iowa State University, 2013
- Lochmueller, Kerri K. (2005), Associate Lecturer, M.S., Youngstown State University, 2008
- Meinke, Ashley M. (2009), Lecturer, M.S., Kent State University, 2011
- Miller, Robert L. (2021), Lecturer, M.S., Miami University, 2006
- Mocioalca, Oana (2004), Associate Professor, Ph.D., University of Florida, 2002
- Mulqueeny, Ellen S. (2005), Professor, M.S., Cleveland State University, 1993
- Najafi, Mahmoud (1995), Professor, Ph.D., Wichita State University, 1994
- Nazarov, Fedor L. (2011), Professor, M.S., Youngstown State University, 1990
- Neal, Todd A. (2010), Assistant Professor, Ph.D., University of Alabama, 2016
- Ngunkeng, Grace (2021), Associate Professor, Ph.D., Bowling Green State University, 2013
- Osikiewicz, Beth-Allyn (1994), Associate Professor, Ph.D., Kent State University, 2000
- Osikiewicz, Jeffrey A. (1990), Associate Professor, Ph.D., Kent State University, 1997
- Palffy-Muhoray, Peter (1987), Professor
- Palocyi, Frank J. (1991), Associate Lecturer, M.S., Youngstown State University, 1990
- Perera, Vicumpriya S. (1998), Associate Professor, Ph.D., Purdue University, 1993
- Pham, Tuyet D. (1988), Senior Lecturer, M.S., University of Akron, 1988
- Rajaram, Rajeev (2008), Professor, Ph.D., Iowa State University, 2005
- Reed, Beverly M. (1986), Professor, Ph.D., Kent State University, 2007
- Reichel, Lothar (1991), Professor, Ph.D., University of Stockholm, 1982
- Ritchey, Nathan P. (2016), Professor
- Ruff, Oliver (2009), Associate Professor, Ph.D., University of Oregon, 2002
- Ryabogin, Dmitry (2007), Professor, Ph.D., University of Jerusalem, 2001
- Sarver, Michael W. (2021), Associate Professor, Ph.D., Bowling Green State University, 2006
- Schmalzried, Robert J. (2017), Associate Lecturer, M.S.Ed., Youngstown State University, 2004
- Smithies, Laura A. (1997), Associate Professor, Ph.D., University of Utah, 1997
- Soprunova, Evgenia (2007), Professor, Ph.D., University of Toronto, 2002
- Spalsbury, Angela S. (2018), Associate Professor, Ph.D., Kent State University, 1996
- Stadden, Jared M. (2013), Associate Lecturer, M.B.A., Kent State University, 2012
- Taha, Nader F. (1990), Senior Lecturer, M.S., Tennessee State University, 1989
- Trehan, Dawn M. (2019), Assistant Professor, M.S., Case Western Reserve, 1996

- Tsai, Tsung-Heng (2019), Associate Professor, Ph.D., Virginia Tech, 2014
- Vezvaei, Mahbobeh (1983), Professor, Ph.D., Case Western Reserve University, 1987
- Vorhauer, Ulrike M. (2001), Associate Professor, Ph.D., University of Ulm, 1996
- Wakita, Hideki (1998), Senior Lecturer, M.A., Kent State University, 2002
- White, Donald L. (1989), Professor, Ph.D., Yale University, 1987
- Wright, Brian M. (1998), Associate Professor, Ph.D., Kent State University, 2007
- Yeon, Hyemin (2024), Assistant Professor, Ph.D., Iowa State University, 2023
- Yu, Gang (2006), Associate Professor, Ed.D., University of Georgia, 2000
- Zheng, Xiaoyu (2006), Professor, Ph.D., University of North Carolina-Chapel Hill, 2006
- Zvavitch, Artem (2004), Professor, Ph.D., Weizmann Institute of Science, 2002

Department of Modern and Classical Language Studies Faculty

- Baer, Brian J. (1996), Professor, Ph.D., Yale University, 1996
- Bilali, Loubna (2008), Associate Professor, Ph.D., Kent State University, 2018
- Brett-Paez, Maria C. (2009), Associate Lecturer, M.A., Kent State Unviersity, 2013
- Carduner, Jessie (1998), Associate Professor, Ph.D., University of Pittsburgh, 1998
- Carl, Michael (2018), Professor, Ph.D., Kent State University
- Castaneda-Vise, Daniel A. (2007), Professor, Ph.D., West Virginia University, 2007
- Chism, Rebecca L. (1999), Associate Professor, Ph.D., Florida State University, 2000
- De Julio, MaryAnn (1986), Professor, Ph.D., University of Iowa, 1979
- Dunne, Keiran J. (2000), Professor, Ph.D., Pennsylvania State University, 2000
- Dzero, Irina (2010), Assistant Professor, Yale University, 2009
- Gallagher, Patrick L. (2001), Associate Professor, Ph.D., University of Iowa, 1997
- Gee, Jacqueline L. (2009), Lecturer, M.Ed., Kent State University, 2016
- Hall, Jennifer E. (2008), Lecturer, M.Ed., University of Akron, 2015
- Harvey, Brian K. (1999), Associate Professor, Ph.D., University of Michigan-Ann Arbor, 1998
- Harvey, Sarah M. (2001), Professor, Ph.D., University of Michigan, Ann Arbor, 1999
- Hermosilla, Luis G. (1994), Associate Professor, Ph.D., The Ohio State University, 1994
- Kish-Leland, Farah (2009), Lecturer, B.A., Kent State University, 2012
- Koby, Geoffrey S. (1994), Professor, Ph.D., University of Wisconsin, Madison, 1992
- Lacruz, Isabel (1998), Professor, Ph.D., Kent State University, 2005
- Larson, Jennifer L. (1992), Professor, Ph.D., University of Wisconsin-Madison, 1992
- Lemley, Lauren (2013), Lecturer, M.Ed., Kent State University, 2021
- Mirkin-McGee, Lori L. (1995), Associate Lecturer, M.A., Kent State Unviersity, 1997
- Nehring, Lawrence J. (2008), Associate Lecturer, M.S., University of Rochester, 1991
- Riclet, Aurelien (2022), Lecturer
- Rivera, Olga I. (1999), Professor, Ph.D., The Ohio State University, 1998
- Roberts, Trask P. (2022), Assistant Professor, Ph.D., University Of Pennsylvania, 2022
- Romero-Gonzalez, Mariana (2009), Associate Lecturer, M.A., Kent State University, 2012
- Rossoll, Hildegard M. (1988), Associate Professor, Ph.D., Washington University in St. Louis, 1991
- Sato, Paula K. (2009), Associate Professor, Ph.D., University Of Virginia-Main Campus, 2008
- Shiyab, Said M. (2014), Professor
- Shuman, Mason P. (2005), Associate Lecturer, M.A., Kent State University, 2006
- Siciarz, Stephanie J. (2012), Associate Lecturer, M.A., Johns Hopkins University, 2007
- Song, Yumei (2018), Assistant Professor, Kyoto University, 2017
- Stahler, Bethany C. (2009), Lecturer, M.Ed., Kent State University, 2020
- Stasiowski, Kristin (2013), Assistant Professor
- Talentino, Kimberly L. (2007), Associate Lecturer, M.A., Kent State University, 1991
- Tanaka, Eriko (2010), Associate Lecturer, M.A., Bowling Green State University, 2001
- Trzeciak Huss, Joanna (2006), Professor, Ph.D., University Of Chicago
- Vickery, Steve C. (1997), Lecturer, B.A., Kent State University, 1998
- Villa-Ignacio, Teresa (2022), Associate Professor, Ph.D., Brown University, 2010
- Washbourne, Richard K. (2003), Professor, Ph.D., University of Massachusetts-Amherst, 2002
- Yu, Hui (2012), Associate Lecturer
- Zaldivar, Maria E. (2007), Professor, Ph.D., Pennsylvania State University, 1991

Department of Philosophy Faculty

- Barnbaum, Deborah R. (1997), Professor, Ph.D., University of Massachusetts-Amherst, 1996
- Byron, Michael B. (1997), Professor, Ph.D., University of Notre Dame, 1996
- Coate, Matthew B. (2015), Assistant Professor, Ph.D., Stony Brook University, 2015
- Garchar, Kimberly K. (2008), Associate Professor, Ph.D., University of Oregon, 2006
- Palmer, Daniel E. (2001), Associate Professor, Ph.D., Purdue University, 2000
- Pereplyotchik, David (2013), Associate Professor, Ph.D., City University of New York Graduate Center, 2012
- Ryan, Frank X. (1997), Associate Professor, Ph.D., Emory University, 1996
- Smith, Deborah C. (1997), Professor, Ph.D., University of Washington, 2003
- Zavota, Gina (2003), Professor, Ph.D., State University of New York-Stony Brook, 2003

Department of Physics Faculty

- Antocheviz Dexheimer Strickland, Veronica A. (2013), Associate Professor, Ph.D., Goethe Universitat, 2009
- Balci, Hamza (2009), Professor, Ph.D., University of Maryland, 2004
- Bos, Philip J. (1994), Professor, Ph.D., Kent State University, 1978
- Driscoll, Donald D. (2007), Associate Professor, Ph.D., Case Western Reserve University, 2004
- Dzero, Maxim (2010), Professor
- Ellman, Brett D. (1997), Associate Professor, Ph.D., University of Chicago, 1993
- Fregoso, Benjamin (2017), Associate Professor, University of Illinois-Urbana, 2010
- Gleeson, James T. (1997), Professor, Ph.D., Kent State University, 1991
- Jakli, Antal I. (1989), Professor, Ph.D., University Of Budapest, 1988
- Katramatou, A. Mina T. (1996), Professor, Ph.D., American University, 1988
- Keane, Declan F. (1988), Professor, Ph.D., University College of Dublin
- Lavrentovich, Oleg D. (1992), Trustees Research Professor, Kiev University, 1990
- Li, Ran (2007), Associate Professor, Ph.D., Southern Illinois University, Carbondale, 2007
- Mann, Elizabeth K. (1998), Professor, Ph.D., University of Paris, 1992
- Petratos, Gerassimos G. (1994), Professor, Ph.D., American University, 1988
- Polak, Robert D. (2022), Associate Professor
- Portman, John J. (2003), Professor, Ph.D., University of Illinois-Urbana, 2000
- Quader, Khandker F. (1990), Professor, Ph.D., State University of New York-Stony Brook, 1983
- Schmidt, Thorsten-Lars (2019), Associate Professor
- Schroeder, Almut (2001), Associate Professor
- Selinger, Jonathan V. (2005), Professor, Ph.D., Harvard College, 1989
- Selinger, Robin L. (2005), Professor, Ph.D., Harvard College, 1989
- Sprunt, Samuel N. (1995), Professor, Ph.D., Massachusetts Institute of Technology, 1989
- Vanfossen, Joseph A. (2004), Associate Professor, Ph.D., Kent State University, 2017
- Yokoyama, Hiroshi (2009), Professor, Ph.D., Tokyo International University, 1987

Department of Political Science Faculty

- Ayres, William R. (2022), Professor
- Banks, Christopher P. (2006), Professor, Ph.D., University of Virginia, 1995
- Carbonell, Joel R. (2007), Associate Professor, Ph.D., University of California, Riverside, 2007
- Cassell, Mark K. (1998), Professor, Ph.D., University of Wisconsin-Madison, 1998
- Chand, Daniel E. (2016), Associate Professor
- Claassen, Ryan L. (2005), Professor, Ph.D., University of California-Davis, 2005
- Dzordzormenyoh, Michael K. (2022), Assistant Professor, Ph.D., University Of South Dakota, 2019
- Ensley, Michael J. (2009), Professor, Ph.D., Duke University, 2002
- Hawes, Daniel P. (2008), Professor, Ph.D., Texas A&M University, Main Campus, 2008
- Miller, Patrick R. (2023), Associate Professor, Ph.D., University of North Carolina-Chapel Hill, 2010
- Molina, Anthony D. (2013), Associate Professor, Ph.D., Cleveland State University, 2004
- Paar-Jakli, Gabriella (1991), Associate Professor, Ph.D., Kent State University, 2010
- Schmidt, Sarah (2015), Assistant Professor, Ph.D., Kent State University, 2023

Department of Psychological Sciences Faculty

- Black, Sarah R. (2023), Assistant Professor, Ph.D., Stony Brook University, 2015
- Blasiman, Rachael N. (2010), Associate Professor, Ph.D., Case Western Reserve University, 2010
- Casto, Kathleen V. (2023), Assistant Professor, Ph.D., Emory University, 2016

- Warren, Thomas (1991), Professor, M.L.I.S., Kent State University, 2000
- Yeager, Kristin E. (2013), Associate Professor, M.S., University of Akron, 2012
- Zhang, Yuening (2020), Associate Professor, M.L.S., Indiana University-Bloomington, 2010

GLOSSARY OF ACADEMIC TERMS

Academic Advising
Advising helps students clarify their career goals, reach their maximum educational potential and achieve academic success. Academic advisors address student needs related to learning, personal development and career aspirations; recognize and respond to diverse individual needs and differences among students; and help students plan and implement academic programs of study in a manner that will ensure timely progress toward graduation.

Academic Standing
Academic status at institutions of higher education. Students with a cumulative 2.00 GPA or above are in good academic standing.

Academic Year
The academic year consists of two 16-week semesters – fall and spring.

Accreditation
An external review process by which experts authorize or give credentials indicating that standards and expectations have been met by academic programs or institutions.

Admissions Office
Information pertaining to the process of admission to the university is available from this office.

Adult Student
A student who is 21 years old or older and who has been out of high school for three years or more at the time of his/her first college enrollment. Further defined as any student whose primary life roles and responsibilities exist independent of the university and which, at times, may take precedence over the role of student.

Advanced Placement
Credit granted by Kent State for satisfactory scores attained through high school participation in this nationally standardized program. Contact the Transfer Center for information.

ALEKS
Assessment and Learning in Knowledge Spaces is a Web-based, artificially intelligent assessment and learning system. ALEKS uses adaptive questioning to quickly and accurately determine exactly what a student knows and doesn't know in a course. ALEKS then instructs the student on the topics she is most ready to learn. As a student works through a course, ALEKS periodically reassesses the student to ensure that topics learned are also retained. ALEKS courses are very complete in their topic coverage and ALEKS avoids multiple-choice questions. A student who shows a high level of mastery of an ALEKS course will be successful in the actual course she is taking (Source: www.aleks.com)

Advisor
Professional advising staff member or a faculty member who provides students with information concerning courses, programs of study and other aspects of academic life.

Attempted Credit Hours
Students' total credit-hour registration, either for a specific term or cumulative for all terms. Attempted credit hours include courses for which students have received either a letter grade or other administrative mark (AU, IN, IP, NA, NF, NR, SF, W, etc.)

Audit
Audit is enrollment in a class where no grade or credit is received.

Board of Trustees
The board is made up of 11 trustees, two of whom are students at Kent State University. Trustees are appointed by the governor to proved for the proper maintenance and successful, continuous operation of the university (as specified by the Ohio Revised Code).

Board Plan
Food service plan operated by the university.

Bursar's Office
The university office where payments of tuition and fees are made.

Career Services Center
The university office providing assistance with career employment, career counseling, student employment and academic testing.

Catalog Year
A term identifying the catalog that contains the requirements defining a student's academic program. Initially, it is the Catalog in force during the student's first semester at Kent State University.

Catalog in Force
The University Catalog for the current academic year. Example: In fall semester 2015 and spring semester 2016, the Catalog in force is the 2015-2016 University Catalog.

Certificate Programs
Certificates are awarded to students who successfully complete a course of study designed to meet a specific need and that has been designated a Certificate Program and properly approved as such. These programs typically consist of no less than 15 credit hours and no more than 30.

Certification
Formal "licensing" of a professional program according to the standards of an external professional body.

Center for Student Involvement
The Center for Student Involvement (CSI) offers an array of resources that provide opportunities for leadership and participation in student-initiated projects and organizations.

College Level Examination Program (CLEP)
A testing program administered by the Career Services Center. The completion of these exams may result in college-level credit.

College
Academic organizational division of the university offering courses and curricular programs leading to baccalaureate and advanced degrees, as well as minors and certificates.

Colloquium
An academic seminar on a broad topic usually led by a different lecturer at each meeting.

Commuter Student
Students who attend Kent State but do not live on campus in a university residence hall.

Complete Term Withdrawal
Withdrawal from all courses is permitted through the published deadlines found on the University Registrar's website.

Concentration
An area of focus within a major usually encompassing several allied disciplines.

Co-requisite
Course(s) requiring simultaneous enrollment in another course. Example: PHY 13001, a lecture course, is a co-requisite for PHY 13021, a lab course.

Course Add or Drop
Adding or dropping a course from the student's class schedule.

Course Load
Total number of credit hours for which a student is registered during any semester.

Course Withdrawal
Process by which a student removes a course(s) from his/her schedule, subject to the deadlines published on the University Registrar's website. A mark of W will be recorded on the student's transcripts.

Credit-by-Examination (CBE)
Credit earned in selected approved courses by taking a departmental examination to test knowledge already possessed without previous course enrollment. Refer to the University Registrar's website for more information.

Credit Hours
Units based on contact hours in a learning environment that are acquired for completed coursework applied toward a degree or certificate.

Credit/no credit (formerly called Pass/fail)
System by which undergraduate students can take elective courses for a grade of credit (Y) or no credit (Z) in lieu of a letter grade.

Dean
The head of a division, faculty, college or school of a university.

Dean's List
In recognition of academic excellence, a Dean's List is compiled each academic semester. To qualify, students must have a grade point average in the semester of 3.40 or greater and must have completed 12 or more regular letter-graded credit hours by the end of that semester. This notation will be printed on the students' official transcript.

Degree
- **Associate Degree**: Two-year degree of a technical or general nature offered only on the Regional Campuses.
- **Bachelor's Degree**: Academic degree conferred by a university or college.
- **Combined Baccalaureate and Master's Degree Programs**: Programs of study available to students with outstanding undergraduate records or exemplary professional credentials.
- **Master's Degree**: Academic degree conferred by a university for completion of an integrated program of study at the graduate level beyond the bachelor's degree; usually involved one or more years of work and completion of a research project or thesis.
- **Educational Specialist:** Post-master's practitioner program. This is not an interim step between the master's and doctoral degrees, but provides preparation for a specialty position within the field of professional education.
- **Doctoral Degree**: Highest degree conferred by a university following advanced graduate study and research.

Department
Academic unit within a college.

Destination Kent State
A three-part orientation program designed for first-year students to familiarize them with Kent State University, and provide them with the tools necessary to enjoy a successful journey to graduation.

Discipline
Specific area of study; formally organized body of knowledge.

Dismissal
Students who fail to make adequate progress toward completion of a program of study or whose academic performance indicates little chance of obtaining the minimum grades required for graduation is no longer allowed to enroll at the university.

Distance Learning
Any type of interactive education in which students communicate with faculty and other students via e-mail, electronic forums, video conferencing or another form of computer-based communication, rather than through face-to-face interaction.

Diversity Course Requirement
Coursework required of all baccalaureate-seeking students. Typically, students must complete two courses from the list of approved diversity courses, including at least one from the diversity list within the Kent Core.

Double Major
The pursuit of two or more programs of academic study for a single degree within the same college.

Dual Degree
The pursuit of programs of study in two different colleges within the university leading to degrees in both colleges. Students may also pursue two separate degrees within the same college.

Electives or General Electives
Classes pursued in addition to the collegial, departmental, major and other degree requirements.

Experiential Learning Requirement
The purpose of Kent State's experiential learning requirement (ELR) is to provide students with direct engagement in learning experiences that promote academic relevance, meaning, and an understanding of real-world issues. Experiential learning opportunities exist in a variety of course- and non-course-based forms and may include community service, service-learning, undergraduate research, study abroad/away, and culminating experiences such as internships, student teaching, and capstone projects, to name a few.

Faculty Senate
Faculty governing body that is primarily concerned with matters of university educational policies, curriculum, academic and professional standards, and the establishment, discontinuance and major alteration of academic programs. Possesses shared responsibilities and advisory responsibilities. May consider other matters pertaining to the welfare and mission of the university.

Financial Aid
Financial assistance for an eligible student; available in the form of grants, loans, scholarships and federal work-study employment.

FLASHcard
Identification card issued to all registered students. It is used for admittance to athletic, cultural and social events; borrowing of library materials; and purchasing goods and services on the Golden Flash debit plan or the Dining Services board plan.

FLASHcash
FLASHcash is a prepaid purchase plan for students, faculty, staff or anyone who frequently visits Kent State University. It works like a credit card in reverse. Students make an initial deposit to their account and charges are deducted as they make purchases.

FlashLine
FlashLine is the web-based portal (entryway) for Kent State students, faculty, staff and alumni. For help with FlashLine, contact the university Helpdesk at 330-672-HELP or visit the FlashLine information website.

FlashLine User Name
Login user name for most campus resources. Everything before @kent.edu in the e-mail address.

Flexibly Scheduled Courses
Some courses are offered as flexibly scheduled sections, that is, the course does not meet for the full semester. Eligibility for processing registration transactions for these courses (adding, dropping or withdrawing) is determined by the beginning and ending dates of the section. Students can find registration deadlines on their course schedule and in the Schedule of Classes in **FlashLine**.

First-Year Experience Course
Program designed to familiarize new students with the university, their college and university policies and procedures.

Free Application for Federal Student Aid (FAFSA)
Financial information document submitted by an applicant for student financial aid; supplies information concerning income, assets, expenses and liabilities.

Freshman
An undergraduate student who has earned fewer than 30 credit hours.

Full-Time Student
Any undergraduate student enrolled in the university who is carrying a course load of 12 or more credit hours per semester. A full-time graduate student is one registered for 8 or more credit hours per semester.

General Requirements
General requirements address a broad range of matters such as degree requirements, requirements for graduation, residency requirements and academic standing.

GPA (Grade Point Average)
Grade point average is determined by the number of credit hours attempted at Kent State University and the grades received. The GPA is calculated to three places past the decimal point and not rounded.

GPS Degree Audit
The GPS includes a degree audit which is a summary of degree requirements merged with the academic record which provides a real-time assessment of progress toward graduation. The audit is organized in blocks of like requirements. The Degree Audit is the official list of all requirements for graduation.

GPS Individualized Degree Plan
Students create a Degree Plan that begins with the requirements in the Degree Audit, organized in a Roadmap format, but tailored for the student's unique situation. The Degree Plan can be adjusted to fit the student's needs, including shortening the time to graduation, adding summer terms or expanding your program length to accommodate a work schedule or family responsibilities.

Graduate Student Senate
Represents the concerns of the graduate student community of Kent State University and serves as an allocation body by providing funding to graduate students and graduate organizations for speakers, workshops, social events and professional travel.

Graduation Planning System (GPS)
A program that provides students with a roadmap to degree completion which includes a real-time degree audit and an individualized educational plan.

Grant (Financial Aid)
A nonrepayable award to an eligible student based upon determined financial needs and program criteria.

Incomplete (IN mark)
An administrative mark that may be given to students who are unable to complete the last three weeks of a semester because of factors beyond their control.

In Progress (IP mark)
A mark given to indicate that research, individual investigation or similar efforts are in progress and that a final grade will be given when all the work is completed.

Individual Investigation
A method of independent study that, if approved by the appropriate university authorities, allows the student to pursue topics of interest in a flexible time frame.

Individualized Major
Individually designed program of study developed in consultation with the dean of the college and with faculty recommendations. Kent State offers the individualized major within the Associate of Technical Study degree and the Bachelor of Integrative Studies degree.

Intercollegiate
Activities involving two or more colleges or universities.

Interdisciplinary
Course or program of study involving two or more major areas and departments of study.

International Student
A student who is not a citizen of the United States and who has entered the United States on a temporary basis for the purpose of enrolling in an educational institution.

Internship
A work experience in a position related to the academic field of preparation.

Junior
An undergraduate student who has earned between 60-89 credit hours.

Kent Academic Progress System (KAPS)
An automated degree audit system to monitor students' progress toward completion of degree requirements.

Kent Core
The Kent Core is the foundation of the university's mission to prepare students to live in today's complex, global society. It broadens intellectual perspectives, fosters ethical and humanitarian values and prepares students for responsible citizenship and productive careers. Through this learning experience, students develop the intellectual flexibility they need to adapt to an ever-changing world.
Kent Core Coursework

- Composition
- Mathematics and Critical Reasoning
- Humanities and Fine Arts
- Social Sciences
- Basic Sciences
- Additional Courses

Kent State ID Number
A 9-digit number that identifies students, faculty, staff, alumni and others in the Banner system.

Late Registration
Process of initial class enrollment for a given term once the term has begun. A late registration fee is assessed beginning the second week of classes.

Liberal Education Requirements (LER) (Replaced by Kent Core fall 2010)
In five areas to be completed during the first two years of study, the LER are designed to provide a common nucleus and an appropriate breadth of inquiry, understanding and perspective to the Kent State undergraduate education experience. It is essential, therefore, that students consult the Catalog descriptions for their college degree program.

Licensure
Formal "permission" of a professional program according to the standards of an external professional body—for example, the certification of graduates in approved curricula of the College of Education, Health, and Human Services.

Lower Division Courses (10000, 20000)
Are for freshmen, sophomores and others with little or no background in the discipline. Generally, these courses provide the understanding, foundation and preparation for more advanced study (although a pathway for more advanced study is not always required, and they may be ends in themselves).

Major
A subject of focus for academic study in which a student pursues a prescribed curriculum and is a formal degree candidate.

Math Emporium
A state-of-the-art learning center where students will interact with adaptive ALEKS software and a highly skilled instructional team. Students learn through an innovative, engaging and easy-to-use program designed to help them become comfortable and proficient in basic mathematics.

Matriculation
The process of being admitted into a group, especially a college or university.

Minor
Subject of focus for academic study in which a student pursues a prescribed curriculum and is a formal degree candidate.

Noncredit
Courses or programs for which no academic credit is given.

Nonresident
Student who has not established status as a resident of Ohio as defined by Ohio Board of Regents. Refer to the policy in the Policy Register on the Kent State website.

Office of Student Conduct
Responsible for addressing the adjudication of students who are accused of violating campus rules or policies, state laws, federal laws, and/or municipality disputes.

OIG (Financial Aid)
Ohio Instructional Grant; a nonrepayable award made by the Ohio Board of Regents to an eligible undergraduate student who is an Ohio resident. The OIG is applied to the cost of tuition and fees.

Ombuds
Swedish term meaning "representative." Person appointed by the university to assist students in resolving concerns, complaints and grievances through established channels.

Open learning Courses
See Flexibly Scheduled Courses.

part of term courses
See Flexibly Scheduled Courses.

Part-Time Student
Any undergraduate student enrolled in the university who is carrying a course load of fewer than 12 credit hours per semester; a graduate student enrolled in the university who is carrying a course load of fewer than 8 credit hours per semester.

Pell Grant
A nonrepayable financial aid award provided by the federal government directly to an undergraduate student.

Postundergraduate
A student with a baccalaureate degree who is enrolling in additional undergraduate-level classes.

Practicum
A school or college course, especially one in a specialized field, designed to give the students supervised practical experience.

Preprofessional
Preparation for professional training through undergraduate programs of study.

Prerequisite
Course(s) or condition(s) required before enrollment in a more advanced class. Example: FR 13201 is a prerequisite for FR 13202.

President's List
In recognition of an extremely high level of academic excellence, a President's List is compiled each academic semester. To qualify,

undergraduate students must have a grade point average in the semester of 4.00 and must have completed 15 or more credit hours (all of which have regular grades) by the end of that semester. This notation will be printed on the students' official transcripts.

Probation (Academic)
A warning to undergraduate students who fail to maintain a semester and/or overall grade point average of 2.00 or better. Failure to improve the academic record within a specific time may result in academic dismissal.

Program
Plan of academic study.

Provost
Senior vice president of academic affairs; chief academic officer of the university.

Quality Points
The number of points assigned per credit hour for each letter grade.

Registrar's Office
The university office that plans and oversees registration activities, record maintenance, transcript preparation and academic testing.

Registration
Process of initial class enrollment for a given term.

Reinstatement
Process by which a student may gain reentry to the university after a dismissal.

Repeat for Recalculation
Students may repeat lower-division (10000-20000 level) courses, and the university will use only the highest grade in the calculation of the cumulative grade point average. The repeated credit hours will be added back in for the purposes of calculating institutional honors.

Requirement
Course or condition that must be fulfilled as part of a particular program.

Roadmap
A list of course requirements in a semester-by-semester layout that must be met for undergraduate students to graduate with a specific major. Roadmaps also identify courses and other milestones that are critical for students to complete in a particular semester to be on track for timely graduation.

ROTC
Reserve Officers Training Corps—program leading to commission as officer in military service in either the Air Force or Army.

Schedule Adjustment
A change to a class schedule for a student who has already enrolled in at least one course for the term. Deadlines for schedule adjustments are published on the University Registrar's website.

School
Term applied to academic units within a particular college or to a single academic unit offering curricular programs leading to a baccalaureate or advanced degree.

Scholarship
A nonrepayable award to an eligible student based upon academic achievement and determined financial need or, in some cases, based upon academic achievement alone.

Semester
School term (about 16 weeks long) that is one-half of the academic year.

Semester Hour
Each unit of academic credit assigned to a course as the credit value for that course under the semester system is known as the credit hour. Generally, credit hours for a course are directly equivalent to the number of classroom contact hours per week.

Senior
An undergraduate student who has earned 90+ credit hours.

Sequence
Courses that must be taken in a definite order.

Sophomore
An undergraduate student who has earned 30-59 credit hours.

Student Legal Services
A non-profit law firm whose purpose is to explain and assist in resolving legal issues that a student may face.

Syllabus
An outline or a summary of the main points of text, lecture or course of study.

Symposium
A meeting or conference for discussion of topic, especially one in which the participants form an audience and make presentations.

Transcript
The accurate and complete record of a student's academic coursework attempted at an institution, presented in either electronic format or paper format.

Transfer Module
Developed by the Ohio Board of Regents, a specific subset or the entire set of a college or university's general education requirements (Kent Core). A Transfer Module completed at one Ohio college or university will automatically meet the requirements of the Transfer Module at the receiving Ohio institution, once the student is accepted. Students may be required, however, to meet additional general education requirements that are not included in the Transfer Module.

Transfer Student
Any student applying to Kent State University who has attended any institution of higher learning since leaving high school.

Transient Coursework
Coursework approved for Kent State University students who attended another accredited institution.

Transient Student
Any student enrolled in another college or university who will attend Kent State University for one term.

Tuition
A fee for instruction, especially at a formal institution of learning.

Tutor
Person providing special study skills and assistance in a particular subject or academic program.

Undergraduate
A term applied to students who are pursing an associate or bachelor's degree as a freshmen, sophomores, juniors and seniors.

Undergraduate Overload
Enrollment for classes hour in excess of 18 during fall or spring semester, in excess of 6 credit hours during Summer I or III, or 10 credit hours during Summer II.

Undergraduate Student Government
Primary vehicle by which the undergraduate student body provides its input into the university community.

Upper Division Courses (30000, 40000)
Upper-division credit should be awarded for courses that are major related with the specialization, breadth and depth in a particular field. These courses typically have prerequisites because it is understood that it is advanced study, and students need the proper knowledge before taking the course.

Withdraw
See Course Withdrawal

Workshop
A credit or noncredit activity that focuses on a participant's professional tasks. Instructional emphasis is given to mastery and applications of knowledge, skills and attitudes that address a narrowly defined range of problems or issues related to practice. All credit workshops are graded satisfactory/unsatisfactory (S/U).

Work-Study (Financial Aid)
An employment program based upon determined financial need. An eligible student may be employed on campus for not more than an average of 20 credit hours per week to earn money to help pay for educational costs.

Writing-Intensive Course Requirement
A graduation requirement for all undergraduate students requiring completion of at least one upper-division course designed as "writing–intensive" with a grade of C (2.000) or better.

INDEX

Individualized Program - A.T.S 1108
Industrial Engineering Technology - B.S. 1037
Industry-Recognized Certifications, Examinations and Professional Training 2395
Information Technology - A.A.B. 1109
Information Technology - B.S.I.T. 1112
Information Technology (IT) 503
Innovation - Minor 1040
Institutional Research and Assessment - Graduate Certificate 1864
Insurance Studies - B.A.S. 1116
Insurance Studies - B.S. 1119
Insurance Studies - Minor 1122
Insurance Studies (INS) 509
Integrated Health Studies - B.S. 1928
Integrated Health Studies (IHS) 510
Integrated Language Arts - B.S.E. 2112
Integrated Language Arts Additional Licensure Preparation - Non-Degree 2120
Integrated Mathematics - B.S.E. 2121
Integrated Mathematics Additional Licensure Preparation - Non-Degree 2127
Integrated Science - B.S.E. 2129
Integrated Science Additional Licensure Preparation - Non-Degree 2140
Integrated Social Studies - B.S.E. 2142
Integrated Social Studies Additional Licensure Preparation - Non-Degree 2156
Integrative Studies - B.I.S. 1719
Integrative Studies (IGST) 510
Interior Design - B.A. 1203
Interior Design (ID) 511
International Baccalaureate (IB) 2395
International Business - Graduate Certificate 970
International Business for Business Majors - Minor 971
International Business for Non-Business Majors - Minor 972
International Family Science - Minor 2010
International Studies - B.A. 1720
International Studies (INTS) 514
Internationalization of Higher Education - Graduate Certificate 1865
Interprofessional Leadership - Ed.D. 1867
Italian - Minor 1588
Italian (ITAL) 515
Italian Studies - Minor 1589

J

Japanese - Minor 1590
Japanese (JAPN) 517
Japanese Translation - Graduate Minor 1591
Jazz Studies - Minor 1261
Jewelry, Metals and Enameling - Minor 1227
Jewish Studies - Minor 1724
Jewish Studies (JWST) 519
Journalism - B.S. 1796
Journalism - Minor 1799
Journalism Education - Graduate Certificate 1800
Journalism Education - M.A. 1801

K

Kent Blossom Music (KBM) 520
Kent Blossom Theatre (KBT) 521
Kent Core 886

Kent Core (General Education Requirement) 899
Knowledge Management - Graduate Certificate 1773
Knowledge Management - M.S. 1774
Knowledge Management (KM) 522

L

Landscape Architecture - M.L.A. I 1206
Landscape Architecture - M.L.A. II 1208
Landscape Architecture (LARC) 525
Language Requirement for Graduate Students 2395
Latin - M.A. 1592
Latin - Minor 1594
Latin American Studies - Minor 1725
Latin (LAT) 527
Leadership - Minor 973
Leadership and Management - Graduate Certificate 973
Leading Through Challenge - Graduate Certificate 975
Learning Science - M.A. 2011
Learning Science - Ph.D. 2012
Learning Science (LRNS) 529
Leave of Absence for Graduate Students 2395
Lesbian, Gay, Bisexual, Transgender and Queer Studies - Minor 1725
Lesbian, Gay, Bisexual, Transgender and Queer Studies (LGBT) 530
LGBTQ+ Public Health - Graduate Certificate 2321
Liberal Studies - L.S.M. 1726
Liberal Studies (LSTU) 531
Library and Information Science - M.L.I.S. 1776
Library and Information Science (LIS) 531
Life Science - B.S.E. 2157
Life Science/Chemistry - B.S.E. 2165
Long-Term Care Administration - B.S. 2014
Long-Term Care Administration (LTCA) 541

M

Magnetic Resonance Imaging - Undergraduate Certificate 1122
Mammography - Undergraduate Certificate 1124
Management for Business Majors - Minor 975
Management for Non-Business Majors - Minor 976
Management (MGMT) 542
Marketing - B.B.A. 984
Marketing - Minor 988
Marketing (MKTG) 546
Materials Science - M.S. 1694
Materials Science - Ph.D. 1696
Materials Science (MTSC) 549
Mathematics - B.A. 1547
Mathematics - B.S. 1550
Mathematics - Minor 1554
Mathematics for Secondary School Teachers - M.A. 1555
Mathematics (MATH) 555
Mathematics Placement 2396
Mechanical Engineering and Related Technology (MERT) 573
Mechanical Engineering Technology - A.A.S. 1125
Mechanical Engineering Technology - B.S. 1041
Mechatronics Engineering - B.S. 1044
Mechatronics Engineering - M.S. 1048
Mechatronics Engineering - Ph.D. 1050
Mechatronics Engineering Technology - B.S. 1051
Media Advocacy - Minor 1749
Media and Journalism (MDJ) 574
Medical Anthropology - Minor 1345
Medical Assisting - Undergraduate Certificate 1127
Medical Assisting (MA) 587
Medical Billing - Undergraduate Certificate 1129
Medical Laboratory Science - B.S. 1380
Medical Librarianship - Graduate Certificate 1779
Microbiology - Minor 1384
Middle Childhood Education - B.S.E. 2183
Middle Childhood Education (4-9) Language Arts/Reading and Mathematics Initial Licensure Preparation - Non-Degree 2172
Middle Childhood Education (4-9) Language Arts/Reading and Science Initial Licensure Preparation - Non-Degree 2174
