## Examples of Possible Careers and Salaries\*

### Respiratory therapists

- 19.4% much faster than the average
- 135,800 number of jobs
- \$62,810 potential earnings

## Accreditation

The Kent State University Respiratory Therapy programs, CoARC program number 200574 and 300037 Associate of Applied Science degree at Ashtabula and Cleveland Clinic, are accredited by the Commission on Accreditation for Respiratory Care ([www.coarc.com](http://www.coarc.com)).

\* Source of occupation titles and labor data comes from the U.S. Bureau of Labor Statistics'

Occupational Outlook Handbook. Data comprises projected percent change in employment over the next 10 years; nation-wide employment numbers; and the yearly median wage at which half of the workers in the occupation earned more than that amount and half earned less.

## Admission Requirements

The Respiratory Therapy major is cohort-based, with students admitted in the spring semester only. Spring admission is limited to 20 students at the Ashtabula Campus and 10 students at the Cleveland Clinic location.

The university affirmatively strives to provide educational opportunities and access to students with varied backgrounds, those with special

talents and adult students who graduated from high school three or more years ago.

Kent State campuses at Ashtabula, East Liverpool, Geauga, Salem, Stark, Trumbull and Tuscarawas, and the Twinsburg Academic Center, have open enrollment admission for students who hold a high school diploma, GED or equivalent.

Some programs may require that students meet certain requirements before progressing through the program. For programs with progression requirements, the information is shown on the Coursework tab.

For more information on admissions, contact the Regional Campuses admissions offices.

## Program Learning Outcomes

Graduates of this program will be able to:

1. Describe, apply and analyze respiratory care principles, current theories and practices required of registered respiratory therapists as defined by the National Board for Respiratory Care (NBRC).
2. Exhibit competence in performing technical skills and procedures utilized in current practice by registered respiratory therapists.

3. Model personal professional ethics and behaviors expected of registered respiratory therapists in practice to obtain and maintain a positive impact in patient care and inter-staff relations.

## Full Description

The Associate of Applied Science degree in Respiratory Therapy provides students the skills to evaluate, treat and care for patients with breathing or other cardiopulmonary disorders. Practicing under the direction of a physician, respiratory therapists assume primary responsibility for all respiratory care therapeutic treatments and diagnostic procedures. Respiratory Therapists also provide complex therapy requiring considerable independent judgment, such as caring for patients on life support in intensive-care units of hospitals.

Graduates of the program are eligible to take national credentialing examinations administered by the National Board for Respiratory Care to become Certified and Registered Respiratory Therapists (CRT, RRT), Certified and Registered Pulmonary Function Technologists (CPFT, RPFT) and Neonatal Pediatric Specialist (NPS).

## Professional Licensure Disclosure

This program is designed to prepare students to sit for applicable licensure or certification in Ohio. If you plan to pursue licensure or certification in a state other than Ohio, please review state educational requirements for licensure or certification and contact information for state licensing boards at Kent State's website for professional licensure disclosure.
